There is no alternative to hard work and students will play the role of changemakers, said BRAC University (BRACU) vice-chancellor Prof Syed Saad Andaleeb on April 30. Inaugurating "Freshman Orientation Program - Summer 2018" in Golf Garden in the capital, he requested guardians to allow their children to study in subjects of their preference.

Registrar Lt Col Md Foyzul Islam (Retd) congratulated students for starting this new chapter of life. Pro-vice-chancellor Prof Ansar Ahmed presented the closing remarks. The event saw the screening of video presentations giving participating freshers an overview of BRACU and its residential campus.

Representatives of several administrative departments also gave individual presentations regarding their services and a BRACU alumni reflected on her experiences in BRACU. Department heads, faculty members and officials welcomed the students along with their parents who attended the orientation.
