CONVOCATION
2015

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

PRESIDENT
PEOPLE'S REPUBLIC OF BANGLADESH
DHAKA

21 Kartik 1422
05 November 2015

Message

It gives me immense pleasure to learn that the 10th Convocation of BRAC University is going to be held on 5 November 2015. On the auspicious occasion, I would like to convey my heartiest congratulations to the graduating students, members of trustee board, faculty members, guardians and all concerned of the University.

Education is not mere accumulation of facts; it is the foundation of life itself. Education is knowledge imbued with wisdom and ethics. It develops the personality of students, moulds their character and grows mental skills to help them in coping with problems and challenges of the modern world. The responsibility of universities, both public and private, is primarily characterized as teaching, research, and innovative thinking to develop students' capacity. Research and innovation, as we know, are the key elements in pursuing of new knowledge which play a vital role in meeting the demand of the time. I, therefore, strongly believe that our universities will concentrate their efforts on research and innovation activities along with routine works.

I would also like to emphasize on the necessity of ensuring quality education. The Government of Bangladesh has taken effective measures including establishment of new universities, enactment of Private University Act 2010 and its proper implementation, formulation of National Education Policy 2010, adopting the Higher Education Quality Enhancement Project, Bangladesh Research and Education Network for expanding higher education in Bangladesh. I urge all concerned to explore at every opportunity for harnessing the fruit of the measures.

I am happy to know that BRAC University has shown its promising mark and has contributed commendably to higher education. I hope, the graduates of this university will be able to meet global needs through their talents and will come forward to serve mankind. I wish the graduates a very bright and prosperous future.

I wish the 10th Convocation of BRAC University a grand success.

Khoda Hafez, May Bangladesh Live Forever.

Md. Abdul Hamid

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

PRIME MINISTER
GOVERNMENT OF THE PEOPLE'S REPUBLIC OF
BANGLADESH

21 Kartik 1422
05 November 2015

Message

I am happy to know that BRAC University is holding its 10th Convocation on 5 November 2015. I congratulate the graduating students, their parents, faculty members and university authority on the occasion.

Our government is striving hard to establish Bangladesh as a middle-income country by 2021, the golden jubilee year of our independence. Prioritizing the importance of higher education, our government has adopted a modern, scientific and time-befitting Education Policy and also enacted Private University ACT to ensure quality education.

Private Universities have become vital partner of the government's effort towards educational development through their contribution in building promising citizens and future leaders.

I hope the outgoing students of BRAC University will be able to face the challenges of the 21st century and help build a Golden Bangladesh as dreamt by the Father of the Nation Bangabandhu Sheikh Mujibur Rahman.

I wish the 10th convocation of BRAC University a great success.

Joi Bangla, Joi Bangabandhu
May Bangladesh Live Forever.

Sheikh Hasina

Date: 05 November 2015

Message

On the occasion of 10th convocation of BRAC University, I would like to extend my warmest congratulations to the new graduates of the university.

On the eve of such an auspicious occasion, I would also like to convey my heartfelt felicitations to the faculty members, officials and staff of the university and also, of course, the guardians of the new graduates.

As we know, our new generation must be groomed up with quality education to enable them to face the challenges of globalization. Obviously, private universities have opened up a huge scope of the global standard education for our students.

I am pleased to learn that BRAC University, since its inception in 2001, has created a niche for itself in the field of higher education in the country. It is also noteworthy that BRAC University, in conformity with BRAC's Vision, is running a scholarship scheme to help and encourage the meritorious and underprivileged students. I hope the new graduates, enlightened with ideals of BRAC, would devotedly contribute to develop the country.

I wish the graduates the every best.

(Nurul Islam Nahid, M.P.)

Professor Abdul Mannan
Chairman

27 September 2015

Message

It gives me great pleasure to see that a large number of graduates is receiving degrees at the 10th Convocation of BRAC University. Your years of hard work and delegation to your academic success have paid off. On behalf of the University Grants Commission of Bangladesh, please accept my sincere congratulations on your impending graduation.

Qualified and efficient manpower is the prime need of the hour to gain national development and face the global challenge of the 21st century. Education enables students to soar high – morally, socially and spiritually. Students need to learn that the secret of success and contentment lies in discovering one's own strengths as well as limitations. There is, therefore, every reason to place our renewed emphasis on the humanistic dimensions of education, enabling each person to grasp and appreciate the individuality of others, and to discover one's own self through an inner journey where the milestones are knowledge, introspection and humility.

BRAC University has been producing skilled and accomplished graduates by imparting quality education since its inception. I am confident that it has already made a mark for itself in the field of higher education and research. It has also gained reputation and acclaim for its quality of education and research facilities. I do believe that the graduating students of the university will uphold the vision of the institution and will prove themselves to be successful in combining their academic learning and social responsibilities towards ensuring a brighter Bangladesh.

Universities are unique in their commitment to educating the generations ahead, to uniting the wisdom of the past with the urgency of the present and the promise of the future. In this modern world, their contribution matters more than ever before. I congratulate the proud parents and guardians who often endured hardship and difficulties, yet kept on encouraging their words in reaching the desired goals. I am sure together we shall build a better future for our nation and indeed the world.

27/9/15
Professor Abdul Mannan
Chairman

05 November 2015

Message from Chairperson Board of Trustees

My heartfelt congratulations to the tenth graduating class of BRAC University. This Convocation is the culmination of your hard work and achievement over the last four years. It is a proud moment not only for the graduates and their parents but also for the dedicated team of teachers and staff who have supported them throughout their university career.

I am pleased to note that BRAC University has, since its inception 15 years ago, emerged as an institution of excellence which strives to maintain relevance in the changing context of our times. Through the liberal arts education the University offers, we have endeavoured to teach the students to think critically and value perspective. The University has also been successful in identifying the critical needs of our society and addressing them by offering specialised degrees in disciplines such as Public Health, Midwifery, Governance and Disaster Management.

As you go forward, I urge you to reflect on and take pride in the knowledge and experiences you have gathered in this institution. The conferring of your degrees will also bestow upon you the responsibility to use your learning dutifully for the betterment of your society, especially for those who have not had the privilege that you have enjoyed.

I wish you all the success for the future.

Sir Fazle Hasan Abed KCMG
President
Board of Trustees

05 November 2015

Vice Chancellor's Message

BRAC University embodies the message in its tag line — Inspiring Excellence!

The BRAC University community subscribes to the fundamental conviction that education is a catalyst for positive change and the cornerstone for building strong, resilient and enduring communities. The University also endeavors to instill a spirit of inquiry, professionalism, social consciousness, and a deep sense of patriotism. It provides many opportunities to grow academically, intellectually, socially and as well-rounded human beings. In the process, critical thinking is emphasized, teamwork is promoted, technology awareness is instilled, new veins of knowledge are explored, multi-cultural awareness and empathy are developed, interpersonal competencies are fostered, practical life skills are honed, and an ethical perspective woven into its fabric.

In our continuous efforts to maintain excellence we have begun to focus on the delivery of quality education to equip our students with the acumen to address both local and global challenges. In addition we are forging a distinctive future with new program initiatives that emphasize a modern curriculum, student engagement, professional training, faculty development, innovative research, international collaborations, industry partnerships, a state-of-the-art campus facility, and much more. Making transformative impact on students, faculty, industry and society is the ultimate aim of these programs.

Today, BRAC University is at the forefront of a campaign to create sustainable and lasting change in Bangladesh. Three fundamental initiatives driving this change are rooted in the belief that collaborative endeavors will build synergies, leading to new and innovative ideas that, ultimately, will have deep social impact. Collaborative endeavors are thus a hallmark of our global positioning strategies and aspirations. It is also our conviction that innovation drives progress in society and helps us face a variety of evolving challenges. By emphasizing collaboration and innovation in its major endeavors BRAC University continues to remain the front-running institution it is known to be and to make its contributions felt in the region and beyond.

As Vice Chancellor, I am deeply committed to building a body of faculty and students dedicated to academic excellence reflected in a vibrant curriculum, pedagogical sophistication, top-notch research, and service to society. Our purpose is to develop confident leaders, independent thinkers and creative entrepreneurs who will be able to play a leading role in different sectors of the economy and polity. In our internationalization efforts, we are expanding our global network of partner institutions that span leading universities in Europe, North America and Australia.

With our many stellar achievements, we are proud of our BRAC University heritage and our leadership role in higher education in Bangladesh. The graduating students have been a vital part of our endeavors. I wish them the very best in the future that awaits them.

Professor Syed Saad Andaleeb, Ph.D.
Vice Chancellor

05 November 2015

Message

It is my utter pleasure to know that BRAC University is celebrating your achievements on 5th November 2015 at its 10th Convocation. Heart full congratulations to graduates - this momentous occasion marks an end and a beginning of your journey and quest. It is also an opportunity for you to push back the boundaries and set sights on higher goals.

BRAC University has already earned high reputation for its academic excellence. It is a university that aims to transform its students into competent, confident, creative and ethical graduates who will become virtuous citizens and enlightened leaders of our beloved country. We highly expect you to serve the nation and beyond with high level of dignity and integrity.

Bangladesh needs you - there are problems that need to be solved, injustices that need to be ended. No doubt you will face a tough marketplace and inevitable obstacles, but you will overcome those and lead us with your able stewardship. I have every confidence in you that you will make your way through the challenges you will embrace in the coming days. As you graduate, promise yourself that you will follow the finest of our values and and uphold traditions.

This proud moment of chasing your dream requires hard work and passion. This is just only the beginning of your long journey, perhaps just a break as you enter the new battlefields of life. I am sanguine that we will be celebrating your achievements in the coming days. Let me register my best wishes as you start this humble journey.

Congratulations once again, and warm wishes for the future.

Matiur Rahman

Brief Biography of the Convocation Speaker

Mr. Matiur Rahman

Editor & Publisher, The Daily *Prothom Alo*

Matiur Rahman was born in January 2, 1946. Since its inception on 4 November 1998, he is holding the position of Editor of Prothom Alo (First Light). He is also the Publisher of this most circulated daily in Bangladesh. The newspaper's unpartisan and uncompromising stance towards presenting the truth as well as its constructive advocacy and unsparing editorials attracted legions of readers in no time and consequently it became the most trusted and respected newspaper of the country. Under his able stewardship, Prothom Alo has broken all the prevalent circulation, readership and revenue records of the print media industry of Bangladesh and is relentlessly pursuing to take itself into newer heights.

