Executive Summary

A bank is a financial institution that brings together depositors and borrowers for giving/receiving surplus and deficit funds respectively. The objective of a bank is to make a profit while acting as a middle man between the above mentioned parties. In the present situation of the banking sector is walking with competitive advantage, inspired way, just like a panorama of a race to reach the leading position of the banking. Most of the bank now concentrates of marketing feasibility to earn and generate opportunity to hold existing to keep loyal customers, in the business humanity believed that loyal customers increase the forthcoming gainful revenue. In this report I am trying to focus about the wide consumer expectation, perception and its implementation possibility for the BRAC Bank Limited to overcome the all kinds of customer objections for the service failure and weakness.

First part of this report is based on the introduction which includes topics like origin, objective, background, methodology, limitation of the study. Basically it defines the way and background of the study to prepare the report. In the next part of the report highlights a brief background of BRAC Bank Limited, with their mission, vision, objective, business strategies. And also providing a brief summary of all retail product and services offered by the BRAC Bank Limited.

Next part is basically about the tasks done by me during the internship. A questionnaire was used to collect data from the Local clients, regarding services and solutions that are offered by the institution to its customers. Data from surveys and interviews of the Bank’s customers have been used to investigate clients' views regarding the quality and standard of the services; to identify the gaps between the services that clients want and to suggest ways of improving the services. These data were analyzed using different statistical software’s like SPSS and MS-Excel.

This report is also consists of all the findings of the report provided with some recommendation in order to improve customer service quality as well as customer satisfaction level based on the observation and work experience during internship period.

BRAC Bank Limited started its Journey on the 4th of July 2001 with a vision to be the absolute market leader through providing the entire range of banking services suitable to the needs of modern and dynamic banking business as well as to promote broad based participation in the Bangladesh economy through the provision of high quality banking services.

BRAC Bank Limited, with institutional share holdings by BRAC, International Finance Corporation (IFC) and Shore Cap International has been the fastest growing Bank in 2004 and 2005. BRAC Bank Limited is extending full range of banking facilities as per the directives of Bangladesh Bank. It intends to set standards as the absolute market leader in Bangladesh by providing efficient, friendly and modern fully automated on-line service on a profitable basis.

Being one of the members of GABV (Global Alliance For Banking On Values Sustainable Banking), BRAC Bank Limited along with thirteen of the world's leading sustainable banks, is engaged in building a viable future for the financial industry. In line with the theme of developing human capital, the bank is also involved in creating an alternative banking and finance system, where social impact is considered as important as financial return.

In the last five years of operation, the Bank has disbursed over BDT 1500 cores in loans to nearly 50,000 small and medium entrepreneurs. The management of the Bank believes that this sector of the economy can contribute the most to the rapid generation of employment in Bangladesh. Since inception in July 2001, the Bank's footprint has grown to 156 Branches, 48 SME/Krishi
Branches and 22 SME Service Centers), 14 Apon Shomoy, 330 ATMs, 31 CDMs, 399 SME unit offices and 7,695 (as on 31st March 2013) human resources, BRAC Bank’s operation now cuts across all segments and services in financial industry. It has disbursed over BDT 14,500 cores of SME loan and has over 1,200,000 individual customers who access online banking facilities. With more than 1.3 Million Customers, the bank has already proved to be the largest SME financier in just 12 years of its operation in Bangladesh and continues to broaden its horizon into Retail, Corporate, SME, Probashi and other arenas of banking. In the year: 2010, BRAC Bank has been recognized as Asia’s most Sustainable Bank in Emerging Markets by the Financial Times and IFC. Recently BRAC Bank has achieved the International award for “Excellence in Retail Financial Services”.

BRAC Bank Limited has also been recognized as “The Best Managed Bank” in Bangladesh by Asian Banker. The Asian Banker Leadership Achievement Award is Widely Acknowledged by the financial services industry as the highest possible accolade available to professionals in the Industry as recognized in the Asia Pacific and Gulf regions today.

