Personnel’s of this section should posses the required behavior for regular satisfaction of the customers.

This report focuses three months working experience at Malibagh Branch of Jamuna Bank Ltd. As a part of satisfying their objectives through their customer Jamuna Bank Ltd. Offers the following accounts: Current Deposits, Savings Bank Deposits, Fixed Deposits, Short Term Deposits, and Monthly Term Deposits, Any other deposits as may be approved or advised by Head office.

The branches of the bank operate as independent accounting unit. The system of transaction of the bank is essentially double entry system of book keeping. The golden principle of debiting or crediting is the same as those of double entry system. In the bank, instead of recording transaction in a journal initially, these are directly recorded and posted in the ledger (computer) separating the debits and credits by slips or voucher system.

Jamuna Bank limited has provided its Banking service with a top leadership and management position. After doing this intern report I have found that most of the customers of Jamuna Bank Limited have positive satisfaction towards its service quality. **2. Retail Banking**

A commercial bank consists of a few departments, which perform diverse operations, General Banking Division, Foreign Exchange and Credit Division. General Banking is important one. General Banking is the heart of total banking system. Through this section bank has to receive and disburse money, to develop banker customer relationship by opening different types of account and providing promote services to the customers. This department collects money from the depositor and uses these deposits to earn profit. Last but not least, General Banking department is considered to be the core function of bank which operates the day to day
transactions. The foreign exchange division deals with the inflow and outflow of foreign currencies in the bank. Again, the credit section deals with the loan and others facilities. The department is very rush and the employee here are too upgrade too their duty. They pass entry of every transaction within the day. It opens new accounts, remit funds, issue bank draft and pay order, etc. Since Bank is confined to provide these services every day, general banking is known as ‘Retail Banking’.
2.8 SWOT ANALYSIS

SWOT analysis of Jamuna Bank Limited: In the following statements the SWOT analysis is given below:-

**STRENGTHS**

- JBL is newly commercial bank in banking sector but they builds strong reputation in short time. They provide extra ordinary service to their customer for gaining the customer value to their product.
- Strong network throughout the country and provide quality of service to every level of customer.
➢ JBL has been founded by a group of prominent entrepreneurs of the country.

➢ Jamuna Bank ltd has an interactive corporate culture. The working environment is very friendly, interactive and informal. And there are no hidden barriers or boundaries while communicate between the superior and the employees. This corporate culture provides as a great motivation factor among the employees.

➢ Jamuna Bank ltd has the reputation of being the provider of good quality service to its potential customers.

WEAKNESS

➢ The main important thing is that the Bank has no clear mission statement and strategic plan. The Banks not have any long-term strategies of whether it wants to focus on retail Banking or become a corporate Bank. The path of the future should be determined now with a strong feasible strategic plan.

➢ Higher service charge in some areas of banking operation than that of nationalized banks discourages customers from opening or maintaining accounts with this bank.

➢ There is a very little practice for increasing motivation in the workers by the management.

➢ Small market share.

➢ They have a limited branch network over the country.

➢ In terms of promotional sector, Jamuna Bank ltd has to more emphasize on that. They have to follow aggressive marketing campaign.

➢ Some of the job in Jamuna Bank ltd has no growth or advancement path. So lack of motivation exists in persons filling those positions. This is a weakness of Jamuna Bank Ltd that it is having a group of unsatisfied employees.

OPPORTUNITIES

➢ JBL can pursue diversification strategy in expanding its current line of business. The management can consider options for starting merchant banking or diversity in to leasing and insurance. By expanding business portfolio, JBL can shrink business risk.
Opportunity in retail banking lies in the fact that the country’s increased population is gradually learning to adopt consumer finance. The bulk of our population is middle class.

Different types of retail lending products have great appeal to this class. So a wide variety of retail lending products has a very large and easily pregnable market.

**THREATS**

Default culture is very much familiar in our country. For a bank, it is very harmful. As JBL is new, it has not faced it seriously yet. However as the bank grows older it might become a big problem.

The Central Bank exercises strict control over all banking activities in local banks like JBL. Sometimes the restriction impose barrier in the normal operations and policies of the bank.

