Executive Summary

BRAC Bank Limited is one of the most leading private commercial banks in the country having wide branch and associate network throughout the country. This bank is originally SME focused bank. And it has been playing a vital role in socio-economic, industrial and agriculture development as well as in the overall economic development. SME Banking division SME is an additional and specialized horizon of the bank which serves the bank’s special focus in promoting broad-based participation by catering to the small and medium entrepreneur. The network of SME has already been established throughout Bangladesh.

This is the internship report based on the three month long internship program that I had successfully completed in BRAC Bank Limited under Human Resource Division from 25.05.2014 to 25.08.2014 as a requirement of my BBA program on Department of Business Studies, BRAC University. As being completely new to practical corporate world setting, every hour spent in the HRD gave me some amount of experience all the time all of which cannot be explained in words. But nevertheless, they were all useful for my career. This report includes how an HR Department works, what are the possible divisions and work distribution in an HRD, recruitment process, how to control insubordinations, compensation and benefits planning, how to lead and so on.

I have worked in Human Resource Division of BRAC Bank Limited with almost all the wings of HR like Recruitment, Compensation, Pay and Benefits and HR Operation.

BRAC Bank has a rich Human Resource Department. It maintains the organizational responsibilities successfully. The HR team of BRAC Bank is completely organized and well reputed team.

First seven weeks of my internship program on Human Resource Division I have worked with the full support of Operation wing and the next three weeks I worked with recruitment wing then the next two weeks I got attached with the Payroll wing.
I worked with the operation and HR services in the interim period. I did update the all employee’s education data for IFS in HRIS. It was my 1st project and also I have assisted the compensation, pay and benefit team for compensation survey project.

I have worked with different types of recruitment procedure of BRAC Bank Limited. Within my three months internship around 424 (Apprx.) regular employees and 451 (Apprx.) contractual employees are recruited in regular basis in BRAC Bank Limited in different procedure and system. I have also assisted the recruitment team in doing other works like joining workers, updating CVS etc.

My personal views about the HRD, my value addition to the HRD are also included in the report. With limited knowledge and experience I tried my best to make this report as much understandable as possible and translated the real world experience into a document. The various boundaries to process improvement and maintaining ethical standards in a corporate environment have also been experienced. But even so, how those policies and practices are In-Line with the corporate strategy are discussed in this report.

Before drawing any conclusion based on this report it may be noted that the report was prepared in a very short term and there is lack in data. But still the report may be useful for designing any further study to evaluate the HR facilities provided by the banks.

1. Introduction:

1.1 BRAC Bank Limited – An Overview of the Organization

BRAC Bank Limited is a full service scheduled commercial bank. It has both local and International Institutional shareholder. The bank is primarily driven with a view of creating opportunities and pursuing market niches not traditionally meet by conventional banks. BRAC Bank has been motivated to provide “best-in-the-class” services to its diverse assortment of customers spread across the country under an on-line banking dais.

At present, BRAC Bank is one of the fastest growing banks in the country. In order to support the planned growth of its distribution, network and its various business segments, BRAC Bank is currently looking for impressive goal oriented, enthusiastic, individuals for various business operations.

The bank wants to build a profitable and socially responsible financial institution. It carefully listen to the market and business potentials. It is also assisting BRAC and stakeholders to build a progressive, healthy, democratic and poverty free Bangladesh. It helps make communities and economy of the country stronger and to help people achieve their financial goals. The bank maintains a high level of standards in everything for our customers, our shareholders, our acquaintances and our communities upon, which the future affluence of our company rests.

According to the Half-Yearly Financial Statement of 2013- the number of Employees including contractual engaged for the whole year or part there of (who received a total yearly remuneration of Tk. 36,000 or above) were 6,306 where as the total number of employees were 7,075 as the same period of pervious year.
1.2 **Scope of the Report:**

Human Resources are essential and foundational to the growth and development of any organization and hence the ability to satisfy and retain quality and trained employee is vital. It must be therefore very crucial to identify if there is an underlying dissatisfaction amongst the existing employees of the organization. Therefore, the bank is the largest beneficiary because through this report we can identify how to confront the challenges.