1.2 VISION, MISSION & GOAL OF BBL:

**Corporate Vision:**

“Building profitable and socially responsible financial institution focused on Market and Business with Growth potential, thereby assisting BRAC and stakeholders to build a just, enlightened, healthy democratic and poverty free Bangladesh”.

**Mission:**

Mission statement reflects what organization is doing currently to achieve its vision. BRAC Bank has number of missions, which are very specific in their way of achieving the vision.

- Sustained growth in Small & Medium Enterprise sector.
- Continuous low-cost deposit growth with controlled growth in retail assets.
- Corporate Assets to be funded through self-liability mobilization.
- Growth in Assets through syndications and investment in faster growing sectors.
- Continuous endeavor to increase non-funded income.
- Keep our debt charges at 2% to maintain a steady profitable growth.
Achieve efficient synergies between the bank’s branches, SME unit offices and BRAC field offices for delivery of remittance and Banks other products and services.
Manage various lines of business in a full controlled environment with no compromise on service quality.

Objectives:
The objective of BRAC Bank Limited is specific and targeted to its vision and to position itself in the mindset of the people as a bank with difference. The objectives of BRAC Bank Limited are as follows:

- Building a strong customer focus and relationship based on integrity, superior service.
- To creating an honest, open and enabling environment.
- To value and respect people and make decisions based on merit.
- To strive for profit & sound growth.
- To value the fact that they are a member of the BRAC family committed to the creation of employment opportunities across Bangladesh.
- To work as a team to serve the best interest of our owners.
- To relentless in pursuit of business innovation and improvement.

- To finance the international trade both in import and export.
- To develop the standard of living of the limited income group by providing Consumer Credit.
- To finance the industry, trade and commerce in both the conventional way and by offering customer friendly credit service.

Goals:
BRAC Bank will be the absolute market leader in the number of loans given to small and medium sized enterprises throughout Bangladesh. It will be a world - class organization in terms of service quality and establishing relationships that help its customers to develop and grow.
successfully. It will be the Bank of choice both for its employees and its customers, the model bank in this part of the world.

1.3 BRAC BANK SUBSIDIARIES:

bKash:

bKash is designed to provide financial services via mobile phones to both the unbanked and the banked people of Bangladesh. The overall bKash value proposition is simple: a safe, convenient place to store money; a safe, easy way to make payments and money transfers. The bKash mobile wallet, a VISA technology platform which is fully encrypted to ensure most secure transactions, will be the customer account where money can be deposited and out of which money can be withdrawn or used for various services. It has a special focus to serve the low income people of the country and promote sustainable micro-savings by providing financial services that are convenient, affordable and reliable. In Bangladesh, where 15% of people are not connected to formal financial system, providing financial services using this mean can make the service more accessible and cost effective for the vast population of Bangladesh.

CHAPTER 02: TASK ASSIGNED TO AN INTERN

In 20th January 2014, I was assigned by BRAC Bank HR personnel’s as an intern position in the Banani Branch. After that a schedule of the internship program was given to me consist of the working schedule along with the job responsibilities. Basically I worked under the Customer service department of the Banani branch and for that reason I got longer time to gather knowledge about that particular segment.

In the beginning Md. Ashikur Rahman, Regional head of Branch Banking and Branch Manager of BRAC Bank selected me in retail banking department under the supervision of Ms. Musarrat Parveen who is the Customer Service Manager of BRAC Bank at Banani branch. She is also a very co-operative in nature and there was immense possibility to learn.

According to the office rules and regulations I have proceed like a regular employee. That’s why I had to serve from 10:00am to 6:00pm. After entering into the office I would sign attendance sheet like other officials, and then sit on assigned section. Within office hour every employees of relevant section guided me in order for better improvement.

As an internee I also had some certain responsibilities and duties that had to perform very sincerely. Since initially I was in retail banking department there I had to work as an assistant of different employee who was working on that relevant department.

