11th Convocation

5 December 2016

BRAC UNIVERSITY

Inspiring Excellence

The theme of BRAC University's (BRACU) 11th convocation brochure is "Inspiring Excellence" and the focus is on this year's graduates.

Committed and inspired to do the very best, BRACU is putting in conscious efforts and striving with integrity every day to be a frontrunner in providing world class higher education while continually nurturing a culture pursuing excellence for success.

It embodies sky-high commitments to academia, research and employability of students, striving hard to reach for the stars with a modern curriculum, research and teacher-student engagements.

Our inspiration comes from the words of our very own Sir Fazle Hasan Abed, KCMG on the importance of being an innovative trailblazer continuously pushing for improvements, all the while extending a helping hand to others.

Currently the world's number one non-government organisation, BRAC has always been an inspiration in our contemporary socioeconomic and organisational development context.

For the graduates, this is a great achievement; for the university, a great milestone as well considering the fact that this is the first time such a high number of students are taking their certificates in one go.

However, this does not mean we should bask in our own glory. Neither did Nelson Mandela as he is quoted to have said, "After climbing a great hill, one only finds that there are many more hills to climb". We hope this quote and the graduation prompts us to spring into action taking life's successes as launchpads for even greater endeavours.

Message

It gives me immense pleasure to know that BRAC University, a leading private university, is organizing its 11th Convocation in a befitting manner. On the eve of the occasion, I would like to congratulate all the graduating students, their parents and guardians, erudite faculties, and the university authority as a whole for their collective endeavour to materialize the hopes and aspirations of the students.

The role of university, both public and private, is of paramount to impart quality education and conduct research and innovation. Research and innovation play an important role to create new knowledge which enriches the pool of world knowledge and guide the nation towards building a knowledge-based society. This also helps to develop the capacity of students, making them innovative and coherent in their respective fields. I therefore believe that the universities will always put top priority on research and innovation for achieving excellence in the field of higher education.

Education is knowledge combined with wisdom and ethics. It molds the personality of students and makes them capable of facing all obstacles and challenges of the modern world. The Government of Bangladesh has taken necessary steps to ensure quality education at every level form primary to tertiary so that our student can cope with the global challenge which encompasses our everyday life. I hope that the graduating students will put their best talent to meet our national and global demands imbued with sense of patriotism. I wish the graduating students a prosperous future.

Bangladesh has now been emerged as a role-model of development into the world community for her steady growth, development and equitable society. Despite global economic recession, we have attained over 6 percent GDP growth constantly during the last seven years. This has been possible due to pragmatic efforts being done by the present government. I urge all to contribute more towards building a happy and prosperous Bangladesh dreamt by Father of the Nation Bangabandhu Sheikh Mujibur Rahman.

I wish the 11th Convocation of BRAC University a grand success.

Khoda Hafez, May Bangladesh Live Forever.

Md. Abdul Hamid

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِيْمِ

PRIME MINISTER
GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BANGLADESH

Message

I am happy to know that BRAC University is going to hold its 11th Convocation on 5 December 2016. On this occasion, I would like to congratulate the graduating students, their parents, faculty members and the university authority.

Awami League government has given utmost priority on higher education based on innovative research activities to facilitate country's socio-economic development. In this regard, we adopted a modern, scientific and time-befitting Education Policy to ensure quality education. We enacted Private University Act-2010 to boost up higher education facilities. Since 2009, the government established 8 public universities and gave permission to set up and operate 42 private universities. Private universities have become an integral part of this government endeavours to build a knowledge-based society.

I hope that the universities keep providing financial support in the form of scholarships and tuition waivers to students, especially females and children of minority communities and of freedom fighters of our Liberation War in 1971.

I believe, the graduating students of BRAC University will play a vital role in building a 'Sonar Bangla' as dreamt by the greatest Bangalee of all time, Father of the Nation Bangabandhu Sheikh Mujibur Rahman.

I wish the 11th Convocation of BRAC University a grand success.

Joi Bangla, Joi Bangabandhu
May Bangladesh Live Forever.

Message

On this prestigious occasion of BRAC University celebrating its 11th Convocation on 5 December 2016, I would like to extend my warmest congratulations to the new graduates of the university.

I would also like to convey my heartfelt wishes to all the faculty members, officials and staff of the university and also the parents of graduating students who played a tremendous role behind the success attained.

I am happy to know that BRAC University has produced such a large number of graduates who will eventually turn into our future leaders. Our new generation must continue to enlighten themselves with quality education in order to become good citizens. They must also be capable of facing the challenges of globalisation.

I am happy to see that, private universities are giving our students the scope to obtain education of a global standard. It gives me great pleasure to learn that BRAC University has stood out in the field of higher education in the country by creating a unique environment for disseminating quality education.

In line with the vision of BRAC, BRAC University is providing scholarships to assist meritorious students who are financially insolvent, which is a truly commendable initiative. I hope that the new graduates will dedicate themselves in working for the welfare of the country.

I wish the graduates all the success in life.

(Nurul Islam Nahid, M.P.)

Professor Abdul Mannan
Chairman

Date: 30 October 2016

Message

I am pleased to know that such a large number of graduates are receiving degrees on 5 December 2016 at the 11th convocation of BRAC University. Your years in work and dedication to your academic success have paid off. On behalf of the University Grants Commission of Bangladesh, please accept my sincere congratulations on your successful graduation.

Well-educated and competent manpower is required to gain national development and overcome the global challenges of the 21st century. Education enlightens students morally, socially and spiritually. Students need to discover that the secret of success and contentment lies in utilising one's own strengths. In this regard, I would like to quote Confucius who said, "He who learns but does not think, is lost! He who thinks but does not learn is in great danger." There is, therefore, every reason to place importance on the humanistic dimensions of education, enabling each person to identify and appreciate the individuality of others and to discover one's own self through an inner journey towards achieving excellence.

BRAC University has been producing skilled and qualified graduates by providing quality education since its inception in Bangladesh. I believe that it has already made a unique position for itself in the field of higher education and research. I hope that the university will encourage students to use practical knowledge which will help them attain success in the professional world.

I do expect that the graduating students of the university will prove themselves to be successful in implementing their academic knowledge and moral values to fulfill social responsibilities towards building a better Bangladesh for all. I would like to express my heartfelt wishes to the proud parents and guardians who went through hardship and difficulties, yet continue to inspire the students to reach their desired goals. I am sure our coordinated efforts will build a better future for a nation which we can be proud of.

Professor Abdul Mannan 30/10/16

Message

My heartfelt congratulations to the eleventh graduating class of BRAC University. This Convocation is the culmination of all the hard work and effort you have put in over the last four years to obtain your degree. Your families' support and the tireless efforts of our excellent team of teachers and staff have also been instrumental in your success. It is truly a proud moment for you, your family and friends.

BRAC University's mission is to establish a centre of excellence in higher education that is responsive to society's needs and is able to develop creative leaders thereby contributing to the national development process. Specialised degrees in Public Health, Midwifery, Governance and Disaster Management have been introduced to meet some of the country's fundamental needs.The University aims to provide a broad-based education, an enriching learning experience and to make students into responsible citizens. The teaching of critical thinking skills, such as reasoning and problem-solving, as well as classes in Ethics contribute to the achievement of this goal.

I wish to take this opportunity to express my appreciation and gratitude to those teachers and staff of BRAC University who have helped to shape, guide and prepare you to meet the manifold challenges of a modern, dynamic and diverse but divided world. I also thank the distinguished members of our Board of Trustees, Syndicate and Academic Council for their time, enthusiasm and wise counsel.

I hope you will continue to show the perseverance you have demonstrated during your academic career. You are sure to face competition and obstacles in your future lives, but I believe you have the skills and resourcefulness to face these and to lead with excellence. I trust that you will always be guided in your personal and professional lives by a strong ethical sense and will strive to combat corruption wherever you find it to ensure the healthy and rapid development of our country.