This report will give a clear idea about ‘Human Resources Department in the BRAC Bank Ltd.’ How efficiently they utilize their resources? What types to benefits they offer to their employees to motivate their work? Does the recruitment process is effective? What additions system BBL can apply further towards employee for work hard? To have answers of all these questions, it is tried to go through the BBL HR policies; with three months working experience in HR and had discussions with officials of different wings.

1.3 **Methodology:**

In order to attain the objectives, collection of primary data is necessary. This data will be used to analyze the problem statement. The largest part of the analysis however would obviously be conducted by carrying out the employee satisfaction survey. The intention is to obtain a randomly selected unbiased sample of 30 employees across the bank and to question them on various HR Grounds to assess the employee satisfaction level. Therefore the methodology would include relevant information is collected from interviews, Surveys, observation and annual reports of the bank. The relevant information is collected from the primary sources and also uses the secondary sources of information.

**Primary data are collected through:**
- Observation for the total internee period
- Open ended and close ended questions
- Conducted discussions with Officers of HRD

**Secondary data are collected through:**
- Manuals and Annual Report of BRAC Bank Limited
- Website browsing.
1.4 Limitations of the Report:

The sources of the report are collected from different desks, various documents of BRAC Bank Limited (BBL). Though the entire staff member remains busy all the time for their desk work they helped a lot to manage and collect the data & information. But it was very difficult to collect information on the client as it is very sensitive and secret issue for the Bank. Every task has some limitations. So, there have also some limitations of the study. These are as follows-

a) Shortage of time period: This report is written within a shorter period of time since many days have passed during the training session. So the time constraint of the study hindering the course of vast area and time for preparing a report within the mentioned period is really difficult.

b) Busy working environment: The officials had some times been unable to provide information because of their huge routine work. That is why we do not gather vast knowledge about the critical issues.

c) Confidentiality of Management: There some information which are confidential for collecting the data. So, some data could not been collected for confidentiality or secrecy of management.

d) Uneven Sample Distribution: The sample distribution may not be even, there may be a majority of people coming from a fixed range of income level.

e) Information such as: Pay Scale Amount, Transparency of Departments in the Survey were very much confidential for the company which was a major limitation for my study

f) Did not have the permission from BBL to show all the names of the interviewees from the bank.

The Bank plans to achieve this by increasing access to economic opportunities for all individuals and businesses in Bangladesh with a special focus on currently under-served enterprises and households across the rural-urban spectrum. BRAC Bank believes in mutual benefits, the Bank’s and its clients’ benefit will depend on each other. So the pursuit of profit and developmental goals is mutually reinforcing. The target is to increase the ability of under-served individuals and enterprises to build their asset base and access market opportunities so that it increases the economic well-being for all Bangladeshis at the same time, and this will contribute significantly to the profitability of the bank.

BRAC Bank intends to set standards as the market leader in Bangladesh. It will demonstrate that a locally owned institution can provide efficient, friendly and modern full-service banking on a profitable basis. It will produce earnings and pay out dividends that can support the activities of BRAC, the Bank’s major shareholder. Development and poverty alleviation on a countrywide basis needs mass production, mass consumption and mass financing. BRAC Bank’s goal is to provide mass financing to enable mass production and mass consumption and thereby contribute to the development of Bangladesh. The Bank’s goals are thus aligned with those of BRAC.

The Vision Statement

We know that a vision statement should be one, long sentence with specific details about where an organization wants to be in future. In the long run a business or an organization has to meet a certain target or goal, which is what, comes into the vision statement. So the above plan of BRAC Bank is summarized as follows:
“Building a profitable and socially responsible financial institution focused on Markets and Business with growth potential, thereby assisting BRAC and stakeholders build a "just, enlightened, healthy, democratic and poverty free Bangladesh".

**Mission:**

BRAC Bank will adhere to highly professional and ethical business principles and internationally acceptable banking and accounting standards. Every BRAC Bank professional will need first of all a commitment to excellence in all that he/she does, a keen desire for success, a determination to excel and a drive to be the best. BRAC Bank Ltd. will individually and jointly learn continuously from customers and professional colleagues around the globe to improve the way of doing business so that the Bank remains the best in market. The Bank is willing to walk that extra mile with enthusiasm and empathy to serve their customers and to solve problems together so that their customers succeed in their business and remain loyal to the Bank. BRAC Bank will set up goals for themselves and then exceed the goals that they have set up. The Bank shall not accept failure.

