Acknowledgement

First of all I would glad to dispatch my deepest gratefulness to the Almighty Allah for giving me the intensity and prowess to complete my work.

Additionally, I am deeply indebted to my family & my Internship supervisor Reem Quashem, Lecture, Department of BRAC Business School, BRAC University. Additionally, many people who supported me to make this report. I could never be able to complete this report successfully without support of them. Most important thing is that, I am very thankful to Abdullah Iqbal (GB In charge) and the qualified staff members of The Premier Bank Limited, New Market Branch. All the time they advised me with their friendly behavior at every steps of my internship work. They gave me a lot of information of the bank internal work and knowledge about the banking operations in short time of my internship.

It will be ungrateful if I don't mention the name of Md. Zakir Hossain, Manager, Premier Bank Limited, Dhaka New Market Branch, Dhaka who helped me a lot while working in the branch and without his eagerly corporation I might not be able to overcome many challenges during my internship period.

3. Internship Experience of premier Bank:

3.1: Description of the Jobs:

I was assigned at the Dhaka New market Branch, Premier Bank Limited to complete my internship program. During my internship I enjoyed a lot but most importantly I understand about how to work under the pressure of responsibilities. The main practical orientation is necessary for the development of preparation for a person that how they present themselves entering the corporate world. besides, how they can develop or improve their lacking in the job sector. I learned the thing from the premier bank is:-

- actual meaning of responsibility
- necessity of the commitment to others
• maintain discipline is most important
• focus on punctuality
• capability to connect with different sorts of people

3.2: Specific responsibilities of the job:

New market branch is one of the big and profitable branches of this bank. Its activities generally three important divisions are required, such as General Banking, Credit Department and Cash Department. In the General Banking they are working about account opening, DPS, FDR, Debit card issuing, pay order. In the Credit department they are working for loan, LC, credit card. in the cash department they are working with debit and credit cash, supplementary work. My responsibility of the job is supplementary word in audit and cash department. My work at that started at the very beginning from 5th august 2015, under Abdullah Iqbal (GB in charge). Supplementary work was my compulsory work although I did some work in general banking. Those tasks of this department were sensitive because one mistake in accounting process or recoding can create many difficulties in between branch. I learnt how a teller keeping records in teller cash sheet. The branch has to show the record of all transaction of different divisions with full specification to head office accounts. After closing transactions at bank, officers of each division generate the voucher of types of transaction that has been completed throughout every day in week. Most importantly, the voucher is an evidence of transaction made in Cash, Transfer and Clearing mode. A voucher of transaction has three copies of account, branch and also the proof sheet. Then officers bring the voucher to the executive officer having power of attorney will sign at each sheet after checking of them. The account will store and record the signed voucher to a register book. I have learnt how they keeping money in vault room. I found it very helpful and resourceful to learn from the affairs sheet of the branch because the account statement of bank is quite various statements that we normally practiced in our
classes. I have learned about the income-expenditure, asset-liability terms of bank. Some items are revolving in nature. with supplementary I also did another work. There are:-

- card issue
- account open
- receive customer
- slotting
- create cover page
- DPS, FDR open
- Cheque book issue
- Cheque book and debit card delivery

3.3: Different aspects of job performance:

In my internship, supplementary word was my main responsibility. Mainly this job was collecting deposit and cheque slip of the last day transactions of bank. At first I did slotting them serially then I printed the voucher of every employees and I slotted vouchers and I gave those to the manager, deputy manager and GB in charge for their verification sign those sheet. Then I gave 3 sills in those sheets for After collecting. Then I matched it with printed balance sheet, delivery sheet and also transaction sheet. After the longtime of supplementary work, I worked in front desk which was crowed area in the office. In my internship, I worked in front desk very short time. Moreover, I swiftly had to take the charge of front desk for a while when other officer were not available. I did do work on cheque book issue, debit card issue ,any kind of pay-order. However, I also did work on clearing session which one very sensitive part of this bank. Dealing with different level of clients was also interesting to respond to persons queries that do not have any relation with front desk. In additionally, responding to the clients, queries and instruction become easy when I learned some function of the banking software namely “Bank Ultimus".
Each task has different protocols or file path to proceed and most interestingly it takes an officer to go into several file paths to execute on small operation. A savings account form has been made by sign card, cheque requisition slip, personal banking form, personal information form, transaction profile, KYC form, Terms and conditions form, ATM card requisition form and internet banking application form. All of the forms are very crucial documents for a client and bank, which needed to be duly filled and signed by client and branch officials. On the other hand, maintaining proper documentation and finding cheque book for client from different types of cheque book. Eventually, I realized that no experience of banking is worthless because it increases the level of knowledge.

3.4: Critical observations and recommendation:

During my internship, I saw that premier bank, new market branch is well reputed in the new market. Most of the businessman and shop's owner of new market have many kinds of account in this bank because feel easy to do any financial transaction in it such as, current account, savings account, loan account. In branch all officers are highly skilled and also executives are very qualified and experience. Furthermore, they have many kinds of attractive schemes such as, dui bochor digun (This scheme means bank gives double amount of money for the current period of time, in the premier bank the period are 2 years, 4 years & 6 years). Every week they attended a meeting and everyone updated their work of last week. If anyone faces any problem rest of the member try to resolve that. On the other hand, there have also some problems in this bank. First of all, as a banking industry they have short time experience. Secondly, the training programs are not frequent for the employee. In the share market there are small individual investors market share. One of the most problems of this bank is—they have few number of ATM booths which is a very problematic issue for clients, because comparative other bank, they have lots of ATM
booths. So that ranking is low rather than the other bank position because ATM booths is very essential for the everyone, it is easy to withdraw and balance inquiry for them. It was enjoyable when I faced challenge to do any task or respond to customer requirement as fast as possible. Because I believe that customers are the wealth of the bank and I am providing them the response as an intern.

