**Core Responsibilities**

At first, Intern's fundamental risk is to deal with the purchasers of relegated Brands through carefully, as on face book. We normally do not play out the majority of the obligations to customer benefit division. Mainly I have handled three different brands, “ThyrocareBangladesh”, “Kazi&Kazi Tea”, and “Jarwa House”.

---

**Responsibilities of the Job**

**Writing copies**

As an intern of digital agency, first thing I had to learn about a content which is representing by appropriate copies. Copies are two types. They are: i) Post Copy and ii) Creative Copy.

**Post copy**

Those related engraving which will offer it to make grasp the customer what we have to tell them through the post. Post copy ought to be short yet greatly to the point. Not more than two/three lines.
Creative copy
Those related copies which will offer it to make comprehend the audience what we need to let them know through the post. The divergence among post and inventive duplicates is post duplicate is given like photo caption and imaginative duplicate is given on the photo. Inventive Copies ought to be short yet uncommonly to the point. Not more than one/two lines.

Doing ideation
I needed to prescribe doable response for the new up and coming structures and propose differing exceptional contemplations that may encourage their arrangements. Those thoughts convert into inventive post which guarantees the anticipated client commitment

Brief to creative
We expect make to make inventive for our each approaching post. The photos we have seen in different pages for different purposes those are called inventive. We have ingenious gatherings for impacting innovative anyway we have to make them what is figured what will picture what should be establishment and should be the fitting content style etc.

PowerPoint presentation
I had to make power point presentation for every ideation where we need to speak to the thoughts. What is the thought is about, what should the thought, what will be somewhat the post and class, and with a precedent picture to envision the imaginative.

Meeting Minutes
At the point when a meeting occurs, I need to record every one of the occasions arranging, dialogs, imperative focuses, inventive thoughts and executing designs. After the meeting, my obligation was to email those key focuses to people who went to the meeting.

Making report
We need to do the month to month report for each customer. It was one of my duties to break down every one of the information, gather all the data and makes the report legitimately. My boss confirms the report and gave information appropriately before sending it to the customers.
Taking feedback
Taking feedback from the customer and senior partners are likewise an obligation of mine. When we set up an inventive, we take some criticism from them to comprehend the adequacy of that content. Now and then they recommend changes which help to set up the substance all the more captivating.

Client Servicing
I needed to do the client servicing as well. I needed to answer the messages from the clients and offered answer to the each remark of clients did on the post. I discovered some vital knowledge from each one of those inquiries which I can relate in future research exercises and comprehend comparative sort of target crowds. Now and again we get some superfluous inquiries and impolite conduct through remarks and message however it is our duty to deal with our annoyance and get the most wanted yield.

Uploading post
I had to upload and schedule a post to my assigned post. Checking post copy, pictures and scheduled time properly are part of uploading post.

Brand guideline
There are some brand guideline which is recommended from the customers. For various months they may have diverse rules. It shifts dependent on celebrations, normal months and extraordinary occasions.
Title of the Study
Brand awareness and business development through Digital Marketing.

Rationale of the study
As it is an age of technology everyone is being digital or both household and business activity. Doing business and promote a brand digitally is also important to grab the market or to stay in the competitive market. The main purpose of the study is to describe and differentiate the different factors of digital marketing and how it is effective for brand promotion and development.

As I am a student of Marketing and E-Commerce this study will help me to find out the key factors and different sphere of digital marketing. At the same time it will be a guideline for an entrepreneur to know the basic factors and process of digital marketing that can help to run the business in a digital way.
As BRAC University is specialized for BRAC Business School, this paper can help the students to have a clear idea and basic knowledge about digital marketing and its key factors. It can be a motivation for the business students to start a business or run a business through digital marketing. At the same time BRAC University can establish their presence in digital platform which can help the students to be digital marketer in the future. Student from foreign university can also be benefited from the paper.

Objective of the Study
This internship report has two objectives.

