BRAC University

Dear Sir,

Internship Report Submission.

I am very pleased to submit the internship report on “Effectiveness and Efficiency role of Scholarship Donation Program Of Standard Bank Limited to poor and meritorious students as CSR activity” to you, in order to fulfill the requirement of BBA program in the BRAC University.

I intently believe & hope that this internship would help me in the long run and also enhance my managerial capabilities. I am obliged for your valuable suggestions and humble cooperation.

Now I have placed this report before you for your kind approval. I hope that my report will satisfy and accomplish all your expectation. For any kind of queries always feel free to ask me, I would be available at your convenience.

Thank you.

Sincerely,

Muhit Khan

Acknowledgement

This report is the concluding part of my BBA program and will help to enhance the capability to study. In the ground of organizational arena, a lot of efforts and study have done to make the report reliable. This would have not been possible without the indisputable support and assistance. First of all, I want to pay my homage to the almighty Allah who made to capable to continue my everyday task both inside and outside the work place during the whole period of my internship. Afterward I want to pay my special thanks to Md. Tamzidul Islam, Senior Lecturer, BRAC business school under whom I have completed my internship report.

If I don’t point out some of the employee’s names of Standard Bank Limited Bangladesh LTD, my acknowledgement will be incomplete & void. Specially they helped me a lot by providing a well corporate experience and teach me how to adjust with it. In this period, I am highly grateful to Mr. Shafiqul Islam, Head of MIS, who helped me to complete my internship program in that company under his management. Furthermore I want to pay thanks to Mr. Tafazzul Islam, MTO and Mr. Shabbir Ahmed, Assistant Officer who gave me full support to acquire some basic knowledge about the organization and some CSR related knowledge to me.

I want to give my specials thanks to Mr. M. Ahsan Ullah Khan, EVP, Head of HRD, who helped me by providing valuable information required to complete my report and to work under his supervision.

For successfully completion of my internship, I am really fortunate to get guidance and supervision from my teachers, employees of Standard Bank Limited & others.
Executive Summary

As part of its commitment to create real value in the society that is constantly developing, Standard Bank is determined to be a good corporate organization in every corner of its community, clients, employees and other stakeholders in the places where it works and live. The bank holds itself accountable for the social, environmental and economic impacts of its operations.

CSR is defined by SBL as a combination of ethical and responsible corporate behavior as well as commitment towards generating greater goods in society as a whole by addressing the developing needs of the country. SBL always believe that CSR works as a bridge between the company and its consumers. To interact effectively and responsibly with the society and to contribute to the socio economic condition of Bangladesh SBL has adopted a holistic approach to CR. Through this approach SBL aims to, on the one hand involve itself with the larger section of the society and to address diverse segments of the stakeholder demography, and on the other remain focused in its social investment to generate greater impact to the society.

The study will be based on the combination of secondary and primary data. To know responses from people about the impact primary data will be needed. I will conduct a survey among twenty (20) respondents collected from the area where the scholarship will be given and will collect some relevant information from the internet, company website, information from supervisor and several journals as a source of secondary data.

Overview of the Banking Industry

Since early British rule, the history of banking in Bangladesh territory shows that the traditional trade-networks developed before the banks invaded rural areas. And the banking services have slowly flourished in Bangladesh territory. Even today, in many places, moneylenders provide credit services. Small shopkeepers and businessman use informal credit at high interest rate, traditional Mahajan’s money lending business gradually declined due to expansion of bank and the micro credit programs of NGOs, Cooperative banks and government agencies.

Modern banking system plays a vital role for a nation’s economic development. Over the last few years the banking world has been undergoing a lot of changes due to deregulation, technological innovations, globalization etc. These changes in the banking system also brought revolutionary changes in a country’s economy. Present world is changing rapidly to face the challenge of competitive free market economy. It is well recognized that there is an urgent need for better, qualified management and better-trained staff in the dynamic global financial market. Bangladesh is no exceptions of this trend. Banking Sector in Bangladesh is facing challenges from different angles though its prospect is bright in the future.

Bangladesh is one of the developing countries in the world. The economy of the country has a lot left to be desired and there are lots of scopes for massive improvement. In an economy like this, banking sector can play a vital role to improve the overall social – economic condition of the country. The banks by playing the role of an intermediary can mobilize the excess fund of surplus sectors to provide necessary finance, to those sectors, which are needed to promote for the sound development of the country.

