With a view to develop skilled professionals in every sector, BRAC University has undertaken the internship training program for its BBA students. There were some problems while I was preparing this report. A wholehearted effort was applied to complete the report and to bring a reliable and fruitful result. In spite of having the wholehearted effort, there exits some limitations, which acted as barrier. The limitations were:

1. Confidentiality is the main problem; as a result some confidential facts were not sufficiently disclosed by the respective personnel.
2. Lack of available up-to-date information.
3. Only few days’ internship’s experience is not enough to find out all the pros and cons of such a vast project.
4. The employees of Pran- RFL Group had no eagerness to supply more information because of extra hardness.
5. As because Pran- RFL Group is a large Company; it is very difficult to understand each and every aspect of its operation within a very short period of time.
6. Lack of previous practical experience in this concern, as I cannot accumulate all the relevant facts.

7. Lack of larger amount of data has been collected.
Chapter-2

4.3 Recruitment and Selection Process in PRAN-RFL:

PRAN-RFL is looking for top-caliber people who want the flexibility and resources to grow in their career. If someone is that kind of person who has always stood out, they offer a place where one can continue to excel. PRAN-RFL has thousands of diverse people from different cultures and backgrounds working in a variety of different jobs in different fields.

- Merit is the sole criteria for selection.
- Attitude is given as much weight as functional competencies.
- Panel interviews comprising of Functional Head & HR Head.
- Sources for recruitment are through campus, consultants, employee referrals, internal job postings and the internet.
- All positions involve written tests.
- Antecedent verification is an integral part of our recruitment process.
- Medical fitness is pre-requisite for all positions.
- They are an equal opportunity employer and do not discriminate on the basis of race, community, religion or sex.

4.3 (a) Recruitment process:

A responsibility for recruitment usually belongs to the HR department. This department works to find and attract capable applicants. Job description and speciation provide the needed information upon which the recruitment process starts. The functions of the recruitment section of PRAN-RFL are given below:

1. Need Assessment
2. Defining the position description
3. Checking the recruiting options
4. Advertisement
5. Screening and Short – listing Applications
6. Written test
7. Selection interview (3 – tier)
8. Employment decision (Application Bank)
9. Offer letter
4.3 (a-i) Source of Recruitment:

Bangladesh is done in four ways depending on the job category of the vacant position. Therefore, the recruitment process of this organization is classified into four types, which are done based on the job grade/group. These are as follows:

- Entry-level management
- MT (Manager Trainee)
- Mid or and senior level management
- Graded staff/Non-management staff

There are two most important sources that have been followed by PRAN-RFL.

1. Internal Source.
2. External Source.

**Internal Source:**

There could be a person competent for the required job working within the organization. If there is, the existing manpower is then shuffled to place the selected person in the new post. If there is no such person inside the company, then the management goes for the second step.

**Job-posting programs:**

HR departments become involved when internal job openings are publicized to employees through job positioning programs, which informs employees about opening and required qualifications and invite qualify employees to apply. The notices usually are posted on company bulletin boards or are placed in the company newspaper. Qualification and other facts typically are drawn from the job analysis information. The purpose of job posting is to encourage employees to seek promotion and transfers the help the HR department fill internal opening and meet employee’s personal objectives. Not all jobs openings are posted. Besides entry level positions, senior management and top staff positions may be filled by merit or with external
recruiting. Job posting is most common for lower level clerical, technical and supervisory positions.

**External Source:**

After considering above option, the company goes for external recruiting if needed. Those who best meet the skills, qualifications, experience and competencies required for the position should fill vacancies. Therefore, if there is no candidate within PRAN-RFL, who is suitable for the role, external advertisement should be placed to attract the potential candidates followed by the selection procedures.

❖ **Advertisement:**

The Company gives advertisement in national dailies to attract the talents from the market. PRAN-RFL puts two types of advertisements in the newspapers. It sometimes keeps the identity concealed in the ads, mentioning a GPO BOX number only. The purpose of the concealed identity is to avoid the unwanted pressure from the stakeholders for the employment of their desired candidates. But this way the company may lose the talents out there in the market who would have applied for the same post had they known the name of the organization. This is why the company kept the identity open in their recent job advertisement when the quality of the candidate was a very important factor to consider. By revealing the BPL identify, the company attempts to attract the best potentials among all the others.

❖ **Employee referrals:**

Employee referral means using personal contracts to locate job opportunities. It is a recommendation from a current employee regarding a job applicant. The logic behind employee referral is that “it takes one to know one”. Employees working in the PRAN-RFL, in this case, are encouraged to recommend the names of their friends working in other organization for a possible vacancy in the near future.
**Employment Agency:**
An agency finds and prescreens applicants, referring those who seem qualified to the organization for further assessment and final selection. PRAN- RFL also takes help from such employment agency. They post their job vacancies on job portal like: BD jobs, BITAC.

**Walk-ins and Write-ins:**
Walk-ins are some seekers who arrived at the HR department of BPL in search of a job; Write-ins are those who send a written enquire. Both groups normally are asked to complete and application blank to determine their interest and abilities. Usable application is kept in an active file until a suitable opening occurs or until an application is too old to be considered valid, usually six months.

**Consulting the CV Bank:**
The unsolicited applications stored in the data bank are consulted. If the quality of a person matches with the requirements mentioned in the position description, then he / she is called for interview. If not, then the third step is followed.

**4.3 (b) Selection Process:**
Selection is the process of gathering information for the purpose of evaluating and deciding who should be employed in particular jobs.

