Dear Madam,

I have pleasure to submit my internship report to you on “Customer Service Analysis of the Southeast Bank Limited, Banani Branch”. I give effort of my best to follow your guidelines for this report and also to gather all necessary information to the concerned parts of the report to enrich it. I have also tried to apply relevant concepts that I have learnt during the entire BBA program and my internship period at the Southeast Bank Limited. I am earnestly thankful to you for your guidance during the preparation of this term paper. I hope you will appreciate my collective effort put forth hereby.

Sincerely yours,

Yours Sincerely

Sheikh Abd-Al Rumman

Acknowledgements

The successful accomplishment of this project work is the outcome of the contribution of number of people, especially those who have given the time and effort to share their thoughts and suggestions to improve the report. At the beginning, I would like to pay my humble gratitude to the Almighty for giving me the ability to work hard under pressure. However, the space involved does not allow us to mention everybody individually. It gives me immense pressure to thank a large number of individuals for their cordial cooperation and encouragement who have contributed directly or indirectly in preparing this project.

This is a great pleasure for me to be assigned under the guidance of Ms. Afsana Akhtar, Assistant Professor of BBS Department of BRAC University. I am very grateful to my teacher for all her kind cooperation and guidance in preparing this project paper. Her professional and practical experience enriched me to a great extent at the time of preparing this study.

Then, I would like to express my gratefulness to Mrs. Farhana Khan, Assistant Vice President of Southeast Bank Limited, Banani Branch. I convey my gratefulness to General Banking Department –Md. Rafiqul Hasan (Senior Officer), Southeast Bank Limited, Banani Branch. He also helped me so much to gather information of customer service related issue.

Finally, I would like to thank all those people who have shared their views about my work, provided me with necessary information, criticized me and congratulated me. This acknowledgment is not enough to tell them how reflective the impact of their opinion is on this report.

This report is not free from limitations. There might still be some minor mistakes such as typing errors despite my utmost care. I apologize for this.
Executive Summary:
A bank is a financial institution that brings together depositors and borrowers for giving/receiving surplus and deficit funds respectively. The objective of a bank is to make a profit while acting as a middle man between the above mentioned parties. Most of the bank now concentrates of marketing feasibility to earn and generate opportunity to hold existing to keep loyal customers, in the business proverbs it is told that loyal customers increase the forthcoming gainful revenue. In this report I am trying to focus about services offered by SEBL, customers’ perception about the level of customer service provided and its implementation possibility for Southeast Bank Limited Banani branch to overcome the all kinds of customer objections for the service failure and weakness.

First part of this report is based on the introduction which includes topics like origin, objective, background, methodology, limitation of the study. Basically it defines the way and background of the study to prepare the report. In the next part of the report highlights a brief background of Southeast Bank Limited, with their mission, vision, objective and also providing a brief summary of all retail product and service offered by the Southeast Bank Limited.

Next part is basically about the tasks done by me during the internship. A questionnaire was used to collect data from the local clients, regarding service and solutions that are offered by the institution to its customers. Data from surveys and interviews of the Bank’s customers have been used to investigate clients’ views regarding the quality and standard of the services; to identify the gaps between the services that clients want and to suggest ways of improving the services. These data were analyzed using different statistical software’s like SPSS and MS-Excel.

This report is also consists of all the findings of the report provided with some recommendation in order to improve customer service quality as well as customer satisfaction level based on the observation and work experience during internship period.

1. INTRODUCTION:
Bank is a financial organization which plays a vital contribution to develop, monitor, and control any country’s economy as a financial intermediary. Previously, in financial business sector there wasn’t that much competition to do banking business. However, now-a-days the tradition of banking business has been changed a lot. Additionally, due to globalization the competition of banking business increases severely worldwide as well as in Bangladesh. According to type of financial activities banks are divided into mainly into four categories and those are nationalized banks, Local Private Commercial bank, specialized financial institution and foreign bank. At present, in Bangladeshi banking system there are four state-owned commercial banks, five specialized banks, thirty eight private commercial banks, one land development bank and nine foreign commercial banks. Though, the competition in financial sector with bank to bank is increasing day to day, still domestic banks are lagging behind on many fronts compared with foreign commercial banks with wide range of capitalization, strong network, modern technology, updated managerial expertise, experience, etc. As, Modern business has come up with the concept with customer service with best quality so, this concept became an influential and vital key to get success in business. Now-a-days banks are also focusing on not only better product and promotion but also best customer service to create loyal customer.