Before launching the daily Prothom Alo, Matiur Rahman worked as the Editor of the weekly Ekota from 1970 to 1991 and the daily Bhorer Kagoj from 1992 to 1998. Matiur Rahman has pursued a vigorous editorial policy of strengthening democracy, freedom of expression and establishing fundamental human rights. His occasional column 'Commentary' has gained tremendous popularity among readers.

He completed his Post Graduation Degree in Statistics from Dhaka University in late 60's. From 1962 to 1969 he was a Central Leader of the left leaning East Pakistan Students' Union - one of the most influential students organisation of the then Pakistan. He was also the General Secretary Sangskriti Sangstha, a cultural organization of the same university from 1965 to 1968. He was later active in leftist politics as a Central Leader of the Communist Party of Bangladesh (CPB) from 1973 to 1990.

In 1991 and 1996 he helped to organize SAARC (South Asian Association for Regional Co-operation) Election Observer Team, which was initiated by Ethnic Study Centre of Sri Lanka and funded by NORAD for the National Parliament Election of Bangladesh. He also became the member of non-governmental SAARC Election Observer Team for Pakistan National Election held in 1997 and 2002. He attended numerous international seminars and conferences in many countries in New York (USA), London (UK), New Delhi (India), Moscow (Russia), Paris (France), Kathmandu (Nepal) and other countries.

He has authored books including Akash Bhora Surjo Tara (The sky is full of sun and stars), 2. Khapra Ward Hottiyakando (Killings at Khapra Ward), 3. Kar Rajniti Kisher Rajniti (Whose Politics What Politics), 4. Mukta Gonotantra Ruddho Rajnitee (Free Democracy), 5. Shaheed Noor Hossain (Martyred NurHossain), 6. Itihaser Satya Sandhane (In quest for historical truth) and 7. Dhanik Srenir Lutpater Kahini (The story of looting by the rich). Besides authoring, he has also edited a number of books.

In 2005, he received the Ramon Magsaysay Award for Journalism, Literature and Creative Communication Arts. The foundation recognized his relentless combat against acid violence in creating mass awareness against this crime and building-up funds to help acid burnt women through *Prothom Alo* and Prothom Alo Trust. He was recognised as “the navigator of positive social and cultural change” in Bangladesh for initiating many movements for various social causes.

Matiur Rahman is an art enthusiast and loves to read books, listens to music and collect paintings.

10th
CONVOCATION
2015

Inspiring Excellence

Profile of BRAC University

BACKGROUND

BRAC University was established in 2001. It follows liberal arts approach to education which nurtures fresh ideas and gives new impetus in the field of tertiary education. It ensures a high quality of education and aims to meet the demands of the contemporary times. Building on BRAC's experience of seeking solution to challenges posed by extreme poverty, BRAC University hopes to instill in its students a commitment to working towards national development and progress. BRAC University is accredited by the University Grants Commission (UGC) and approved by the Ministry of Education, Government of Bangladesh.

MISSION

The mission of BRAC University is to foster the national development process through the creation of a centre of excellence in higher education that is responsive to society's needs and able to develop creative leaders and actively contributes to learning and creation of knowledge.

GOAL

The goal of the university is to provide an excellent broad-based education with a focus on professional development for students, in order to equip them with the knowledge and skills necessary for leading the country in its quest for development. Along with this, the university provides an environment for faculty development to ensure a dynamic teaching environment. Faculties are provided with an environment in which they can further their teaching-learning skills and contribute to the creation of new knowledge by developing and using their research skills.

Department of Architecture

Department of Architecture

Inspiring Excellence

Department of Architecture (ARC)

Goal and Objectives

Department of architecture of BRAC University is operating an education to prepare tomorrow's architects for the challenges of a technologically developing world and the challenges that face our nation. To seek solutions that respect the social, cultural and aesthetic needs of the people they serve and work towards the development of an ecologically balanced and sustainable built environment.

Achievement

The academic atmosphere is characterized by rich co-curricular activities and a lively cultural life. It includes the Angan lecture series, Arch.KIDS and the student cultural forum "Moitree". The department organizes exhibition of the students' work and design charrettes. Two prestigious awards 'Noman Award for Excellence in Design' and 'Rafiq Azam Travel Bursary' have been introduced to acknowledge the best student project from final semester and to encourage students to travel across Bangladesh and overseas respectively. Practical training in home and abroad is also a part of the curriculum. The department enjoys the privilege of students and staff exchange with several European Universities under EMMA (Erasmus Mundus Mobility with Asia). It has a MoU (Memorandum of Understanding) with the School of Architecture; University of Illinois at Chicago, for student/staff exchanges. The department undertakes research programs in association with the Research and Education division of BRAC, the British Council, the

University of Manchester, Loughborough University, Hoge School Van Amsterdam etc. Prototype design of cyclone shelter for BRAC, interior design of university facilities, disaster resilient housing at Noakhali for IUCN and post disaster housing reconstruction in the Sidr affected areas are some examples of consulting services.

Ongoing Academic Program

- Bachelor of Architecture
- Certificate Course in Construction Management
- Master in Disaster Management

Faculty overview

The department has faculty members who attained advanced degrees from North America, The United Kingdom and other leading schools in Europe and Asia. They are leading major research projects on Sustainability and Energy, Community Housing, Inclusive Design, Urbanism and Urban Design, Digital Tectonics and Advanced Architectural Design, Cultural Heritage and Disaster Management etc. Several individuals with substantial professional experience also serve as visiting faculty members, teaching classes where their real-life experience allows for greater depth of learning for students.

BRAC
Business School

BRAC Business School

Inspiring Excellence

BRAC Business School (BBS)

Goals and Objectives

With a mission to create and disseminate knowledge in the field of business and management, BRAC Business School (BBS) strives to improve effectiveness and efficiency of managing business and non-business organizations through excellence in business education, training, research and advisory services.

Achievements

The research works of the BBS faculty members have been commended in the business profession and published in various national and international journals. The focus of BBS is not limited to education and research. It encourages the students to participate in various extra-curricular activities through its student clubs— BRAC University Business Club (BIZ BEE), BRAC University Marketing Association (BUMA), Entrepreneurship Development Forum (EDF) and the MBA Forum. The aim is to instill leadership qualities in the students of BBS by engaging them in these student platforms. Owing to the very high quality of the programs and the school's commitment to the business education in Bangladesh, a rising number of applicants have been consistently attracted to our BBS programs. At present BBS has around 2600 students enrolled, and the alumni of BBS are proving their excellence at home and abroad, and are the brand ambassadors of BRAC University.

Ongoing Academic Programs:

- Bachelor of Business Administration (BBA)
- Master of Business Administration (MBA)
- Executive Master of Business Administration (EMBA) and
- Master of Bank Management (MBM)

Pursuant to its mission, the school offers an undergraduate program (BBA, Bachelor of Business Administration) and three graduate programs (MBA, Master of Business Administration, and EMBA, Executive Master of Business Administration and MBM, Master of Bank Management). The areas of

specialization of the school are Accounting, Finance, Banking and Insurance, Human Resource Management, Marketing, Computer Information Management, E-Business, Entrepreneurship, and Operations Management.

Faculty Overview:

Some of the finest faculty members in business education are working at the school, and their endeavors are supplemented by high class practitioners such as **Dr. Mirza Md. Azizul Islam** and **Dr. Akbar Ali Khan** (former advisers to the interim Caretaker Government of Bangladesh), **Dr. Salehuddin Ahmed** (former Governor, Bangladesh Bank), **Professor Emeritus Hafiz G. A. Siddiqi** (former Vice Chancellor, North South University, and former Director, IBA, Dhaka University) and **Professor Rahim B. Talukdar Ph.D.** (former Vice Chancellor, Eastern University and former Director, IBA, Dhaka University).

Department of
Computer Science &
Engineering

***Department of
Computer Science &
Engineering***

Inspiring Excellence

Department of Computer Science & Engineering (CSE)

Goal and Objectives

The Department of Computer Science and Engineering embodies BRAC University's tradition of excellence as a leader in engineering education and research. The Department operates under the School of Engineering and Computer Science, and is driven by the dual goals of offering a world-class, broad-based undergraduate program and a strong research culture centered on our faculty members and graduate students.

Achievement

Since its inception, the Department of Computer Science and Engineering has taken great strides towards becoming a truly international standard institute. In 2004, they hosted the International Conference on Computing and Information Technology, (ICCIT'04) is one of the most prestigious conferences held in Bangladesh.

In 2005, Professor Mumit Khan founded the Center for Research on Bangla Language

Processing (CRBLP). From 2006 to 2011, CRBLP engaged in several research projects, the most prominent was their Optical Character Recognition System and their Text To Speech System. In 2010, CRBLP presented these systems to the Government of Bangladesh, and was also awarded the excellence in innovation award by BASIS.

Since 2010, students of the School of Engineering and Computer Science have been participating in the NASA Annual Lunabotics Mining Competition under the leadership of Dr. Khalilur Rhaman. In 2011, BRAC University became the first university in Bangladesh to attend the Lunabotics event (NASA, USA) and in 2012, their project was ranked the highest among all universities in Asia. Several other universities in Bangladesh now took part in the Lunabotics event, and BRAC University is unanimously identified as the pioneer in this event for Bangladesh.

Ongoing Academic Program

- Bachelor of Science in Computer Science
- Bachelor of Science in Computer Science and Engineering
- Master in Computer Applications
- Master of Science in Computer Science and Engineering
- Master of Engineering in Computer Science and Engineering

Faculty overview

Faculty members are leading major research projects on Image Processing, Cloud Computing, Robotics and Bio-Informatics, to name a few areas. Several individuals with substantial industry experience also serve as visiting faculty members, teaching classes where their real-life experience allows for greater depth of learning for students. Recently Dr. Md. Haider Ali, Professor, department of CSE, University of Dhaka has joined here as the chairperson of this department. His research interests include Computer Graphics and Image Processing.

