Human Resources Management
Introduction of the report

Global opportunities and competitive pressure have made the importance on skillful management of human resources than ever. Now, in any government-non government, profitable-non profitable organizations, human resource is the most valuable asset for the company and has been given more importance than previous on managing this resource. An organization’s success largely depends on human resources management because it ensures that an organization has sufficient number of qualified, skilled man power who can accomplish its goals. Service providing organizations like a consultancy firm is not being excluded from this. In an organization effective HRM practice is mandatory for their success. Whether it’s a large or small firm employees must be selected, trained and manage effectively so that they can be a good resource for the organization. Many organizations are now seeking to higher such a person, who is a business graduate majoring from HRM for effective management of their human resource. Many human resource departments in many organizations are now extended their activities from traditional roles as processors and custodian of personnel information to more sophisticated and more expanded strategic roles. This activity increases the demand for human resource management and department and ensures implementation of proper HRM application. This report seeks to HR Policy Implementation of Joint Star Steel Structure Ltd.

Literature review

In a rapid competitive business environment, the procedures of outlining the role, function and process of Human Resource Management (HRM) within a dynamic and uncertain environment are ongoing for many decades. In the early 1980s numerous books and articles were published by American Business Schools professors to support the widely recognition of HRM concepts, in this report I have discussed about some frequently used HR practices such as performance management, recruitment, human resources planning, training and development, compensation and leave policy. For every organization recruitment is a sensitive issue, because by recruitment an organization infuses new blood in its work force. The staffing process matches people with jobs through recruiting and selection (Mathis, L. R. HRM, 2005, p 202). The process of recruitment should be sophisticated to hire perfect personnel, which can take the overall organization’s performance to a new level. Human resources planning are the mentionable activities of HRD. HR planning is an important task to keep the business operation uninterrupted. In accordance of fisher, D. C.; Schoenfeldt, F. L. and Show, B. J. Human resource planning is concerned with the flow of people into , through, and out of an organization (2006, p 96). An organization can decide what to do to enhance the business operation forwarding by measuring the performance of their employee. By conducting a performance appraisal an organization able to take initiative about training and other facilities for their employees. Dessle,G.( 2010, p 332) performance appraisal means evaluating an employee’s current and /or past performance relative
to his or her performance standards. Training and development are the common practice to enhance the efficiency of employees. Mathis, L. R., Jacson, H. J., (2002, p 272) training a process whereby people acquire capabilities to aid in the achievement of organizational goals.

5. Disciplinary Action policy

5.1 Oral warning:
A verbal warning is an opportunity to clear up the problem and set the worker on the right track. The supervisor manager should have a full discussion with the employee before giving the warning to ensure that the employee has the opportunity to respond or to give additional information.

When giving a verbal warning to an employee, it is important to discuss the issue in private. Discussing the problem in front of co-workers can cause embarrassment and resentment.

5.2 Counseling:
If the employee does not take warning seriously that time the HR management will counsel the employee and know what the problems are. A written document will be prepared on a short note of the step 1 meeting. All counseling conversations should be recorded and the HR management and employee will have to sign the document. These documents records are attaching.

5.3 Written warning:
If an oral warning is given and counseling has been done, but yet the problem performance or behavior persists, a written warning may be effective. A formal warning letter informs an employee of the reasons why his or her behavior is unacceptable and, if it continues, may lead to the termination of the employee’s employment. These documents records are attaching.

 ✓ First Written warning
 ✓ Second Written Warning
 ✓ Third written warning (Temporary suspension)

5.4 Temporary suspension:
Suspension typically prevents work for a number of working days and from his or her post, as specified in the letter, and pay is docked accordingly. Length of a suspension without pay will be influenced by policy or contract requirements. Depending on the issues the time period of the suspension is decided. It may be from 3 to 6 months.

5.5 Investigation:
There is an investigation committee in all companies. After discussing the situation with the supervisor, if HR feels that the alleged misconduct cannot be resolved informally, and then the alleged misconduct will be formally investigate. The investigation committee investigates the work and behavior of the employee. They make a written report on it and send to the authorities. Then depending on it and after judging the report the authority takes decision about the employee according to the acts of the company.
5.6 Salary reduction:
After taking the above mentioned steps if the employee still carries on everything his salary is reduced according to the decision of the authority. This alternative is normally used when you do not wish to remove the employee from the work site, but serious discipline is appropriate.

