Advanced Research Lab Opened at Department of Pharmacy, BRACU

Department of Pharmacy at BRAC University started an advanced pharmacy research lab on May 9. Professor Ainun Nishat, Vice Chancellor, BRACU, inaugurated this research lab. He convened the faculty members to enhance collaborative research utilising the sophisticated equipment of this newly opened advanced lab and other facilities of BRACU. Professor Ashik Mosaddik, Chairperson, Department of Pharmacy said that alongside regular practical facilities this lab will also facilitate to start advanced research in natural product chemistry, pharmacology, microbiology and cancer biology.