Department of
Electrical and Electronic
Engineering

***Department of
Electrical and Electronic
Engineering***

Inspiring Excellence

Department of Electrical and Electronic Engineering (EEE)

Goal and Objectives

The Electrical and Electronic Engineering (EEE) department offers two undergraduate degree programs, the Bachelor of Science in Electrical and Electronic Engineering and the Bachelor of Science in Electronic and Communication Engineering. It also offers two graduate degree programs, the Master of Science in Electrical and Electronic Engineering and the Master of Engineering in Electrical and Electronic Engineering.

Besides the academic programs, the department actively encourages both undergraduate and graduate students to engage themselves in research, such as,

- To produce well-informed and well-balanced graduates who can use electronic/telecommunication/power system engineering tools to solve real world problems.
- To train students in research methodology, so that they can contribute towards creation of new knowledge.
- To expose students to courses which follow the requirements of IEEE and curricula of North American and European universities and institutes.

Achievement

There are several research groups operating under the EEE department at the moment as mentioned below. The Control and Applications Research Group (CARG) has expertise and activities in the area of system and control engineering. Most CARG projects involve close collaboration with industrial organizations including companies like EnergyPac Bangladesh, BRAC Solar and Dhaka Power Distribution Company.

The Robotics Lab has participated in the Annual Lunabotics Mining Competition for two years in a row. Last year, the Chondrobot 2 did marvelously well and was ranked as the best performing robot among all the Asian universities that participated in that event. In addition to that, it is currently working on other robotic designs.

Ongoing Academic Program

- Bachelor of Science in Electrical and Electronic Engineering
- Bachelor of Science in Electronic and Communication Engineering
- M.Sc./M.Engg in Electrical and Electronic Engineering

Faculty overview

The Department has 21 full time faculty members. Some of the faculty members hold Ph.D's and have strong research and many years teaching and industry experience at home and abroad. Some have publications in the world's top journal in Electrical Engineering, IEEE Transactions.

Department of
Economics and
Social Sciences

***Department of
Economics and
Social Sciences***

Inspiring Excellence

Department of Economics and Social Sciences (ESS)

Goals

The Department of Economics and Social Sciences (ESS) was started in 2003. Since then it has expanded to include 19 full time faculty members and over 300 students. More than half the faculty members hold Ph.D.s from reputed universities and have strong research and teaching experience. We also have many young teachers dedicated to professional academic careers. We are all committed to close engagement with students to develop their intellectual curiosity and motivation for learning. We encourage students to ask questions and challenge conventional ideas. We seek to help students understand the broader economic and social realities they live in, both in Bangladesh and in the global arena so as to develop critical insights and analysis, which can guide them to solutions. We prepare students for the job market as well as for postgraduate education and emphasize their growth as all-rounded individuals with strong ethical values. The Department offers two majors and three minors.

Programs offered

- Bachelor of Social Sciences (BSS) in Economics.
- Bachelor of Social Sciences (BSS) in Anthropology.
- Minors in Economics, Anthropology and Sociology.

Bachelor of Social Sciences (BSS) in Economics

The major in Economics offers its students a broad, comprehensive, demanding and innovative BSS degree in Economics. It is designed to introduce them to the basic concepts and issues in economic theory and discourse, offer them challenging upper level courses that sharpen and focus their understanding and engagement with the discipline, and teach them to apply the concepts learnt in the classroom to real life.

The core courses of the Economics major create a strong theoretical base for any further study in economics. Along with the elective courses, the major effectively prepares students for the employment market in government, the private sector and in development agencies.

Bachelor of Social Sciences in Anthropology

ESS has been offering a major in Anthropology since the spring of 2013. The program is committed to rigorous teaching, writing and analytical skill-building on issues such as development, modernity, nationalism, sovereignty and culture. The Anthropology faculty includes well-known specialists who have successfully made ESS an important convening platform that articulates a better historicized, culturally

contextualized Southern perspective and offers a new South Asian narrative. The small student-teacher ratio and close mentoring of students, both in the classroom as well as in the field, ensures high-quality social science training with prospects for advanced degrees and interesting careers in the development sector and elsewhere.

Minor in Economics, Anthropology and Sociology

ESS offers a Minor in Economics for students of other disciplines to gain a strong foundation in theoretical and applied micro and macroeconomics along with a basic understanding of the techniques of economic data analysis. The Minors in Anthropology and Sociology help students integrate the theoretical knowledge gained in other majors with a deeper understanding of the greater social and development contexts as well as develop their analytical and writing skills.

HIGHLIGHTS

ESS organizes major events and regular seminars throughout the year, bringing in academics from abroad as well as Bangladesh.

Many of the faculty members publish their work in refereed journals, and speak at international events.

ESS convenes scholars in major national and international events and also engages in policy dialogs.

ESS coordinated a half day workshop on Research Methodology and publishing, conducted by Joya Chatterji Professor at Cambridge.

Dr. Farzana Munshi organized a workshop on Labor Markets and Growth on March 2nd 2015 as part of a research collaboration with RAND corporation in the USA and BIGD.

Dr. Shahidur Rahman, Associate Professor of Sociology, was invited to be a panel member at an International conference on "Transformation, Challenges and Opportunities for Bangladesh Garments Industry" held on 5th and 6th of June, 2015 at Harvard University.

Dr. Sabur was invited as the member of the board of the IACS. Published by Rutledge since 2000, *Inter-Asia Cultural Studies* has been a collective attempt to build an international platform for critical intellectuals who locate their own work and concerns in the larger social and political world beyond the academia.

Department of
English and
Humanities

Department of English and Humanities

Inspiring Excellence

Poetry

Department of English and Humanities (ENH)

Goal and Objectives

The Department of English and Humanities aims to promote the Humanities in the University. It fosters critical thinking, and encourages students to think independently. The emphasis in the department is to inculcate reading and writing habits, and to prepare students with adequate critical and analytical skills to take their place in the contemporary world. It follows a multi-disciplinary approach in line with a liberal arts approach to tertiary education.

Achievements

The most important achievement in the academic year 2014-15 has been the successful launching of the Linnaeus-Palme academic exchange program with the Umea Centre for Gender Studies of Umea University in Sweden. The on-going academic exchange provides greater focus to the Gender courses in the M.A. in English program, and it is hoped that this will enhance the inter-disciplinary nature of the department. The Minor in History program, inaugurated in the last academic year, is part of this on-going effort.

The Minor in History program has also introduced a Special Studies course on 'Diversity, Conflict and Discrimination', where students are encouraged to take on field research to shed light on contemporary social issues, while relating them to the history of Bangladesh.

Situated in and fostered by the Department of English and Humanities, BRAC University Media Lab is perhaps one of the major pioneering attempts in extra-curricular activities taken by BRAC University. Its aim is to give students complete access to a world of digital audio and video editing and mastering, which helps acquaint them with the digital world.

Ongoing Academic Programs

- B.A. in English (concentration areas: Literature, Applied Linguistics & ELT and Media & Cultural Studies)
- M.A. in English (concentration areas: Literature and Applied Linguistics & ELT).
- Minor in History

Faculty overview

The department is headed by Professor Firdous Azim. The M.A. in English is coordinated by Professor Syed Manzoorul Islam, and the History Minor is successfully continuing. There are 10 full-time members of the

faculty, who give valuable time to teaching and mentoring students. There is a wide range of specializations amongst faculty members, ranging from translation studies, developing online teaching materials, looking at barriers to language acquisition, researching the connections between gender and writing, to research into historical and literary material. This is reflected in the range of publishing and seminar activities that have taken place over the year.

Department of Mathematics and Natural Sciences

Department of Mathematics and Natural Sciences

Inspiring Excellence

Department of Mathematics and Natural Sciences (MNS)

Goals and Objectives

The essential role of science and technology in modern times, be it in the realms of physical sciences, biological sciences, medical sciences, social sciences, engineering, agriculture, finance, commerce, business and management cannot be over emphasized. So it was quite natural that the Department of Mathematics and Natural Sciences (MNS) was established as one of the key departments of BRAC University when it started its journey in 2001. MNS Department has been providing quality education in basic and applied sciences to the students of different disciplines of BRACU including its own. The Department offers to the students of other departments courses in physical and life sciences like physics, chemistry, biology, biotechnology, microbiology and also courses in mathematics, statistics, economic geography and environmental sciences.

Achievements

A plasma astrophysics laboratory with major facilities has been setup for the first time in Bangladesh under keen supervision of expert faculty. The research programs in life sciences in the department include vital areas of medical, environmental and plant biotechnology. Some specific areas of research include noncommunicable diseases, phytomedicine, cancer research, safe drinking water etc. In plant biotechnology, research work concentrates on the development of stress-tolerant varieties of crops of economic importance.

The MNS Department has collaborative research links with BIRDEM, University of Dhaka, BCSIR, BUHS, idesHi and CNRS, Grenoble, France. MOU's have been in place with BAEC, BRACARDC and ICDDR,B.

Ongoing Academic Programs

- Bachelor of Science in Physics
- Bachelor of Science in Applied Physics and Electronics (APE)
- Bachelor of Science and MS in Biotechnology
- Bachelor of Science in Microbiology
- Bachelor of Science in Mathematics

Faculty Overview

Faculty wise, the MNS Department is the second largest department in BRACU having a total of 42 full time teachers. There are 15 TA's also. The faculty is a blend of teachers with Ph.D's or Master's degrees from abroad having years of teaching and research experience at prestigious academic and R/D institutions both at home and abroad and young and brilliant teachers who have chosen teaching and research as their vocation.

Department of
Pharmacy

Department of Pharmacy

Inspiring Excellence

INNOVATION

TEAMWORK

EXCELLENCE

LEADERSHIP

Department of Pharmacy (PHR)

Pharmacy is a noble profession which deals with alleviating human sufferings caused by various diseases. It is an applied science of developing and dispensing medications from natural and synthetic sources which also optimizes the physical, chemical, biological and pharmacological action of drugs. Our program offers an outstanding degree to start a career as a pharmacist by providing professional knowledge, skills and research opportunities which also sets a platform for young pharmacists to perform and compete in the global arena.

Our Mission

To develop and nurture competent students who will become leaders and innovators in pharmaceutical education, research, development and practice.

Our Vision

To inspire our students towards high standards and innovative thoughts for the betterment of the pharmaceutical sector as well as of mankind.

Program

Bachelor of Pharmacy (B. Pharm.)