Congratulations once again!

Sir Fazle Hasan Abed, KCMG
Chairperson Board of Trustees

BRAC UNIVERSITY

Syed Saad Andaleeb, Ph.D.
Distinguished Professor Emeritus, The Pennsylvania State University
Vice Chancellor

5 December 2016

Message

BRAC University's tag line – Inspiring Excellence – continues to energize our work of building human assets. In this endeavour we continue to instil a spirit of inquiry, professionalism, social consciousness, and a deep sense of patriotism in our students. We are also striving to add value to our students by nurturing an environment in which they can grow academically, intellectually, socially and as well-rounded human beings.

Five components are vital to providing quality education: first-class teachers, superior students, experienced administration, innovative programs, and sufficient resources. As Vice Chancellor, I am deeply committed to bringing all five elements together and building an environment of academic excellence reflected in a vibrant curriculum, pedagogical sophistication, top-notch research, and service to society.

In our contemporary knowledge-driven world we are constantly exploring new ways of imbuing our students with the emerging knowledge architecture so that they grow as confident leaders, able to play a pioneering role in different sectors of a dynamically evolving nation: Bangladesh.

Many of our stellar achievements stand on the shoulders of our teachers and students. We are proud and confident that our graduating students will be the torch bearers of BRAC University's heritage and play an exemplary leadership role in all of their endeavours.

To the graduating students, a beacon of hope for humanity, I wish you great success. Inspired with the education and values we have imparted, may the future that awaits you welcome you with a warm heart, provide you with great opportunities, and fill your journey through life with many glittering accomplishments.

Syed Saad Andaleeb

Professor Syed Saad Andaleeb, Ph.D.
Vice Chancellor

Brief Biography of the Convocation Speaker

Ms. Shabana Azmi

Actor and Social Activist

Ms. Shabana Azmi is an internationally-acclaimed Indian actress of film, television and theatre. An alumna of the Film and Television Institute of India, Pune, she made her film debut in 1974 and soon became one of the leading actresses. Regarded as one of the finest actresses in India, Ms. Azmi's performances in films in a variety of genres have generally earned her praise and awards, which include a record of five wins of the National Film Award for Best Actress and several international honours. She has also received four Filmfare Awards, and was honoured among "women in cinema" at the 30th International Film Festival of India.

Ms. Azmi has appeared in over 120 Hindi and Bengali films in both mainstream and independent cinemas, and since 1988 she has acted in several foreign projects. Her numerous films have been cited as a form of progressivism which portrays Indian society, its customs and traditions.

Ms. Azmi was a member of the Upper House of the Indian Parliament and a United Nations Goodwill Ambassador. She is also a vocal and committed social activist, undertaking campaigns and making public statements on various issues, particularly social justice and the right of women. She is a leading advocate of AIDS awareness in India. Ms Azmi is a Visiting Professor at Ann Arbor, Michigan and has addressed several universities including Harvard, Columbia, Berkeley, MIT, University of Chicago and University of London.

Ms. Azmi was awarded ‘Padma Bhushan’ by the Government of India in 2012.

Profile of BRAC University

BRAC University (BRACU) was established in 2001. It follows a liberal arts approach to education which nurtures fresh ideas and gives new impetus to the field of tertiary education. It ensures a high quality of education and aims to meet the demands of contemporary times. Building on BRAC's experience of seeking solutions to challenges posed by extreme poverty, BRACU hopes to instill in its students a commitment to working towards national development and progress. BRACU is accredited by the University Grants Commission (UGC) and approved by the Ministry of Education, Government of Bangladesh.

Mission

The mission of BRACU is to foster the national development process through the creation of a centre of excellence in higher education that is responsive to society's needs, and able to develop creative leaders. It actively contributes to learning and the creation of knowledge.

Goal

The goal of BRACU is to provide an excellent broad-based education with a focus on professional development for students, in order to equip them with the knowledge and skills necessary for leading the country in its quest for development. Along with this, the University provides an environment for faculty development to ensure a dynamic teaching environment. Faculty will be provided with an environment in which they can further their teaching-learning abilities and contribute to the creation of new knowledge by developing and using their research skills.

List of Gold Medallists

Chancellor's Gold Medal

One student from the undergraduate programs and one student from the masters programs obtaining the highest CGPA shall be awarded the Chancellor's Gold Medal. However, obtaining a minimum CGPA of 3.8 is mandatory for being a recipient of Chancellor's Gold Medal and the valedictorian from the undergraduate programs. The Degree Awarding Committee recommends the following two students for the Chancellor's Gold Medal:

Undergraduate

Zainab Syed Ahmed

Postgraduate

Rafiath Rashid

Vice Chancellor's Medal

The student obtaining the highest CGPA in each of the undergraduate and graduate program from every program shall receive the Vice Chancellor's Medal provided he/she obtains a CGPA of minimum 3.65 (High Distinction).

Undergraduate Programs

Mohsin Uddin Taksin

Sarjana Bilkis Rahman

Noshin Nawar Sadat

Tanvira Chaudhury

Tanisha Tabassum Sayka Khan

Department of Architecture

Goals and Objectives

The Department of Architecture provides courses aiming to prepare tomorrow's architects for challenges of a world continually developing technologically. These courses also serve to work towards developing an ecologically balanced, sustainable environment while seeking solutions that respect social, cultural and aesthetic needs of the people.

Achievements

The atmosphere at the Department of Architecture is characterized by a rich and balanced composition of academics, visiting scholars, research, outreach programs and co-curricular activities. Besides regular teaching, practical training at home and abroad also forms a part of the Bachelor of Architecture degree program.

The Department is also engaged in collaborative research in partnership with multiple institutions such as the Research and Education Division of BRAC; BRAC Tanzania, The British Council; The University of Manchester, Lancaster University, Loughborough University of UK; Hogeschool van Amsterdam; Center for Science and Engineering, India; Water Aid Bangladesh; Bengal Institute for Architecture Landscapes and Settlements; and others. Exchange programs connecting several European universities under Erasmus Mundus Mobility with Asia (EMMA) are available for students and staff. It has MoU on similar exchanges with the School of Architecture, University of Illinois at Chicago.

The Department also provides consultation services that include work on certain projects such as a cyclone shelter prototype for BRAC, interior designs for certain facilities for BRAC such as the BRAC Bank, disaster resilient housing at Noakhali for IUCN, post-disaster housing reconstruction in Sidr affected areas, etc. At the moment, the design cell at the Department of Architecture is involved in a research-cum-consultation service with BIED, developing 'Playlab'--a prototype design for pre-primary schooling of peri-urban and rural children in Bangladesh. A state of art 'Fab Lab' - first of a kind in an architecture school in Bangladesh is currently being installed at the department with the funding of World Bank through Higher education Quality Enhancement Program (HEQEP) of the Bangladesh Government.

Last but not the least, since its inception, the department has been actively promoting cultural engagements such as "Angan"--a lecture series; Arch.KIDS - a creative platform for children to help understand their surrounding built environment related issues, and "Moitree", a cultural forum of students. Regular exhibitions are organized on the works of students and design charrettes are held periodically. The best performances of students in the design studios are acknowledged through honors such as the prestigious "Noman Award" and "Rafiq Azam Travel Bursary".

Ongoing Academic Programmes

- Bachelor of Architecture
- Certificate in Construction Management
- Master's in Disaster Management

Faculty Overview

The department consists of faculty members who have attained advanced degrees from leading schools around the world, who are engaged in research projects on issues such as sustainability and energy, community housing, Informal settlements, inclusive design, urbanism and urban design, cultural heritage, disaster management and other fortes of the built environment. Several of these individuals with substantial professional experience also serve as visiting faculty members to other institutions.

BRAC Business School

Goals and Objectives

With a mission to create and disseminate knowledge in the field of business and management, BBS strives to improve effectiveness and efficiency of managing business and non-business organisations through excellence in business education, training, research and advisory services.

