Subject: Submission of Internship Report

Dear Sir,

I am here by submitting my Internship Report, which is a part of the MBA Program curriculum. It is great achievement to work under your active supervision.

This report is based on, “HR policies of Haji Ahmad Brothers Securities Limited (HABSL).” I have the opportunity to work in Haji Ahmad Brothers Securities Limited (HABSL) in administration under the supervision of Farzana Azad Rupa, Admin Officer, HR department.

This project gave me both academic and practical exposures. First of all, I have learned about the organizational culture of a brokerage house of the country. Secondly, the project gave me the opportunity to work with “Haji Ahmad Brothers Securities Limited (HABSL)” in corporate environment.

I shall be highly obliged if you are kind enough to receive this report and provide your valuable judgment. It would be my immense pleasure if you find this report useful and informative to have an apparent perspective on the issue.

Sincerely Yours

Acknowledgement

First of all, I wish to express my gratitude to the almighty ALLAH for giving me the strength to perform my responsibilities as an intern and complete the report within the stipulated time. I am deeply indebted to my Advisor Mahmudul Haq, Professor, BRAC Business School. I am also grateful to Farzana Azad Rupa as my organizational supervisor. It would have been very difficult to prepare this report up to this mark without their guidance. My gratitude goes to entire BRACU for arranging Internship Program that facilitates integration of theoretical knowledge with real life situation. Last but not the least, I would like to convey my gratitude to Farzana Azad Rupa, Admin Officer, HR department for helping me in furnishing the report. Moreover, I would also like to express my gratitude to my Haji Ahmad Brothers Securities Limited fellows, seniors, and colleagues who gave me good advice, suggestions, inspiration, and support. I must mention the wonderful working environment and group commitment of this organization that has enabled me to deal with many things.
Executive Summary

Haji Ahmad Brothers Securities Limited, Trec No. 041 has been a member since the founding of DSE in 1956. Their registered office is at Khatunganj, Chittagong. Their aim to provide the best service with a high degree of professionalism that is why they are constantly looking for ways to become the leading provider of competitive, efficient and reliable services in the capital market.

The organization is very professional about meeting the challenges it faces and never shy to press its boundaries. My experience in the organization is very remarkable for me. I have included detailed work activities at HABSL. I must say that my Internship experience could have never been better than what I experienced in HABSL. I declare, what I learnt here, has added a golden feather in my career and this will surely act as the key contributor in my mission of being a competent financial analyst.

The project of my internship, which is given by university supervisor that makes me very clear about the organization and their investor’s perceptions, activities and their decisions. It helps me to analysis their investors. Make me more confident on my job responsibilities.

Origin of the report

As a part of the MBA program of BRACU, it is mandatory to submit an internship report to complete MBA program. The main purpose of the internship is to familiarize the students with the corporate world practically and slowly get them acquainted with the corporate culture.

The study has following purposes:

- To learn about the job responsibility.
- To relate the real scenario with the lessons learned in MBA program.
- To get exposed in the real business world.
- To fulfill the requirement of the MBA program.

Objective of the Report

There are mainly two objectives of the reports. As follows:

A. Broad Objective:

1. To accomplish the requirement of MBA program as necessitated by BRAC University.

2. To illustrate corporate management practices of Haji Ahmad Brothers Securities Limited (HABSL)

B. Specific Objectives:

1. To illustrate HR management practices
2. To illustrate corporate management practices
3. To ensure the safety, security integrity and improve satisfaction level of employee.
4. Finally to ensure the best utilization of company asset as well as satisfy the stake holders’ expectation.
**Scope of the Study**

The scope of the study is limited within brokerage houses in Bangladesh. It is also limited within the organization of Haji Ahmad Brothers Securities Limited (HABSL). This study also shows an overview of Haji Ahmad Brothers Securities Limited. HABSL is one of the market follower in the brokerage houses in Bangladesh. But in this edge of competition, it is very complex to hold the market position. The study intends to provide a brief but complete idea about the HR practices of Haji Ahmad Brothers Securities Limited.

**Methodology**

This report is an exploratory research. Exploratory research often relies on secondary research such as reviewing available literature and/or data, or qualitative approaches such as informal discussions with consumers, employees, management or competitors, and more formal approaches through in-depth interviews, focus groups, projective methods, case studies or pilot studies. The Internet allows for research methods that are more interactive in nature. The objective of the exploratory research is to explore or search through a problem or situation to provide better understanding. However, this report is about to develop an approach for process automation to reduce the cost and maximize the utilization of operation activities, secondary data have collected and analyzed. Because secondary data is helpful to identify the problem, better define the problem and easy to collect.

**Sources of Data**

This study has covered the following primary and secondary sources

**Primary Data:**
- Data collected by online survey as primary data

**Secondary Data:**
- Going through different documents and papers, newsletter (for internal purpose only), developed by the company personnel, different books, newspapers, brochures to collect the secondary data.
- Internal Portal of Haji Ahmad Brothers Securities Limited
- Different web sites.
**Limitations of the Study**

Abundance of information and experience is needed to prepare a good report. The limitations for making the report complete and perfect may include:

**Confidentiality:**
Confidentiality of data was another important barrier that was confronted during the conduct of this study. Every organization has their own secrecy that is not revealed to others.

**Time Constraint:**
Time constraint of the semester require less time that may be ideal for an ethnographic study. By being a student and worker I also get a few time for preparing the report.

CSR

HAJI AHMAD BROTHERS SECURITIES LIMITED

CSR INITIATIVE

As part of the corporate responsibility, HABSL established 2 libraries for underprivileged children and new-literate adults in CGS Community School, Dhaka and AEK Adult School, Panchagarh between 25th January and 10th February 2016. Through these two libraries about 200 children and 200 adults will get direct access to books that are specially picked considering their age.

Light of Hope – an education-based organization, supported HABSL to establish these libraries to make sure that the children improve their reading skill, creativity and power of imagination through the world of story books. For adults, the books are carefully selected with the stories that relate to their daily life, besides issues like dowry, child marriage, sanitation etc. are also being covered through these books.

During the inauguration of the libraries, the enthusiasm and interest among the children and adults were surprisingly similar proving that stories don’t have any boundaries – it can bring smile and happiness to people of all age. And books can change lives.

Recommendation:

- Before investing in different stocks we need to consider both the correlation and portfolio weight because portfolio risk is affected by the correlation between stocks and by the percentage of funds invested in each stock.

- Since an investor wants a high profit and a small risk he/she wants to maximize return and minimize risk, therefore he/she should choose a portfolio which gives a combination highest return and lowest possible risk.

- Portfolio risk is always less than a weighted average of the risks of the securities in the portfolio thus diversification almost always lowers risk, and should be taken advantage of.

- Instead of short-term relationship, Merchandisers need to create long term effective relationships with the crucial parties -- buyers, buying houses as well as suppliers and soon.
**Conclusion:**

Haji Ahmad Brothers Securities Limited is one of the founder members of the Dhaka Stock Exchange having been established in 1956 and it is also one of the first full-service brokerage companies in Bangladesh.