The purpose of introducing Bachelor of Pharmacy (Honours) curriculum in BRAC University is to introduce the students to the technological and scientific principles underlying the preparation of dosage forms and drug delivery systems and to their use in patient care. B. Pharm. is a four year integrated course which is divided into eight consecutive semesters and accredited by Bangladesh Pharmacy Council. With more than 15 full time

faculty members and several renowned guest faculty from their respective field, the Department of Pharmacy, BRAC University, started their journey in 2010 offering courses in physiology, pharmacognosy, pharmacology, pharmaceutical technology, biopharmaceutics and pharmacokinetics, clinical pharmacy, medicinal chemistry, etc. The department also has five modern laboratories to demonstrate laboratory work and conduct advanced research.

The Department of Pharmacy has a newsletter archive which is available on the university webpage. Since November 2014, the department has been publishing a monthly newsletter under the name '**Pharma Highlights**'. This has opened up a new avenue for the department to share the latest pharmaceutical and health related news with everyone.

IPSF (International Pharmaceutical Students Federation), a leading international advocacy organization for pharmacy students, is also being represented by students of the Department of Pharmacy, BRAC University. IPSF is a global organization with the aim to promote improved public health through provision of information, education, networking as well as a range of publications and professional initiatives. Every year students of the department participate in the IPSF congress held in different parts of the world that serves as a platform to discuss issues related to the field of pharmacy globally which can help in attaining unification of the pharmacy education across the globe.

The department regularly organizes seminars with speakers from world renowned universities and also top level professionals from the pharmaceutical sector of Bangladesh.

Faculty overview

The faculty members of the Department of Pharmacy have graduated from reputed public and private universities of Bangladesh with higher degrees from world-wide renowned universities. They are involved in research areas of pharmaceutical technology, pharmacology, epidemiology, pharmaceutical marketing, environmental toxicology and phytochemistry.

School of Law

School of Law

Inspiring Excellence

School of Law (SoL)

Goals and Objectives

Founded in 2004, the School of Law at BRAC University is a gateway through which students are prepared for careers in Law, in administrative services, the judiciary and in the development sector. The four-year undergraduate programme at the School of Law culminates into a Bachelor of Laws (LL.B.) degree for successful students. Although the primary emphasis of the programme is on Law and the legal profession, given that Law is also intertwined with economics, development, business and sociology, it also prepares students who are inclined to seek professions in other disciplines.

Recognizing BRAC's background and the goals and commitments of BRAC University, the School of Law endeavours to impart legal education to seek legal solutions that respect the social, cultural and aesthetic needs of the people. To meet this goal, it strives to impart to its students not only the tenets of the Law, but also legal philosophy, rights-based issues and a broader awareness of the society they live in. Graduates from the School of Law are now pursuing careers as lawyers, judges, corporate legal officers, development workers and academics.

In 2004, the School of Law started its journey with six students. To date, there are over 400 students studying Law at BRAC University.

Achievement

The School of Law is noteworthy in the fact that it has both a Law Club and a Moot Court Society, where students are constantly engaged in preparing for moot court competitions, writing research papers and articles for the Law Club newsletter 'Acumen' and planning lecture programmes and social awareness activities. The mooters have been successful in several national and international competitions, including the prestigious ICRC Henry Dunant Moot Court Competitions. The Law Club is the prioneer of court visit programmes, that take Law school seniors to court observation trips twice a year.

Ongoing Academic Program

- Bachelor of Law (LL.B.)

The School of Law offers a Bachelor of Law (LL.B.) degree with Honours. Students are expected to complete 135 credits in their four years of undergraduate study, of which 62 credits are Major Law courses.

Faculty Overview

The faculty members of the School of Law are handpicked for their academic excellence and individual expertise. They bring with them teaching-learning experiences from Universities in Europe, Australia, the United States of America and Bangladesh. The faculty has individual expertise in the areas of child rights, criminal law, consumer laws, gender studies, business laws, economics, international laws and human rights; all which are shared with the students in course work and in workshops and lecture programmes organised by the School.

James P. Grant
School of
Public Health

JPG SCHOOL OF
PUBLIC
HEALTH
JAMES P. GRANT

James P. Grant School of Public Health (JPGSPH)

Goals and Objectives

The James P Grant School of Public Health (JPGSPH) aims to transform the current system of health delivery through its commitment to contribute to high-quality education and research. Founded in 2004 as the public health wing under BRAC University, the focus of JPGSPH is to provide access to education, research, training and advocacy through integration and innovation. The School uses a multidisciplinary and cutting-edge approach which places experts in the service of society, and train the next generation of global and national health leaders. This practical conversion of knowledge at JPGSPH is applicable in both local and global contexts.

JPGSPH aspires to become a worldwide leader in interdisciplinary global health education by promoting and providing public health, nutrition, midwifery and nursing education and training to harness knowledge and expertise in pursuit of health equity. At the same time, the School catalyses and conducts groundbreaking research based on contemporary global health issues, responding to the changing nature of infectious and viral diseases as well as influencing policy at both the national and global platform through advocacy and evidence sharing.

Achievement

The James P Grant School of Public Health has warranted its capacity to undertake research and advocacy activities on an array of development issues. The School's research endeavours are significantly aided by partnerships with over 70 national and international institutions and organisations, including BRAC University, BRAC and icddr,b. Presently, the JPGSPH team is conducting 23 research studies, including research on health systems, equity, gender, service delivery, nutrition, and human rights. Some of its ongoing research projects include Reachout, Communication for Development, Go4Health, TB Mortality Research, Early Biomarker of Dengue, Creating Universal Health Coverage (UHC) Momentum in Bangladesh: the Challenges and Opportunities, and Food Security and Nutrition Surveillance – NNS.

Academic Programmes

- Master of Public Health (MPH)
- Diploma in Midwifery
- Continuing Education Programme (CEP)

The education and research goals of the James P Grant School of Public Health are actualised by its target group of public health professionals through its flagship educational programmes, the Master of Public Health, and the Diploma in Midwifery and Continuing Education Programme, the latter of which is operated by the Developing Midwives Project.

The Masters of Public Health programme is taught by leading academics in the field of public health from world renowned universities, including Harvard University, Johns Hopkins University, Stanford University, University of Berlin, University of Heidelberg, and Liverpool School of Tropical Medicine.

Concentration

The Centres of Excellence at the James P Grant School of Public Health play a pivotal role in producing, applying and building knowledge and insight to address complex challenges which beset the global health sector. The Centres focus on a critical area or problem of public health and execute training and research, and share evidence to address these challenges. The three Centres which are currently invested in undertaking these projects are:

- The Centre of Excellence for Universal Health Coverage
- The Centre of Excellence for Gender, Sexual and Reproductive Health and Rights
- The Centre of Excellence for Urban Equity and Health

Midwifery and Nursing

Developing Midwives Project

***Department of
Midwifery and Nursing***

Inspiring Excellence

Developing Midwives Project

Department of Midwifery and Nursing

BRAC University has been implementing the Developing Midwives Project (DMP) since 2012 with a vision to reduce the maternal and neonatal mortality and morbidity in Bangladesh. The project is implementing a three-year Diploma in Midwifery education under the Department of Midwifery and Nursing at seven Academic Sites across the country. This project is funded by the Department for International Development (DFID) of the UK government. The department of Midwifery and Nursing is headed by the Interim Chairperson Dr. Jahir Uddin Ahmed and there are three teams within this department for DMP which are Midwifery Education Team (MET), Project Management Team (PMT) and Monitoring & Evaluation and Communications Team (M&ECT). The Diploma in Midwifery education is approved by the Ministry of Health of Family Welfare of Government of the People's Republic of Bangladesh and accredited by the Bangladesh Nursing and Midwifery Council (BNMC).

Goals and Purpose

The purpose of the project is to develop a cadre of competent and compassionate midwives who will live and practice in hard-to-reach underserved rural and urban areas of the country. The DMP is designed with a two-pronged approach where first prong is to develop qualified midwives and the second one is to develop faculty for midwifery education. Based upon the development history of Bangladesh, the project is first of its kind in private sector to develop midwives and faculty in the country.

Diploma in Midwifery Education

The Diploma in Midwifery education is being implemented following an innovative 'hub and spokes' model. In this model BRAC University performs as *hub* and seven other Academic Sites perform as *spokes*. Apart from the urban Academic Site in Dhaka, which is managed by BRAC University directly, other six Academic Sites are in distant rural areas in partnership with six NGOs at five districts in the country. These six Academic Sites are- Friends in Village Development Bangladesh (FIVDB) and Shimantik in Sylhet, Garo-Baptist Convention-Christian Health Project (GBC-CHP) in Mymensingh, Partners in Health and Development (PHD) in Khulna, Lutheran Aid to Medicine in Bangladesh (LAMB) in Dinajpur and Hope Foundation in Cox's Bazar. BRAC University is responsible for overall implementation of Diploma in Midwifery education at these seven Academic Sites.

The Diploma in Midwifery education is a three-year academic programme which follows a competency-based curriculum compliant with the standards of the International Confederation of Midwives (ICM) and the Bangladesh Nursing and Midwifery Council (BNMC). The curriculum of 155 credits consists of 40% theory and 60% practical hours and is divided into six semesters of two per year. The Midwifery Education Team is responsible for developing and timely dissemination of all academic materials. There are 47 modules for this diploma education, including 6 modules on English language which are managed and developed by BRAC Institute of Language (BIL). All the Academic Sites are designed with adequate classrooms, clinical labs, computer labs, libraries and dormitory facilities.

The education is completely residential and BRAC University bears all the costs e.g. tuition fee, education materials, food, accommodation etc. for all students. In addition, every student receives a monthly stipend of BDT 500. At present 404 students are studying the Diploma in Midwifery education in two batches where 179 students are at 6th semester from first batch, 166 students are at 3rd semester from second batch-A and 59 students are at 2nd semester from second batch-B. The department of Midwifery and Nursing, BRAC University believes that the graduated midwives will set a magnificent example for maternal and neonatal health services in the country.

BRAC Institute of
Languages

BRAC Institute of Languages

BRAC Institute of Languages (BIL)

Goals and Objectives

BIL's aim is to assist students in developing the language skills they need to become successful in graduate schools and in their professional lives. The institute focuses on implementing student-centred and creative language teaching techniques by developing modules based on students' proficiency level. This not only eliminates the possibility of having mixed ability classes but also ensures small classes with excellent interaction between teachers and learners. Additionally, BIL is committed to the field of academic language teaching and research, with a clear focus on creative and forward thinking teaching concepts for diverse learner groups.