Achievements

The research works of the BBS faculty members have been commended in the business profession and published in various national and international journals. The focus of BBS is not limited to education and research. It encourages students to participate in various co-curricular activities through various student clubs and forums. The aim is to instill leadership qualities in students by engaging them in these student platforms. Owing to the very high quality of the programs and the school's commitment to business education in Bangladesh, a rising number of applicants have been consistently attracted to our BBS programmes.

Ongoing Academic Programmes

- Bachelor of Business Administration (BBA)
- Master of Business Administration (MBA)
- Executive Master of Business Administration (EMBA)

Faculty Overview

Some of the finest teachers specialising in business education are working at the school and their endeavours are supplemented by high class practitioners. The distinguished faculty members include Professor Rahim B. Talukdar Ph.D (former Director of IBA), Professor Dr. Hafiz G.A. Siddiqi (former Director of IBA), Professor Dr. Mirza Azizul Islam (former Adviser, Caretaker Government of Bangladesh), Professor Dr. Akbar Ali Khan (former Adviser, Caretaker Government of Bangladesh) and Professor Dr. Salehuddin Ahmed (former Governor, Bangladesh Bank).

Department of Computer Science & Engineering

Goals and Objectives

The Department of Computer Science and Engineering embodies BRACU's tradition of excellence as a leader in engineering education and research. The department operates under the School of Engineering and Computer Science and is driven by the dual goals of offering a world-class, broad-based undergraduate program and a strong research culture centred on faculty members and graduate students.

Achievements

Since its inception, the CSE Department has taken great strides towards becoming an institute truly of international standards. In 2004, they hosted the International Conference on Computing and Information Technology, (ICCIT'04), one of the most prestigious conferences to be held in Bangladesh. In 2005, Professor Mumit Khan founded the Centre for Research on Bangla Language Processing (CRBLP). From 2006 to 2011, CRBLP engaged in several research projects. Two of the most prominent ones were their Optical Character Recognition System, and Text To Speech System. In 2010, CRBLP presented these systems to the government and was also conferred the excellence in innovation award by the Bangladesh Association of Software and Information Services (BASIS). Since 2010, students of the department have been participating in the NASA Annual Lunabotics Mining Competition under the leadership of Dr Khalilur Rahman. In 2011, BRAC University became the first university in Bangladesh to attend the Lunabotics event and in 2012, their project was ranked the highest among all universities in Asia. Since then, several other universities in Bangladesh have taken part in the lunabotics event and BRACU is unanimously identified as the pioneer in this event for Bangladesh.

Ongoing Academic Programs

- Bachelor of Science in Computer Science
- Bachelor of Science in Computer Science and Engineering
- Master's in Computer Applications
- Master of Science in Computer Science and Engineering
- Master of Engineering in Computer Science and Engineering

Faculty Overview

Faculty members are leading major research projects on, to name a few, image processing, cloud computing, robotics and bioinformatics. Several individuals who have been involved for quite a number of years in the industry also serve as visiting faculty members, providing lessons through the experience they have gathered and helping students get broader perspectives.

Department of Electrical and Electronic Engineering

Goals and Objectives

The department of Electrical and Electronic Engineering (EEE) possesses well-trained faculty members and researchers along with modern lab facilities. The department actively encourages both undergraduate and graduate students to engage themselves in research. It strives to achieve the following objectives:

- To produce graduates who can usethe state-of-the-art electronic/telecommunication/power system engineering tools to identify and solve real world problems.
- To train students in research methodology so that they can contribute towards creation of new knowledge and development.
- To expose students to courses,designed in accordance with the curricula of renowned universities and institutes in North America and Europe.

Achievements

Since its establishment, BRAC University's EEE department had continued to make significant contributions to social and humanitarian development through technology and research. There are several research groups and centres operating under the umbrellaof this department. The Control & Applications Research Centre (CARC) focuses on the areas of systems and control engineering.Researchers from CARC have already developed a prototype of environment friendly and cost-effective solar assisted ambulance by integrating innovative torque sensor technology for the rural communities of Bangladesh. Most of the CARC projects involve close collaboration with national industry leaders such as EnergyPac Bangladesh, BRAC Solar, BRAC- HNPP, DPDC, IDCOL and BEEVATECH; and international institutes like IEEE SIGHT USA. The Robotics Lab had participated in the annual "Lunabotics Mining Competition" for two years in a row.BRACU product, "Chondrobot-2", during the second participation, did exceptionally well and was ranked as the best performing robot among all others from Asian universities. Currently, the lab is working on other robotic designs and developments focusing on various engineering challenges.The nation's first Nano-Satellite 'Onnesha 3B', which is set to be sent in space next year, was designed, developed and assembled by the students of EEE department in collaboration with Kyushu Institute of Technology, Japan. To open the door for more research activities, this year a memorandum of understanding (MOU) has been signed-up between BRACU EEE department and Bangladesh Council of Scientific and Industrial Research (BCSIR). This is a giant leap forward towards taking our students' electronics design skills to a fabrication and testing level in our country's context.

Ongoing Academic Programs

- Bachelor of Science in Electrical and Electronic Engineering
- Bachelor of Science in Electronic and Communication Engineering
- Master of Science/Master of Engineering in Electrical and Electronic Engineering

Faculty Overview

The Department of Electrical and Electronic Engineering has 21 full-time faculty members. Some of the faculty members hold PhDs and have conducted a substantial amount of research and gathered experience of teaching and working at related industries home and abroad. Most of the department's faculty members hold master's degrees from globally reputed universities and they are actively working in pushing the boundaries in their own fields of research, working as a team with students and research assistants towards the common goal of BRACUniversityin inspiring excellence. The faculty members of EEE department are continuously publishing their works in reputed journals and conferences like, Elsevier Measurement Journal (indexed by Scopus), IEEE Transactions on Electron Devices, IEEE GHTC, IEEE GLOBECOM, IEEE TENCON etc.

Deaprtment of Economics and Social Sciences

Goals and Objectives

The Department of Economics and Social Sciences (ESS) at BRACU was launched in 2003. The faculty is committed to close engagements with students to develop their intellectual curiosity and motivation for learning. We encourage students to ask questions and challenge conventional ideas. We seek to make students understand the broad economic and social realities they live in, both in Bangladesh and the global world, and to develop critical insights and analysis to help them determine solutions. We prepare students both for the job market and for graduate studies but also put emphasis on their growth as all-rounder individuals with strong ethical values. The Department of Economics and Social Sciences offers two majors and three minors.

Achievements

ESS organizes major events and regular seminars throughout the year, bringing in academics from abroad as well as Bangladesh.

Academic Programs

- Bachelor of Social Sciences (BSS) in Economics
- Bachelor of Social Sciences (BSS) in Anthropology
- Minors in Economics, Anthropology and Sociology

Faculty Overview

The Department of Economics and Social Sciences includes 17 fulltime faculty members. Over half of them hold PhDs from reputed universities, have strong research backgrounds and teaching experience, have published works in refereed journals and are regularly sought as speakers of international events. The department convenes scholars in major national and international events and also engages in policy dialogues.

Department of English and Humanities

Goals and Objectives

The Department of English and Humanities aims to promote studies in English and Humanities at BRACU. It fosters critical thinking and encourages students to think independently. The emphasis at the department is to inculcate reading and writing habits and to prepare students with adequate critical and analytical skills so that they can make a contribution to society and become an integral part of the contemporary world.

Achievements

The academic year 2015-2016 has been spent in updating the courses and bringing the Department at par with the latest developments in the field.

The collaboration with the University of Umea in Sweden under the Linnaeus-Palme program kept up the international links that the department has established over the years. This was a wonderful program that included teacher exchange between the institutions.