Rival bank easily copy the product offering of JBL. Therefore the bank is in continuous of product innovation to gain temporary advantage over its Competitors.

Finally it can be said that, top management officials have experience skill and proficiency on Banking. JBL has got impressive decoration, for that it creates the attention of the potential customers. Lovely environment boosts up capability of the employees. Besides these JBL has adequate capital, high interest rate for DPS and Savings account for its goodwill. For this reason right people are also not in right place for reference appointment. Another weaknesses low interest rate of FDR, for to a company in near future, such as withdraw of tax, incentives, export, exemption and more credit facilities etc. JBL can also adopt diversification strategy in expanding the business line into leasing and insurance company. It analyzes the threats, which may face the company such as international law, withdraw of most favorable nation (MFN) and GSP facilities etc. Some contemporary, multinational and upcoming Banks are competitors of JBL. These Bank poses threat for JBL. So JBL Should takes necessary steps to compete with them in the current market.
CHAPTER # 03

Job Nature
3.1. Internship Experience

THE PROJECT PART
INTRODUCTION

A commercial bank consists of a few departments, which perform diverse operations, General Banking Division, Foreign Exchange and Credit Division. General Banking is important one. General Banking is the heart of total banking system. Through this section bank has to receive and disburse money, to develop banker customer relationship by opening different types of account and providing promote services to the customers. It opens new accounts, remit funds, issue bank draft and pay order, etc. Since Bank is confined to provide these services every day, general banking is known as ‘Retail Banking’.
Sections of General Banking

During my practical orientation in Jamuna Bank Limited, it came to the observation that general banking section is divided with four areas. These are:
4.2. **Deposit Section**

4.2.1. **Various types of account offered by Jamuna Bank:**

There are several types of deposit accounts. Each account has different characteristics and every account has some specific purpose to serve. JBL offers the following key Personal Banking Services. According to their uniqueness they are described as follows:

- **Savings bank (SB) Account**
- **Current deposit Account**
- **Short-term deposit (STD) Account**
- **Fixed deposit (FDR) Account**

✓ **Savings Account**

It is the general account of the JBL (Malibagh Branch) individual or more than two persons can open a savings account on JBL. The officers and authorize persons are issuing chequebook, deposit slips and statement of account to the holder of savings. The officer justifies the information that is submitted by the account holder for opening of the account. The officers of the bank process account-opening formalities.

✓ **Current Deposit Account:**

JBL is one of the newly established well-reputed third generation private commercial bank in Bangladesh. It operates very diverse current account operation. They serve various types of customers, like current account for private limited company, current account for public limited company, current account for partnership business, etc.
✔ **Foreign Currency Account**

The JBL also operate Foreign Currency Account for Bangladeshi Wage Earners or for Foreign Nationals/Company/Firms etc. to send their valued earned foreign currency into the country.

❖ **Short Term Deposit Account (STD)**

JBL also offers Short Term Deposit to its valued customers. Short Term Deposit is a deposit account where the payment of interest is paid on month basis. These items include the deposits for a period ranging from 7 (seven) days to 89 (eighty-nine) days. These types of liabilities are payable on special notice or after a specified period other than the fixed deposits. Some of these types of deposits are of the nature of time deposits. The rate of interest on STD account is 4.5% per annum. There are some rules and regulations that must be maintained by the STD account holder. If the STD account holder wants to withdraw the money from the account they have to inform the bank before, otherwise the account holder may not get the interest in full amount.

**Schemes**

Schemes are the most important sources of enhancing banks deposit. Mainly bank is the lender of money, which is deposited by various types of depositor. These schemes are different in nature and types and also in interest rates. These deposits give the customers to deposit the idle money in profit earning schemes and also provide the security. Jamuna Bank limited as third profit earning to the depositors and generation modern and technology based modern commercial bank offers various types of customer’s friendly deposit schemes to its valued customers. These schemes are highly also unique in security.

❖ **Monthly Benefit Scheme (MBS)**

Jamuna Bank Limited has introduced Monthly Benefit Scheme (MBS) for the prudent persons having ready cash and desiring to have fixed income on monthly basis out of it without taking risk of loss and without encasing the principal amount.