1.1 Origin of the report:
This internship report on Southeast Bank Limited (Banani Branch) is prepared to fulfill the partial requirement of the internship program as full credit subject of the BBA program of the university. The overall working of this report is based on customer service of SEBL (Banani branch) and the overall view of the responsibility as an intern in three month long internship program at this bank. My organizational supervisor is Mrs. Farhana Khan Sr. Asstt. Vice President and during the whole internship period she supervise me. Moreover, others of different department are also co-operate me and without their help completion of this report won’t have been possible.

1.2 Objective of the report:

- Primary Objective:
To present an overview of Southeast Bank Limited.
To analyze the different types of banking activities in the branch level.
To present about the customer service analysis of bank.
To provide some recommendations to improve service quality in the Banani branch based on my understanding about the service and work procedures.

**Secondary Objective:**

- To have a practical relation & reliability of the topics we have achieved from textual background in our educational life.
- To develop understanding of customer service process and standard in banking sector.
- To know the operation of commercial banks in Bangladesh.
- To know how the branches are efficiently controlled.
- To identify whether all process are perfectly and effectively practiced or not.
- To make an opinion on the report.

### 1.3 Scope of the Study:

The scope of this report is to analysis the customer service along with overall activities of the branch.

### 1.4 Research Methodology:

To manage proper data for the report it is necessary to identify the way of collecting data by research. In this report as a research methodology descriptive research is used and the reason behind is by the help of descriptive research the report could be more informational and can describe solely on customer service of SEBL. Moreover, to perform this research I had to perform a survey upon customers of SEBL with some service related questionnaire.

### 1.5 Sources of data collection:

This overall information/data are collected from two sources:

#### a. Primary sources:

1. Discussion with bank officer.
2. Personal observation.
3. Desk work in different section/departments.

b. **Secondary sources:**
   1. Annual report of the bank.
   2. Related books and publications
   4. Statements.
   5. Archive files.

1.6 **Limitation of the report:**

To make a report on customer service analysis of the very renowned bank Southeast Bank Limited is not so easy. To prepare this report there are I have to face some limitation some of them are:

1. Difficulty in gaining accesses to financial related information
2. Original data could not be collected in some cases because of the BAL strict adherence to the principle of confidentiality
3. Lake of experience.
4. Compare to the field of information the time is short to collect overall data as I have time to know about the organization by only 3 month internship program.
2. ORGANIZATIONAL PROFILE

2.1 Overview of SEBL:

Southeast Bank Limited is one of the private commercial bank in Bangladesh. This bank started its successful journey on March 12, 1995 as a Public Limited Company. This bank received its banking license from Bangladesh Bank on March 23, 1995. 2.6 Branch (Banani) profile:

The branch has started its operation from May 10, 2003. Due to the proficient management of the bank and overall support of the employees of the branch, it has improved their outcome in terms of quality service, profitability of business operation and gaining good-will within very short period. As a new branch Southeast Bank Limited, Banani branch has attracted attention of many customers, corporate, academic institutions which are situated near the branch. To name a few, here the significant and valued clients are given below:

   o Prime Sweaters
   o BD Knit
   o Pole Star Fashion Limited
   o L’usine Fashion Ltd
   o New Line Clothings Ltd
   o Designer Jeans Ltd
   o Southeast Sweater Ltd
   o Irish Fashion
   o American International University-Bangladesh (AIUB)

2.7 Activities of SEBL Banani branch:

1. General banking & Deposit Management:
In SEBL Banani branch general banking & deposit management activities include following operations:

a. Account opening and KYC procedures.
   - To interact with bank and build relationship customer should open bank accounts. So, general banking activities helps customers to open bank different type of account in terms of the need to customers with required documents according to type of accounts. Moreover, to maintain database of customers GB (General Banking) section also need to collect information for KYC (Know Your Customer) form.

b. Interbank transaction
   - Interbank transaction is when one bank takes loans from other bank to keep a good liquidity level in asset. So, general banking also does this kind of activity.

c. Clearing section
   - In terms of banking and finance activity, clearing means all activities from the time a commitment is made for a transaction until it is settled. So, it is also ensured by general banking that clearing of payment is turn into real transaction of money from one bank to another.