The Department of English and Humanities is part of the Scholars' Program, which is an initiative to draw together high-performing students from across disciplines. The program has generated a lot of interest and promises to be an exciting new development in the university.

Situated in and fostered by the Department of English and Humanities, BRACU Media Lab is perhaps one of the major pioneering attempts at co-curricular activities taken up by BRACU. Its aim is to give students complete access to a world of digital audio and video editing and mastering, helping to acquaint them with the digital world.

Ongoing Academic Programs

- BA in English (concentration areas: literature, applied linguistics & English language teaching, media & cultural studies)
- MA in English (concentration areas: literature, applied linguistics & English language teaching)
- Minor in History

Faculty Overview

The Department of English and Humanities has a wide range of faculty members who impart their valuable knowledge in teaching and mentoring students in the very diverse fields across which this department spans. The wide range of subjects they specialise in range from translation studies and developing online teaching materials to research on historical and literary material. This is reflected in the wide variety of publications and seminars that have been hosted over the years.

Department of Mathematics and Natural Sciences

Goals and Objectives

The essential role and relevance of science and technology in modern times is truly immense and it is nearly impossible to rule it out from any discipline, be it the realms of physical, biological, medical and social sciences, engineering, agriculture, finance, commerce, business or management. So it was quite natural that the Department of Mathematics and Natural Sciences was established as one of the key departments of BRACU when the university started its journey in 2001. The department has been providing quality education in basic and applied sciences to students of different disciplines of BRACU. It offers courses in physics, chemistry, biology, biotechnology, microbiology, mathematics, statistics, economic geography and environmental sciences.

Achievements

A plasma astrophysics laboratory with major facilities has been set up for the first time in Bangladesh under the keen supervision of expert faculty. The research programs in life sciences in the department incorporate vital areas of medical, environmental and plant biotechnology. Some specific areas of research include non-communicable diseases, phytomedicine, cancer research and safe drinking water. In plant biotechnology, research work concentrates on the development of stress-tolerant varieties of crops which are of economic importance. The department has collaborative research links with BIRDEM, the University of Dhaka, BCSIR, the Bangladesh University of Health Sciences (BUHS) and the Centre National de la Recherche Scientifique (CNRS) in Grenoble, France. The department has also signed memorandums of understanding on taking up R/D initiatives jointly with BAEC, BRAC ARDC and ICDDR,B. The department organized the 19th Int'l Mathematics Conference from 18-20 December 2015. It had also organized the Inter University Mathematics Olympiad in December 2011.

Ongoing Academic Programs

- Bachelor of Science in Physics
- Bachelor of Science in Applied Physics and Electronics (APE)
- Bachelor of Science and Master of Science in Biotechnology
- Bachelor of Science in Microbiology
- Bachelor of Science in Mathematics

The department also offers double majors and minors in physics, APE, biotechnology, microbiology and mathematics.

Faculty Overview

Faculty-wise, the Department of Mathematics and Natural Sciences is the second largest department in BRACU having a total of 40 full-time teachers along with 13 teaching assistants. The faculty is a blend of young and brilliant teachers with PhDs or master's degrees attained from abroad. Choosing teaching and research as their vocation, they bring along years of teaching and research experience at prestigious academic and research and development institutions both at home and abroad.

Department of Pharmacy

Pharmacy is the multi-disciplinary science of developing, manufacturing, marketing and dispensing drugs. Pharmacists play an important role in every aspect of drug production and delivery from drug design, development, and manufacturing to quality assurance and marketing to dispensing and monitoring. Increasingly, pharmacists find themselves at the center of patient care. When it comes to prescription medications, they are expected to coordinate and optimize drug therapy with physicians, provide drug information, explain prescriptions, and answer patient queries.

Goals and Objectives

The Department of Pharmacy prides itself in developing knowledgeable pharmacists who will ensure quality medicine for the better healthcare of the nation and create opportunities for research in medicine.

Ongoing Program

- Bachelor of Pharmacy (B Pharm)

The purpose of offering the Bachelor of Pharmacy (Honours) degree is to introduce interested students to the technological and scientific principles underlying the preparation of dosage forms and drug delivery systems and to their use in patient care. The four-year integrated course is divided into eight consecutive semesters and affiliated with the Pharmacy Council of Bangladesh. The Department of Pharmacy started its journey in 2010 offering a pharmacy curriculum with tracks in physiology, pharmacognosy, pharmacology, pharmaceutical technology, biopharmaceutics and pharmacokinetics, clinical pharmacy and medicinal chemistry. It has five modern laboratories with state-of-the-art equipment to conduct laboratory work as well as advanced research.

Faculty Overview

The nineteen faculty members of the department obtained their higher degrees from reputed public and private educational institutions, both at home and abroad. They are conducting research on phytopharmacology, pharmaceutical technology, environmental toxicology, pharmaceutical marketing etc. and regularly publishing research articles in peer reviewed journals.

School of Law

Goals and Objectives

Founded in 2004, the School of Law at BRACU is a gateway through which students are prepared for careers in law, administrative services, the judiciary and in the development sector. Although the primary emphasis of the program is on law and the legal profession, given that law is also intertwined with economics, development, business and sociology, it also prepares students who are inclined to seek professions in other disciplines.

The School of Law endeavours to impart a legal education which focuses on seeking legal solutions that respect social, cultural and aesthetic needs of the people. To meet this goal, it strives to impart to students not only the tenets of the law but also legal philosophies, rights-based issues and a broader awareness of the society. Graduates from the School of Law are now pursuing careers as lawyers, judges, corporate legal officers, development workers and academics.

Achievements

The School of Law strives to enhance its students' research, moot and organisational skills through the BRAC University Law Society, where students are constantly engaged in preparing for moot court competitions, writing research papers and articles for the Society's newsletter "Acumen" and planning lecture programs, court monitoring visits and social awareness activities. School of Law mooters have attained success in several national and international competitions, including the prestigious ICRC Henry Dunant Moot Court Competition. They are a force to be reckoned with in the national arena.

Ongoing Academic Program

- Bachelor of Law (LLB)
  The School of Law offers a Bachelor of Law (LLB) degree with honours. Students are expected to complete 135 credits in their four years of undergraduate study, of which 62 credits are major law courses.

Faculty Overview

The faculty members of the School of Law are handpicked for their academic excellence and individual expertise. They bring with them teaching-learning experiences from universities both at home and abroad. The faculty has individual expertise in the areas of child rights, criminal law, arbitration, business studies, international law, gender studies, and human rights, all of which are shared with the students through coursework and in workshops and lecture programs organised by the School.

BRAC Institute of Educational Development

VISION: BIED will strive to be a center of excellence for professional development in education by combining theory and practice, by dissemination and use of knowledge and skills to improve the quality of the national education system.

MISSION: BIED is committed to building professional capacities, strengthening the knowledge base and the application of these to educational development, thus enhancing the contribution of education to fulfilling overarching societal goals of fighting poverty, building human capital and enabling people to realise their potential.

WHAT WE DO

BIED works through capacity development, research and advocacy to develop the education sector in Bangladesh from multi-dimensional angles through: conducting large-scale educational researches; support to the public sector through capacity development and textbook refinement; develop school models for quality education and large-scale educational researches; advocate in the areas of Early Childhood Development (ECD), psychosocial and mental wellbeing through training and research.

Academic Programs

BIED's academic programs aim to enhance the capacity of mid-career, working professionals of different educational organizations, in public and private sector, as well as those working in non-profit, by strengthening their knowledge base and developing their competencies in a variety of areas through the following programs:

i) Master of Education/ Postgraduate Diploma (MEd/PGd) in Educational Leadership And School Improvement
ii Master of Science/Postgraduate Diploma (MSc/PGd) in Early Childhood Development
iii) Short Courses

ECD & Center for Play

ECD & Centre for Play has served as the resource center and focal point of a national network of ECD providers and stakeholders, operating in partnership with its stakeholders at home and abroad. It provides a forum for the exchange of ideas and advocating on child development, learning through play, early year's brain development and stimulation, parenting through creation of evidence-based models, playing a supportive role in partner activities as well as offering a wide range of capacity development opportunities.