1. Broad Objective
2. Specific Objective

Broad Objective: The broad objective of the internship is to gain organizational experience, know about the challenges and to apply the last four years of learning in the professional sector.

Specific Objective: Main objective of the study is to discover a convenient and effective way to reach the customers and create brand awareness among them. Apart from this the study can give a clear picture about the consumer behavior and target customer to clarify the ultimate goal of brand promotion and business development. Furthermore it will be helpful for the dealers and retailers as well to boost up their sales and reach to the customers.

Methodology of the Study
The data of this report is collected from two different sources. The sources are given below,

Primary Sources : The data I have presented in the report are mainly primary data that. I have collected those by directly working on it in this 3 months of internship. Besides I have done one to one communication to the employee of Cookie Jar to know about the scope and effectiveness of digital marketing for any brand and their business.

Secondary Sources : All of the secondary data I have collected from the official website of cookie jar, Asiatic 3sixty, Facebook fan pages and different publications. I also have taken some help from the alumni who already did their internship from Cookie jar. Their guideline and collected information is also reflected in the report.
Digital Marketing

According to American Marketing Association, Marketing is the activity, set of institutions and processes for creating, communicating, delivering, and exchanging offerings that have value for customers, clients, partners, and society at large. (American Marketing Association, 2017)

Advertising agency mainly work for particular brand or client to promote their brand or run and boost the business. The service an agency provide is to create campaigns, planning, creating innovative promotional activity based on the demand of the client. Based on the clients sometimes an agency get the control over a whole brand strategies or sales and promotion. Several types of marketing agency are following,

1. Advertising Agency
2. Digital Agency
3. Full Service Marketing Agency
4. PR Marketing Agency
5. Media Planning and Buying Agency

This study will broadly discuss about the activities and services provided by a digital agency to create brand awareness and business development. As technological sector is growing fast the press ads and TV commercials are not enough to create brand awareness for a mass target population. So here going on full digital is the effective way to make a place in the mind of the customers and expand the business. Nowadays digital media has taken over and as a fast effective way of marketing it is being considered the most used media for brand awareness. At the same time digital marketing is more convenient rather than the usual tradition marketing, most of the business holder are showing interest in going digital and make the appearance of their brand or product in online. Digital marketing could be a great solution for them to develop their USP, creating brand value, better customer relation and marketing strategies.

Digital Marketers screen things like what is being seen, how regularly and for to what extent, deals changes, what content works and doesn't work, and so on. While the Internet is, perhaps, the channel most closely associated with digital marketing, others include wireless text...
messaging, mobile instant messaging, mobile apps, podcasts, electronic billboards, digital television and radio channels, etc. (SAS Institute Inc., 2017)

People groups regularly think that digital marketing and internet marketing are synonymous to each other. Be that as it may, this idea is off-base. Internet Marketing is depicted as a class of computerized advertising which incorporates different administrations like email showcasing, seeks motor improvement etc.

**Brand Awareness and Business Development Process through DigitalMarketing**

There should have a particular purpose or objective why a business needs to introduce them in a digital platform rather than traditional marketing. The objective can be the need of brand expansion or better brand promoting, boosting the business and reach to the maximum customers through efficient and digital way. It will be necessary for the growth of their brand image, introduce new product line, and develop new brand image or position targeting the proper target customers.

When they are specified about their major purpose or objective they need to look for a digital agency or can do a research on the activity of several agencies. This will help them to find the perfect media to promote or develop their business. Though this process of creating a digital media can be done by the business holder internally but there will be some difficulties and limitations. First of all it will take a huge cost to make a digital facility for own. If the facility is being done somehow the maintenance cost will be high and that can hamper the development process. On the contrary a digital agency has the facility of their own and their main work is to provide digital media service based on the needs of the clients. Before picking a agency a business ought to dissect their execution, thoughts and abilities to advance their image appropriately. When they require a pitch, they should legitimately concise the office about the primary target of the association. They will think of a legitimate thought which will keep running for a particular timeframe.
As an agency their obligation is to give their customers a legitimate administration as indicated by the understanding. They offer diverse center offices and different offers which will assist their customers with developing a solid brand picture in the market and satisfy the majority of alternate goals.

