Dear Madam

With much pleasure and contentment, I am submitting my report titled Analysis of Deposit Schemes of Southeast Bank Ltd. I am thankful to you for your guidance, suggestions, and constructive criticisms during the preparation of this report that only impelled us further into excelling. I truly hope that you too would genuinely enjoy our report besides merely evaluating us based on the grading criteria set for this assignment.

This report will let you know about the deposit schemes of Southeast Bank Ltd. I have analyzed as much relevant information as possible and try to find out about the deposit schemes of the bank. The information comes from direct web site use by Southeast bank- “Bank Ultimas” during my working time at the bank. Some information is also collected through internet browsing. Only my analysis data are subjective. I sincerely hope that my analysis will aid you about the Deposit Schemes of Southeast Bank Ltd. I truly appreciate this report.

Yours Sincerely

Samsunnahar Khandaker

ACKNOWLEDGEMENT

First, I remember Almighty Allah for making me successful to prepare this report within the schedule time. I am grateful to the SEBL authority that has helped me by providing updated and desired information from their portal.

I would like to thank my supervisor Miss Raihana Mnannan who helped me from the very beginning of my internship search for attachment. My honorable supervisor from time to time gives me appointment and suggests me to prepare this report that finally made me possible to complete this report which is a partial requirement of BBA program.

I also express my full thanks to all facility members of SEBL, Dhanmondi branch who kindly provided me the information and other handouts. Especially, I am too much grateful to Mr. Tanim Shakur who helped and gave task as well as encouraged me for learning different types of banking job. Apart from this I should not forget some other officers who always assisted me eagerly, name first come here Sanjida Akter (junior officer). I would like to give them many thanks from the bottom of my heart.
EXECUTIVE SUMMARY

This report has been made on the deposit scheme of the Southeast Bank, especially on its Dhanmondi Branch. Deposit is the most important source of income of a banking institute. To get as much deposit as possible, different bank offer different deposit product to attract customers and get deposits from them. Southeast Bank on general offers nine kinds of deposit schemes. This scheme has their own special offer which defer with rates, period of time and terms and conditions. Among this different deposit schemes current account and savings account are most popular among their customers. As Dhanmondi Branch locates at residential area, they can have huge amount deposit for current account and savings accounts. All these schemes had been affected by political unrest situation in December. But this branch is much more structured compared to any other branches operating in Bangladesh. For that Bankers should try to develop healthy relationship with loyal customers so that these customers can bring more new customers. I have tried in my best to study the materials related with my topic. I observed the technique which performed by SEBL, used their officials’ data, published data, unpublished data and annual report and performed a field survey for preparing this report.

INTRODUCTION
INTRODUCTION

A Country has lots of financial institutions for having the financial backbone of the country’s economics. Banking Sector is one of them. A bank is a financial institution as well as an intermediary that accepts deposits and helps those deposits into lending activities either directly by loaning or through capital markets. Southeast Bank is one of them. It links the customers who have capital deficits and customers who have surpluses. It also plays an important role in price level in country by buying and selling the bills of exchange.

1.1 Background of the study

I choose the topic as advised by the Southeast Bank “Analysis of Deposit Schemes of Southeast Bank” to prepare a comprehensible report. This report has been made on the information of Hammond Branch of this bank.

With the growing competition among different commercials banks as to how the banks run its banking operation & how customer’s service can make more attractive as the expectation of the customers has been increasing day by day. Now they concentrated their attention towards diversification of their product for better performance & existence. For the above picture Southeast Bank Limited, one of the leading commercial banks, focus on the improvement of the customers service by introducing different kind of deposits. This study helps to know the nature of functions of various types of deposit products.

1.2 OBJECTIVES OF THE STUDY

Primary Objective:

The primary objective of this study is to gain practical knowledge of the related field as a part of the partial requirement of BBA program.

Secondary Objective:

- To know the performance of deposits sector last three (3) months
- To know the procedure of collection deposits
- To evaluate the present condition of deposits
1.3 SIGNIFICANCE OF THE STUDY

Collection of deposit is an important sector of any bank. This study helps me to know the function of various types of deposit and the ways bank collects its’ deposit from their clients. The authority of SEBL can use this report for decision making. This study assists to observe the present problem and also helps them to take necessary initiative for further development and improvement for ensuring its service to the customer.