Center for Psychosocial Wellbeing

BIED's Center for Psychosocial Wellbeing (CfPW) is involved in building capacities, conducting researches and providing support to diverse groups on mental health and wellbeing. Starting from adolescents to street children to victims of traumatic events or building capacities of barefoot counsellors in schools, communities and private sectors, the center addresses wellbeing from a multidimensional viewpoint, adopting customized approaches to each scenario and situation. Alongside, CfPW offers counselling and provides staff training for para-counselling positions.

BRAC Institute of Governance and Development

BRAC Institute of Governance and Development (BIGD), BRAC University is a centre of policy research and academic excellence. It was established in June 2013 through the merger of the Institute of Governance Studies (IGS) and the BRAC Development Institute (BDI).

BIGD's research mandate is spread over four broad clusters, 1. Governance and Politics, 2. Urban, Climate Change and Environment, 3. Gender Studies, and 4. Economic Growth.

BIGD's research is aimed at supporting its academic and training programs. It does not limit knowledge creation to being an end in itself but rather to advance the pursuit of a just and prosperous society. Hence, it also plays an advocacy role to give voice to contemporary governance, political and economic issues.

Flagship Programs

The State of Governance (SoG) in Bangladesh

BIGD annually conducts research on the state of governance in Bangladesh, to provide a critical and analytical investigation of the governance situation of Bangladesh. This analytical work allows BIGD to compare, assess and document changes over time. The results of this on-going research are articulated mainly in the form of annual reports named 'The State of Governance in Bangladesh' which is one of the flagship publications of the BIGD. Since 2006, eight reports have been published.

The State of Cities (SoC)

BIGD's another flagship research program 'the State of Cities' aims to provide a diagnostic of the country's urban governance. As the world is increasingly shifting population from rural to urban areas, urbanization and associated concerns have become an important issue in developing countries. In the context of current development literature, important factors such as reevaluation of the economic importance of the cities and reaffirmation of the importance of local institution building for development require significant consideration in light of such enormous shift. In this backdrop of rapid urbanization, urban governance has become an important approach to evaluating cities' growth, development and performance. The first SoC report was published in 2012. Since then, BIGD has been continuing this flagship programme by way of preparing SoC publications every year focusing on country's growing urban challenges.

Apart from its flagship programs, BIGD also conducts research on various governance and development related topics. Some of these areas are: municipal finance, extreme poverty and inequality, labor market, service sector dynamics, local governance, democratic governance, citizens' engagement in public procurement, urban governance, etc.

Research Communication and Advocacy

In line with its communications strategy, BIGD disseminates research outputs and activities through diverse range of communication channels and tools such as target-specific advocacy events, stakeholder's consultations, publications, op-eds and articles, social media posts, e-alerts, newsletters and website. It also organizes different events to enable effective and updated exchange of views and draws expert recommendations from diverse range of stakeholders.

On the academic side, BIGD offers four Masters Degree programmes 1. Master of Arts in Governance and Development (MAGD): exclusively for Government officials of Bangladesh aimed at enhancing their capacity, 2. Master of Development Studies (MDS): an innovative and cross-disciplinary postgraduate master degree that provides an in-depth understanding of development concepts and issues in the context of globalisation, economic transformation and social, cultural and political changes, 3. Masters in Procurement and Supply Management (MPSM): a top-up Masters programme on procurement and supply management in collaboration with the Chartered Institute of Procurement and Supply (CIPS), UK serving the procurement and supply profession and 4. Masters in Development Management and Practice (MDMP): a professional Masters degree in development management and practice belonging to a global network of Masters in Development Practice Program comprising of 22 universities around the world.

Apart from research and advocacy, BIGD programme division also provides technical and research support to various government entities. Some of the major projects undertaken: Community of Practice in Performance Management in South Asia, in cooperation with the World Bank and the Government of Bangladesh; Sharique-III, a SDC funded consortium project on local governance and development, comprised of HELVETAS Swiss Intercooperation and BIGD, Public Procurement Reform Project II, with Bangladesh Government (CPTU, IME Division, Ministry of Planning) to help design and implement the social accountability mechanism that aims to institutionalize and develop a third party monitoring system in the public procurement process in the country.

Moreover, BIGD provides scholars, policy specialists, researchers, academics and practitioners a common platform to discuss and debate critical questions on governance and development. It has a strong record of working with government agencies, national and international research institute, development organizations, think-tanks and non government organizations.

BIGD hosts IGC in Bangladesh: The Institute also hosts the International Growth Centre (IGC) of London School of Economics and University of Oxford. This affiliation provides the opportunity for the institute to collaborate on research projects and open itself to a wider research community regionally and internationally.

The Centre for Gender and Social Transformation (CGST): BIGD houses a specialized centre - The Centre for Gender and Social Transformation (CGST), that undertakes research and advocacy work on women's empowerment and how positive changes in everyday lives and larger social transformation in gender roles take place.

BIGD's staffs are drawn from the social science disciplines with excellent credentials. As an institute of BRAC University, BIGD works closely with the university and has the unique advantage of being associated with BRAC, the world's largest NGO through its work and carrying its 'brand.' It is inspired by BRAC's values in shaping its own institutional work, professional standards and product.

BRAC Institute of Languages

Goals and Objectives

BIL's aim is to assist students in developing the language skills they need to become successful in graduate schools and in their professional lives. The institute focuses on implementing student-centred and creative language teaching techniques by developing modules based on students' proficiency level. This not only eliminates the possibility of having mixed ability classes but also ensures small classes with excellent interaction between teachers and learners. Additionally, BIL is committed to the field of academic language teaching and research, with a clear focus on creative and forward thinking teaching concepts for diverse learner groups.

Academic Programs and Courses

- Master of Arts in Teaching English to Speakers of Other Languages (MA in TESOL)
- Pre-University Course
- Undergraduate English Courses
- Modern Languages (Bangla, Chinese, French, Korean, Spanish)
- English for Academic Purposes (EAP)
- English Proficiency Development Course (EPDC)

Professional Courses

Several need-based professional courses of different governmental and non-governmental organizations are also provided by BIL at the BRAC Dev-Pro Centre. These are:

- Development Professionals' Course for development workers
- BRAC Primary School Teacher Training (BPSTT)

- English for Specific Purposes (ESP) courses for different national and international organizations like
- BRAC, Bureau of Non-Formal Education (BNFE), Regulatory Reform Commission (RRC), Bureau of
- Manpower Employment and Training (BMET), ILO, UNICEF, etc.
- Development of ESP modules for midwifery and nursing students of Bangladesh.

Achievements

Over the last 10 years, BIL has developed and offered unique and dynamic courses and materials catering to the needs of diverse learners and organisations. These are: training for RAI Foundation Scholarship Recipients and a venture with BRAC's STAR project in collaboration with UNICEF and ILO for the English language skills of the outreach students who are currently involved in Technical and Vocational Education and Training (TVET). Together with BRAC, ILO and BMET, BIL has established the language labs with training manuals and audio-visual materials in English-Bangla-Arabic on four trades at two Technical Training Centres (TTCs) for the project titled 'Promoting Decent Work through Improved Migration Policy and its Application in Bangladesh'. Furthermore, BIL has developed six ESP modules for the 'Diploma in Midwifery' course in collaboration with James P Grant School of Public Health (JPGSPH). Other significant achievements include BIL's collaboration with the English in Action project aided by the Open University, UK in their MYTEC program.

Faculty Overview

The strengths that the faculty members of BIL reflect are their interests and work experiences in diverse spheres of academia such as assessment, reflective teaching, peer review, critical and creative thinking, adult teaching, teacher training, experiential learning, English for specific purposes, English for academic purposes, curriculum and syllabus design, material development, education and society, use of literature in language teaching, computer assisted language learning, etc.

