Orientation programme held at BRAC University

With the interactive teaching learning perspective in view and dedication to promote excellence in teaching, Teaching and Learning Centre (TLC) has been organising faculty orientation workshops on a regular basis in the beginning of each semester to introduce new faculty members to the teaching and learning goals at BRAC University and to provide an early start to successful teaching careers. TLC hosted its 18th faculty orientation programme at the BRAC University auditorium in the city recently, according to a press release.