Commercial banks in Bangladesh economy are to face an increasing competition for their business in coming days, like any other emerging market economies. Their business is no longer remaining easy as they earlier. The real change in the banking business has started to come with the government’s decision to allow the business in the private sector in the middle of the Eighty’s.
Overview of Standard Bank Limited

Standard Bank Limited (SBL) was incorporated as a Public Limited Company on May 11, 1999 under the Companies Act, 1994 and the Bank achieved satisfactory progress from its commercial operations on June 03, 1999. SBL has introduced several new products on credit and deposit schemes. It also goes for Corporate and Retail Banking etc. The Bank also participated in fund Syndication with other Banks. Through all these myriad activities SBL has created a positive impact in the Market.

Features of SBL:

- Standard Bank builds up strong pillar of capital, promote trade, commerce and industry; discover strategies for achieving systematic growth.
- It is the pioneer in introducing and launching different customer friendly deposit Schemes to tap the savings of the people for channeling the same to the productive sectors of the economy.
- It has created congenial atmosphere so that the client becomes interested to deal with the Standard bank limited.
- For uplifting the standard of living of the limited income group of the population, the Bank has introduced Retail Credit Scheme by providing financial assistance in the form of loan to the consumers for procuring household durables.
- The Bank is committed to maintain continuous research and development to keep pace with modern banking.
- Recently the bank starts internet banking in order to provide prompt and efficient services to the customers.
- The bank has introduced customer relations management system to assess the needs of various customers and resolve any problem on the spot.

Objectives of Standard Bank Limited

- To be a dynamic leader in the financial market in innovating new products as to the needs of the society.
- To earn positive economic value addition (EVA) each year to come.
- To top the list in respect of cost efficiency of all the commercial Banks.
- To become one of the best financial institutions in Bangladesh economy participating in the most significant segments of business market that we serve.
Mission, Vision & Core Values of Standard Bank Limited

Vision of SBL:
To be a modern Bank having the object of building a sound national economy and to contribute significantly to the Public Exchequer.

Mission of SBL:
To be the best private commercial bank in Bangladesh in terms of efficiency, capital adequacy, asset quality, sound management and profitability.

Core Values of SBL:
Our Shareholders: By ensuring fair return on their investment through generating stable profit.
Our customer: To become most caring bank by providing the most courteous and efficient service in every area of our business.
Our employee: By promoting the well being of the members of the staff.
Community: Assuring our socially responsible corporate entity in a tangible manner through close adherence to national policies and objectives.

Management of Standard Bank Ltd:
As a fully licensed professional bank, Standard Bank Limited is being managed by a highly professional and dedicated team with long experience in banking. They constantly focus on understanding and anticipating customer needs. As the banking scenario undergoes changes so the bank and its responsibilities itself changed in the market condition.
In the bank, board of directors has the sole authority too take decision about thee affairs of the business. Now there are 18 directors in the management of the bank. All the directors have the good academic background and have huge experience in business. The board of directors holds meetings on a regular basis. There are different committees in the bank for the efficient management of the bank. All these committees meet on a regular basis for discussing various issues and proposals submitted for decisions. The committees are:

• ⇒ Board of Directors
• ⇒ Executive Committee of the Board
• ⇒ Policy Committee of the Board
• ⇒ Credit Committee

From the perspective of SME banking, there is no doubt that the world is getting flatter every day. Standard Bank launched SME banking to deliver the highest standard of service to its clientele.

**Corporate Banking**
Bangladesh economy is changing every day. Changes are more and more visible and sometimes it seems they are happening overnight. To face the challenges and business opportunities Standard Bank delivers cash Management and Lending Solutions match for specific business and requests.
Corporate Social Responsibility

Corporate Social Responsibility (CSR) as the commitment of business to contribute to sustainable economic development, working with employees, their families, local community and society at large to improve their quality of life. Thus environment concerns are part of a company’s CSR. CSR is a fundamental concept like liberty or equality that is always being redefined to serve changing needs and times.

To be considered effective, Corporate Social Responsibility must be an integrated part of day to day business, engaging all stakeholders and including strategies to support individual managers to make socially responsible decisions, conform to ethical behavior and obey the law.