James P Grant School of Public Health

The James P Grant School of Public Health (JPGSPH), also referred to as the BRAC School of Public Health, was founded in 2004 with a distinctive mission in mind - to address the unmet public health challenges particular to Asia, Africa and South America. The School was established as part of BRAC University, in partnership with BRAC and icddr,b.

The School applies an interdisciplinary integration of Education, Training, Research and Advocacy to diverse health challenges such as urban health, gender equity, programme evaluation, maternal & child health, sexual and reproductive health, infectious diseases, health workforce, surveillance, nutrition, climate change and implementation science.

Education

In January 2005, JPGSPH initiated its flagship Master of Public Health (MPH) programme with the aim of developing public health leaders. The MPH offers:

- A global classroom of learners with diverse disciplinary and professional backgrounds
- World class faculty from prestigious national and international institutions
- Experiential community-immersive approaches exposing learners to multifaceted aspects of developing country health environments and service delivery
- Innovative teaching and learning methodologies embedded in a 21stcentury public health demand driven curriculum
- Multi-stakeholder engagement with government ministries, NGOs, bi-lateral partners, public health practitioners and leaders
- Employable professional skills to critically reflect, interpret research, problem solve, and find solutions to pressing and emerging public health needs.

Training

Centre for Professional Skills Development on Public Health (CPSD)

The School's international training hub strengthens and upgrades the requisite professional skills utilised by practitioners, policymakers, development partners, government officials, public advocates, faculty, researchers

and frontline health workers. Approximately 5,000 health and development professionals have received training from the School and in joint collaboration with icddr,b, partner institutions and development partners.

Research

The School's research practice investigates critical and emerging developing country health needs to identify evidence based solutions. Multidisciplinary researchers rely on methodologies as diverse as clinical epidemiology, ethnography and demography to provide comprehensive quality evidence to communities, practitioners, government, and implementation partners.

Most of the research is located at our four Centres of Excellences:

- Gender and Sexual and Reproductive Health and Rights focuses on research, capacity building and advocacy work on bodily rights and integrity, sexuality, and reproductive health.
- Universal Health Coverage is working towards evidence-informed, equitable and sustainable action towards universal health coverage and the broader health systems.
- Urban Equity and Health focuses on inter-sectoral research, training, policy and results based action focused on health equity challenges of the urban poor.
- Science of Implementation & Scale-up focuses on existing programme evidence to innovate, strengthen and improve service delivery execution and scale-up proven interventions.

Advocacy

The School's advocacy ensures that communities, local practitioners, policymakers, development partners, government and international institutions learn from and can apply research findings to improve public health outcomes for disadvantaged groups.

The approach is a results oriented advocacy which measures effectiveness through policy and program reform by documenting processes and outcomes.

Diploma in Midwifery under Developing Midwives Project

James P Grant School of Public Health (JPGSPH), BRAC University (BRACU) is implementing Developing Midwives Project (DMP) from April 2012 with UKaid funding from the UK Government. The DMP has been offering a three-year Diploma in Midwifery Education with a vision to improve maternal and neonatal health in Bangladesh. This project is being implemented at seven Academic Sites in six districts across the country. All Academic Sites for the Diploma in Midwifery Education programme have been approved by the Ministry of Health and Family Welfare, Government of Bangladesh, and accredited by the Bangladesh Nursing and Midwifery Council (BNMC). The Diploma in Midwifery education with 155 credits follows a competency-based curriculum compliant with the standards of the International Confederation of Midwives (ICM).

The DMP aims to improve the health status of communities by contributing to the reduction of maternal and newborn morbidity and mortality and to increase coverage of quality maternal and neonatal health (MNH) services through the development of qualified, competent and compassionate midwives who live and serve at underserved, hard-to-reach rural and urban areas of Bangladesh. To achieve its objectives the project has adopted an innovative 'hub and spokes' model wherein BRACU is the hub and seven Academic Sites serve as the spokes. Six out of seven Academic Sites are managed by partner NGOs with the support of JPGSPH, BRACU while JPGSPH, BRACU directly manages Dhaka Urban Academic Site. These seven Academic Sites are: Friends in Village Development Bangladesh (FIVDB) and Shimantik in Sylhet; Garo-Baptist Convention-Christian Health Project (GBC-CHP) in Mymensingh; Partners in Health and Development (PHD) in Khulna; Lutheran Aid to Medicine in Bangladesh (LAMB) in Dinajpur; Hope Foundation in Cox's Bazar; and Dhaka Urban Academic Site at Mirpur. Additionally, the Project aims to contribute in establishing midwifery as a profession and employment opportunities for graduate midwives.

Hub and Spokes Model

Presently 403 students are undergoing Diploma in Midwifery Education in two batches and among them 181 students were enrolled as third batch in March 2016. In the meantime, the students of first batch of Diploma in Midwifery (179 students) have completed their graduation successfully in December 2015 and they have started work as midwife. 170 graduate midwives have acquired their license from BNMC and 142 have joined in different maternity centers and NGOs as registered midwife. Some of them have set up midwifery led service center in their respective community and started providing midwifery services to address the dream of Sir Fazle Hasan Abed KCMG, Founder and Chairman BRAC and BRACU to deploy two midwives in each Union.

BRAC University believes that an educated registered and graduate and skilled midwife is able to ensure services to a women and a neo-nate during delivery and post-delivery services. The important target of Sustainable Development Goal is to reduce child and maternal mortality ratio in the country, which only a registered, graduate and skilled midwife can contribute to achieve.

Office of the Registrar

The Registrar's Office supports the academic mission of the University by providing management and administrative support and assistance to the academic community. This is achieved in accordance with academic policies and procedures established by the Private University Act 2010, rules and regulations formulated by the Ministry of Education, University Grants Commission, the Board of Trustees, Syndicate and Academic Council. The Registrar's Office participates and plays a key role in the review, development and enforcement of the goals and objectives of the University.

The Office serves as the repository of faculty information and schedules; course enrollments; course offerings; student records; grades; and degrees conferred. Such records are maintained using information systems and Web-services designed to enable students, academic advisers, staff, departments and programs to conduct their professional duties in a decentralised environment.

It offers a wide range of academic and administrative services associated with admissions, records, registration, advising, graduation services, academic space management and scheduling for students, faculty, and staff. It is also responsible for the compliance with rules and regulations, policies and the Student Code of Conduct.

Administration

Overview

BRACU Administration plays a crucial role by providing administration and logistical support to facilitate academic and other related activities of the University.

Core Functions of Administration

The Administration Office has a wide-ranging number of core functions which are integral to the smooth running of the University. Below are some of its core functions and responsibilities:

- Provide logistical support to ensure smooth running of all academic and non-academic activities
- Provide support to the admission process
- Look after all fixed and variable assets
- Ensure Maintenance of all assets
- Provide logistical support across the University
- Ensure successful completion of any event of the University
- Ensure healthy and hygienic environment of the University
- Provide and maintain transport facilities for faculty, staff and students
- Provide and support renovation works for the University

Highlights 2015

- Successfully completed 10th convocation with various logistical support
- Provide support for admission tests every semester
- Provide support for conducting classes and exams
- Provide logistical support for all workshops, seminars and conferences across the University
- Provide all kinds of logistical and transport support for BRACU & BRACU new campus and Residential Semester, Savar
- Provide all kinds of renovation work for the University
- Met all administrative requirements as established by the higher authorities of the University.