**The Mission Statement**

Here also we know that the mission statement for any business or organization must be in line with its long term plan or vision. The mission statement should clearly state ‘what is the short term plan of the organization to achieve its long term goal’, which is the vision, or ‘doing what exactly now as well as in near future will ensure our goal in distant future’. But BRAC Bank has multiple mission statements, each important and specific to its vision. The following lines will show the mission statements of BRAC Bank Ltd:

- Sustained growth in 'Small & Medium Enterprise' sector.

- Corporate Assets to be funded through self-liability mobilization. Growth in Assets through Syndications and Investment in faster growing sectors.

My Internship Experience

• Job Description
• Critical Observation
• Areas Need to Improve
3. **My Internship in BRAC Bank HRD**

As an intern I was given all the liberty to work freely in BRAC Bank HRD. I was given specific tasks periodically which were important for the department. First seven weeks of my internship program on Human Resource Division I have worked with the full support of Operation wing and the next three weeks I worked with recruitment wing then the next two weeks I got attached with the Payroll wing. My value addition to BRAC Bank HRD is discussed below:

**3.1 Job Description:**

- Updating the all employee’s education files in HRIS.
- Updating employees experience files in HRIS.
- Creation of Database of the interview candidates.
- Conducting different interviews.
- Maintaining & updating database of the employees.
- File processing.
- Updating personal files in IFS.
- Checking the documents of personal file.
- Maintaining the external CVs.
- Employee Satisfaction Survey results preparation.
- CV data entry.
- Calling the candidates.
- Joining of the selected candidates
- Assisting the recruitment team in checking the reference of all the BRAC Bank employees.
- Maintenance of the external CVs in archive that come to the HR or collected from the job fair and from different sources.
- Processing of leave of the employees.
- Updating the Database of disciplinary actions.
- Creating the Database of full & final settlement of the resigned or terminated employees.
- Creating documents for Project “Compensation and Benefits survey in BRAC BANK”.
- Data entry for Religion, Gross salary, Wage code assigning for payroll team.
3.2 Critical Observations:

As I have mostly worked with the recruitment team and operation team I have noticed that one of the characteristics of this fastest growing bank is rapid expansion of service area. And to support this, BRAC Bank relies on heavy recruitment. In the past three months, BRAC Bank has recruited over 900 people. But this large volume of recruitment gives rise to a question that whether BRAC Bank is preferring quantity over quality regarding its manpower. The following sections will briefly describe this issue.

We know that in Human Resource Management, Recruitment is one of the key activities of an HR Department where the quality of recruitment directly affects organization’s productivity thus success in the long run. So the performance of HR Department in finding good candidates and selecting the best from the pool is vital for an organization. In BRAC Bank, staff requisitions come in short interval every week and Department Heads, Managers puts pressure on Recruitment to get the requisitioned number of people as soon as possible. It is as if they don’t care whether the new hires will fit for the post or not. They completely rely on the interview and never concern themselves with the fact that within a limited amount of time, quality recruitment is impossible. Most of the time, Recruitment wing in HRD gets requisition for processing along with some pre-selected CVs coming from the concerned departments. The managers who place requisition for manpower interviews those candidates unofficially and then they send the CVs along with their requisition form. This reduces the work of the Recruitment wing in HRD to a great extent but chances of selecting a deserving candidate from external sources is reduced as well and it also opens up scope for nepotism. References from superior levels are also entertained as those CVs are always given priority in times of recruitment even if the candidate is unfit or unqualified for the vacant post. In addition, they did not give job vacancy post in external sources like bdjobs, prothomalojobs, newspaper for lower level jobs or entry level jobs because they did not want to expense money for it.
This bold style of recruitment might be the reason behind high turnover rate in BRAC Bank Ltd. The following data analysis will show last three months manpower status in the Bank in terms of number of recruitment versus number of employees resigned.