Every business has three major goals: sustaining profit, sustaining the brand and retaining the staff. And a business has to strive for earning profit as it is essential for its survival and growth as an enterprise. The survival of any business will be a day-dream without profit. But the profit has other dimensions, too. Socially responsible business practices reduce a company’s financial profit but could potentially enhance its value. Sustainable Corporate Social Responsibility (CSR) initiatives are embedded in the viable business strategy of organization. The role of CSR, especially from the viewpoint of company, is important in bridging the economic divide that exists in the country. The business themselves alone cannot largely carry out the CSR initiatives. They need to create their own patrons for this. The more there is a linkage between business and the patron organization, the more likely is that CSR initiatives will be sustainable for a longer period. The contemporary CSR agenda is founded in recognition that businesses are part of the society, and they have the potential to make positive contribution to social goals and aspirations.

Despite the fact that CSR does not have a universal definition, it does certainly reflect the recognition by business that they have a responsibility to the society, to third parties, and the national environment, and it encompasses the social, political and economic development. CSR is most effective when it drives off core competencies of a company’s values and resources, and is not an add-on. It is meant to set the course of for the business to be in the business of doing social good. It goes beyond the ‘old philanthropy’ of the past, individual charity and one-off activity or donating money to some “good” causes at the end of a financial year. It is meant to incorporate environmental, social and welfare-based themes into business plans and products. With increased globalization, local businesses are being more integrated with the global economy than ever before. Hence the pressure is mounting on local businesses to converge on international standards of socially responsible business. As a member of the global economy, Bangladesh is also aware of the need to take positive initiative to establish an image of environmentally and socially responsible business. In the process, some of the banks and financial institutions have set up foundations for the purpose of spending their funds as part of CSR initiatives, in areas of priority social needs. The foundation need people having a forward looking approach to addressing the social issues of wider
concern. The benefits here should not be considered in terms of immediate rate of return on funds so deployed, but these should rather be viewed in the context of meeting an objective.

**CSR of Standard Bank Limited**

SBL actively embraces its role as a corporate citizen. It regards Corporate Social Responsibility (CSR) not a charity, but an investment in society and in its own future. SBL’s goal as a responsibility corporate citizen is to build social capital. The Bank leverages its core competencies in five areas of activity: through social investments it aims to create opportunities; with its involvements in art & music it fosters creativity; via its educational grant program it enables talent; through its commitment to sustainability it ensures long term viability and the Bank’s employees regularly participate in activities that provide social support.

There are several sectors where Standard Bank Limited does csr activities. All these sectors have emerged due to responsibilities of the management body of the bank towards general people and several socio economic sectors.

SBL has donated computers to School Students at Savar

Hon'ble Chairman of Standard Bank Limited, Mr. Kazi Akramuddin Ahamed is seen donating computers to School Students at Savar.
Report Part

To complete the scholarship donation program Standard bank Limited maintains several phases. Among the steps some of the steps are done by the direction of Bangladesh Bank Limited and some are completed by their own management.

![Phases of the project](image)

**Circulation of the Project**

Each of the commercial banks of the country has to spend a certain fund for their CSR activity. Among their CSR activity BB makes a declaration to spend 30% of their total CSR amount on educational sector. Being a reputed bank of the country Standard Bank Limited also donates every year scholarship to meritorious students of the country in according to the order of Bangladesh Bank. The process starts while Bangladesh bank initiates a press release to all the banks to achieve their CSR target by donating to educational sector by donating scholarship.
**Way of Donation**

The amount of scholarship which is decided to pay among the students can be distributed by two ways.

**Direct way**

In the direct way of donation SBL asks all the headmaster of the respected institution to make a list of all the students who are eligible for getting the scholarship. After making the list headmasters’ handover the list to the branch managers and they send it to the main branch to managing director of SBL for final approval. When final approval is done the particular amount of money is allocated to the headmasters for the disbursement to the students. This way of donation is called the direct way.

**Indirect way**

Indirect way complies of giving certain amount money to the schools where the school committee will distribute the money among the deserving students. The bank will not maintain any criteria and any kind of formalities in completing this activity.

Among 2 of the ways the direct way is most reliable is done by banks most of the time.