C. Limitations of the project:

In this Bank, there are some limitation in terms of its size and composition and access to the related review. I cannot find much resources and some very important information related information of this bank. Moreover, for making project I have some time limitation. Very important part of Bank is communication skill with customers but in this bank I see some lacking of communication and also the clients service. Besides, employee cannot give efficient response to their clients. It is very hard to analyze this topic without proper knowledge about banking and time consuming to differentiate between the sector of loan schemes and deposit.

4.3: Comparative Study of Schemes Loan & deposit:

The benefit that Premier Bank provides to its customer in terms of deposit schemes is very competitive. It is the beneficial different classes people, they come to the bank and fix their amount into a scheme. There are different types of schemes customer are like to invest. The difference between the deposit schemes mainly are interest rate, time and distribute of the interest. Every schemes charges 10% excise duty upon distributing interest to an account. The end of maturity customer gets his principal amount. If anyone enchases the scheme before maturity then they get only regular interest only. The interest is fixed by the policy-makers of the bank with the help of treasury division. The central bank has instructed to define the spread of interest up to 3% which means if the lending loan interest is 15%; the deposit interest given to
customers cannot be less than 12%. Some bank can also use special consideration in deciding interest rate upon the amount. The interest rate on schemes generally moves lower of remains stable for a long period. The primary instruction on interest rate is generated by central bank upon discussion with bankers committee. Premier Bank holds the principle member License from VISA International to issue & acquire the world's most expansionary used Credit Card. Premier Bank is the first local private bank to offer VISA International credit card in the country. The Bank is offering local and international cards and also offers different types of loan to their customers to fulfill their requirements. There are several types of schemes. Discussions of the Result:

The Premier Bank should launch new financial products to attract more people, as Car Loan Scheme, Teacher’s Loan, and Salary Loan etc. The no. of branches is not adequate. New branches should be launched is order to get more customers. The Premier Bank should launch more ATM services as one of the necessities of modern banking. Special emphasis has to give to finance the Agricultural & Construction Sector. Bank will have to make people aware about the different product of PBL that the bank is offering and will have to explain the benefit of becoming customer of PBL through different advertisements or marketing program. PBL should reengineer their products and services according to customer's needs, wants or competitor's action. So if some of the rules can be compromised then it will help bank to increase number of customers. Manpower in every branch should be increased so that whenever customers come to the branch they always get employees ready to help them or at least they may not to wait more than 3 or 5 minutes to get the service. High level of customer service needs to be provided. Number of server should be increased so that customers can get service whenever they come to the branch. Appropriate and effective training is needed for existing employees. Branch should open an ATM booth near to the bank. Employee's must be updated about the new systematical changes. Internal decoration should be change to give modern look to the branch. Need to accomplish internal credit rating facility.
**Recommendation of project**

After observing the different sector of Premier Bank, recommendation for this Bank are follows are introduce some financial products which attract people more. For example, Salary Loan, Car Loan, Teacher Loan etc. In addition, New branches should be launched is order to get more customers. Special emphasis has to give to increase Current Account in the coming years. Moreover, this Bank should launch more ATM Booths and service for the customer. Special emphasis has to give to finance the Agricultural & Construction Sector.

**Conclusion**

Every organization must have a goal to achieve. To achieve that goal organization must fix its vision and mission. According to vision and mission, an organization is able to fulfill its target. Customers are in the center of that mission and vision for financial companies like Bank. The reason is that of the banks are providing same products and their properties and characteristics are also same. That’s why it becomes very difficult for a financial institution to create competitive advantage and to provide superior and quality products to customers. Only thing that can stand out a bank from other many banks is quality service. Service is the only device that can differentiate one bank from other banks. Customers will choose that bank which is providing first, error free and quality services. Otherwise it will be very difficult for a bank to capture more customers and even they can lose their existing customers if service quality is not good enough. PBL is one of the renowned banks among third generations bank. It is competing with many other banks and also new banks are about to come. So, it will have to face tough competition to survive. The major task for banks to survive in this competitive situation is managing its assets
and liabilities in a profound way and also acquiring new advanced technology to cut down its operating expense giving a way to more profit. This profit will come, if there are large and big corporate customers. These customers will remain with the bank if service quality is superior. So PBL will have to ensure quality service in every single branch. For quality service PBL will have to solve problems of their customers. Every single and silly mistake can spoil their business. To provide quality service PBL will have to leave traditional method of banking. In this competitive world this sector has expanded its wings widely enough to cover any kind of financial services anywhere in the world. So PBL should take effective measures to satisfy.

The Premier Bank is one of the new generation private commercial banks that began its journey in 1999 under the license of Bangladesh Bank and has become a top performing bank within short periods. The Bank’s motto "Service first" reflects Premier’s concern for customer satisfaction, flexibility, responsiveness and productivity.