Chart Recruitment vs. Resignation

The high level of resignation tendency seen among the HR Contractual staff is due to the fact that they do resign for better opportunities and additionally, the HR Contractual staffs becoming permanent or regular more frequently as a considerable number of CVs against an Internal Job Watch comes from existing contractual employees of the Bank along with their respective line managers’ recommendation.
Other issues regarding HR Recruitment are discussed below:

• Not Sufficient manpower to execute large sized recruitments. For a small recruitment team (7 members only) the large number of requisition processing has become a challenge recently as the Bank is growing faster than expectation.

• There is no rule, policy or guideline provided to the recruitment officers for the CVs which are rejected after an interview.

• The accepted candidates’ CVs go to their personal file upon their joining in the Bank and sometimes the selected CVs are also get stored with the not selected CVs or with newly arrived CVs. So these candidates are also called during interview.

• The rejected CVs are always kept stored wherever there is some space in the office. Teams’ coordination is vital for a department’s success. The wings related to Recruitment often fail to coordinate themselves due to stagnant or duplicated processes.

During internship program, I have found some critical issues in the other wings of Human resources Department of BRAC Bank Limited—

• It has seen that BRAC Bank does not go for paper ad that much when they recruit employees. Only when they recruit the Management Trainee Officers and higher positioned employees like CEO, then they give ad in the newspaper. They should give more paper ad so that many people can know about it.

• BRAC Bank is a big company now. Insufficient manpower in proportion to the bank’s total workforce. They should recruit sufficient people based on the demand of different wings in HR as there is lots of pending work in HR admin & in Pay benefits because of less manpower. Sometimes they keep a lot of work pending. If they check the papers on regular basis then the work does not remain pending.

• Strong influence of external references in some cases. The external forces should be reduced.

• HR software in use needs up gradation and modifications.

• BRAC Bank uses VISTA Manager as software for different purposes. Sometimes it disturbs and gets slow.

• BBL staffs are not uses modified desktop version for that they are facing lots of problem while they are performing on specific task.
• Finacle software is too much slow because of this payroll team cannot perform fast.
• The salary structure is not good enough according to the work load of employees for that they cannot perform well.
• Online recruitment system is not upgraded
• BBL has older promotion policy for that right people are not recognized on time.
• HR service delivery desk is not giving proper services on time due to less manpower.

3.3 Areas need to improve:

• A CVs’ archive should be maintained in a computerized database to reduce paper uses and space consumption. The CVs can be scanned as PDF files and maintained in Compact Disks archive.
• The existing requisition form can be made simpler by turning it into a one page form instead of two including only the needed fields so that one glance is enough to verify it. This will also reduce hassle when photocopying them for personal files or other documentation or filing.
• The Interview Scorecard can be qualitative instead of quantitative so that Board Members can easily fill up and comment about an interviewee in the scorecard.
• HR Vista Manager needs to pick up more features & speed. It should be upgraded.
• They can go for paper advertisement also for the other vacancies rather than Management Trainee Officers and higher positioned employees.
• Online recruitment system should be updated so that no need to data entry for interview.
• Performance Management system should be online based.
• Higher right people in right place according to person-job match criteria.
• Finacle software should be upgraded.
Chapter # 04

Human Resource Division of BRAC Bank

• Different types of employees

• Human Resource Division
4.1 Different types of employees:

The BRAC Bank Limited has in different employee’s criteria. There are different types of employees working in different places inside BRAC Bank. The types of employees are-

1. **Regular/ Full time employee:**
   In full time category, employees are joined as probationary for six months or one year depending on job category. They also have to sign a deed for 5 years along with depositing taka 2 lac refundable. The regular employees are allowed to get the bonus, incentives and other allowances with their basic salaries. And these types of employees also have the benefit of getting extra facilities the BRAC Bank limited is providing for their employees.

2. **HR Contractual:**
   Contractual employees are taken for specific period like six months basis. Along with their salary, they get attractive performance bonus if they achieve their target which determined by organization. HR temporary contract are for those categories whose Job description is such, where he/she needs to be under the direct supervision of Bank’s authority, whose performance is monitored by the Bank Management. They might be specialist, consultant, and specially assigned staff. Staff under HR contract are those people who directly or indirectly deals with customer, has access to Bank’s confidential data’s & valuable properties (car, etc.), deals with sensitive areas, also where staff need to deal with customer as a representative of BRAC Bank directly.