2. Credit activities:
Credit activities for a bank are one of the ways of gaining profit. The amount of company or individual’s bank credit depends on both the borrower’s ability to repay and overall amount of credit available in banking system. So, in the Banani branch of SEBL following activities are done:

a. Credit proposals processing procedures
   - Before providing demanded credit by individual or company bank justify the proposals and process the procedures

b. Documentation and Loan Disbursement procedures
   - Take proper documentation for future needs and safety of credit. After documentation process loan disbursement proceeds to customers.

c. Overview on all returns
- Take proper Surveillance on Debtor for future action to secure the return of credit

3. Western union money transfer.

   - The money transfer process via Western Union is completed by 3 step process:

     1. The sender will receive money receipt with Money Transfer Control Number (MTCN) from any of the Western Union agent location outside Bangladesh after depositing money.

     2. The sender will inform the money transfer detail (amount of money sent, sender’s name, receiver’s name, destination country, and MTCN) to the receiver.

     3. The receiver will receive the money from any of the 66 Branches of Southeast Bank Limited by showing a valid Identification and filling a form.
3. INTERNSHIP PART:

3.1 Activities:
During my internship period I had the opportunity to know different kind of activates of SEBL Banani branch and among those activates there are major 3 tasks I learned mostly:

- **General Banking activities**
  Financial institution/ intermediary that stand between ultimate borrowers and ultimate lenders are known as banking financial institution. Banks perform this function in two ways like they take deposits from various areas in different forms and lend that accumulated amount of money to the potential investors in other different forms. General banking is the starting point of all the banking operating. General Banking department aids in taking deposits and simultaneously provides some supporting services. It provides those customers who come frequently and those customers who come one time in banking for enjoying supporting services. This is the department which always performs day-to-day services to the customers. Its day to day work is receiving deposits from the customers and meets their demand for cash by honoring cheques. This departments other regular activities are opening new accounts, demitting funds, issuing bank drafts and paying orders etc.

  *Task performed:* During the internship period at the beginning I was assigned in General banking department. On that department I specifically performed following tasks:

  - Updating record book of clearing, FDR
  - Updating customers account from bank end
  - Find incomplete/error documents of customer account
  - Inputting necessary data and retrieving information from internal software database.
  - Administrative activities like drafting letters or any other papers.

- **Accounts section activities:**
  In accounts section I have to do some helping activities like:

  - Auditing transaction
  - Data input on their register to keep up-to-date record
  - Find errors on previously audited transaction
**LC activities:**

After working with Accounts department for few days I was assigned to credit department. Mostly I worked in LC section of Credit department. There are some responsibilities which I need to perform on that section and those are:

- Finding any missing information of their clients form
- Posting client information to bank internal bank database named “Ultimus”
- Posting client information to Bangladesh bank website

### 3.2 Observation of job part:

According to my observation about the Southeast Bank Limited (Banani branch) is as this branch is situated in the one of the most demanding area Banani, so in terms of customer pressure is higher than the agents available to provide service. Though each agents tried to provide service to their customers. As I worked three departments one by one so I learned different way to behave with different customers. Therefore, I found out that the expectation of service level of different class customers from different department is variable. While, I was working at SEBL as an intern then from the beginning to end of my internship each stuffs helps me a lot to work smoothly my responsibilities. However, as the workplace is banking sector so due to privacy and accuracy issue I couldn’t learn some internal issue or fact.

### 3.3 Recommendation of job part:

According to my observation of my job part there are a few recommendations

- Need to assign on those task relevant to Intern’s major study as in the beginning I was assigned to work with accounts department though have major study on Marketing.
- Should recruit some more people to adjust the pressure and also to provide more quick service of customer service
- Should establish proper queue system to manage service properly.
4. PROJECT PART:

4.1 Introduction:

The success of any product is largely dependent on customer’s satisfaction and acceptance. Offering and selling a product or a service is just the way of beginning of a relationship between bank and customer which is to be built and maintained over the year. According to the needs of project I need to survey on customer to find out service experience of SEBL. Customer survey results are helpful to find the information regards the effectiveness of service which is provided by SEBL. Here in the part I have shown demand of customer satisfaction is related with its customers’ financial position and demand (by their occupation) and are they satisfied with SEBL or not.

4.2 Background:

I have contacted to the respondent individually with a questionnaire. Then I gave them close-ended questions. Most of the person gave answer of my entire question. Some didn’t due to their busyness and lacking of knowledge about service. After all, I can manage to get 30 survey responses to do analysis on customer service.

4.3 Limitations on survey:

Though I got some responses from customer, there are some limitations which makes hinder to make good survey responses. Some of those are:

1. Need to survey within very short time
2. Customers lack of willingness to response
3. Busyness of customers
4. Place wasn’t friendly enough to take proper survey
5. Not providing proper information asked

4.4 Data Analysis Process:

To analyze the data I used survey SPSS and Microsoft Excel. The first task in analysis was to input data into the statistical software and interpret those using graphical presentation of the
findings. Mean, Frequency and percentage method were applying using SPSS software to get result of the findings.