**Notice to managers**

After the press release by Bangladesh Bank the branch managers gets a notice from the main office to contact with the schools regarding the SB Scholarship Program. It is the duty of the managers to communicate the whole process of donation with the school headmasters. They contact with the school management about the whole process and tells them to run the campaign with coordination of the students and staffs. They deliver a form to the school which helps to find out the eligible students of receiving the scholarship.
Maintaining Criteria

After the notice the next step is to maintain several criteria’s to find out the eligible students. Branch managers provide a form to the headmasters where the criteria are given about selecting students. All the details about the scholarship are given in the form. Eligibility criteria is as follows

<table>
<thead>
<tr>
<th>Name of examination</th>
<th>Minimum Grade without 4th subject</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSC</td>
<td>GPA 5</td>
</tr>
<tr>
<td>JSC</td>
<td>GPA 5</td>
</tr>
<tr>
<td>SSC or Equivalent</td>
<td>GPA 5</td>
</tr>
</tbody>
</table>

The students who want to get the SB scholarship must have to maintain the above given result that is to get GPA 5 in PSC, JSC and SSC without the 4th subject.

Amount of Scholarship

<table>
<thead>
<tr>
<th>Name of Examination</th>
<th>Scholarship Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSC</td>
<td>BDT-5000/ Only</td>
</tr>
<tr>
<td>JSC</td>
<td>BDT-7000/Only</td>
</tr>
<tr>
<td>SSC or Equivalent</td>
<td>BDT-10000/Only</td>
</tr>
</tbody>
</table>

Students of PSC JSC and SSC who will fulfill the criteria will get such amount of money as scholarship. PSC passed students will get 5000 tk, JSC passed students will get 7000 tk and SSC passed students will get 10000 tk.

Selection Criteria

1. Students who have been continuing studies after passing PSC, JSC, SSC examination in the Govt. recognized school/collage/institution will be entitled for the scholarship.
2. Preference will be given to poor and meritorious students.
3. 50% of the scholarship will be given to girls if students are available.
4. The condition of minimum Grade GPA-5 may be relaxed in case of physically handicapped students.
5. No scholarship will be given to the students who enjoy scholarships from other sources.
6. 10% candidate can be selected from among the students having at least CGPA 4.0.

The amount of tk can vary according to some situations. Such as if the number of eligible students increase, if girls are more in number than boys. However based on local need and importance sometimes less amount can be given to cover more students.
Making List

After finding out the eligible students the headmaster of the school has to make list of them. The list will include their result, educational background, educational certificates and many other things. In the list the main sector of preference will be poor and meritorious students who need money for their further study. When the list will be prepared with important needed documents it will then be sent to the branch managers for approval of the managing director from the head office. The selection committee will justify all the forms with all the necessary information and make a final list of the eligible students. The committee will then make a Top Sheet for the approval of the MD.

Allocation of Scholarship

Being finally approved the list of students will be then prepared for the distribution of scholarship. Managers will contact with the headmasters to arrange a giving ceremony at their respective schools. The ceremony can also be held in any other neutral venue selected and supported by the both parties. On a given day or shift the branch managers with some officials of the bank and headmaster along with the school governing committee will hand over the scholarship amount among the deserving students.
Analysis of Data

To find out some statistical data and know exactly how people react on the process Standard Bank is running I have done a data collection program in the particular area where the bank gives scholarship to the students as a mode of CSR activity. I have made a series of questionnaire from which I have tried to bring out the responses of the respondents. Here my respondents were mainly the guardians and parents of the students who were selected for the scholarship program.

01. What is parent’s profession?

From the above graph we can figure it out that among 4 options which I gave to the respondents most of them belong to the other category. 40% persons out of 20 are from others. Others consist of farmer, rickshaw puller, labor etc. So that means the level of people who are getting the money from bank needy people.
02. What is parent’s yearly income?

Most of the parents income range is between 20001-40000 and 60001-80000. That means the majority of the people which is 6 fall between this 2 category. Yearly 20001-40000 income of a person, who has 2-3 children, is facing really hardship to maintain his family and children. But from the graph it is seen the people who have less yearly income than that are getting the same amount. But they should get a little bit more money from the bank according to their income level.