3. **Outsource Staff:**
   Other contractual employees are not entitled for any service agreement. They will be recruited through outsource agencies. The requirement of any support staff through outsource agency must come through HR signed by the Division Head. HR will send the requirement to provide staff by the Outsource Agency. Outsource Staff recruitment depends on the budgeted requisition of the staff from the respective departments. However, for non-budgeted requisition it will go through after the approval process of MANCOM. The bank reserves the right to terminate the contract with the Outsource Agency without assigning the reason whatsoever. The Outsource Staffs salaries are fixed and they won’t get any allowances with their salary.
4. Intern:
To encourage and help human resource development in the financial industry the Bank may decide to offer internship programs to individuals or educational institutions. The decision to enter such an engagement will be decided by the MD& CEO on the recommendation of the Department Head.

The HRD will prepare the proposal of such engagement with individual/institution and forward it to the MD& CEO for consideration with the recommendation of the Head of HR. Individuals engaged as Internees will be paid a consolidated Honorarium of Tk. 5000/- per month, as decided by the MD/MANCOM and will not be entitled to any other benefits. Managing Director & CEO will determine and analyze the necessity of intern on the basis of yearly budget and also requirement of special projects. As per requirements Department Head will make the intern requisition and after receiving intern requisition HR will take 15 days for an intern to join.

All Internships program will be for a three months. Prior approval by MD& CEO internship program can be extended for a maximum period of six months.

5. Management Trainee Officer (MTO):
Management Trainee Officers highly qualified students of BRAC Bank Limited. The MTO’s are regular employee but they have to learn as a student inside BRAC Bank for the period of one year. After one year if they can complete their learning period successfully they will become a senior officer directly from the MTO.
4.2 Human Resources Division:

Having a Human Resources Department in Bangladeshi business organizations today is becoming a common and important part. But Human Resource Management is a relatively new discipline to study and implement in this part of Asia and in most organizations HR Department work as a ‘Support’ department to the organization. Whereas it was supposed to be an integral part of the business without which an organization cannot maximize the utility of its most valuable resource, which is the workforce, the employees of the organization. In HRD, there are 24 permanent employees are currently functioning.

In BRAC Bank Ltd. there are three different divisions of departments. One is ‘Business’, another is ‘Support’ and the other is ‘Operations’. Here also HRD is a Support department to the Bank. The ‘Business’ division includes the departments which are directly related to the Banks banking business, banking products e.g. SME, Retail, Corporate etc. Whereas ‘Operations’ division includes departments related to logistics, transports etc. e.g. the GIS (General Infrastructure Services) Department. BRAC Bank also outsource for contractual posts e.g. the Bank is currently outsourcing from an organization named “CLEANCO” for floor maintenance. They also hire HR Contracts who, upon satisfactory performance and experience, can achieve a regular post in the bank. The HR policies regarding employees of BRAC Bank will be discussed later.

The Human Resources Department currently has 3 different wings. These are:

- **HR Relationship, Process Management and Recruitment**
- **Compensation, Pay and Benefits**
- **HR Operation/ Administration**

All the senior managers of these wings reports to the Head of HR, Ms. Fatema Rezwana who is also one of the Senior Vice Presidents and member of the Management Committee (MANCOM) of BRAC Bank Ltd. Organogram of HRD is given below:
HO RC & B = Head of Recruitment Compensation & Benefits
HO HCD = Head of Human Capital Development
RM = Relationship Manager
ARM = Associate Relationship Manager
Functions of the HRD

Though there is a big difference between text books and real workplace scenario, BRAC Bank HRD’s functions does not differ much. According the HR discipline, they too have a recruitment division, compensation & benefits planning division and there are performance measurement methods and rewards for good performance as a motivational drive in BRAC Bank HRD’s policy. The HR Administration division and MIS & Strategic planning division is now under HR Operation Wing. The functions of BRAC Bank HRD are discussed elaborately in the following sections.