Infrastructure and Assets of the University

Assets and Resources	Total Vehicle	Staff Working Under BRACU Administration
• Total Buildings: 06 • Total space-228554 sft • Class rooms-67 • Computer Labs-28 • Architecture Studios -08 • EEE & ECE Lab -11 • Listening & Writing Lab-01 • Faculty & Staff Rooms-424 • ACs-600 • Furniture for Classroom for Students-3100	• Buses-02 • Jeeps-03 • Avanza-03 • Cars-06 • Microbus-12 • Pickup-01 • Ambulance-01 • Drivers-28	• Drivers -28 • Office Assistant-99 • Maintenance Staff-36 • Telephone Operator-02 • Gardeners-02 • Security (BRAC)-93 • Cleaners (out sourced)-42

Medical Centre

BRAC University medical center provides medical service to its students, faculty and staff. The center is well equipped to provide necessary emergency medical service, advice and referral service to the University community. Both the Medical Centers in main campus at Mohakhali and residential campus at Saver have a medical team consists of qualified and professional doctors and nurses

- The Medical Team also organized awareness programs by printing poster about different seasonal and common diseases in the University such as street food, anti-smoking campaign, prevention from winter diseases, summer diseases ,Bronchial asthma etc.
- The medical center ensured acceptable standards of Public Health and Sanitation at the University Campuses and Hostels.

Ayesha Abed Library

The Ayesha Abed Library at BRAC University aims to become a world-class Knowledge Resource Centre and provide innovative new services and a wider collection of books and resources to the teaching, learning and research communities, using latest technological developments of the 21st century.

Resources and Services

The library houses approximately **40,000** books in its collection. Library's website http://library.bracu.ac.bd provides online access to a wide variety of information resources including **71,000** e-books and **51,000** journals and research databases. The library employs the latest technologies to improve services and to provide fast and easy access to information. It meets its goals by integrating appropriate technologies with skilled and experienced staff committed to customer service. The library provides both on-campus and off-campus access facilities to online journals and databases.

Digital Institutional Repository **(http://dspace.bracu.ac.bd):** BRACU Library has set up a Digital Institutional Repository to manage, preserve and disseminate research outputs generated by BRACU faculty, students, and researchers. The total number of theses, dissertation, annual report, article, internship report, BRAC publications etc uploaded into Dspace is 6215.

The Integrated Library System **(http://library.bracu.ac.bd/OPAC) :** BRACU has a complete Integrated Library System (ILS) using KOHA. Library patrons now can perform online renewals, reservations and look at enriched contents from Amazon.com such as book jacket images, reader reviews and selected full chapters. This ILS supports RFID and Mobile SMS Technology.

Next generation Open Source Discovery Tool VuFind **(http://library.bracu.ac.bd/vufind) :** The Open Source Discovery Tool VuFind has enabled BRAC University library to offer access and discover all of BRACU Resources (catalogue records, digital library items, institutional repository, databases, and e-journals) in one single search-and-browse system in a robust, and distributed digital environment.

BRACU Library's Mobile Interface (http://library.bracu.ac.bd/m): BRACU Library mobile interface which includes links to important features of library site.

Library Learning Resource Center (LRC): BRACU Library Learning Resource Center conducts training and workshops for helping faculty, students, researchers and library professionals to develop information literacy, digital literacy and research skills. Library conducted at least 414 information literacy sessions for 10955 library users on introduction to library resources, services, research skills, plagiarism and reference management tools.

Capacity building and support for digital library initiatives: A total of 460 librarians have been trained in recent years for increasing capacity building for library professionals working in other university libraries (public and private) in Bangladesh. BRACU library team assisted a good number of private and public universities directly to implement digital library initiatives in Bangladesh as part of capacity building goal of BRACU library.

Counseling Unit

BRAC University strives to be recognized as a center of excellence in promoting academic scholarships and creating socially aware leaders. The goal of achieving this excellence depends heavily on sound mental health and skills to cope with the stresses of modern day lives. In response to the growing need for supports to promote mental health wellbeing, the Counseling Unit of BRAC University, since 2002, has been providing mental health services to its stakeholders with nine professional counselors in its team right now.

Highlights

The Counseling Unit offers individual, group, couple, and parent counseling sessions for the students, parents, faculty members and staff of BRAC University to assist to deal with life's challenges and move towards self empowerment and autonomy. In last 5 years, both in the Mohakhali and Savar's Residential Campuses, this unit provided such services to around 2705 counselees with approximately 6810 counseling sessions. In that period of time, the unit organized 26 seminars on world mental health day, positive parenting, awareness on drug dependency and 275 workshops on different psychosocial aspects like stress, anxiety, depression etc. The Counseling Unit also works in close collaboration with other offices and programs inside the university, such as faculty orientations and teaching and student learning workshops, first-year advising programs to provide a multidisciplinary approach to student development and academic success. Moreover, the unit is involved in a variety of training initiatives, educational programs, collaborative efforts, and outreach campaigns outside the university. Recently, the unit has taken initiative of developing outreach program offering parenting program for parents, school teachers and sessions on co-curricular qualities for children in the community. As part of personal and professional development, the counselors take regular intense supervision and training on national and international levels. The Counseling Unit is committed to keep working as an integral part of BRAC University's mission to create well-rounded professionals and citizens dedicated to the betterment of society and nation.

Finance and Accounts Department

From the right Mr. Imran Khan, Mr. Mahamudur Rahman, Mr. Kamruzzaman, Mr. Syed Romit Rahman, Mr. Sumon Chandra Das, Mr. Subrota Samadder, Mr. Mahabub-Bin-Zaman, Ms. Nusrat Zahan, Mr. Golam Kibria, Treasurer Mr. Sukhendra Kumar Sarkar, Mr. Amdadul Islam, Director-Finance Mr. Monojit Kumar Ojha, Mr. Azharul Islam Bhuiyan, Mr. Humayun Bashar and Mr. Nazmul Hasan

Finance and Accounts Department

The Finance and Accounts Department operates under the supervision of the Treasurer, Mr. Sukhendra Kumar Sarkar, who is directly appointed by the Chancellor (President-Government Republic of Bangladesh). The Finance and Accounts Department receives tuition, admission, and other fees from the students as well as research grants from donors. The department makes all types of payments and prepares various reports for the management. These include the Weekly Fund Position Report, Monthly Central Budget Variance Report, Annual Financial Statements, Scholarship Reports, Provident Fund Financial Statements, and Donor Reports as well as reports related to taxation activities in respect to the university and its faculty and staff.

The Finance and Accounts Department also maintains the accounts and finance-related activities of more than 25 donor-funded projects as well as student enrollment and registration, faculty and staff payroll, fixed assets management, cash and cheque management, budget preparation, and budgetary control. The Finance and Accounts Department provides information and various types of analysis and reports to the management and assists in the policy and decision-making process of BRAC University.

Human Resources Department

BRAC University Human Resources Department (HRD) is highly dedicated to create a platform for the development of the human resources to comply with the mission of the university.

The University has a user friendly e-recruitment site for reaching prospective applicants. The department in collaboration with different academic and non-academic units conducts recruitments by following good practices and innovative approaches. HRD follows the University Grants Commission guidelines to shape its recruitment policy with the objective to recruit talented faculty members and administrative staff.

The performance appraisal process is aimed to developing the faculty and staff by acknowledging their contribution through reward and motivation. This is considered as a communication tool between the employees and their supervisors. Supervisors evaluate employees based on a set criterion of the University.

We are practicing core HR functions towards the goal of human resources development. BRAC University has a salary structure approved by the Board of Trustees (BoT). HRD makes an arrangement to disburse salary on time every month with a sophisticated payroll management system. Other benefits are also tailored by HRD according to BRACU policy.

There are human resource policies for both academic and non-academic employees of BRAC University. These policies and procedures include all issues pertinent to human resources management at BRACU. Faculty code of conduct and Sexual harassment policy are also in place.

The policies and procedures are being updated regularly to cope with the changing needs of the system. The unit strives to be a good workplace, where interested, harmonious and responsible staff perform well, and in the spirit of equality.

