Subject: Submission of the Internship Report on “Impact of working environment on job satisfaction at accfintax”

Dear Mam,

I am here by presenting my report on "Impact of working environment on job satisfaction at accfintax”. While setting up this report, I have filled in as an intern at accfintax under my supervisor Mr. Saiful Hossain Shaheen. I feel most fortunate to be related with a cultivated, capable duty consultancy firm. I have endeavored my best to make this report as valuable, utilitarian, reliable and noteworthy as could be normal considering the present situation. In game plan of this report, I have reviewed couple of destinations of Accfintax from the web, and coordinated couple of gatherings. I earnestly believe that this report will satisfy your essentials and wants. Much obliged to you.

Yours Sincerely,

Sadia Chowdhury

ID: 15204090

BRAC University
Letter of Endorsement by the supervisor faculty

The Internship Report entitled “Impact of working environment on job satisfaction at accfintax” has been submitted to my Internship advisor Ms. MayeshaTasnim Faculty of BRAC Business School on 8 May, 2019 by Sadia Chowdhury,ID-15204090. The report has been acknowledged and offered to the Internship Defence Committee for evaluation.
Acknowledgement

At the most punctual reference point, I am genuinely offering thanks toward the Almighty Allah. Satisfaction of anything requires reinforces from various sources. I am particularly honored to get the genuine course and supervision from different experienced people. My veritable thankfulness goes to Assistant Manager Mr. Saiful Hossain Shaheen & Manager Mr. Monjur Morshed who have been so kind and supportive to me amidst my Internship period. It was a noteworthy benefit to work with such kind, devoted and steady people. I am significantly committed to my provisional position to my advisor Ms. Mayesha Tasnim, Lecturer, BRAC Business School who permitted and reinforced me. I am enormously thankful for giving me such an open entryway, to the point that has propelled my area of adapting massively. At last I should need to thank every single diverse social event who have helped me for get-together information and completing the report.
Executive Summary

This report is set up based on my three-month internship period with Accfintax. This temporary position program helped me to find out about the down to earth situation of a consultancy firm. This report has been introduced dependent on my perception and experience accumulated from the organization. The association has numerous divisions and offices yet the spotlight is given more on the dimension of worker fulfillment as I just got the chance to fill in as HR intern in HR Department. The report specifies about the offices and advantages Accfintax gives to their workers. An assessment is led to make a determination on the impacts of these. The outcome that is found is very significant. Anyway Accfintax should work a great deal to persuade and support their current representatives. The aftereffect of the assessment is portrayed in subtleties in this report in the later parts. Subsequent to knowing the situation of Accfintax in terms of their worker fulfillment a ton of suggestion came up. The report likewise comprise suggestions and end as indicated by my perspective, which I think would improve nature of the association whenever actualized.

Chapter 4

Introduction of the study
4. Introduction of the study

4.1 Rationale of the study
I researched a lot and chose this topic after a great thought. In the modern era, organizations are facing several challenges due to the dynamic nature of the environment. One of the many challenges for a business is to satisfy its employees in order to cope up with the ever changing and evolving environment and to achieve success and remain in competition. I saw in Accfintax during my internship moment that some employees are not satisfied with the facilities provided by the company. That affects me a lot and seeing their condition, I have decided to choose this topic.

4.2 Statement of problems
In Accfintax, all employees are experienced but they do not get the facilities that they deserve. Gratuity fund, provident fund, yearly bonus are not in the company, office hours are too much lengthy. Sometimes employees have to stay whole night if there are lots work pressurized on them. For their overtime work period, they do not get extra salary. This is very pathetic for them.

4.3 Scope of the report:
The principle aim of the investigation is the benchmarks and impacts of worker fulfillment to discover comprehend and archive the procedures and exercises conveyed by Accfintax and relate them to get an unmistakable image of the dimension of the general representative fulfillment. The report covers insights regarding the item and administrations, outline and furthermore offices given by the organization to fulfill their representatives. The principle center is around the investigation of the standard of offices gave and their impact on the worker fulfillment.

4.4 Limitation of the report
In spite of the fact that I have attempted my best to set up this report with most extreme conceivable exertion and devotion there still exists a few constraints of this report. They are as per the following:

- The prime confinement was time imperative. I have taken in a ton of things amid my entry level position. Be that as it may, it was insufficient for me to learn and create information pretty much all representatives’ perspective about the workplace. Subsequently I was unfit to lead more top to bottom and conscientious examination and incorporate that in my report.