Discharge:

- Even if after all the warnings and actions taken against the employee, and he or she does not change his or her misconducts then the final step is to be taken. The employee has to be discharged from all his or her duties and responsibilities. Investigation committee report gives HR the authority to discharge the employee.

3.10.8 Dismissal:

- Dismissal is the ultimate disciplinary action, normally used when other methods employed to correct performance or behavioral problems have not been successful. When the company fails to make the employee work accordingly after all the process and everything properly clears then organization totally terminated for employee permanently in his/her job.

Findings & Analysis
7. Findings & Analysis:

As I have done my Internship report on HR Policy Implementation of Joint Star Steel Structure Ltd. I took a small survey of overall randomly selected twenty people (20). I designed my questionnaire in such a way so that the employee of JSSSL could easily understand & happily participated with the inquiry that I need. Interpretation & graphical representation are given below.

Q1. Does JSSSL strictly follow the policies or rules that are mentioned in your employment offer/agreement?

![Graph showing employee responses to Q1]

**Interpretation:** From the above graph we can see that most of the people did agree with the terms that JSSSL strictly follow the policies or rules that are mentioned in their employment offer/agreement. Few are uncertain about the condition because they are new blood or fresh recruitment to the company. They need time to understand the organization culture and its policy implementation. Couple of people is dissatisfied with the rules or policies of JSSSL and it’s a normal thing to tolerate because you cannot fulfill everyone’s wish every time.
Q2. Does the company offer Maternity leave?

**Interpretation:** In this particular question I find out that about 60% people strongly agreed and 25% people agreed with this matter. That means over 80% people thinks positive about this and ultimately that means company does practice it well according to our labor law. Again there are 15% people who are uncertain about answering this question, reason behind this may be they didn’t know about this or informed well.

Q3. Does the Company Appraise for Annual Increment?

**Interpretation:** According to our Labor law a company must appraise an employee’s annual increment once in a year. The answers I collected against this question are quite satisfactory. It is a law and the JSSSL Company does follow it well. We can observe it from the graph shown above.
Q4. Does JSSSL practices Gratuity, Provident fund, Sick Leave opportunity to you?

**Interpretation:** Practices of Gratuity, Provident fund, Sick Leave opportunity are very important for an organization because it retains employee as well as attracts new employees to join. JSSSL also provide those opportunity to keep their employees believing that they are here for good not for only doing business. From the graph we can see that most of the employees cast their vote for the company that means they are positive. According to labor law JSSSL does provide those opportunities their employees.

Q5. Do you really get the Annual leave, Earn Leave encashment that actually JSSSL promised to you?

**Interpretation:** From the graph we can see that most of the respondent are from the group of agreed and uncertainty. Some of them didn’t agree with others. That means about this matter there are mixed opinions we hold. JSSSL have to improve in this section a lot to have more positive result in near future about this matter.
Q6. Are you satisfied with your Salary, Festival bonuses relevant to your company position?

![Chart](image)

**Interpretation:** People are never satisfied with what they get. They demand more and more. Through this question I also faced this fact. Most of the people didn’t know about what amount of salary will keep them happy. And second most majorities of the people are dissatisfied with what they get. A few people are satisfied with what they get. JSSSL always tries to update their salary rate according to market rate in order to retain their employees.

Q7. Do you think JSSSL Performance Appraisal Policy (PAP) is satisfactory?

![Chart](image)

**Interpretation:** From the above graph we can see that most of the people did not agree with the question. Majority of the portion doubted about performance appraisal policy. The reason behind this that employees have lack of knowledge about performance appraisal policy (PAP). What is it? How does it work? Is it beneficial or harmful to them? At this point I think JSSSL should focus more on answering those questions by creating regular seminar or workshop.
Q8. Employee development plans are addressed in performance appraisals?

![Employee development plans are addressed in performance appraisals?](image)

**Interpretation:** The above graph again we can see that most of the people did not agree with the question. Majority of the portion doubted about development plans that are addressed in performance appraisal policy. Few are agreed with this. The reason behind this mixed result is that most of the people don’t have any knowledge about the development program the company is planning or running. New employees must get to know about this. May be the agreed people or seniors can help them out about this matter.

