\ b Some IGVGDP & SLDP VOs and Members were overlaped in RDP . Due to this, the year end position of VO & Membership is dicressed from the statistics published in the September,95 report .

\a Even though there was no target of poultry workers[IGVGD] for 1994, 5,538 poultry workers were trained for prgramme needs. Therefore the target of 3,000[IGVGD] for this year had already been achieved in 1994.

\b Target is for Boro + T. Aman but achievement is for only Boro cultivation.

\c Due to high profitability, prospective Carp culture VO members become more interested than anticipated, hence achievements are far better than projected.

\d Last year 49 hatcheries were established as against target of 20 only . The achievement of this year is low , due to over achievement of last year.

\e Due to flood, leaf production of mulberry trees was not qualitative and sufficient for DFLs(Disease free laying), which affected the cocoon production . Silk production is affected for low cocoon production and less recovery of yarn from these cocoons .