Academic Programs and Courses

- Master of Arts in Teaching English to Speakers of Other Languages (MA in TESOL)
- Pre-University Course
- Undergraduate English Courses
- Modern Languages (Bangla, Chinese, French, Korean, Spanish)
- English for Academic Purposes (EAP)
- English Proficiency Development Course (EPDC)

Professional Courses

Several need-based professional courses of different governmental and non-governmental organizations are also provided by BIL at the BRAC Dev-Pro Centre. These are:

- Development Professionals' Course for development workers
- BRAC Primary School Teacher Training (BPSTT)
- English for Specific Purposes (ESP) courses for different national and international organizations like BRAC, Bureau of Non-Formal Education (BNFE), Regulatory Reform Commission (RRC), Bureau of Manpower Employment and Training (BMET), ILO, UNICEF, etc.
- Development of ESP modules for midwifery and nursing students of Bangladesh.

Achievements

Over the last 10 years, BIL has developed and offered unique and dynamic courses and materials catering to the needs of diverse learners and organisations. These are: training for RAI Foundation Scholarship Recipients and a venture with BRAC's STAR project in collaboration with UNICEF and ILO for the English language skills of the outreach students who are currently involved in Technical and Vocational Education and Training (TVET). Together with BRAC, ILO and BMET, BIL has established the language labs with training manuals and audio-visual materials in English-Bangla-Arabic on four trades at two Technical Training Centres (TTCs) for the project titled 'Promoting Decent Work through Improved Migration Policy and its Application in Bangladesh'. Furthermore, BIL has developed six ESP modules for the 'Diploma in Midwifery' course in collaboration with James P Grant School of Public Health (JPGSPH). Other significant achievements include BIL's collaboration with the English in Action project aided by the Open University, UK in their MYTEC program.

Faculty Overview

The strengths that the faculty members of BIL reflect are their interests and work experiences in diverse spheres of academia such as assessment, reflective teaching, peer review, critical and creative thinking, adult teaching, teacher training, experiential learning, English for specific purposes, English for academic purposes, curriculum and syllabus design, material development, education and society, use of literature in language teaching, computer assisted language learning, etc.

BRAC Institute of Governance and Development

BRAC Institute of Governance and Development

BRAC Institute of Governance and Development (BIGD)

The BRAC Institute of Governance and Development (BIGD) (formed through a merger of the Institute of Governance Studies and BRAC Development Institute) at BRAC University is a centre of research and academic excellence. BIGD is devoted to research on the entire range of governance concerns as they relate to development, while also conducting research on a range of development issues centred mainly on Bangladesh. BIGD is also a resource centre for promoting research and creating knowledge in area of governance, economic growth, political economy, urbanisation, gender issues, sustainable development and regional studies.

Research

An important facet of the Institute's core mission is to conduct research on governance and development and to disseminate the findings among the law and policy makers of the country. The Institute has been publishing its annual *The State of Governance in Bangladesh* and *The State of Cities* reports since 2006 and 2012 respectively. The Institute publishes working papers, policy notes and briefs, research reports and books on governance, development and public policy.

BIGD conduct multidisciplinary research under the following clusters:

1. Economic Growth and Development
2. Gender Studies
3. Politics, Democracy and Governance
4. Regional Studies
5. Urbanisation, Environment and Climate Change

Academic Programmes

At the core of BIGD's work are several academic courses, which include both classroom teaching and fieldwork experience. With the new formation of BIGD, the number of graduate courses offered has now increased to four. Namely:

- Master of Arts in Governance and Development (MAGD)
- Master of Development Studies (MDS)
- Masters in Procurement and Supply Management (MPSM)
- Masters in Development Management and Practice (MDMP)

BIGD is the first study and only exam centre in Bangladesh for The Chartered Institute of Purchasing and Supply (CIPS) of UK. CIPS is offering Diploma, Advanced Diploma and Professional Diploma in procurement & supply chain for supply chain professionals.

BIGD also offers other certificate and training courses:

- Certificate Course on Environmental Management and Governance (EMG)
- Postgraduate Certificate Course on Management of Land Acquisition, Resettlement and Rehabilitation (MLARR)
- Introductory Course on Microfinance
- Short Course on Applied Social and Marketing Communication
- Short Courses on Procurement & Supply Chain Management

Other Activities

BIGD organises national and international conferences, launching of reports, public lectures, roundtables, workshops, seminars, talks, and relevant other programmes on governance, public policy and development. The Institute provides technical assistance to different public, private and donor agencies on a regular basis.

BRAC Institute of Educational Development

BRAC Institute of Educational Development

Inspiring Excellence

BRAC Institute of Educational Development (BIED)

Goals and Objectives

The Institute of Educational Development works through capacity development, research and advocacy to develop education in Bangladesh from multiple angles. In particular IED focuses on: supporting the public sector through capacity development and textbook support; developing school models for quality education and large-scale educational research; as well as advocating in the areas of Early Childhood Development (ECD), emotional wellbeing and Sexual Reproductive Health and Rights (SRHR) through training and research. IED partners with various public and private sector organisations to achieve these goals.

Achievement

- IED continues to successfully build the capacity of government officers and other professionals through its Masters programmes and short courses
- IED is working with the National Curriculum and Textbook Board (NCTB) to refine national textbooks for Grades 1-5

Academic Programs

BIED has a multi-pronged approach to their mission. BIED runs two academic programmes, the Masters of Education (MEd)/ Post-Graduate Diploma (PGD) in Educational Leadership & School Improvement as well as the Masters in Science (MSc)/PGD in Early Childhood Development. BIED also runs short courses for government officials who share our vision of bringing positive changes to classroom teaching, learning, and management.

On-going Academic Programmes

- MEd in Educational Leadership, Planning and Management
- MSc/Diploma in Early Childhood Development
- Short courses

Initiatives

- Developing and piloting the BRAC Nobodhara Schools as a fee-paying model of quality education in Bangladesh
- Developing and piloting the ShomajShongee: A model to provide adolescents with support for SRHR, gender and emotional wellbeing
- Research into emerging areas of ECD and advocating on childcare
- Initiatives to improve worker wellbeing in the garments industry
- Large-scale educational research in Bangladesh

Staff overview

Headed by its Director, Dr Erum Mariam, IED comprises of several lecturers, researchers, curriculum and material developers, illustrators and graphic designers, psychosocial counsellors, field operations officers and various other professionals.

Uniqueness of BRAC University

Uniqueness of BRAC University

Inspiring Excellence

Residential Semester (RS) of BRAC University

Goals and Objectives

BRAC University's (BRACU) Residential Semester (RS), at its Savar campus, is unique amongst higher education experiences in Bangladesh. All students of BRAC University are required to attend the Residential Semester, usually after the completion of the first semester at the main campus. The RS offers a holistic curriculum based on the principle of “experiential learning” which cultivates a broad range of soft skills and qualities, to complement the theoretical development that students undergo. The curriculum's intensive programs help to develop rounded individuals whose improved leadership skills, ability to independently face challenges, and proficiency in English will better prepare them to face the challenges of higher education (and eventually give them a competitive edge in the job market). Since the launching of the Residential Semester in 2003, a total of 8,465 students have graduated so far.

Courses and Activities Offered

Amongst the mandatory courses offered, the Bangladesh Studies course endeavours to equip students with factual knowledge and analytical skills that eventually enable them to learn and critically appreciate the history, politics and economy of Bangladesh. Simultaneously, the Ethics and Culture course aims to evaluate and thus bring out the goodness or flaws of voluntary human behaviour in the context of our cultural milieu. The course further includes the evolution of the ideas of morality through ages. In addition to these, English language and other modern language courses are offered in RS; thus contributing to develop the language competency of the students. Among the modern language courses, French and Chinese are offered as credit courses at the elementary level of proficiency.

An integral component of the RS curriculum is the Experiential Learning Activities (ELA) which aim to develop students' social skills. These activities include on and off-campus participation of the students in Social Learning Labs, excursions to Lalbagh Fort and Liberation War Museum, visit to BRAC Programs and extra-curricular activities. These RS activities include Spelling Bee, Wall Magazine, Creative Writing, Field Quiz, Poetry Recitation, Dance, Recycling, Drawing and Sketching, Hydroponic Vegetable Cultivation, Gardening, Script Writing and Film Making, Newspaper Reading and Writing Article, Presentation Skills, Traditional Bengali and English Signing, Chess, Yoga and Meditation, etc. In addition, there are a number of mandatory seminars and workshops conducted by experts in their respective fields.

Faculty Overview

Faculty members in RS are selected based on their academic excellence and individual expertise. Additionally, the faculty members possess expertise and research interest in the areas of history, public administration, good governance, development perspectives, ethical theories and dilemmas, morality and moral virtue, evolution of societal values, etc.

On-Campus Facilities

The major infrastructure of the RS campus includes medical services, psychosocial support and sports facilities. The campus has a resident doctor, a part-time doctor and staff nurses. The university has also made institutional arrangements with Enam Medical College and Hospital, located in Savar, for medical emergencies. Moreover, there is a team of psychosocial counselors assigned to support students on RS campus undergoing any kind of personal or social difficulties. The team also organizes sessions on stress management, managing depression, anger management, exam fear etc. Lastly, Savar campus has the infrastructure for students who wish to play football, cricket, basketball, table tennis, carom, handball, volleyball, or badminton. All these facilities ensure a better and an exciting stay in RS.

Ayesha Abed Library

The Ayesha Abed Library at BRAC University aims to become a world-class Knowledge Resource Centre and provide innovative new services and a wider collection of books and resources to the teaching, learning and research communities, using latest technological developments of the 21st century. The development, organization and maintenance of archives in multiple locations; access to world class resources; personalized assistance in the use of library and information resources; and instruction on research strategies and tools have made this one of the richest libraries in the country.

Mission

The Library's mission is to provide comprehensive resources and services in support of the research, teaching, and learning needs of the University community.

Vision

Develop a world-class Knowledge Resource Centre and provide innovative new services and collections to the teaching, learning and research communities, using latest technological developments of 21st century.