I worked in the retail or general banking division in BRAC Bank Limited. Close to this I had to work with some other employees regarding some vital issues like –Retune cheque delivery, Account statement, New Account Opening, NOC, update customers information, collect necessary documents from customers, fill-up debit card forms, update KYC (know your customers) for new and existing customers, provide information about Credit card to the customers and help retail department managers (Branch relationship manager) to fill-up documents, daily courier, welcome pack delivery & reconciliation etc.

The tasks assigned to me by the authority are discussed below.
2.1 CUSTOMER SERVICE:

The Customer Service area is divided into few sections such as, cheque, pin, cards, loan, remittance, pay order etc. On the first day of my work in the Customer Service department, the CSM of the department explained all the things related to the operations to me. She showed me how the total customer service department works in the branch. She also made me familiarized with the various terms and tools like different application form, procedure, that are used by that department to make the life of employees easier. She also gave a brief description that how an account can be open and the rules regulations for opening any kind of account in BRAC Bank Limited.

2.2 CARD DELIVERY:

An intern of BRAC Bank Limited is also assigned to play assistant role to this service area. For example, by delivering debit credit cards to the customer or bearer, keep the tracker of the regular cards received from the currier and reconcile of the cards. There were four register note book for maintaining the cards; two is for new issue cards and rest for lost and stolen card. In the both cases cards and pins maintain by two separate Branch Sales and Services Officer (BSSO) for security purpose. There were two people in the hold of card and pin of that branch. They have to maintain the existing card user with increasing large number of new card user day by day.

2.3 ACCOUNT OPENING AND FDR OPENING FROM FILL UPS:

Account opening and FDR form fill ups are part of the one the tasks assigned to a BBL intern. There are different kinds of bank accounts starting from current, savings, proprietorship, partnership etc. Every form has different rules for maintain. These rules are declared by Bangladesh Bank.

2.4 DESTRUCTION:

Bank check book, cards, pins expires after a certain period of time. When the time of expirations comes closer bank sent letters and phone calls to the customers for collecting their products. If customers fail to collect bank end the existence of that product. This process is known as destruction. An intern of BBL plays an important role in destruction. His / Her task is divided into three steps.
Step 1: Find out which check, card or pin is close to destruction and list down the names categorizing them based on months.

Step 2: After letter sent from the bank call the listed customers and tell them to collect within upcoming week.

Step 3: After the check, card or pin is destroyed systematically, destroy them manually.

2.5 RECONCILIATION:

Bank reconciliation statement is a report which compares the bank balance as per company's accounting records with the balance stated in the bank statement. Reconcile of the cards, pins, FDR, Cheque books are done every day. Before reconciling we have to count the closing balance of the day, then count how many are being received from the currier and the number delivered to the customers. In the branch everything is reconciled starting from cheque books, cards, pins, FDR’s etc.
CHAPTER 03 : PROJECT PART

3.1 INTRODUCTION:
A bank is a financial institution that brings together depositors and borrowers for giving/receiving surplus and deficit funds respectively. The objective of a bank is to make a profit while acting as a middle man between the above mentioned parties. The assets of a bank are its loans and credit lines that it extends to its borrowers. These assets lead to a revenue stream in the form of interest receivables on loans given. A bank’s liabilities are the deposits kept by various surplus units. These lead to expenses in the form of interest payables on deposits kept. A bank simply takes the money from depositors and lends it to the borrowers.

BRAC Bank Limited started its journey in 2001 and in just 12 years proved to be country's fastest growing bank. Today, the bank has 156 Branches, 22 SME Service Centers, 48 SME/Krishi Branches, over 330 ATMs and 399 SME Unit offices across the country. It has disbursed over BDT 220,139 million of SME loan and has over 1,200,000 individual customers who access online banking facilities. Its services cut across all strata of clientele; be it corporate, retail or SME.