- Every association keeps up its very own mystery that isn't uncovered to outer world. Accfintax was no exemption to this. A portion of my partners did not unveil enough data for secrecy of the association. In a couple of different cases, I was not permitted to share some touchy and private data of my specialization because of business mystery.
4.5 Origin of the Report
Internship Program of BRAC University is a Post-Graduation necessity for the BBA students. This examination is a fractional prerequisite of the Internship program of BBA educational programs at the BRAC University. The fundamental motivation behind temporary job is to get the alternate presented to the activity world. Being an associate the primary test was to make an interpretation of the hypothetical ideas into genuine experience. The temporary position program and the investigation have following purposes:

- To get and arrange detail information hands on obligation.
- To encounter the genuine business world.
- To contrast the genuine situation and the exercises learned in BRAC University.
- To satisfy the necessity of BBA Program.

This report is the result of three months long internship program led in accfintax and is set up as a necessity for the fulfillment of the BBA program of BRAC University. Subsequently I have to present this report dependent on the "Impact of working environment on job satisfaction at accfintax". This report additionally incorporates data on the items and administrations of accfintax, the diagram of the association and furthermore offices they offer to fulfill their representatives.

4.6 Objective of the report

The objective of the report can be viewed in two forms:

**General Objective:**
This internship report is prepared primarily to fulfill the Bachelor of Business Administration (B.B.A) degree requirement under the Faculty of BRAC Business School, BRAC University.

**Specific Objective:**
More specifically, this study entails the following aspects:

To give an overview of accfintax.

To focus on the products, services, work environment and facilities provided to employees of accfintax.
4.7 Research questions

- How does efficiency criticism improve worker's profitability?
- By what means can work help upgrade representatives' efficiency?
- What are the physical workplaces that include towards representative's efficiency?
- Which commitment does a manager have towards representative's profitability?

4.8 Literature review

Work has been done to comprehend the connection between workplace and employment fulfillment all around the world in various settings throughout the years. The examination is increasing increasingly more significance with the progression of time in view of its tendency and effect on the general public. The discoveries of a Danish report propose that a firm can build its efficiency through the improvement of physical components of workplace (inward atmosphere) and may have a positive effect on firms' efficiency (Buhai, Cottini, and Nielseny, 2008). Herzberg et al. (1959)[1] created inspirational model for employment fulfillment and through research he found that the work related components can be partitioned into two classes, Hygiene elements and inspiration factors. Cleanliness elements can not cause fulfillment but rather they can change disappointment into no disappointment or momentary inspiration, though persuasive variables have enduring impact as they raise positive sentiments towards employment and convert no disappointment into fulfillment. Without cleanliness factors (that are working conditions, supervision quality and level, the organization arrangement and organization, relational relations, professional stability, and compensation) the workers odds of getting disappointed increment Baah and Amoako (2011)[2] depicted that the persuasive components (the nature of work, the feeling of accomplishment from their work, the acknowledgment, the obligation that is conceded to them, and open doors for self-improvement and progression) encourages representatives to locate their value concerning esteem given to them by association. Further, this can increment inspirational dimension of representatives which will eventually raise inner satisfaction of workers and that the inner bliss will cause fulfillment. Hygiene factor can just aim outer joy however they are most certainly not ground-breaking enough to change over disappointment into fulfillment yet at the same time its quality is an excess of vital. As per them the Herzberg Two Factor Theory, both Hygiene and Motivation factors are connected with one another, as Hygiene factors move worker from Job disappointment to No Job disappointment, while inspiration factors moves workers from no activity disappointment to work fulfillment (Herzberg et al., 1959). Sell and Bryan (2011)[3] built up a model on employment fulfillment by coordinating monetary factors and work condition factors to ponder the response of representatives in perilous workplace with high money related benefits and non-risky workplace and low money related advantages. The examination demonstrated that unique psychosocial and workplace factors like work place, social help has direct effect on occupation fulfillment what's more, that expansion in remunerations does not improve the disappointment level among
representatives. The directors' accessibility at desperate hour, capacity to interlink representatives, animate inventive reasoning and learning of worth of liberality in perspective on specialists, and capacity to speak with workers, are the fundamental supervision attributes. Results uncovered that with great and successful supervision, representatives' fulfillment level was high while with more unfortunate correspondence capacity, disappointment level among workers was high (Schroffel, 1999)[4]. Another investigation by Castillo, J. X., & Cano, J (2004)[5] hands on fulfillment level among employees of universities appeared that if appropriate consideration is given towards relational connections, acknowledgment and supervision, the dimension of employment fulfillment would rise. Bakotic and Babic (2013)[6] found that for the specialists who work under troublesome working conditions, working condition is a vital factor for occupation fulfillment, so specialists under troublesome working conditions are disappointed through this factor. To improve fulfillment of representatives working under troublesome working conditions, it is important for the administration to improve the working conditions. This will make them similarly happy with the individuals who work under ordinary working condition and consequently generally speaking execution will increment. An examination in telecom area by Tariq, M., Ramzan, M., & Riaz, A. (2013)[7] uncovered that there are distinctive factors like remaining task at hand, compensation. Chandrasekar (2011)[8] argue that an organization needs to pay attention to create a work environment that enhances the ability of employees to become more productive in order to increase profits for organization. He also argued that Human to human interactions and relations are playing more dominant role in the overall job satisfaction rather than money whereas management skills, time and energy, all are needed for improving the overall performance of the organization in current era.
Chapter-5
Methodology
5. Methodology