1.4 METHODOLOGY OF THE STUDY

This study aims to gather the experience in the work place regarding the deposit sectors. To prepare the report following sources are utilized.

Primary Sources

The primary data are collected from the customers and bank stuffs from the branch. Formal interview method is used to collect the primary data.

Secondary data:

For preparing this report I have used some information from the following sources:

- Annual report
- Corporate head office
- The company websites

1.5 LIMITATIONS

There are some limitations which has created problem to prepare this report:

- The employees in this branch are so much busy in their responsible fields; they could hardly provide little time to discuss with them.
- Time is inadequate.
- Three months internship program is not sufficient to know the deep things.]
- There are some places where I can’t access.
- Sample size can’t represent the total population
- Insufficient supply of relevant books and journals.
CHAPTER-2

ORGANIZATION PROFILE
2.1 INTRODUCTION OF SOUTHEAST BANK LIMITED:
Southeast Bank Limited is a listed Bank under private sector established under the field of bank Company Act, 1991 and Incorporated as a Public Limited Company under Companies Act, 1994 on March 12, 1995. The Bank started commercial banking operations effective from May 25, 1995 during this short span of time the Bank had been successful to position itself as a progressive and dynamic financial institution in the country. The Bank had been widely acclaimed by the business community, from small entrepreneur or large traders and industrial conglomerates, including the top rated corporate borrowers for forward-looking business outlook and innovative financing solutions. Thus within this very short period of time it has been able to create an image for itself and has earned significant reputation in the country’s banking sector as a Bank with vision. Presently, it has thirty four branches in operation. The emergence of Southeast Bank Limited has been an important event in the financial sector of Bangladesh. Southeast Bank Limited has been awarded license by the Government of Bangladesh as a Scheduled Bank in the private sector.

“A Bank with Vision”
### 2.6 SEBL’S ORGANIZATIONAL STRUCTURE

The organizational structure of Southeast Bank Limited is quite horizontal where each person reports to only one person which refers to a very group-working environment for example. One Executive Vice President is the head of branch one First Vice President (Operation Manager) and the in Charges of credit and foreign exchange department directly report to the EVP. The Operation Manager controls the general banking, cash, accounts and computer department.

DEPOSIT SCHEME:

Deposit schemes are one kind of transaction which is used for safekeeping money. Bank deposits are made to deposit accounts at a banking institution. The holder has the right to withdraw any deposited funds. The “deposit” itself is a liability owed by bank to the depositor.

Types of deposit schemes:

- **Current Deposit**: Current Deposit account is a transactional account where there is no restriction on number of transactions in the account. It can be opened for individuals and business concerns including non-profit organizations.

- **Fixed Deposit Receipt**: Fixed Deposit Receipt account offers the customers the opportunity to invest a fixed amount for a fixed period at a fixed rate of interest. The customers have the option to re-invest their funds both principal and interest amount on maturity and the interest amount being paid into their CD or SB accounts.

- **Double Benefit Scheme** account is a time specified scheme for clients where the deposited will be doubled on maturity.

- **Special Notice Deposit** account is an interest bearing deposit where advance notice of 7 to 30 days required for amount withdrawal. SND A/C is opened by firms, corporate financial institution.

- **Millionaire Deposit Scheme Account** is a time specified monthly deposit scheme for clients where the deposited money will become one million on maturity.
CHAPTER-4

FINDINGS AND ANALYSIS
4.1 Overview of deposit products of SEBL

A deposit account is a banking account, at a banking institution that allows money to be deposited and withdrawn by the account holder. These transactions are recorded on the bank’s book and the resulting balance is recorded as a liability for the bank and present the amount owed by the bank to the customer. Bank invests those depositors’ amount and earns profit that’s run its banking business. Like others, SEBL can’t imagine their banking business without deposit. It is their most important activity as a commercial bank to collect deposits from the customers.

4.1.1 Requirements for opening deposit account at SEBL

Applicants must satisfy the following documentation requirements:

- Two copies of recent passport size photograph duly attested by the introducer.
- Cheque on Self or Cash deposit;
- Photograph of Nominee; In case of minor nominee, a copy of the birth certificate and photograph required;
- Personal Information Form;
- TIN Certificate.

What is deposit:

Money placed into a banking institution for safekeeping. Bank deposits are made to deposit accounts at a banking institution, such as savings accounts, checking accounts and money market accounts. The account holder has the right to withdraw any deposited funds, as set forth in the terms and conditions of the account. The “deposit” itself is a liability owed by the bank to the depositor (the person or entity that made the deposit) and refers to this liability rather than to the actual funds that are deposited.