The four major types of banking solutions offered by BRAC Bank include SME Banking, Retail Banking, Wholesale Banking and Probashi Banking. With your permission, I would like to work on the customer services offered by Retail Banking division of the bank. A tentative title of my report is “Customer Services of BRAC Bank Limited”. The purpose of the report is to try determining the level of customer satisfaction with the bank’s current set of retail services.

3.2 RATIONALE FOR SELECTING THE REPORT:

The proposed project is significantly important because it will shed light on the current status of customer services provided at BRAC Bank Limited and the gaps that are present. The findings can be used by the bank to identify the problems that customers are facing while availing the bank’s services. I am working in the retail banking division and it gives me the opportunity to closely interact with the customers, providing me with a bird’s eye view of all the customers services provided. The project will encompass a wide range of services that BRAC Bank offers
to its retail customers and describe and analyze each of them. Customer service is the process of ensuring customer satisfaction with a product or service. In a bank, customer service includes activities such as the retail banking solutions offered, maintaining and servicing customer accounts, dealing with complaints and queries, etc.

This report will be helpful for the person who has intention to learn about retail banking and some other banking institute who wants to launch retail banking beside this it may help the management of BRAC Bank Limited.

Furthermore, as a business student, it will help me analyze the financial solutions offered under the Retail Banking wing of BRAC Bank Limited and identify the gaps in their customer service. Through brainstorming and interaction with the related stakeholders, the recommendations provided to overcome the gaps make the project even more significant.

This report will be helpful for the person who has intention to learn about retail banking and some other banking institute who wants to launch retail banking beside this it may help the management of BRAC Bank Ltd.

3.3 OBJECTIVES:

The primary objective of the project in to provide an insight to the services that is provided by BRAC Bank Limited. More specifically, it will review the different financial services and solutions that are offered by the institution to its customers. These include the deposit and credit services. It will analyze alternate banking channels like CDMs and determine possible problems faced by the customers in availing the bank’s services. The chosen topic has been suggested by my on-site supervisor as it can be used to reflect both the satisfaction level of the customers and the possible short-comings. The findings of the project will shed light on the standard of services currently provided and help identify any gaps or shortcomings. To get some knowledge about the other function related to retail banking division and also to know about the market position and background of BRAC Bank Ltd.

Specific Objective:

More specifically, this study entails the following aspects:
➢ To know about the customer’s acceptance level regarding the recent change of BRAC Bank retail banking division.
➢ To identify the problems that customers are facing while availing the bank’s services.
➢ To know about whether the customer is satisfied with service of BRAC Bank Ltd. Or not.
➢ To know about customer’s loyalty towards BRAC Bank Ltd.

The secondary objective of the report is the completion of the internship programme of the author. Following the three months of internship, BRAC University requires an internship project. So this report has been primarily prepared to complete the internship requirements. The author completed his internship from BRAC Bank Limited, under the retail banking division of Banani Branch.

3.4 METHODOLOGY:

The report has been prepared based on data collected from both primary and secondary sources. The primary source consists mainly of personal observation during the attachment period, practical work experience in different desk of the bank, face-to-face conversation with the respective clients. The main source of the primary data collection of my report was my discussion with Customer Service Managers (CSM) And Branch Sales and Service Officers (BSSO) of the BRAC Bank Limited at Banani Branch & their opinions & comments. It helped me to collect the essential & vital information to make my internship report. The people of Customer Service sectors & their face to face information is my primary data. Data and relevant information are collected for this study through an unstructured questionnaire where customers and employees both were given the questions and responses were taken in the answer sheet. The respondents included clients from different occupation, age and gender. Most of the respondents were from the BRAC Bank Limited, those had account on the bank.

Secondary information came mainly from websites, annual report of the BRAC Bank Limited, various book articles regarding general banking, various brochures published by BRAC Bank Limited. Necessary data and information has been collected by the following sources:
2. Circulars, letters and memos issued by the Banks and regulatory organization i.e. Bangladesh Bank and Govt.
4. Annual report of BRAC bank limited.
5. Annual report of Bangladesh bank.
6. Newspapers and journals.
7. Internet and websites.