03. What is the number of earning person?

It is seen in the graph that most of the families have at least 1 or 2 earning members in their family. That means their earning members are the parents. If the number are more than 2 than it is their elder or
younger brothers and sisters. More earning members indicate another thing that is they have more family members and their earning doesn’t fulfill their family need.

**04. Guardian’s educational qualification**

14 respondents among 22 respond that their education level is below SSC. That means they have not yet crossed the normal education level. Education is really a important factor in this research because education of the parents denotes their income level at some extent.

**05. Age of guardian**

At a certain age people can work anymore. So as a result of that their income decrease. 8 of the guardian’s age is between 41-50. At this age people more or less become dependent on others. So if their children who are getting the scholarship from SBL is very much beneficiary for them.
06. Number of family member

Most of the people lives below poverty line in the villages. When their family member is more than 5 it is a huge number. Where they can’t afford themselves, 5 persons is a gigantic task. From our survey we found that 9 families have more than 5 members.

07. Number of school going children?

11 families have 2 school going children. So that means that they have to manage the cost of schooling of 2 children. So if the bank helps them with a portion of cost of one of them it becomes very helpful from them.
08. Source of acknowledgement

70% of people or parents came to know about the declaration of scholarship from their respective school. A few numbers of people know it by reading newspaper. So it is obvious that school plays a great role by making all the students and guardians aware about the program.

09. Did you face any problem while being enlisted?

80% Yes  20% No
The procedure of the bank was made very easy by their officials so that the rural and illiterate people can easily list them. The headmaster was also instructed to help them during the process. As a result of that 16 people said that they didn’t face any problem being enlisted. The other may find some difficulties while making the list.

10. Did you find this procedure lengthy?

[Chart showing 25% Yes, 75% No]

25% of people said that they find the process lengthy while 75% said no. It may happen because some respondents may think that it could have been easier if there were some fewer steps.

11. Did you find any biasness in the procedure?

[Chart showing 30% Yes, 70% No]

All the 30% of people who said that they find biasness in the process faced difficulties while being enlisted in the procedure. They were not satisfied with the process length and system. But the other 70% said that it was a neutral job done by the bank.
12. Did you find any difficulties with information while filling up the form?

45% of people find difficulties while filling up the student information form provided by the bank. It happened because they didn’t get proper assistant by the bank officials or school teacher in the process. The rest of the respondents who found assistance were very satisfied.

13. What was the mode of payment for the scholarship amount?

It was a easy and obvious answer to give by the parents. All of them got money by cheque. None got any cash money or any prize bond.
14. Does the bank charge any service charge or VAT/TAX?

Sometimes bank charge vat or tax for providing any service or voluntary service to its customers. Hence here the bank is doing a csr activity so it didn't charge any money for that. So in this question all the answer is no.

15. Was the amount sufficient?

Among 20 respondents only 1 of them said that the amount is sufficient. Where the bank is only providing a little amount for the educational purpose of the students which is not adequate to his need .So the amount of money was really insufficient.
16. Did you find any difficulties to get the money?

After the list of students the money has been allocated among the students. The distribution process must have to go by some steps which is essential for the proper distribution of money. So 90% of people have said that they didn’t face any difficulties in collecting the money.

17. What does contain in the scholarship compendium?

The scholarship contains only money. It doesn’t contain any kind of educational stuff and both money and stuffs. So all the respondents have given their response on money.
18. Do you have to open any account in this bank to receive the scholarship?

For getting any service from the bank people have to open a bank account. But here the bank is giving a scholarship to the students but for this they didn’t have to open any account in the bank. The scholarship will be given directly to person.

19. Do you want this scholarship to continue in the following year?

As this scholarship is helping all the students at least a little bit all of their parents want it to continue for the following years.
20. Will you recommend this scholarship to others?

All the respondents said that they will recommend this scholarship process to others. Because they are being benefited through process and they want others to be so.

21. From your point of view is the bank benefitted by adopting this program?

Most of the respondents think that bank is adopting this program for the betterment of the poor students who are being deprived of proper education due to lack of financial support.
Limitations

Though I tried to do my level best while conducting this paper there were some limitations which I faced while doing so.