BRAC University library houses approximately 40,000 printed books in its collection and access to over 64,000 e-books and 51,000 e-journals and databases. The library provides both on-campus and off-campus access facilities to online journals and databases.

Moving toward a next generation library, BRAC University Library has implemented a number of projects using open source software.

Library website using Drupal (<http://library.bracu.ac.bd>)

Library Mobile interface (<http://library.bracu.ac.bd/m>)

Integrated Library Systems using Koha (<http://library.bracu.ac.bd/opac>)

Discovery Tool using VuFind (<http://library.bracu.ac.bd/vufind>)

Institutional Repository using Dspace (<http://dspace.bracu.ac.bd>)

BRAC University Library has established a Library Learning Resource Centre (LRC) in order to maximize the use of resources help users gain optimum benefits from information sources and systems. BRAC University Library is regularly conducting information literacy classes for students and faculty members. BRAC University library team assisted a number of private and public universities and institutes directly like Military Institute of Science and Technology (MIST), Khulna University of Engineering and Technology (KUET), Action Aid, Centre for the Rehabilitation of the Paralyzed (CRP), Northern University, Bangladesh Parliament Library and British Council Library, to implement digital library initiatives in Bangladesh as a part of capacity building.

Office of Communications (OoC)

The role of Office of Communications (OoC) is to promote BRAC University's strategic messages to its key stakeholders, which include the campus community, prospective future students and guardians, alumni, donors, business organizations, and media and create positive public responses about the University. It also ensures the free flow of information and strengthening BRAC University's brand positioning.

OoC acts as communications focal and builds bridge between the potential media and University constituents. The office provides quality services in terms of media consultation and coverage, event management, promotional material development, audio-visual documentation, photography and filming supports, VIP protocol, government liaisons and maintaining synergy among the University and BRAC Communications and BRAC Advocacy for Social Change.

OoC maintains effective communication with Chancellor's office, Prime Minister's office, Education Ministry and other relevant ministries, governmental bodies like, University Grants Commission (UGC), Immigration office, Special Branch (SB) of Police and other law enforcement organizations, Board of Investment (BoI), embassies etc. in relations with Convocation, donor liaison, international relations etc.

One of the vital responsibilities of the office is to coordinate with in-house departments and help them to access the official website to highlight their achievements and salient activities. Currently, Office of Communications extends aesthetic support to the Web Team in content development of BRAC University's official social media sites.

The scope of work at Office of Communications applies to BRAC University faculty and staff, and in some cases students and assists in building efficient networking with external individuals or organizations in the areas of

- Governmental relations
- Media and public relations
- International relations
- Sponsorship
- Donor and alumni relations

OoC contributes to the aim of BRAC University's policy of accomplishing its goals of maintaining, developing and implementing the strategic communications, public relations, and branding campaigns. These measures aid to increase public awareness and support the university's programs and activities, as well as enhancing the rapport between the university and its important stakeholders.

Office of Student Affairs (OSA)

The Office of Student Affairs (OSA) offers a wide complement of academic and co-curricular programs to promote the core mission of liberal arts education and student development. Established in July 2013, the OSA houses essential student services and campus resources that provide academic, personal, and professional support to the students, facilitate teaching and learning, and augment university life. The OSA brings together the Counseling Unit, the Teaching and Learning Centre (TLC), the Office of Career Services and Alumni Relations (OCSAR), the Office of Co-curricular Activities (OCA), and the Relationship Management Office (RMO).

Student Advising and Learning Support

The student advising and learning support services are designed to help students become independent and successful learners by improving their study skills and self-confidence, encouraging a positive attitude toward education, and preparing them for lifelong learning. The Student Advising and Learning Services at OSA include the following.

First Year Advising Teams (FYAT)

BRAC University's first year advising program provides integrated services of academic advising that seeks to inform and support new students, monitor academic performance and needs, and guide academic planning during the first year. The FYAT advisers and mentors focus exclusively in those areas of university education and student life that concern all students at the university

Probation Advising and Student Support (PASS)

OSA launched a dedicated program of probation removal and retention efforts in May 2014. The Probation Advising and Student Support (PASS) program offers a range of departmental and general academic support to assist students in removing their probation status and embarking on the path to academic success. The PASS Program includes regular individual advising and small group workshops throughout the semester.

Office of Career Services and Alumni Relations (OCSAR)

Having begun its operation in 2004, the Career Services Office (CSO) is poised to consolidate and expand its range of services for students to ensure their optimal preparedness for professional life after graduation. The CSO is now known as Office of Career Services and Alumni Relations (OCSAR).

The core programs of the OCSAR consists of : a) Career Counseling, b) CV Writing, c) Interview Skills, d) Professional Skills Development Program (PSDP), e) Mock Interview Sessions, f) Career Clinics, g) Individual Advising, h) Internship, i) Workshops and Seminars, j) On-Campus Recruitment Events, k) Job Placements/Work Experience Opportunities, l) Community Service Internship Program (CSIP), m) English Proficiency Campaign across BRAC University, n) Leadership Program, and o) Strengthening and Enhancing the Alumni Association of BRAC University.

All of OCSAR's essential services are continuously reviewed with a view to creating sharp and updated focus on developing the precise skill sets that are important for students to excel in the job market. Furthermore, through workshops and seminars which are organized as an integral part of the OCSAR, students are given a strategic understanding of the employment market and key issues related to the corporate sector in Bangladesh.

The proposed consolidation and expansion of the OCSAR will propel the career services function of BRAC University to national prominence. Through intensive preparatory work on all aspects of resume writing, presentation and interview skills, coupled with one to one advising sessions for every graduating student and a range of other support services and career events, this office is determined to develop OCSAR as the top functioning CSO in the country and one which compares favorably with the best career service centres globally.

OCSAR prioritizes its links with employers who take on our students as interns every semester and often recruit them. OCSAR formalizes their relationship with employers and employer-employee networks to ensure a standardized approach to internships and job placements, so that the rights of students as interns/employees are formally agreed alongside their duties and responsibilities.

Apart from dealing with the core activities (students' development and the Professional Skills Development Program (PSDP), Internship and other placement opportunities, employment opportunities, and strengthening the Alumni Association), OCSAR is also engaged in a range of related strategic activities which are important for students, alumni and the University as a whole.

OCSAR has a new Director along with six full-time core team members and is currently working towards building a strong corporate network which will foster greater relation in order to bridge the gap between industry and academia, catering to both BRACU students and alumni.

Alumni Association of BRAC University (AABRACU)

The newly elected Executive Committee of the Alumni Association of BRAC University was declared on the 26th of April, 2015. Following the historic elections that witnessed the introduction of the first ever electronic voting system, BRACU alumni from 29 countries across the globe participated in this historic event!

The newly elected Executive Committee quickly grasped the opportunity to introduce the long awaited AABRACU ID Card! This was done on an auspicious occasion of an Iftaar Mahfil held on July 4th 2015 on a night that witnessed the highest participation ever in such events in the history of AABRACU. The ID Card is guided by a policy and will allow BRAC University alumni to return to the premises in which they learned their trades. Further benefits of the cards will include special privileges to BRAC University alumni. This will be a continuous process.

Relationship Management Office (RMO)

The Relationship Management Office (RMO) at BRAC University is the primary source of all university-related information and is considered a very essential part of BRAC University as it is committed to the continuous improvement of the students' academic phase at BRAC University. It comprises of Information Desk officers and Student Counselors who are the link up points between BRAC University students, alumni and stakeholders, parents and staffs of BRAC University. Our model for continuous improvement of student learning is based on four repetitive steps: plan-do-check-act.

One of the main responsibilities of the RMO is to manage the Scholarship/Financial Aid Program of BRAC University. BRAC University Scholarship/Financial Aid Program finances students of high ability to study and complete the Undergraduate and Graduate programs at the university. Since 2001, from the inception of BRAC University, it has awarded scholarships and financial support to a substantial number of meritorious and needy students. The University's scholarship and financial aid process is transparent and credible and operates in an effective, timely, fair and impartial manner to all who qualify. The process is designed to attract the highest-quality students from home and abroad.

Additionally, BRAC University provides accommodation to female students who came to study from distant locations, on a need basis. The RMO is in-charge of overall supervision of the BRAC University Female Students' Accommodation. Two full-time female superintendents are directly guided by the RMO.

RMO manages and works closely with student volunteers. Volunteer Services provide a variety of programs to help students as they face challenges. Whether they are looking for a volunteer opportunity on campus, in the city, or around the world, BRAC University helps students connect to groups and organizations who could use their help.

RMO strives to continuously improve upon the comments/suggestions made by students and maintains an open-door policy. RMO organizes the 'Freshman Orientation Program' three times a year, with more than 1000 students and parents in each occasion. The RMO also assists in organizing Vice Chancellor's programs with students in every semester.

Office of Co-curricular Activities (OCA)

BRAC University's mission is to achieve excellence in well-rounded education. The components of any well-rounded education, that is learning, development and identity formation, are interactive and add to each other. The students can experience all of these by participating in cocurricular activities along with regular studies. OCA is always supervising the activities of clubs and forums to make the co-curricular arena of the university vibrant and student oriented.

The OCA emphasizes the wholeness of the university experience through synchronized development of body, mind and spirit. The main objectives of the OCA are to create an environment for students' spontaneous participation in cocurricular activities, create leaders for future, and provide opportunities for community service activities. The OCA provides full support in this respect by supervising, assisting, facilitating, encouraging activities of student clubs and forums.

Clubs and Forums

The co-curricular arena of the university is vibrant and student-oriented. The composition of each club or forum includes teacher/staff advisors and student representatives. Enrolment of members is done during the club fair held each semester. OCA supervises the activities with the help of director, an assistant director and student affairs officers. The auditorium, cafeteria and a planted semi-outdoor space with technical support are used for seminars, workshops, exhibitions, indoor games, competitions, fairs, and cultural activities. A yearly award system has been introduced for the students who have major contribution to the activities as well as for the most active clubs. Annual assessment of the co-curricular activities has been conducted since 2006. University rules have been introduced for participating in the activities without hindering academic performance.

There are 33 student clubs and forums in different categories: Cultures/Films; Debate/Moot; Business/Economics; Heritage/Arts; Social welfare/Community services; International; Entrepreneurial; Subject-related; Sports; Science; Adventure/Environment.