The preparation of the internship report provides some understandings on impact of working environment on job satisfaction. The information is collected from two types of sources:

5.1 Primary data

Primary information is collected by working with my colleagues. Information collected through managers, assistant manager and other employees of the company. During my work I observed and collected various information as HR intern of that company that are related with my report.

5.2 Secondary Data

Information collected from office administrative documents of the employees of the company.

Information collected from various publications, books, files & internet.
Chapter-6
Analysis & Interpretation
6. Analysis & Interpretation of the data

1. Do you enjoy your company’s culture

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
<td>9</td>
</tr>
<tr>
<td>No</td>
<td>0</td>
</tr>
</tbody>
</table>

For the above question, everyone has given positive reply. Everyone is satisfied with company’s culture. From this question, regarding the tools & technologies, it has been proved that 100% employees enjoy the company’s culture.

2. Does company give you the tools and technologies you need to do your job well?

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
<td>8</td>
</tr>
<tr>
<td>No</td>
<td>1</td>
</tr>
</tbody>
</table>

For the above question, among 9 person, 8 people have agreed, only one person has disagreed. From the question, it has been nullified that among 100% people, 89% people are
satisfied with the tools & technologies provided by the company and rest of the people are dissatisfied with that.

3. I feel encouraged to come up with new and better ways of doing things.

Strongly Disagree          0
Somewhat Disagree          0
Neutral                    1
Somewhat Agree             2
Strongly Agree             6

For the above question, 6 employees have been strongly agreed, 2 people have somewhat agreed & one people is neutral. From this question, regarding the tools & technologies, it has been evident that 67% people have strongly agreed, 22% people have somewhat agreed & 11% are neutral.

4. Job makes good use of my skills and abilities.

10. Are you satisfied with your job?
Yes 9
No 0

For the above question, every employee is satisfied & no one is dissatisfied. From this question, regarding tools & technologies, 100% people are satisfied & no one is dissatisfied.
Chapter-7

Findings
7. Findings

In view of understanding of the investigation, it is obvious that there is certain connection between workplace and job satisfaction. Employees of the association have concurred that work space assumes an essential job in achieving work satisfaction. As the challenge has expanded and business condition is dynamic and testing, so unique associations so as to work up to their greatest potential, have to guarantee that their representatives are working in a favorable and well disposed condition. Representatives are becoming worried about the workplace which incorporates working hours, work wellbeing and security, association with collaborator, regard needs and top administration as referenced in this investigation. This assessment paper contributes towards the welfare of society as the outcomes make mindfulness about the significance of good working environment for representative employment satisfaction. The think about effects upon the future execution of organizations by paying attention to workplace more inside their Associations to build the inspiration and responsibility dimension of their workers. Along these lines their work power can accomplish better outcomes. It likewise guarantees that the representatives of the association will have the simplicity of working in a relaxed and free condition without weight or weight that would make their execution decline. The advance that will be accomplished in the business will legitimately help the economy of a nation as formative endeavors will increment. In such conditions, the nation will almost certainly handle the minor issues overarching as it will be in a solid state to manage them. The advantages of giving a decent workplace to the representatives are huge for both the association and its representatives.
Chapter-8

Recommendation
8. Recommendations

**accfintax** is a new company. The company has been running for two years. Therefore, it is very tough to recommend on any aspect of the company. However, as it is the requirement of the report so I have come up with few recommendations, after conducting the research. They are as follows:

**accfintax** can provide training on the facilities they provide, such as benefits, allowances etc so that employees have more idea on utilizing the facilities they are receiving in a proper manner.