**4.3 (b-i) Screening and Short-listing Applications**
The responses to the advertisements are sorted and screened. The CVs as well as the Covering letters are judged. In the covering letter, the style and language of writing, the emphasis put on the areas asked for in the advertisements and the quality of the letter (whether it is specifically tailored to the advertisement or just a standard response) are the aspects that are judged. Different weights are assigned to the selection criteria mentioned in the man specification depending on their relative importance. (For example, educational institutions like IBA, BUET are given the highest weight among the local ones and the foreign universities of UK, Australia, etc. are put at par with the best of the country). Based on the presence of these factors to the
desired extent (experience, educational degree, computer literacy, etc) the cumulative weights for all the applicants are counted and the short list of a sizable number of the top most candidates is generated.

However, the HR officials also study the CVs with the respective line manager to check whether any valuable deciding parameter is missed that are mentioned in the CVs. Then the candidates selected in the short list are called for the written test.

4.3 (b-ii) Written Test

Written test is a regular part of the normal recruitment process. It is conducted as and when required. Previously no written test was taken for the management employee; the applicants had to go directly through the interview process. After the introduction of the manager trainee program, the written test before the interview process has proved to be effective and a useful tool to select the desirable candidates. The written test includes psychometric test, test on behavioral competency, and written test on communication skills. The candidates are called for the preliminary (first) interview based on their performance in the written test.

4.3 (b-iii) Selection Interview

The interview process is a three-tier one. A preliminary interview is conducted which follows the “elimination method”. After that, the second interview takes place with a very few number of candidates. Then they finally selected person is called for the final interview. The interview time is kept convenient for the candidate especially if s/he is working elsewhere at the time of interview. In that case the chosen time is after the business hour or in any holiday.

4.3 (b-iv) Reference Checks

Reference checks allow obtaining information and opinions regarding the person’s character, quality of the work and suitability for the position. It is an opportunity to validate the information received from the candidate via their resume and the interview. Speaking to the candidate’s manager or other people whom they have worked with should also check internal candidates. The opinion of a referee who has worked can for an extended period is likely to be more accurate than the assessment from one to two hours of interviewing.
The candidate’s immediate supervisors are needed to be contacted. Permission should be obtained to contact the candidate’s referee especially if their current employer is contacted. It is not unusual for a candidate to be uncomfortable with the organization’s speaking to a current employer. If they are uncomfortable, an alternative person other than the current employer has to be chosen by the candidate (work colleague, for example). Unless the candidate is a graduate or school leaver with no prior work experience, only contact work related referees should be contacted. At least two reference checks should be done, however the more the better. There is a sample reference-checking guide that is more or less followed. It is important to prepare a reference check guide that asks the referee about the key skills, competencies and experience required for the position. Reference checks need to be done by line manager or personnel of the HR department. During the interviews, the candidates would have given some examples of incidents, tasks or projects that can be asked about. The referee should be asked what the candidate did in those examples, which ascertain whether the information received from the candidate is consistent with that of the referee.

4.3(b-v) Employment Decision

If the candidate has no problem with the stated terms and conditions of the job and the organization mentioned and discussed in the final interview, s/he is offered an application blank. The application blank is a standard format of employee-information that includes all the information the organization needs regarding the personnel. The candidate has to fill this blank and submit this to the company along with a CV.

4.3 (b-vi) Offering the Role:

Once the above activities are done, the candidate is given an offer letter specifying the salary package, job responsibilities, utilities that will be provided by the organization. Even at this stage the selected candidate has the chance to withdraw her/himself from the job offer. S/he is always free to discuss whatever difficulty may arise regarding pay structure/ facilities, etc. the door of HR is kept open for any sort of relevant discussion.
• **Verbal offer:**

The verbal offer of the role to the candidate is given once the employment decisions and reference checks have been successfully completed. The discussion cover the following:

- Tell the candidate that company would like to offer them the role.
- Congratulate them.
- Tell them the remuneration package that is being offered, including superannuating.
- Ask them if they are happy with it.
- Ask them if they verbally accept the position.
- Tell them that company will be sending them a written letter of offer and introductory package.

• **Written letter of offer:**

A written letter of offer forwarded to the candidate. Once the candidate has verbally accepted the position, the appropriate letter of offer is organized. This letter sends to the candidate within two or three days of making the verbal offer. An introductory package also sent to the successful candidate, along with the letter of offer. At least one week before the person commencing in their new position, an appointment notice will be placed on notice boards and/or the internet.

I choose this topic because I was really keen to know about the recruitment and selection process as PRAN-RFL is a organization which follows cost leadership strategy and is understaffed. So the amount of workload and workforce is very interesting comparing the overall industry. And also I wanted to work on a very new topic which will be very informative and unique. So considering this I have talked with my supervisor and my university internship supervisor to come up with this type of research work as my internship report.

5.2 Recommendation:

At the conclusion of the report I would like to say that the PRAN-RFL has practiced the standard human resource management. Here I have some recommendations that identify avenues for improving the recruitment and selection policies of PRAN-RFL:

1. Timeliness is an important ingredient in terms of recruitment process. The recruitment department of PRAN-RFL should look into the matter of consuming less time in the process of calling the applicants after their responses very seriously.

2. To provide an adequate pool of candidates the organization could use more clear and specific statements in the ad in terms of the minimum educational degree, preferred institutions and other necessary criteria based on which the initial screening of the applications were conducted.

3. To increase the satisfactory level of current interviewing process they can choose group interview method to cope up the problem. Sometimes recruitment section has to take interview of a large pool of candidates group interview method can be great solution to this problem.

4. From the survey we have seen that the organization prefer experienced people in the selection process. Sometimes they give advantage for the candidates who have experience even if the positions are not advertised for experience people. This will discourage new potential graduates apply for the organization in future. The organization should give more opportunities for fresh graduates.

5. Sometimes the organization provides advantages to the referred candidates. This is also a bad practice for organization reputation. Sometimes a highly qualified candidates cannot get the job because of less qualified referred candidates.