3.5 LIMITATIONS:

Like most other projects, there are certain limitations involved. Firstly, due to confidentiality, I am not able to use certain information and customer feedback. All the internal information of the bank was not available for use in the report due the bank’s policy. Customer information is also treated as confidential and hence limited the scope of my report. Secondly, an analysis of the competitors’ services would have provided more depth to the report, but I was unable to gather sufficient information to make an informed comparison.

3.6 SWOT ANALYSIS OF BBL:

SWOT is an acronym for the internal strength and weakness of a firm and the environmental Opportunity and Threat facing by that firm. So if we consider The BRAC Bank Limited as a business firm and analyze its strength, weakness, opportunity and threat the scenario will be as follows:

DORMANT ACCOUNT:

Dormant account is an account which is inactive. Under the BRAC bank policy, if an account remains inactive for 3 months then accounts will be considered as a dormant account. If the account becomes dormant then account holder won’t be able to use it for transactions. For transactions customer needs go to the branch where he or she had opened that account and with certain process account can be active again.

ACTIVATION PROCESS OF DORMANT ACCOUNT:

At first account holder needs to come to the mother branch and then has to fill up a form named dormant account reactivation. Account holder needs to sign and fill up the form and submit it to the customer service officer. Customer service officer will verify the signature and sent the request to the head office through centralized system to reactivate the account. Then it takes 2 to 3 working days for reactivate the account and then account holder can transact with this account. To active dormant accounts charges are applicable.

NOMINEE, SIGNATURE OR ADDRESS CHANGE OF AN EXISTING ACCOUNT:

There are several issues like nominee change, signature change, and address change etc. work regarding existing account.
Nominee is the person who is the authorize person in behalf of the account holder. Basically after the death or any such cases nominee will have the right to take any kind of decision regarding that account. To change the nominee customer needs to come to the mother branch of the account and then fill up a form named nominee change form. In the nominee form, one copy of nominee photograph is needed and account holder has to sign the form that he or she wants to change his or her accounts nominee. Then files need to submit to the responsible officer and responsible person will verify the information and sign. This whole process takes 2 to 3 working days.

For signature change, account holder has to fill up the signature change form and then needs to submit to the customer service department. Customer service officer verify the signature and the information with photograph change, in some cases account holder needs to provide a photograph of his or her own if the previous photograph is not match with the present photograph. This whole process also takes 2 to 3 working days.

Again for name change, address change, and many other factors works as almost in the same process, except the address change process. For address change, account holder needs to provide the NID, which has to match with his present address then the account holder can change the address. The remaining process is same as other like has to fill up a form then submit it to the customer service department and then responsible officer will verify the account and signature passed to the head office. This process also takes 2 to 3 days as well.

ACCOUNT CLOSURE:

If an account holder request to close his or her account, it can be closed. After receiving an application from the customer to close an account, some procedures are followed by a banker. The customer should be asked to draw the final check for the amount standing to the credit of his account less the amount of closing and other incidental charges and submit the unused cheque leaves. The A/C should be debited for the account closing charges etc. and an authorized officer of the bank should destroy unused cheque leaves. In case of Joint A/C, the applicant for closing the A/C should be signed by all the joint holders.

CHEQUE BOOK:
A cheque is a document that orders a payment of money from a bank account. The person writing the cheque, the drawer, usually has a current account where their money was previously deposited. Cheque books are issued to the account holder only against requisition on the prescribed requisition slip attached with the checkbook issued earlier, after proper verification of the signature of the account holder personally or to his duty authorized representative against proper acknowledgment. The four main items on a cheque are

- Drawer, the person or entity who makes the cheque
- Payee, the recipient of the money
- Drawee, the bank or other financial institution where the cheque can be presented for payment
- Amount, the currency amount

For having a Cheque Book customer who opens a new account must initially deposits minimum required money in the account. When the account opening form is sent for insurance of a cheque book bank charges 130 taka from the account for processing the cheque book. Officer then sealed it with branch name. It normally takes 3 working days to produce the cheque book and deliver it to the ordered branch. When the cheque books reaches it destined branch in-charge officers enter the customer’s name & the account number in the Register. Account number is then writing down on the face to the cheque book & on every leaf of the check book including requisition slip. The name of the customer is also written down on the face of the cheque book and on the Requisition slip.