Counseling Unit

Recognizing the importance of mental health support in individuals' development and wellbeing, the Counseling Unit of BRAC University has been offering mental health services since 2002. In response to the growing need for such supports, the unit now includes nine professional counselors who are professionally trained specialists, with the rank of faculty member, and have a wide range of expertise in working with individuals. The counselors provide a wide range of support services both at the Mohakhali and Savar's Residential Campuses. The mission of the Counseling Unit is to offer non biased mental health services and assist in overcoming life's challenges and moving towards positive changes. The core values followed by the counselors are based on the American Counseling Association (ACA) Code of Ethics.

Highlights

The Counseling Unit offers individual, group, pair, and parent counseling sessions for the students, parents, faculty members and staff of BRAC University to assist to deal with life's challenges and move towards self empowerment and autonomy. Up to September, 2015, both in the Mohakhali and Savar's Residential Campuses, this unit provided such services to around five hundred and twenty five clients with total eleven hundred and thirty four sessions. Besides, in the last two semesters, this unit offered twenty two workshops on various psychosocial topics. In addition, the Counseling Unit hosted a seminar to observe *World Mental Health Day-2015*. This unit facilitated two seminars in 2015 on *Awareness on Drug Dependency* at Savar's Residential Campus for educating youth about the negative consequences of taking drugs. Besides, to promote and convey the importance of the parent's contribution to the students' success and well being, in 2014, this unit hosted two seminars on *Positive Parenting Skills*. Moreover, in 2015, the counselors hosted five short sessions on *Parenting*. In the year 2015, the counselors also worked in close collaboration with other offices and programs inside the university, such as faculty orientations and teaching workshops, student learning workshops, first-year advising programs to provide a multidisciplinary approach to student development and academic success. As extended supports, for the last five years, this unit has been facilitating motivational sessions for the students of the Medhabikash Program and RAI Foundation scholarship recipients under the BRAC Education Program (BEP), BRAC. This unit also published its first and second issue of the Counseling Unit Newsletter. As part of personal and professional development, the counselors take regular intense supervision and training on national and international levels. The counselors work as an integral part of BRAC University's mission to create well-rounded professionals and citizens dedicated to the betterment of society and nation.

Centres

Centres

Inspiring Excellence

Centre for Climate Change and Environmental Research (C3ER)

Goals and Objective

Since its initiation, BRAC University has conducted researches on climate change induced migration, loss and damage, mainstreaming climate change adaptation in national policies, climate change action plan for development sector initiatives, climate change risk assessment, environmental assessment, climate resilient livelihood proposition, water supply and sanitation, legal and institutional framework for climate change adaptation, etc in direct collaboration with BRAC. Assiduously the center devoured comprehensive coordination from the Syndicate and the Board of Trustees of BRAC University for its numerous accomplishments. The Centre helps create a synergy between BRAC University and BRAC in the field of climate change and other environmental issues. Our vision is crafting sustainable and adaptive solutions for society. Our Mission is to establish as a leading research and academic institution on environmental and climate change issues, develop and disseminate knowledge on climate change adaptation, mitigation, disaster risk reduction and to build a climate resilient society.

The Team Overview

The centre acknowledges the multidisciplinary nature of research on climate change and environment. Therefore, the multi-disciplinary pool of professionals from various disciplines including environmental science, geography, engineering, disaster management, natural resources management, urban and regional planning, economics and business are the key resources of C3ER. Apart from that C3ER brings the multi-disciplinary expertise in disaster management, law, architecture, computation and physical science from different schools of BRAC University, which is one of the comparative advantages for conducting multi-disciplinary research. Professor Ainun Nishat is the Advisor of C3ER; Asst. Professor AS Moniruzzaman Khan is the Director in Charge, and Ms. Roufa Khanum is Coordinator and thirteen other faculty members.

Centre for Entrepreneurship Development (CED)

Objective

The Centre for Entrepreneurship Development (CED) was inaugurated in April 2011 under the auspices of BRAC Business School (BBS) as a think tank and capacity development arm which will address various issues related to entrepreneurship development in Bangladesh. As a centre within the jurisdiction of a university, CED was also mandated to offer courses and degree programs on Entrepreneurship.

Achievement

BRAC Business School's Centre for Entrepreneurship Development (CED) is the first of its kind amongst the universities of Bangladesh. In 2014 CED entered its third operational year, and within this short period with various activities it has increased its visibility within the dynamic entrepreneurial community of Bangladesh. Since November 2011 CED has been managing and implementing professional exchange programs for entrepreneurs involving Bangladeshi and US nationals. The exchange programs are run with US Department of State grants and are jointly being managed with University of Oklahoma's (OU) Gaylord College of Journalism and Mass Communication. CED recently hosted a high profile summit jointly with New York University's Stern Business School on the business practices of the Bangladeshi RMG sector.

Presently CED is involved with projects involving capacity development of micro-entrepreneurs, higher education enhancement by starting an entrepreneurship incubation centre and a World Bank project aimed at creating housing for the subaltern people. CED is continually involved in bidding for projects that are marked for entrepreneurship development.

Ongoing Initiative

For the first time a management training program for BRAC International's young executives was completed in Bangladesh. The 'Business and Management' training of these BRAC International executives were completely conducted by CED. This was deemed to be a resounding success and a replicable exercise helping BRAC institutionalize the practice.

Faculty Overview

At the organizational level within BRAC University's framework CED is headed by a dedicated Director and run by a Program Manager. BBS faculty members, academic and administration personnel from other departments, and other resources from BRAC University are committed on a project by project basis when required.

Control & Applications Research Centre (CARC)

Goal and Objectives

The Control and Applications Research Centre has expertise and activities in an area of systems and control engineering. CARC has a strong practical focus to the work, and many of the projects involve close collaboration with industrial organizations. We emphasis upon the application requirements and exercise established theoretical techniques to provide solutions through technological demonstration.

Achievement

CARC projects and researches precisely are concentrated on country's economy and sustainability. Under the Synergy program between BRAC and BRAC University, several departments, centres and institutes are working to serve BRAC. From the Department of EEE, CARC is the only entity that is currently working under the Synergy program. Several projects have been successfully done with BRAC Solar like the solar home system standard qualification testing, performance evaluation of the BRAC Solar PV modules etc.

Besides undertaking research projects, CARC is also focused towards providing the students of BRAC University's Department of EEE, a knowledge of the scopes and opportunities of further studies and research through organizing lectures and seminars where renowned academics, both local and from outside the country, are invited to share their perspective.

Ongoing Academic Program

- Supervision of M.Sc. thesis students on CARC research projects

Faculty overview

The Control & Applications Research Centre is a mix of young, energetic researchers head by the experienced professors of the Dept. of EEE, BRACU and advised by the renowned and senior professors of several fields. Members with high industrial experience act as the external consultant for CARC where they often provide guidance and their highly regarded cooperation that helps the undertaken projects at CARC more practically feasible.

Writing Centre

The Writing Centre is a resource for the students, faculty, and staff of BRAC University who are interested in developing their writing skills for assignments, publication, or job-related purposes.

Individuals or small groups can book appointments with our consultants to discuss their writing. Due to high demand, we suggest you make your appointment in advance.

The Writing Centre also works with the university's institutes, schools, departments, centres, and other resources to facilitate the ongoing development of academic writing at the university by providing workshops and in-class presentations and well as consulting on writing-related issues.

The Writing Centre staff will look at a document at any stage in the writing process as well as review the document after it has received feedback from an instructor or publisher. They assist in identifying strengths and weaknesses as well as make suggestions.

Who visits the Writing Centre?

Teaching and Learning Centre (TLC)

Established in 2006, the Teaching and Learning Centre (TLC) promotes excellence in education through the shared understanding and practices of teaching and learning. In collaboration with faculty members, students, and staff, we strive to build an engaged and creative environment of pedagogical research and development that fosters innovation and collegiality across the university.

From group events to personalized attention, the TLC encourages and supports measurable effectiveness in faculty and student development, course instruction, assessment, scholarly research and innovation in education technologies.

Mission

The core mission of the centre is to keep the campus community updated with pedagogical developments, coordinate teaching and learning resources, support professional development of faculty and staff, and contribute to successful student learning within a liberal arts tradition.

Ongoing Academic Programs

Faculty Development

The TLC hosts Faculty Orientation Program, Follow-up workshops, Faculty Conversations, Instructional Skills Workshops, individual consultation services and web-based interactive modules to reflect on the current knowledge and practices of effective teaching and these components provide continuous support to faculty members in their efforts to hone teaching skills and instructional efficiency at the early stage of their career path.

Student Development

Recognizing the diverse academic backgrounds, skills, and habits of the students, the TLC introduced a campus-wide program of learning support service in collaboration with other offices, units and departments. To cater to these, the TLC actively engages in the design, facilitation and assessment of student advising and learning programs that foster successful outcomes of student learning. The TLC devised strategy for identifying academically struggling students who have potential for improving their academic performance. To address these strategies, the TLC offers Academic Skills Workshops on general study skills, emotional health, online resources, tools and library services. Besides these, the TLC also coordinates tutorials in 100-level courses in collaboration with the academic departments as a part of the student learning development initiatives.

Quality Assessment and Research

The assessment and research initiatives are the third major component of TLC activities. In line with its mission to provide innovative and effective support to faculty and students, the center is committed to scholarly research and regular assessments of teaching and learning indicators.

In addition to the above support programs, the TLC also offers support for staff development, and club leadership forums. It also organizes seminars and conference on teaching and learning, Research and Training.

Global Development Learning Network (GDLN) Centre

BRAC University is the one and only affiliate of the Global Development Learning Network (GDLN) (<http://www.gdln.org>) in Bangladesh and has been so since 2006. The Centre is equipped with air conditioned, soundproofed Video Conferencing and multimedia rooms to facilitate a comfortable learning environment. Around 40 people are able to participate at a time.

The Global Development Learning Network (GDLN) is a partnership of over 120 recognized global institutions (affiliates) in over 80 countries that collaborate in the design of customized learning solutions for individuals and organizations working in education and development. Affiliates are as diverse as the Asian Institute of Management, the Ethiopian Civil Service College, the Islamic Development bank, and Pontificia Universidad Catolica of Peru. The mission is to bring the world together to facilitate learning to contribute in local and global development. Our services include eLearning courses, online training, workshops, meetings, interviews, consultation and teleconferences.