Why requirements must be fulfilled

The requirements of a bank must be maintained because of the safety of the customers. These mentioned documents will be documented and used as future reference. For not existence of any of these documents, bank can be penalize by the auditors.
Total deposit status of SEBL, Dhanmondi Branch

In three months, started from December to February, the total deposit of Dhanmondi Branch was 429.713 million taka. The allocation of these total amounts in these three months and the growth of total deposit are shown below. As December is the base month, its growth is shown as zero.

Table 4.1 presents the trends of total deposit over the three months. It has been observed that the growth in January over December was 10.75% whereas in February was 5.702%. People deposit only that time when they have some excess money. In December we see the political conflict in our country. People can’t run their business that brings down their income level. So, they can’t deposit in bank at the expectable rate.

Source: SEBL Dhanmondi Branch from December to February

Diagram: Total Deposit Growth over the three months
4.2 Different Types of Deposit Products:

4.2.1 CURRENT DEPOSIT (CD) ACCOUNT
Current Deposit (CD) Account is a transactional account where there is no restriction on number of transactions in the account.

Major Features

- Unlimited transactions are allowed.
- No withdrawal notification required.
- Nominal service charge.
- Any branch banking facility (Cash withdrawal and deposit from any branch)

Eligibility for Current Deposit Account:

- CD Account can be opened both for Individuals and Firms/Corporate! Autonomous Bodies etc.
- CD Account can be opened both for resident and non-resident Bangladeshi Nationals.
- Age bar for Personal CD Account: 18 years or above.
- Single/Joint account can be opened.
- Minor account can be opened under the supervision of his / her / their guardian.
- Account can be opened in the name of Trust I Club / Association I Societies / Non - Trading Concerns.

In this three month period the total current deposit was 77.042 million. In December the amount of deposit was very low because of the political situation. The trend and growth of currents deposit of these three months are given below.
Comparative position of Current Deposit Account of SEBL, Dhanmondi Branch

Table 4.2.1 Table 4.2 presents the trends of current deposit account over the three months. It has been observed that the growth in January over December was 81.80% where in February was -3.00%. Because of decreasing only 1 million taka deposit, in February the growth rate become negative. It seems that this deposit become unstable. So this branch needs some aggressive advertising like others.

4.2.2 SAVINGS BANK (SB) ACCOUNT

Savings Bank (SB) Account is designed for individual savers who want to save a small part of their income which may be used in the near future and also intend to have some profitable returns on such savings. They can deposit a small amount and can withdraw whenever they desire but the total numbers of withdrawals over a period of time are limited.

Major Features

- Bank pays attractive interest.
- Personalized MICR Cheque Book is available.
- Nominal service charge.
- Any branch banking facility (Cash withdrawal and deposit from any branch).
- Nomination facility is available to nominate beneficiary for account proceeds.
Comparative position of Savings Bank Account of SEBL, Dhanmondi Branch

The total Savings Deposit of these three months is 17.0057 million taka. The amount of this deposit has increased by months. The allocation and growth of this amount is shown below.

The above figure shows that the growth of savings bank account in January over December was 7.84% where in February increased by 30.97%. It seems that this deposit becomes stable. This branch needs to take more policy to continue this deposit. The amount of this deposit is increasing at a low rate, authority should concentrated on the customer of this deposit

Eligibility:

- Age: I 8 years or above
- Single/joint account can be opened
- Minor account can be opened under supervision of his or her guardian

Rate of Interest

4.2.3 FIXED DEPOSIT RECEIPT (FDR) ACCOUNT

Fixed Deposit Receipt (FDR) Account offers the customers the opportunity to invest a fixed amount for a fixed period at a fixed rate of interest. The customers have the option to re-invest their funds both principal amount and interest amount on maturity or principal amount and the interest amount being paid into their SB or CD accounts.

Major Features

➢ Money can grow with attractive interest rate with flexible tenure.
➢ Automatic renewal facility at maturity.
➢ Loan facility against FDR Account to meet urgent financial needs.