CARD SERVICE:

There are different types of card BRAC Bank Limited provides against depositary accounts, such as an ATM card or a debit card. Bank cards may be limited in their use; some can only be used at ATM machines or for certain purchases. In November, 2009 BRAC Bank Limited became the issuer of one of the world's most prestigious credit cards, American Express® Cards. BRAC Bank Limited has issued one type of American Express Credit Cards, till now, designed to satisfy customer requirements.

REMITTANCE:
Remittance inflows to the economy of Bangladesh are getting larger every passing year, matching with the increasing external demand for its manpower. The resulting development impacts of remittances, as a means of transfer of wealth, on socioeconomic factors are increasingly viewed with importance. Remittances have helped improve the social and economic development of Bangladesh.

Objective of remittance Unit of Retain Division:

The current objectives of this unit encompass the following:

- Bringing remittance though relationship building with Exchange Houses, Western Union, money Gram, Xpress money, along with other Banks scattered around people.
- Disbursing remittance amount to the beneficiaries at the remotest corner of the country.
- Increasing distribution reach of remittance disbursement and monitoring service level of these points.
- Opening deposit accounts of the Non-resident Bangladeshis in an attempt to retain a percentage of the remittance that we bring in
- Operating and managing overseas unit of the bank (own exchange company, management support service, agency network etc)

LOANS:

Loans comprise the most important asset as well as the primary source of earning for the banking financial institutions. On the other hand, this (loan) is also the major source of risk for the bank management. A prudent bank management should always try to make an appropriate balance between its return and risk involved with the loan portfolio. Banks collects deposit for lending & investment, this function is performed by Loans & Advance Department Sanctioning of loan proposal starting from party’s request for a loan collection of necessary papers, information & financial statement, analyzing of those information, preparation of loan proposal, security analysis & valuation, inspection, lending risk analysis, setting terms & conditions have also known to us. BBL follows a procedure for sanctioning loans. They are,

Step 1: A customer who has willed to take loan from bank has to write an application along with the documents such as, two copies of photographs; valid trade license has to be deposited by the
part. There must be description of collateral in the application. The collateral must not be the home state land out of municipal or vacant land. Physical inspection of collateral must be done and market value from the locality has to be determined. It must be done by B.Ss Engineer, Confidential report from other banks is also needed, and Declaration and balance sheet form is needed.

Step 2: Proposal has to be sent to the Head Office by the branch along with the letter of hypothecation & other different types of certificate as per circular.

Step 3: Head Office confirms the sanction with some terms and conditions and if the party agrees with this, he signs on the duplicate copy.

Step 4: To legalize the collateral panel lawyer will complete the documentation and will give letter of satisfaction.

Step 5: After signing the charges documents the loan is created and the limit is ready for disbursement by giving the party a cheque book.

Step 6: After disbursement stock must be submitted by the party on monthly basis. In this case sudden inspection is necessary. In every 45 days the loan should have to be adjusted.

Currently BRAC Bank Limited has four loan related services available in the market. They are,

- BRAC Bank Personal Loan
- BRAC Bank Home Loan
- BRAC Bank Auto Loan
- Lifestyle Plus Loan
3.8 RESEARCH PART:

Data Analyzing Method:

This project assumes that the customers are aware of all the services offered by BRAC Bank and are satisfied, neutral or dissatisfied with the level of services. To analyze the data I used survey answer. After I finished collecting the data, I analyzed the data using the statistical software of SPSS and Microsoft Excel. The first task in analysis was to input data into the statistical software and interpret those using graphical presentation of the findings. Frequency and percentage method were applying using SPSS software to get the result of the findings. Some diagrams and tables used in this report for analyzing the collected data and to explain certain concepts and findings more clearly.