4.5 Analysis of data:

- **Customer type frequency analysis**
  
  1. Frequency of Gender:

<table>
<thead>
<tr>
<th></th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Male</td>
<td>22</td>
<td>73.3</td>
<td>73.3</td>
</tr>
<tr>
<td>Female</td>
<td>8</td>
<td>26.7</td>
<td>100.0</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
<td></td>
</tr>
</tbody>
</table>

I have done 30 samples from Banani branch of SEBL. According to the graph it shows that out of 30 customers 22 are male and 8 are female. So, from total of my respondents 73.3% are male and only 26.7% are female. Following results are showing in bar chart below.
2. Frequency of Age:

<table>
<thead>
<tr>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>25 or less</td>
<td>6</td>
<td>20.0</td>
</tr>
<tr>
<td>26-40</td>
<td>13</td>
<td>43.3</td>
</tr>
<tr>
<td>41-55</td>
<td>10</td>
<td>33.3</td>
</tr>
<tr>
<td>56-70</td>
<td>1</td>
<td>3.3</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
</tr>
</tbody>
</table>

According to the frequency of age table it is found that most of the customers are in between 26-40 years old and 13 out of 30 (43%) customers are in this age group. Then, second largest age group is 41-55 years old customers and 10 out of 30 (33%) customers are in this group. Next large group is 25 or less years old and 6 out of 30 (20%) customers are in this age group. The last group is 56-70 years old customers and I got only 1 customer out of 30 (3.3%) in this survey. So, justifying overall age group analysis it can be said that the 26-40 years old customers are the young people with mature age and the product & service could be more attractable to this group.
3. Frequency of respondent’s occupation

<table>
<thead>
<tr>
<th></th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student</td>
<td>4</td>
<td>13.3</td>
<td>13.3</td>
</tr>
<tr>
<td>Service holder</td>
<td>12</td>
<td>40.0</td>
<td>53.3</td>
</tr>
<tr>
<td>Business</td>
<td>12</td>
<td>40.0</td>
<td>93.3</td>
</tr>
<tr>
<td>Unemployed</td>
<td>2</td>
<td>6.7</td>
<td>100.0</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
<td></td>
</tr>
</tbody>
</table>

According to the analysis chart the number of both service holder customer and business customer are same. 12 out of 30 (40%) customers are service holder and 12 out of 30 (40%) customers are businessman in this survey. Then, 4 out of 30 (13%) customers are students and 2 out of 30 (6.7%) customers are unemployed. So, the fact is as service holders and business people earn more than the other two groups. Moreover, they have more tendencies to save money and deal with parties via bank.
4. Frequency of Income level

<table>
<thead>
<tr>
<th>Income Level</th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>LESS-20,000</td>
<td>3</td>
<td>10.0</td>
<td>10.0</td>
</tr>
<tr>
<td>21,000-50,000</td>
<td>13</td>
<td>43.3</td>
<td>53.3</td>
</tr>
<tr>
<td>51,000-80,000</td>
<td>10</td>
<td>33.3</td>
<td>86.7</td>
</tr>
<tr>
<td>81,000-100,000</td>
<td>4</td>
<td>13.3</td>
<td>100.0</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
<td></td>
</tr>
</tbody>
</table>

Most of the customer’s income level is between at group of 21000-50000 and 13 out of 30 (43.3%) customers are in between this group. 10 out of 30 (33.3%) customers are in between at group of 51000-80000 and according to the previous frequency these groups of customers are business man. Then, 4 out of 30 (13.3%) customers are in between 81000-100000 income level. Lastly, only 3 out of 30 (10%) customers are in between group at 20000 or less income level due to most of them of this level are student and most of them don’t have any permanent income sources.
5. Frequency of Educational Level

<table>
<thead>
<tr>
<th>Educational Level</th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Below graduation</td>
<td>5</td>
<td>16.7%</td>
<td>16.7%</td>
</tr>
<tr>
<td>Graduate</td>
<td>4</td>
<td>13.3%</td>
<td>30.0%</td>
</tr>
<tr>
<td>Post Graduate</td>
<td>21</td>
<td>70.0%</td>
<td>100.0%</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0%</td>
<td></td>
</tr>
</tbody>
</table>