This report will describe all the facilities provided by a digital agency to develop a business. This includes maintain a fan page or website, query management, regular posts, campaigns, targeted advertising, and analytics.

**Maintaining a Page or Website**
A fan page, Facebook page or a website is the easiest way to know a particular brand or website.

![Facebook Page Example](image.png)

Here Facebook page can be the most effective way to create brand awareness to the mass people as most of the people have the access in Facebook and almost everyone roaming on Facebook continuously. So it is the first to do exist in the web with the goal that a client can discover the
business effectively. A agency offers their customers to make a fan page or a site as indicated by their prerequisites. They additionally keep up the entire exercises worked in on the web. They gather require data from their customer which assist them with continuing the support procedure. They offer diverse standpoints for a site which is easy to understand and assist them with exploring the site legitimately and told them more about the offices given by the business.

Query Management
At the point when a client visits a site or a page, they may have a few queries in their brain. It could be in regards to the items, business or different offices.

The agency take care every one of them by giving continuous arrangements. They continue refreshing the customer about their client's recognition, issue and necessities of enhancement to the business. Through this a business effectively takes in their concern, inadequacy and gets an
opportunity to tackle those issues which make their clients satisfied.(What Is Digital Marketing, n.d.)

**Regular Post**
This is the most incessant action that is done by an agency. They get the correct brief from a customer and do the ideation to make an appropriate substance timetable.

When they set up the substance timetable, they send it to their customers for endorsement. In light of the endorsed post, they post each innovative in the fan page or the site. That post may speak to item contributions, deals advancements, outlets areas, fresh introduction items, mark commitment, extraordinary occasions etc.
There are different types of posts. They are: i) image ii) gif iii) video iv) link

Campaigns
It drives concentrated on an extraordinary event or an occasion. Primary thought process of the campaign is to connect more gathering of people to the page or site.

Each campaign has distinctive methodology to get generally commitment. After the crusade advanced advertiser examines the information which portrays the accomplishment of the campaign. A crusade could be a productive method to drive deals. It knocks over and over in shoppers psyche and drives them to take official choice.

Analysis of Data
In each month's end or a campaign they get some particular information about connected customers.
It is anything but difficult to investigate that information by various instruments and appropriately comprehend the client experiences. Those experiences give a legitimate condition about a market and the computerized advertiser discovers more compelling methodologies as indicated by those bits of knowledge. This procedure encourages the business to enhance their administrations and offices which give them leverage to wind up focused in the market.

Targeted Advertising
Digital platform is the best way to target proper customer to boost up the sales and create brand value.
There are different ad objectives which help an advertiser to get the right audience. It can be optimized by demographic options, interest, geographical locations and so on.
Limitations

**Time Limitation**: Time limitation was a big factor to make the report more efficient and informational. I have tried to make the report as much informational as I can but there could have been added more information and resources.

**Confidentiality**: This is one of the major limitation that will reflect in the paper. I cannot provide some of details information because of confidential issues. Still I have gathered the details through secondary data and one to one communication with the employees.
Conclusion
As this is an age of technology, being digital is the perfect way to create brand awareness and business development. At present digital platform is best to start a business or to run a business to reach on the inclining stage. Digital media is the best way to convert a product into brand. The brands can able to engage their target group in a effective way through digital platform. As one of the leading digital agency in Bangladesh the methods of Cookie Jar mentioned in the report will be very much helpful for the reader to understand the various sphere of digital marketing.

All through this internship period I discovered that purchasers are exceptionally data searcher and they will do look into about an item before heading off to a retail shop. In this manner, brands need to offer stages to shoppers to comprehend their item or to get a truly feel of that mark. I honestly believe that this project report will be at most useful for marketers to understand the digital marketing and also to plan for future strategies.