Core Values

BRAC University GDLN is a nonprofit organization, whose operations will, in future, be met from the income it generates. The Center is driven by both, social benefit analysis and cost benefit analysis, and therefore, committed to the following values: Customer Focus, Pursuit of Excellence, Integrity, Diligence to duty and Innovation

Services

1. Video Conferencing courses, dialog, meeting
2. Video Conferencing facilities for hire computer based online training, workshops, meetings, interviews and consultations
3. Teleconferences

BRAC University Administration

BRAC University Administration

Inspiring Excellence

BRAC University Administration

Overview

BRAC University Administration plays a crucial role by providing administrative and logistical support to facilitate academic and other related activities of the university.

Core Functions of Administration

The Administration Office has a wide-ranging number of core functions which are integral to the smooth running of the university. Below are some of its core functions and responsibilities:

- Provide logistical support to ensure smooth running of all academic and nonacademic activities
- Provide support to the admission process
- Maintain records of all fixed and variable assets
- Ensure maintenance of all assets
- Provide logistical support across the university
- Ensure high-level safety and security
- Ensure successful organization of all academic and non-academic activities/events of the university
- Ensure cleanliness of the university
- Provide and maintain transport facilities for faculty, staff, and students

Highlights 2014-15

- Successfully completed 9th Convocation with many kinds of logistical support
- Provided logistical support for admission tests every semester
- Provided support for conducting classes and exams
- Provided logistical support for all workshops, seminars, and conferences across the university
- Met all administrative requirements as established by the higher authorities of the university

Office of the Registrar

The Registrar's Office supports the academic mission of the University by providing management and administrative support and assistance to the academic community. This is achieved in accordance with academic policies and procedures established by the Private University Act 2010, rules and regulations formulated by the Ministry of Education, University Grants Commission, the Board of Trustees, Syndicate and Academic Council. The Registrar's Office participates and plays a key role in the review, development and enforcement of the goals and objectives of the University. The Office serves as the repository of faculty information and schedules; course enrollments; course offerings; student records; grades; and degrees conferred. Such records are maintained using information systems and Web-services designed to enable students, academic advisers, staff, departments and programs to conduct their professional duties in a decentralized environment.

It offers a wide range of academic and administrative services associated with admissions, records, registration, advising, graduation services, academic space management and scheduling for students, faculty, and staff. It is also responsible for the compliance with rules and regulations, policies and the Student Code of Conduct.

The Office is divided into three operating Units:

1. The Admission Unit
2. The Program and Registration Unit
3. The Examination Unit

ADMISSION UNIT

At the outset of BRAC University in 2001, Admission Unit started its activities for student enrollment under Registrar's office. This Unit plays an important role of admission process efficiently. This section fulfills all requirements of students, guardians and visitors regarding admission.

PROGRAM AND REGISTRATION UNIT

The Program and Registration is an important unit of the Registrar's office. This unit is dedicated primarily to the service of faculties and students' through scheduling, registration, planning academic calendar, reporting as well as assisting the deans, chairpersons, directors and other administrative offices.

The major tasks of this office includes the publication of semester course offerings, class and final examination scheduling and invigilation, classroom allocation for courses and admission test, ad hoc reporting to the management and fulfilling requests for students' information, coordinates university-wide course enrollment and registration using University Student Information System (USIS).

EXAMINATION UNIT

The Examination Unit is responsible for managing and maintaining academic records, and ensuring the integrity of examinations and generating transcripts and certificates. The unit also verifies students' academic records and issues various certificates and letters pertaining to the students' record and academic information.

Examinations are conducted every semester during the period indicated in the academic calendar. The examination time-table are displayed on notice boards and the BRAC University website. The university views academic malpractice seriously and does not condone plagiarism or cheating in examinations. A breach of any rule will render a student liable to disciplinary action which may result in the student's expulsion from the University.

The University has in place standard operating procedures to ensure that examinations are conducted professionally and with integrity. Various security measures and levels of checks are in place for the handling of examination before they are released to students. The examination unit publishes results in every semester. The results and award lists are also presented to the Academic Council for approval.

IT Systems office

BRAC University's IT System Office supports and enhances BRAC University's core mission of education, research, service through the effective management and use of information technology. BRAC University has well equipped Video conferencing centre operated in collaboration with Global Development Learning Network (GDLN) It has two campuses, one in Mohakhali Campus with 6-buildings connected by Optical Fiber backbone and another remote campus, which is located in Savar connected via Radio Link. In Mohakhali campus there are 67-well decorated Classrooms (Computer, Internet, MMP, OHP, Audio) and 22-well decorated computer LABs.

BRAC University Network Diagram

Facilities under BRAC University's IT System

- Over 2030++ computer
- Internet Bandwidth Capacity (310Mbps)
- Secured Mail Service (<https://mail.bracu.ac.bd>)
- Customized Student Advising Software
- IBM/HP Servers for Student & Faculty data storage.
- 72 Well decorated Classroom (Computer, Internet, MMP, OHP, Audio)
- 19 Well decorated computer LAB
- Strong Antivirus for Data Security.
- Instant IT Support : Over 50 IT personnel
- Layer-3 power backup system

Human Resources Department

The Human Resources Department (HRD) at BRAC University is committed to attracting, encouraging, developing, and retaining a high- quality workforce to support the university's mission of excellence. It shares the university's dedication to build a culture that respects all of its members and celebrates their diversity and contributions as well as valuing their integrity, creativity and accomplishments.

The HRD is practicing core HR functions towards the goal of human resources development. BRAC University HRD covers the general HR functions: a) recruitment and selection, b) training and development, c) compensation and benefits, and d) performance appraisal. HRD follows the University Grants Commission guidelines to shape its recruitment policy with the objective to recruit talented faculty members and administrative staff. Interviews arranged by HRD include written test, computer test and face-to-face interview specially for recruiting admin staff. We follow separate procedure for recruiting faculty members that include demo classes, panel interviews etc. before the final selection. We try to create a comfortable environment for the candidates. This process of hiring people follows a high standard that increases our organizational strength.

The compensation is also determined with an integrated system. BRAC University has a salary structure approved by the Board of Trustees (BoT). HRD makes an arrangement to disburse salary on time every month with a sophisticated payroll management system. Other benefits are also tailored by HRD according to BRAC University policy.

There are separate human resource policies and procedures for academic and non academic staff. These policies and procedures include all issues pertinent to human resource management at BRAC University. A code of conduct on sexual harassment is in place and followed by all employees working at BRAC University. Another code of conduct is also given to the faculty members at the time of joining. We take an acknowledgment of receiving a copy of sexual harassment policy from all the regular employees during their joining. Due to organizational sensitivity to sexual harassment within the organization or outside the organization, HRD is taking care of the latest sexual harassment policy since August 2010.

We welcome every new employee in friendly manner with an overview of the organization before the formal orientation. We provide an orientation kit to new employees, a form for official ID, a form for computer access and e-mail access. HRD at BRAC University manages biometric attendance system for the admin staff. Employees can see their attendance anytime from anywhere through the web access to their profile. They can also see their earned leave balance as well as their profile information.

Finance and Accounts Department

The BRAC University Finance and Accounts Department operates under the supervision of the Treasurer, who is directly appointed by the Chancellor (President-Government Republic of Bangladesh). The Finance and Accounts Department receives tuition, admission, and other fees from the students as well as research grants from donors. The department makes all types of payments and prepares various reports for the management. These include the Weekly Fund Position Report, Monthly Central Budget Variance Report, Annual Financial Statements, Scholarship Reports, Provident Fund Financial Statements, and Donor Reports as well as reports related to taxation activities in respect to the university and its faculty and staff.

The Finance and Accounts Department also maintains the accounts and finance-related activities of more than 25 donor-funded projects as well as student enrollment and registration, faculty and staff payroll, fixed assets management, cash and cheque management, budget preparation, and budgetary control. The Finance and Accounts Department provides information and various types of analysis and reports to the management and assists in the policy and decision-making process of BRAC University.

Procurement Department

Today different organizations employ various management techniques to carry out the efficient functioning of their departments. Procurement management, a process of identifying and obtaining goods and services, is one such where goods and services are acquired from different suppliers or firms, which helps an organization to save a significant amount of money when purchasing quality goods and services from outside.

Efficient procurement implies a system that is operated in a timely manner with a minimum number of steps/layers while being responsive to the needs of the end user, leading to fulfillment of the organization's goals. BRAC University is required to procure a huge number of goods, equipment, and related services. For that, BRAC University has a separate unit for procurement which has been operating independently since April 2006. As procurement has been increasing in value and volume, the requirement of compliance with global and domestic procurement norms and standards has become important for BRAC University. That is why the department is adapting new strategies on a daily basis and operating under the Procurement Procedure for Goods and Services that was prepared in July 2007.

Moreover, every procurement activity is facilitated through electronic means, i.e. email, fax, and phone. The department is also distributing products or commodities in collaboration with a spacious warehouse where these items are stored.

BRAC University's procurement department is staffed by four professionals with the requisite knowledge and skills to ensure that procurement decisions are made in the best interests of the university and in compliance with the university's policies. The university warehouse is staffed with two people responsible for storing and distributing consumable products and/or commodities to the end users.

The procurement department is dedicated to provide maximum services and is taking initiative in developing advanced software for procurement. The policy is also being reviewed to better fit to the changing needs of BRAC University.

Medical Center

BRAC University Medical Center provides various medical services to its students, faculty and staff. The center is well equipped to provide necessary emergency medical services, advice and referral services to the University community. There are two medical centers: one on the main campus of Mohakhali and the other on the residential campus at Savar. Both the Medical Centers have qualified and professional doctors and nurses.

The Medical Team Organizes awareness programs on different seasonal and common diseases on the university premises such as prevention from winter diseases, summer diseases it also Organizes anti-smoking campaign, Prepared health profiles for freshmen, Provided general health check-ups for newly admitted students as well as students who attended the residential semester and Ensured acceptable standards of Public Health and Sanitation at the university campuses and hostels by collecting drinking

water samples from every building and testing them twice in a month. The microbiological testing was done at the MNS department of BRAC University and icddr, b to ensure WHO-standards of drinking water.