Most of the customers are in post graduated. Here, 21 out of 30 (70%) customers are post graduated. Then, 5 out of 30 (16.7%) customers are below graduated and 4 out of 30 (13.3%) customers are Graduate.
6. Frequency related with fast response

While answering the question regarding responsiveness of customer service officer most of the respondents are expressing their satisfaction. Altogether 21 out of 30 (70%) customers are strongly agreed and 9 out of 30 (30%) customers are agreed with this statement that customer service officers of SEBL are working fast enough to response any customer’s request. There is no disagreeing found by this survey.
7. Frequency of effectiveness of token system

<table>
<thead>
<tr>
<th></th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agree</td>
<td>4</td>
<td>13.3</td>
<td>13.3</td>
</tr>
<tr>
<td>Neutral</td>
<td>3</td>
<td>26.7</td>
<td>40.0</td>
</tr>
<tr>
<td>Disagree</td>
<td>17</td>
<td>56.7</td>
<td>96.7</td>
</tr>
<tr>
<td>Strongly Disagree</td>
<td>1</td>
<td>3.3</td>
<td>100.0</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
<td></td>
</tr>
</tbody>
</table>

According to the SPSS analysis of token system effectiveness is found negative result. Most of the respondents are dissatisfied about token system. 17 out of 30 (56.7%) customers express their dissatisfaction regarding token system. According to some of them token system sometime doesn’t work and when this problem found customer get their service by manual queue and to maintain that sometimes hassle occurs.
8. Frequency of customers response for willingness of CS officer to help

<table>
<thead>
<tr>
<th></th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strongly Agree</td>
<td>21</td>
<td>70.0</td>
<td>70.0</td>
</tr>
<tr>
<td>Agree</td>
<td>9</td>
<td>30.0</td>
<td>100.0</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
<td></td>
</tr>
</tbody>
</table>

Altogether 21 out of 30 (70%) customers have strongly agreed and 9 out of 30 (30%) agreed with this statement that customer service officers of SEBL are very helpful.
9. Frequency of responses of customers about the ability to fulfill specific needs by CS officer

<table>
<thead>
<tr>
<th></th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strongly Agree</td>
<td>18</td>
<td>60.0</td>
<td>60.0</td>
</tr>
<tr>
<td>Agree</td>
<td>9</td>
<td>30.0</td>
<td>90.0</td>
</tr>
<tr>
<td>Neutral</td>
<td>3</td>
<td>10.0</td>
<td>100.0</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
<td></td>
</tr>
</tbody>
</table>

According to the analysis 18 out of 30 (60%) customers strongly agreed and 9 out of 30 customers agreed that customer service officer can able to fulfill customers’ specific needs. However, only 3 out of 30 (10%) customers stats neutral response due to sometimes they can’t get this facility not every time but they are not dissatisfied about this.
10. Frequency of knowledge of product of CS officer

<table>
<thead>
<tr>
<th></th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strongly Agree</td>
<td>17</td>
<td>56.7</td>
<td>56.7</td>
</tr>
<tr>
<td>Agree</td>
<td>13</td>
<td>43.3</td>
<td>100.0</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
<td>100.0</td>
<td></td>
</tr>
</tbody>
</table>

According this analysis 17 out of 30 (56.7%) customers are strongly agreed and 13 out of 30 (43.3%) customers are agreed that CS officers are knowledgeable about every product and services of SEBL.
11. Frequency of response about maintaining error-free record

<table>
<thead>
<tr>
<th></th>
<th>Frequency</th>
<th>Percent</th>
<th>Cumulative Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Strongly Agree</td>
<td>10</td>
<td>33.3%</td>
<td>33.3</td>
</tr>
<tr>
<td>Agree</td>
<td>14</td>
<td>46.7%</td>
<td>80.0</td>
</tr>
<tr>
<td>Neutral</td>

Most of the respondents are doing transaction from long years due to SEBL trustworthiness banking. 7 out of 30 (23.3%) customers doing banking with SEBL from more than 3 years. 12 out of 30 (40%) customers doing banking with SEBL from 2 years or less and 11 out of 30 (36.7%) customers doing banking with SEBL from 1 years or less.
16. Frequency regarding type of association with SEBL

According to the analysis most of the respondents are associated by having an account on SEBL. 18 out of 30 (60%) customers are associated by having account. 7 out of 30 (23.3%) customers are associated by having deposit. 2 out of 30 (6.7%) customers are associated by loans advances. 3 out of 30 (10%) customers are associated by remittance collection.
5. Findings from the study & recommendation:

SEBL is an organization which is operating their business successfully in the banking sector since 1995. Therefore, it is very tough to recommend on any aspect of the company. However, as it is the requirement of the report, I have come up with few recommendations, after conducting the research.