Some employees suggested that they should be provided with more training on safety and security. After F.R Tower tragedy, **accfintax** should be more concerned about fire security because it is multistoried corporate building. Therefore AccfinTax should organize training on fire safety and security for the welfare and safe guard of employees. **accfintax** could advance their disciplinary demonstrations and guidelines of discipline more to their representatives with the goal that they have total thought regarding the impacts of these measures. **accfintax** could work more on making the pay and advantages they give to make them all the more pulling in as workers discover this factor essential to help their fulfillment level. ACCFIN TAX could work more on their premises to ensure against common catastrophes, with the goal that representatives feel protected as it is a basic in worker satisfaction. AccfinTax could present Casual leave the same number of workers referred to do as such. They could build paternity leave. AccfinTax could likewise increment humane leave, as 3 days are insufficient for somebody to recoup from stun of death of close people. The organization could lead pay survey all the more frequently as certain workers are not happy with the pay audit. This will enable the organization to fulfill their employees. Other than giving advantages and offices all the more regularly, that ascent the expense of the organization, AccfinTax could work more on leading some Employee Involvement Programs to continue their representatives. Getting workers' thoughts and getting their contribution is basic in quickly evolving world. In the event that the organization will be focused, it's compulsory to include hands, yet the thoughts from everybody in your organization. The organization can likewise give acknowledgment to their representatives through a great deal of exercises at least expense. An acknowledgment program does not need to be costly. The structure of an acknowledgment program is restricted just by your creative ability. A powerful program has the accompanying parts:

Decency

High deceitability and consistency.

To be reasonable, a program must not support one representative over another, simply on account of his or her situation inside the association, or his association with his director. There must be a viable methods for distinguishing workers who ought to be perceived. In numerous projects, there is a simple methods by which representatives can designate others for acknowledgment. As an enhancement to a designation program, directors can keep arrangements of prominent representative accomplishments.

As per my conclusion there is a slight segregation among divisions at AccfinTax. This might be a basic point for the association. In this way, **accfintax** could work to decrease the feeling of separation among
representatives, to keep them fulfilled. accefintaxis an extraordinary work environment in which I can say from my own understanding of 3 months time span temporary job. Be that as it may, to support their current great entertainers accefintax could actualize more offices. Accordingly it will likewise acquire the dimension of worker fulfillment an amazing dimension.
Chapter-9

My Working experience in accfintax
9.1. My working experience in Accfintax

I have joined in accfintax in 22nd December, 2018 as HR intern which fulfill the requirement of my under graduation program. From the beginning I was given the responsibility of maintaining employees daily task schedule. It was very painful for me to ask the employees of that company everyday about their daily tasks progress. Later IT specialist Mr. Iftekher Ahmed created an innovative idea to make my work easier. He made a daily task list software for the employees. Name of the software is “workplace accfintax”. Through this employee can personally update their tasks everyday. I just have to follow up their tasks and my work pressure has been eliminated a bit.

During my internship period, my two internship Supervisor Manager Mr. Monjur Morshed & Assistant Manager Mr. Saifulhossen Saheen helps me a lot performing my responsibility as HR intern. They make me understand the internal control system of the company. Moreover, they appointed me to handle administration duties of the company. They also discussed everything in brief so that I can actually perform the tasks. The practical orientation is necessary for the development and preparation of a person before entering into the corporate world.

9.2. Nature of the Job:
Worked in Accfintax as HR intern from 22nd December, 2018 to 22 March 2019.

To close supervision the exercises of different sorts of work conveyed in the region.
Chapter-10

Conclusion
10. Conclusion

HR Department of accfintax is working all an opportunity to support and fulfill its representatives. As indicated by my very own experience the workplace of the association is rousing. In any case, the association needs to work a great deal to fulfill its accomplished and old representatives. The association is constantly quick to actualize new standards and activities for development. First of all, the procedure of Employee Involvement Programs may improve singular inspiration and spirit. Inclusion programs help catch the imagination, vitality, and thoughts numerous individuals have. They likewise enable offices and people to work cross-practically, and make a domain of learning and consistent restoration. This may improve work strategies and procedures constantly, lessen the expenses of working together, improve security, and diminish mishaps. Trading thoughts dependably improves correspondence and the information that top administration is open and willing to follow up on the thoughts improves trust.

Acknowledgment can be accomplished by representatives having the reward given at a social affair of workers, and by perceiving the honor in corporate correspondences, for example, the corporate pamphlet or Intranet site. As per the aftereffect of the examination and my down to earth perception the representatives appear to be very fulfilled and satisfied working in the association. Still it isn't worth less to progress in the direction of flawlessness. Consequently the association is all the time moving towards making the workplace the 'representative decision.' The aftereffect of the examination can be concurring with the down to earth circumstance of the association.