From the questionnaire, I listed the quantitative and the qualitative variables and separated the responses under these two variable categories. I also made a note of the dependent and independent variables among the quantitative ones so that the data is no more complicated.

Sampling Method:

Convenience sampling method has been performed for selecting samples.

Sample size: \( N = 50 \) respondents.

Variables:

To measure the satisfaction level of the customers I will use some variables. Some variables are given below:

- Flexible banking facilities,
- Privilege facility
- More new product,
- BBL takes care of his customers suggestion,
- Segmentation brings benefit,
- Customers get informed from BBL Regularly,
- Negligence from BBL etc.
Here, customer relationship is the only dependable variable and all the other stuffs are independent variables to measure the satisfaction status or the level with the BRAC bank customers.

3.9 QUANTITATIVE DATA ANALYSIS:

Most of the customer’s income level is between at group of 21000-50000. 24 customers out of 50 are in between at group of 21000-50000. 14 customers out of 50 are in between at group of 20000 or less. 10 customers are in between 51000-80000. Only 4% customers of BBL have an income range of more than 100000 BDT. So I Think BBL should look to this income level people also. Customers those who have more salary they have more money to spend and save on their bank account.

**Frequency of Education:**

From the above data we can derive that 32% customers are strongly agreed and 24% customers are agreed and 12% customers are neutral. 24% are disagreed with this statement. 4% customers are strongly disagreed that token system is not effective for customers to take services comfortably. Many customers do not like the token system and create a bad influence on others.
For a service business that is in operation for long term, these effects will negatively affects the goodwill in the long run, which seems to be hazardous. BBL should increases their counter to apply effective Queue Management System in Banani Branch.

Here 44% customers are strongly agreed that alternate banking of BBL is effective. Only 14% customers have agreed with this statement. 22% customers are neutral so I do think that BBL
should try to increase the effectiveness of their alternate banking. 12% customers have disagreed and 8% customers have strongly disagreed that alternate banking of BBL is effective; reason behind this poor number is the awareness among customers regarding the alternate banking facility of BBL.

CHAPTER 04: FINDINGS FROM THE STUDY & RECOMMENDATION

BRAC Bank Ltd is an organization which is operating their business successfully in the banking sector since 2001. Therefore, it is very tough to recommend on any aspect of the company.

However, as it is the requirement of the report so I have come up with few recommendations, after conducting the research.

4.1 PROBLEMS FOUND IN BBL BANANI BRANCH:

1. The present system is time consuming both for the bankers as well as the clients. For instance; in terms of bankers, the officers have to go through a lot of files in searching the details of a particular transaction, if it is backdated. In terms of clients, they have to wait in a long queue in order to let the officer find out the correct file.

2. In some cases not paying attention towards customers during a busy hour creates a negative situation. 26% customers from my survey have disagreed that Customer Service Officer can’t response to clients properly.

3. Customers do not receive appropriate attention. Even though these customers aren’t a/c holders of the bank, the goodwill and negative word of mouth of the bank and its overall image of quality service are hampered.

4. In this branch most of the bearer does not know about the token system and they come to the desk directly. When the service provider tells them to get token don’t want to. 24% customers are strongly disagreed that token system is not effective for customers to take services comfortably.

5. In case of foreign remittance there are times when the clients do not know which branch are they to receive their money from and thus going to branch to branch.

6. Many customers do not like the token system and create a bad influence on others.

For a service business that is in operation for long term, these effects will negatively affects the goodwill in the long run, which seems to be hazardous.
4.2 OTHER FINDINGS:

The service of BRAC Bank Limited is competitive and efficient comparing to the others; but there is significant scope of improvement.