Q9. How would you rate employee training, development & motivation at JSSSL?

![How would you rate employee training, development & motivation at JSSSL?](image)

**Interpretation:** This was a tricky question and asked to the employees to find out that whether the employees get proper motivation, training and development opportunity from the company itself. The result of this question was quite surprising. About 35% people agreed and another 35% disagreed. Rest of the people 20% are uncertain or remain neutral about answering this question. JSSSL must focus on this matter to improve proper motivation system and employee training and development.
Q10. Do you think JSSSL shows biasness in recruiting or giving promotion?

**Interpretation:** About 55% people disagreed and another 5% agreed. Rest of the people 20% are uncertain or remain neutral about answering this question. I don’t know why few people think JSSSL shows biasness in recruiting or giving promotion. Because during my Internship period I didn’t have any experience of this type of situation at JSSSL. It is difficult for me to find out the answer of the question because I have enjoyed short time journey at JSSSL. But in the end biasness should be avoided to have a good working environment where employee will flourish their skills and do their best for the company.

**Short Summary of the findings:**

If I look back to my journey at JSSSL I can see the company is trying to make more interactions with the employees to implement their HR policy. Employees at JSSSL are neither happy nor unhappy about the company’s HR policy. Some of them are really unaware of the terms & conditions of Bangladesh Labor Law. The fact is that JSSSL must increase the understanding of their policies to their employees by creating different seminar or workshop. Because Human Resource department of a company is the best potential resource among all the resources and if any company fails to communicate with them properly then the workforce might not give the desired output.
Recommendation

&

Conclusion
**Recommendation:**

From my work experience with JSSSL I think I can make some recommendation for this organization. These recommendations are completely from my personal point of view and I think they have possibilities to improve in the recommended areas. My recommendations to JSSSL are:

1. As soon as it is possible JSSSL should make the Human Resource Department totally separate from other department with professional human resources management administration.

2. JSSSL spends considerable productive time on recruitment, promotions and other staff matters. To save productive resources, Human Resources should consider installing the automated and web based technology for recruitment to replace the manual processing for recruitment and hiring and free staff time and space for more productive HR activities.

3. Due diligence should be given to manpower planning and the luxury of filling positions without recourse to efficiency and standards should be reconsidered.

4. JSSSL should arrange some annual event for their employees, to entertain them, motivate them, give them relief from their monotonous work and also make them feel that the organization also cares about each and every employee.

5. JSSSL should open their job evaluation system to the employee and should set some standard, so that competitiveness can grow in the employees mind to achieve the level of standard.

6. The organization should take steps to stop the too much exercise the reference power; it will affect the other employee’s confidents and willingness to the work.

7. The compensation and benefit of JSSSL should be restructured & updated in every year which will reduce employee turnover.
**Conclusion:**

Human resource policies are systems of codified decisions, established by an organization, to support administrative personnel functions, performance management, employee relations and resource planning. Bangladesh is a regenerative country, which is growing, making its presence in the global forum. Moreover it is one of the countries that are looked upon as the next growth centre. So let us be conscious about the fact that there is a regenerative Bangladesh, creative Bangladesh, path breaking Bangladesh. Hopefully Engineering Construction firm sector is the next opportunity for Bangladesh.

To implementation of HR policy, Joint Star Steel Structure Ltd. do not need more cost rather they can create a good image among their valued customer for which their future sales will increase, frequency of unmet demands will be decreased, product quality & service will be increased and increased potentiality of new customer, new business scopes & services. Most of all satisfaction level of customers may get increased so that Joint Star Steel Structure Ltd. can achieve their ultimate business goal.

The area of Human Resource Management is very wide. In this report it has been tries to show the extent at which JSSSL practices Human Resource Management at their organization. That covers their Training, recruitment and selection process, total compensation package, performance appraisal system. Human Resource management is the heart of an organization which plays an important role of getting the right people to do the right job and at the right places, which helps to ensure the overall achievement of the goals of the organization. Therefore, the practice of Human Resource Management must be well performed.