Type of FDRs

Fixed Deposit Receipt (FDR) Account

- FDR one (1) month
- FDR three (3) month
- FDR six (6) month
- FDR one (1) year
- Senior Citizen FDR one (1) year
4.2.3.1 FDR Account for One (1) Month status of SEBL. Dhanmondi Branch

Source: Statement of branch as on from December to February

Figure 4.2.3.1: Trends of FDR one (1) month over the three months

Table 4.2.3.1 presents the trends of FDR account for three (3) months over the three months. It has been observed that the growth in January over December is 8.89% where in February is has increased by 12.80%. Although the interest rate is decreased but it’s amount is increased because of political condition. People don’t find any safe place to invest. So, they prefer to deposit in bank.
Comparative position of FDR Account for Three Months of SEBL, Dhanmondi Branch

Table 4.2.3.2 presents the trends of FDR account for three (3) months over the three months. It has been observed that the growth in January over December is 10.11% where in February is 19.04%. Although the interest rate is decreased but it’s amount is increased because of political condition. People don’t find any suitable place to invest. So, they deposit in bank.

Comparative position of FDR Account for Six Months of SEBL, Dhanmondi Branch

Table 4.2.3.3 presents the trends of FDR account for six (6) months over the three months. It has been observed that the growth in January over December is -19.52% where in February is -51.52%. It shows that this deposit become unstable because the rate of FDR for 3 months and 6 months are same. So, customers prefer 3 months than 6 months.
Comparative position of FDR Account for One Year of SEBL, Dhanmondi Branch

Table 4.2.3.4 shows the 3 months position of FDR for one (1) year. Above figure presents ups and down of FDR for one (1) year. In January growth rate is negative but in February, it seems better growth from previous month because management takes some policy than previous month.

4.2.4 Multimillionaire Gold Deposit Scheme (MGDS) Account
Customer can invest for contriving long term financial benefit through Multimillionaire Gold Deposit Scheme. In this scheme customer will deposit a fixed monthly installment for a specific period and will get Tk.50 lac at a time after maturity. This deposit scheme has 4 types of duration- 10 years, 12 years, 14 years, and 16 years. Dhanmondi Branch of SEBL does not have any customer for 14 years and 16 years scheme. As a result analysis has been made on 10 years and 12 years scheme only.

Major Features:

- Deposit on monthly installment basis;
- Attractive rate of interest;
- MGDS can be opened by Individual, Non-resident Bangladeshi including dual citizen and corporate bodies.
- Any Bangladeshi Citizen of 18 years and above is eligible to open MGDS
- Joint MGDS can be opened.
### Monthly Installment Size and Benefit after Maturity:

<table>

### 4.2.5 Millionaire Deposit Scheme (MDS) Account

Millionaire Deposit Scheme (MDS) Account is a time specified monthly deposit scheme for clients where the deposited money will become one million on maturity. In this scheme customer will deposit a fixed monthly installment for a specific period and will get Tk.10 lac at a time after maturity. This deposit scheme has 3 types of duration - 4 years, 6 years, and 8 years.

### Major Features:

- Deposit on monthly installment basis
- Attractive rate of interest
- Account can be opened at any working day of the month
- Monthly installment can be deposited in advance
- An account can be transferred from one branch to another branch of the bank
- Allowed to open more than one MDS Account for different amount at any branch of the Bank;
- MDS Account can be opened both for Individual and Corporate bodies.
- Only Resident Bangladeshi National is allowed to open MDS Account.
- Age bar for opening of Personal MDS Account is 18 years or above.
- Single/Joint account can be opened.
- Account can be opened in the name of minor. In that case his/her legal guardian will operate the account.
Monthly Installment Size and Benefit after Maturity:

<td>10,00,000</td>
</tr>
<tr>
<td>08 years (Tk)</td>
<td>6,470</td>
<td>10,00,000</td>
</tr>
</tbody>
</table>

4.2.6 Super Double Benefit Scheme (SDBS) Account

Super Double Benefit Scheme Account is a time specified deposit scheme for clients where the deposited money will be doubled on maturity.

**Major Features**

- Amount to be deposited TK 100000 or it’s multiple.
- Deposited amount will be doubled in 3 years.

Comparative position of SDBS Account of SEBL, Dhanmondi Branch

*Table 4.2.6* shows the three months position of SDBS account. Above figure presents ups and down of SDBS account. In January growth rate is positive 13.63% but in February, it seems negative growth from previous month. This is a new scheme and mostly people don’t know about this. So, this branch needs aggressive advertisement for this.
4.2.7 Pension Savings Scheme:
Clients are offered Pension Savings Scheme to save their hard earned money every month for a secured future. Dhanmondi Branch of SEBL does not have any deposit on PSS of 8 years and 10 years. Analysis on 4 years and 6 years has been shown below.