1. The bank needs to make significant effort to improve the employee relationship with clients.
2. The environment inside the bank needs to be improved significantly for efficient and pleasant banking activities for the customers.
3. Steps should take to improve employee job satisfaction.
4. More customized products and service should introduce.
5. Call center team often provides inadequate or incorrect information to the customers.
6. To increase customer satisfaction the bank needs to improve their service quality by providing more importance on customer’s preference.
7. Service charge is relatively high than others.
8. Branch needs more personnel to ensure smooth service.

In terms of the customers, environment of the bank is quite ok but the services of cash needs to more fast also more attention need to be given to the customers when they come for foreign remittance.

4.3 RECOMMENDATIONS:

After analysis of all gathered information and other relevant documents, BBL should carefully consider following matters:

1. Employees are needed to give adequate training to work and handle clients under pressure. In this case both the branch authorities and higher authorities can persuade each other to train the employees.
2. BBL should try to improve the effectiveness of their alternate banking. From my survey I have found that 22% customers are neutral about the effectiveness of the alternate banking. So BBL should emphasize to decrease the numbers of neutral customers about alternate banking.
3. BRAC Bank customers have access to the vast ATM network of others bank and Q-cash booths but transaction charges is too high that may be the vital cause to boost displeasure among customers.
4. Some of the customers do think that BBL charges more than other local private bank. So I guess BBL should also look at it.

5. Employees should get proper knowledge on products & facilities to deliver the customer regarding right time, right facilities as per their requirements. BBL should maintain errors-free customer’s record & database which will help to identify the major customer’s facility requirements. From my survey I have found that 20% customers are disagreed that BBL maintains an error free records.

6. Most of the customers of BBL have an income of in between 21000 to 80000. Around 96% customers are in this group. So I guess BBL should emphasize more on those customers who have a salary of more than 1 lakh.

7. Cash Deposit Machines (CDM) service of the bank is completely dissatisfactory that is why they should improve ATM service.

8. Customer service should be more smart and fast. So BBL should recruit more capable & experiences employees for faster customer services.

9. Card division should be more committed to deliver product on time.

10. At present BBL perform business activities through 156 of its branches but they should open more branches in order to reach to more customers.

11. Bank should be fast in cash payment, and to clear a cheque.

12. BRAC Bank Ltd. need to increase own ATM booth all over the country and ensure their smooth operations.
Since the banking service especially the private Banks are doing an outstanding business, so it is clear that the modern people are more concerned about securing their valuable assets and get high-quality and timely services. For this reason lot of new commercial bank has been established in last few years and these banks have made this banking sector very competitive. So, now banks have to organize their operation and do their operations according to the need of the market. Banking sectors no more depends on a traditional method of banking. In this competitive world this sector has trenched its wings wide enough to cover any kind of financial services anywhere in this world. The major task for banks, to survive in this competitive environment is by managing its assets and liabilities in an efficient way.

Since its inception, BRAC bank has been working according to its 3p agenda- Planet, people and profit. From the beginning, BRAC bank has been working to ensure best use of human capital. As a member of GABV (Global Alliance for banking on values), BRAC bank put emphasis on sustainable banking by making sure utmost service for people and economy.

In this cutthroat world, there is huge competition. Banking industry is no different. All banks try to make a strong presence to market by rendering best possible solutions and supreme service quality. Nevertheless, satisfaction is highly personal opinion; definition of satisfaction differs from person to person. Satisfaction is something perhaps beyond adequacy, beyond expectation that put a positive impression on customer’s mind. Since there is no fixed definition of customer’s satisfaction in banking, I made this report by making an effort to question customers with whom I got opportunity to get close in the course of my internship. I tried to know from them what they think would make them satisfied about service.

This project concentrated mostly on the customer services of the Banani branch and identified some valuable information that could make the services more attractive and also enhance the banks reputation among the customers. With the current performance of the Bank and with little improvement here and there will certainly make BRAC Bank one of the best Private Bank in Bangladesh in the near future.