- Time constraint is a big factor could be a big issue, as I have to do this report along with my regular office work.
- Most of the people do not possess any clear idea about CSR.
- Data availability could be another big issue here because company might not want to disclose all the confidential information regarding their managerial strategies and plans.
- The sample population will be limited in terms of proportion and composition.
- Data collection is restricted within a particular area only, which may fail to represent the total scenario.
Findings

I conducted the sample collection part in a certain area. The area and the areas school were selected for the scholarship program. I have some findings based on the questionnaire part.

The students which the bank selected for donating scholarship deserved. Most of their results were very good and all of them were from poor family. It can be easily obtained from the responses that most of the families yearly income was between 40000-60000 ranges. Some of the families were also having more than 5 children’s, which seems quite difficult for them to run their children’s education. But on the other hand the amount which the bank was giving can only be used for a short period of time. That means the amount was much sufficient for them. Some parents said that if the bank would have raised the amount a satisfactory level then it would have been easier for their children’s future education.

On the other hand some people found this process lengthy. They were suggesting that if there were some fewer steps than it would have been easier for them. The applicants for the program who didn’t get complained about its biasness while selection. During the selection process the bank mainly concentrated on the result of the students. But the guardians want that the bank also should look at their income level and family members. Because it plays a vital role in their child’s future education.
Recommendation

After working on all the factors and questions I have come with some suggestions which the bank can implement on its process.

• Bank has to spread this activity into a more diverse area. At present they are only concentrating on particular area students. As a result of that many deserving meritorious are being deprived of this scholarship.

• Bank can also increase the amount of scholarship. The amount that the bank gives is very little to their need. There are some families who can’t afford a single penny for their child’s education. The increased amount can be a helping hand to them.

• Without selecting a particular area the bank can select schools of various areas. So that the campaign will get a huge coverage. When a student will came to know about this program he will try to get himself for the listed to get the amount.

• Instead of giving only cash money the bank can also give some educational equipment to the students. It can be a additional package with the money or can be a part of the scholarship. Additional item can be pen pencil books and copies etc.

• Another thing is that some people war sensing a bit of biasness in the procedure. To avoid this thing the bank can appoint only banks employee to find out the deserving ones.
Appendix

Effectiveness and efficiency role of SBL Scholarship Program

Questionnaire for the beneficiary

Part-A

01. What is parent's profession?
   A) Businessman
   B) Day Labor
   C) Service Holder
   D) Housewife
   E) Other............

02. What is parent's yearly income?
   A) Below 20000 BDT
   B) 20001-40000 BDT
   C) 40001-60000 BDT
   D) 60001-80000 BDT
   E) 80000+ BDT

03. What is the number of earning person?
   A) 1
   B) 2
   C) 3
   D) 3+

04. Guardian’s educational qualification
   A) < S.S.C.
   B) S.S.C >
   C) < Graduation
D) Graduation >

05. Age of guardian
A) <30
B) 31-40
C) 41-50
D) 50>

06. Number of family member?
A) <3
B) 4
C) 5
D) 5+

07. Number of school going children?
A) 1
B) 2
C) 3
D) 4+
Part B

08. Source of acknowledgement

A) Newspaper
B) School
C) Other Students
D) Other source

09. Did you face any problem while being enlisted?

A) Yes
B) No

10. Did you find this process lengthy?

A) Yes
B) No

11. Did you find any biasness in the procedure?

A) Yes
B) No

12. Did you find any problem with information while filling up the form?

A) Yes
B) No

13. What was the mode of payment for the scholarship amount?

A) Cash
B) Cheque
C) Prize bond
D) Others........................
14. Dose bank charge any service charge or VAT/TAX?
   A) Yes
   B) No

15. Was the amount sufficient?
   A) Yes
   B) No

16. Did you find any difficulties to get the money?
   A) Yes
   B) No

17. What does contain in the scholarship compendium?
   A) Money (Taka)
   B) Educational Staff
   C) Both

18. Do you have to open any account in this bank to receive the scholarship?
   A) Yes
   B) No

19. Do you want this scholarship to continue in the following year?
   A) Yes
   B) No

20. Will you recommend this scholarship to others?
   A) Yes
   B) No
21. From your point of view is the bank benefitted by adopting this program?

   A) As part of CSR activity
   B) Welfare of Students
   C) Follow regulation of Bangladesh Bank
   D) In order to increase customer base