Major Features:

- Loan of Maximum 80% against the lien of the PSS amount deposited can be availed.
- Clients have to pay the Installment Amount by 15th day of a month.
- Advance Installment can be provided.
- Installment amount can be given from any branch of this bank.
- A Person of 18 years of age and above having a sound mind can open the account.
- A person can open more than one PSS account for any amount at any branch of the Bank in such case separate form should be filled in.
- The account can be opened at any working day of the month.

4.2.8 Monthly Savings Scheme (MSS) Account
Monthly Savings Scheme (MSS) Account a time specified monthly deposit scheme for clients. Against their monthly installment the customers can get a profit on their total deposited amount after maturity period.

Features:

- Loan of Maximum 80% against the lien of the MSS amount deposited can be availed.
- Can close the account before maturity.
- Account can be opened in the name of individual or in joint names.
- Only Resident Bangladeshi National is allowed to open MSS Account.
- Account can be opened at any time of the month.
4.2.9 Double Benefit Scheme (DBS) Account

Double Benefit Scheme (DBS) Account is a time specified deposit scheme for clients where the deposited money will be doubled on maturity.

Comparative position of DBS Account of SEBL, Dhanmondi Branch

Table 4.2.9 presents the trends of DBS account over the three months. It has been observed that the growth rate in January over December is 5.12% where in February is 3.65%. It shows that this growth rate fall because of advertisement strategy. So, they need some innovative idea to improve it.
Conclusion
CONCLUSION

Dhanmondi Branch has earned a great reputation that it does its banking activities perfectly among all the branches of SEBL in Bangladesh. This branch is much more structured compared to any other branches operating in Bangladesh. It always tries to find out new and innovative ideas for their future improvement.

5.1 Findings of the study:

From the above work, this study finds some data which express the comparative position of deposit products of SEBL.

- Mostly businessmen use current deposit account for their business purpose. In December, political conflict occurred in our country that hampered their business activities. So, the growth rate of current deposit account becomes fall in December.

- The survey customers think that opening of savings bank account needs small amount of money. That’s why, its growth rate becomes stable.

- Most of the clients of SEBL are educated. They know how to find out the rate of return. The interest rate of FDR three (3) month and FDR six (6) months are slightly different. If customer deposit in FDR three (3) month, they will get more interest than FDR six (6) months. So, growth rate of FDR three (3) month is high and FDR six (6) months is low. On the other hand, in December the rate of return of FOR six (6) months and FDR one (1) year is same. So, clients highly prefer FDR six (6) months than FDR one (1) year that shown through their growth rate.

- The growth rate of MGDS ten (10) years becomes negative. This scheme cannot attract to the customers. The growth rate of MGDS twelve (12) Years fall in February but rise in December because marketing management works hard to improve this.

- The growth rate of MDS four (4) years, MDS six (6) years and MDS eight (8) years is unstable. Marketing management fail to understand their clients about the importance of these schemes.
SDBS is a new scheme of this branch. Mostly people don’t know about this scheme. That’s why; its growth rate is ups and down.

5.2 Recommendation

Base on the findings, some policy implications are found which are represented as suggestion to SEBL, Dhanmondi Branch, Dhaka. These are as follows:

- The political conflict does not lasting for a long time. So, SEBL has to invest their deposited amount in various sectors to earn profit that will help to raise interest rate of return.
- This bank should think about their ATM service. They can spread their ATM booths across the country.
- This bank has to think about salary structure to motive their employees
- This branch should increase manpower because it is the busiest branch.
- This branch should follow some advertisement strategy. They can telecast attractive advertising in the media for attention to the customers
- This branch should apply more strategy to know their customers’ expectation and their enquiries about the products.
- The authority should hire more dynamic personnel, who are able to explain the feature of deposit products to their clients.
- This branch should take the initiative for arranging workshop, seminar conference and training session frequently or monthly or at least quarterly basis. It enhances their stuffs’ skill which will help them handling the challenges of competitive banking business.
- The major part of total earning of this branch depends on the deposit sector. So, it should establish a research and development cell for the purpose of analysis.