4.2.1 HR Relationship, Process Management and Recruitment

The recruitment division is responsible for collection of CVs, Job Applications for vacant posts, Internship Applications etc. The recruitment officers collect and store these hard copies and also updates, maintains computer databases regularly. The recruitment officers’ task is to organize CVs for potential candidates so that in time of recruitment they can be found and short listed within a reasonable time. The very general idea about the functions of recruitment division is that after CV short listing, the short listed candidates are contacted (usually by telephone) for interviews. In case of large number of candidates, letters are mailed to the applicants/candidates mailing address. These are done according to the interview schedule made before contacting the candidates. The interview or written test schedule is made prior to contacting with the short listed candidates by communicating with respective departments who submitted requisition for the needed workforce. The respective Department Heads accompany the Head of HR in the interview board and cross Department Heads also join the board. After the interview the recruitment division acquires the Interview Score Sheet which is printed and handed to Interview Board before starting the interviews. The filled out Interview Score Sheets are then used to list the finally selected candidates for the respective posts. According to the Score Sheets, the Recruitment Division issues Offer Letters/Appointment Letters to the finally selected candidates and requests them to collect their Letters from the HRD. The new employees are then greeted to finish all the official formalities (e.g. Bond Signing, PIN number assignment etc.) and assigned a joining date in their respective departments. Written tests are only arranged when necessary, usually in case of large number of applicants. Before a recruitment process is completely finished, the recruitment officers must communicate with the Learning and Development Officer so that
they can arrange orientation or initial training sessions for the newly recruited employees on time. This is done frequently because most of the time the posts getting filled up require an initial training or orientation.

BRAC Bank also provides a large number of internship opportunities for students all over the country. Communicating with different departments and finding out open internship scopes is one of the tasks for a recruitment officer. Departments, Branches also communicate with Recruitment Team whenever there is an Internship opportunity is available in their respective stations. Matching the subject studied by the student and the open department enables the recruitment officer to make decision in selecting an intern. BRAC Bank HRD gives priority to interns (who have successfully completed their internship in any department or branch of BRAC Bank) when they apply for a vacant post.

The steps involved in a recruitment process are as follows:

1. A properly filled-out Staff-_Requisition Form is submitted by the concerned Department Head or Manager.
2. The Requisition should be supported by the Manpower Budget for the year; otherwise, a Non-Budgeted Requisition must be signed and approved by the Managing Director upon stating valid reason for the recruitment.
3. Determining the type of recruitment is the next step so that source of CVs can be identified. For a Full-Time/Regular post an Internal Job Watch must be circulated with details of the post throughout the bank using Lotus Mail. External CVs are also accepted for a post offered through mail but in these cases, internal source is preferred by the concerned department as some posts require existing, experienced employees within the bank. For example, a Regular post open in Unsecured Value Center usually prefers an HR Contract working in Unsecured Value Center for past two years with satisfactory performance.
4. Criteria for existing Regular employees to apply in an Internal Job Watch are: a) the employee must have worked 1 Year after his/her confirmation and completed 1 continuous year of service in his/her current department.
   b) Must have minimum performance rating ‘P’ (for Proficient)
   c) Must have completed 8 mandatory E-Learning courses.

5. Condition for HR Contracts is 2 years of continuous service in the current department.

6. For external CVs the Recruitment wing looks into the archive of CVs applying for any suitable post and for large recruitments we publish circular in Newspapers. Usually in “Prothom Alo” and “The Daily Star”.

7. On the day an Internal Job Watch closes or a Paper Ad reaches deadline for CV submission, the Recruitment wing checks all the CVs as an initial screening and then sends the CVs for final short listing to the concerned departments who submitted requisition. The finally selected applications are then called (issued interview cards in case of large recruitments e.g. CRO's for SME Banking) for an interview after setting an interview date and venue.

The recruitment wing manages Internal Job Postings, recruiting HR Temporary Staffs and Outsourcing Staffs. The Service Level Agreement (SLA) schedule is strictly followed by all concerned wings.

The Recruitment SLA procedure followed is given below:

</table>

From the above table, we can see that most of them gave no comment about their performance appraisal.