5.1 Problems found in SEBL Banani Branch:

1. The file maintenance system of SEBL is not that much organized. While I am doing internship at SEBL Banani branch I found scattered file keeping system. When, a file needs for any information form archive store it wasn’t so easy to find a record.
2. Employee shortage is also another problem of this branch. According to the work pressure numbers of employees are enough. For example, in the Banani branch there are cash counter for transaction but assigned employees for this counter are only two. So, during the time to heavy customer queue, these two employees need to work hard to give service.
3. In this branch there are 3 counter of customer service desk and to take service there always occurs gathering in front of CS officer. Token box for maintaining queue sometime available when the machine is ok. Most of the time this machine found not working.
4. It is also found lack of knowledge about functions of excel, word, software of computers whereas they spend whole day to do some entry work manual way.
5. The software used by employees of SEBL named “Ultimus” is also having a serious problem that is it is not fast enough to give fast service. Another problem is it crash frequently though the software has several gateway to keep running operation but it hampers smooth service.

5.2 Recommendations:

According to my survey work there are some recommendations to develop customer service of SEBL Banani branch. Those are_
1. Take a survey to customers why participation of woman in banking transaction is low. Try to develop some steps to attract woman customers to encourage banking transaction participation.
2. Take a proper maintenance of token machine because it helps people to take service according to the queue. It will also help to reduce gathering from front desk.
3. Some customers still confused or feel negative about service alert. As we know that a negative customer could be harmful to an organization if the customer uses negative words of mouth to express his/her dissatisfaction. Bank should look after this issue.
4. Some customers found confused about the error-free record maintenance. Probably they are not clear about their transactions or they might found some errors in their transaction record. Feeling confusion about service is very dangerous for building confidence on customers. If confidence is decreasing then they will reduce transaction with bank and will try to switch other bank. Bank should ensure error free record keeping of transactions of customers.

According to my internship work experience I got some problems also and for those problems there are also some recommendations. Those are_

1. Suggested to recruit some employees to reduce the extra work pressure from every employees of SEBL Banani branch. This will also help to increase both speed and perfection of work.
2. Update the major software “Ultimus” adding with present requirements so that employees can work faster and smoother.
3. Maintain modern file keeping system like according to account number or according to account name, etc
4. Manage a training season on advance Microsoft office to make proper use of computer work.
6. Conclusion:
As an organization Southeast Bank Limited has earned the reputation of top banking operation in Bangladesh. From the starting 1995 to till this bank is growing fast. The structure of the organization is getting stronger and stronger day by day. Since the banking service especially the private banks are doing great performance in their business. Moreover, the modern people are more concern about securing their valuable assets and get high-quality and timely service. Therefore, to provide promising service lots of new commercial bank has been established in last few years and these banks have made this banking sector very competitive. So, now-a-days banks tried to arrange their operation and do their operations in terms of the need of the market demand.

To exist in the market customer satisfaction is one of the very influential factors. To satisfy customers it is necessary to develop product as per customer as well as market demand. Though it is tough to gain 100% satisfaction from customers and there is not exact definitions of satisfaction so bank should focus on maximize the level of satisfaction of its customers. Southeast Bank Limited Banani Branch started its journey few years ago and within this time period they gain good trust from its customers as per the survey. Though there is some lacking still there, bank should work on it to minimize this problem.
7. Bibliography:

3. Book reference:
8. APPENDIX:

Questionnaire:

Please read the questions carefully and just put a tick (√) and kindly give your judgments where necessary.

→ Gender: a) Male b) Female

→ Age Group: □ 25 or less □ 26 – 40 □ 41 – 55 □ 56-70 □ 71 or above

→ Occupation: □ Student □ Service Holder □ Business □ Unemployed □ Retired person

→ Income Level (Monthly income in BDT):

□ LESS-20,000 □ 21,000-50,000 □ 51,000-80,000 □ 81,000-100,000 □ 100,000- ABOVE

→ Education Level:

□ Below graduation □ Graduate □ Post Graduate □ Ph.D.

QUESTIONNAIRE:
1. Employees of BRAC Bank are never too busy to respond to your request?

□ Strongly Agree □ Agree □ Neutral □ Disagree □ Strongly Disagree

2. Token system is effective for customers to take services comfortably?

□ Strongly Agree □ Agree □ Neutral □ Disagree □ Strongly Disagree