IT Systems Office

BRAC University's IT System Office supports and enhances BRAC University's core mission of education, research, service through the effective management and use of information technology. BRAC University has well equipped Video conferencing centre operated in collaboration with Global Development Learning Network (GDLN). It has two campuses, one in Mohakhali Campus with 6-buildings connected by Optical Fiber backbone and another remote campus, which is located in Savar connected via Radio Link. In Mohakhali campus there are 67-well decorated Classrooms (Computer, Internet, MMP, OHP, Audio) and 22-well decorated computer LABs.

Facilities under BRAC University's IT System

- Over 2030++ computer
- Internet Bandwidth Capacity (310Mbps)
- Secured Mail Service (https://mail.bracu.ac.bd)
- Customized Student Advising Software
- IBM/HP Servers for Student & Faculty data storage.
- 72 Well decorated Classroom (Computer, Internet, MMP, OHP, Audio)
- 19 Well decorated computer LAB
- Strong Antivirus for Data Security.
- Instant IT Support : Over 50 IT personnel
- Layer-3 power backup system
- Instant I.T Support with over 35 skilled in-house I.T support personnel offering response time of under 10 minutes
- In house software development team and support personnel to help improve the Student Information and Enrollment System
- 3-Tier Power Back-up system to keep system live on a 24/7 basis.

Office of Communications

A key player in the niche BRACU comfortably carved out for itself in the world of higher education is undoubtedly the OoC. Be it media coverage, event management and documentation, promotional material development and evolution of synergy and rapport, OoC never falters to shine the spotlight on the BRACU brand, ensuring that the message gets home.

OoC delves into the depths of BRACU's melting pot of students, teachers and staff every day creating comprehensive corporate marketing, communications and PR strategies, keeping BRACU one step ahead in its league.

Among the myriad of platforms OoC makes use of to keep stakeholders up to date and maintain a top-notch network are the BRACU website Facebook page and other evolving and up-coming mediums.

Office of Student Affairs

The Office of Student Affairs (OSA) offers a wide complement of academic and co-curricular programs to promote the core mission of liberal arts education and student development. Established in July 2013, the OSA houses essential student services and campus resources that provide academic, personal and professional support to the students, facilitate teaching and learning and augment university life.

Student Advising and Learning Support

The student advising and learning support services are designed to help students become independent and successful learners by improving their study skills and self-confidence, encouraging a positive attitude toward education and preparing them for lifelong learning. The Student Advising and Learning Services at OSA include the following:

First Year Advising Teams (FYAT)

BRAC University's first year advising program provides integrated services of academic advising that seeks to inform and support new students, monitor academic performance and needs, and guide academic planning during the first year. The FYAT advisers and mentors focus exclusively in those areas of university education and student life that concern all students at the university.

Probation Advising and Student Support (PASS)

OSA launched a dedicated program of probation removal and retention efforts in May 2014. The Probation Advising and Student Support (PASS) program offers a range of departmental and general academic support to assist students in removing their probation status and embarking on the path to academic success. The PASS Program includes regular individual advising and small group workshops throughout the semester.

Office of Co-curricular Activities

The Office of the Co-curricular Activities (OCA) emphasizes the wholeness of the university experience through synchronized development of body, mind and spirit. The main objective of OCA is to create an environment for student's spontaneous participation in co-curricular activities, create leaders for future and provide opportunities for community service activities. The OCA provides full support in this respect by supervising, assisting, facilitating, encouraging activities of student clubs and forums in order to instill leadership qualities among the students.

Clubs and Forums

The co-curricular arena of the university is vibrant and student-oriented. The composition of each club or forum includes teacher/staff advisors and student representatives. New members are inducted in to the clubs at the beginning of every semester at the club fair held in the third week of every semester. The auditorium, cafeteria and planted semi-outdoor space with technical support are used for seminar, workshops, exhibitions, indoor games, competitions, fairs, and cultural activities. OCA policy guides the students to participate in the activities without hindering academic performance.

Democratic elections are organized by the OCA to elect the executive body who runs the club activities and manages the members. There are 25 student clubs and forums in different categories: Culture/Films; Drama/Theater; Debate/Mooting; Business/Economics; Heritage/Arts; International/Entrepreneurial; Science/Robotics; Adventure/Environment. All clubs and forums are highly encouraged to have activities that create social impact.

Office of Career Services and Alumni Relations

Having begun its operation in 2004, the Office of Career Services and Alumni Relations (OCSAR) is poised to consolidate and expand its range of services for students to ensure their optimal preparedness for professional life after graduation.

The core programs of the OCSAR consists of : a) Career Counseling, b) CV Writing, c) Interview Skills, d) Professional Skills Development Program (PSDP), e) Mock Interview Sessions, f) Career Clinics, g) Individual Advising, h) Internship, i) Workshops and Seminars, j) On-Campus Recruitment Events, k) Job Placements/Work Experience Opportunities, l) Community Service Internship Program (CSIP), m) English Proficiency Campaign across BRAC University, n) Leadership Program, and o) Strengthening and Enhancing the Alumni Association of BRAC University.

OCSAR prioritizes its links with employers who take on our students as interns every semester and also recruit them. OCSAR formalizes their relationship with employers and employer-employee networks to ensure a standardized approach to internships and job placements, so that the rights of students as interns/employees are formally agreed alongside their duties and responsibilities.

Apart from dealing with the core activities (students' development and the Professional Skills Development Program (PSDP), Internship and other placement opportunities, employment opportunities, and strengthening the Alumni Association), OCSAR is also engaged in a range of related strategic activities which are important for students, alumni and the University as a whole.

Alumni Association of BRAC University

With the vision to be the most recognized alumni network of the country, the Alumni Association of BRAC University (AABRACU) has taken giant strides in the past couple of years. Since the current Executive Committee was elected in April 2015, led by Md. Tajdin Hassan (Head of Marketing, The Daily Star), AABRACU embarked on a journey to reunite the BRAC University alumni through a variety of events and initiatives which had landmarks of their own!

Following the launch of the AABRACU Alumni card in 2015 at a record-attendance IftaarMahfil, 2016 started with the first ever AABRACU Fest which witnessed the coming together of corporate professionals such as Sonia Bashir Kabir (MD, Microsoft Bangladesh), Sajid Rahman (CEO, Telenor Health), M Manzur Rahman (Country Head, Digital Services, Robi Axiata Limited), Abu Daud Khan (MD, & CEO, Enroute International Limited) and media personality and stand-up comedian Naveed Mahbub for a panel discussion. A vibrant food festival continued at the event alongside the presence of recruiting agencies that came forward to provide professional services. The event was an amalgamation of learning market insights, professional networking and had a lighter side that b rought together a sense of unity.

The AABRACU launched its new website at the IftaarMahfil in 2016 in the presence of the Advisor of BRAC Business School, Prof. Rahim B. Talukdar and keynote speaker ShibleeShakik Ahmed, Head of Marketing, South Asia Markets at Microsoft. The website (www.aabracu.net) houses AABRACU's very own information center, the executive board's information, career opportunities, an employer panel which allows registered alumni to post jobs within their organizations to the website, an events section that covers the latest events and a photo gallery.

2016 will end on a top note as the AABRACU Gala 2016 on December 10 will be celebrated at Bangladesh Shooting Sport Federation. A celebration to welcome the newest alumni of the 11th Convocation of BRAC University is by no means an ordinary moment. We have developed significant presence in social media with active pages and groups on Facebook, a Twitter account, a Linkedin group, a YouTube channel and an Instagram account. To get access to all these accounts, please visit www.facebook.com/aabracu and get connected to all our platforms!

Executive Committee 2015

Tajdin Hassan – President (Head of Marketing, The Daily Star)
Sunjib Kumer Singha – Vice President (Senior Assistant Director, BTRC)
Mohammad NiazMakhdum – General Secretary (Head of Sales, Jadoo Digital)
Rifat Hasan Kanak – Treasurer (BRAC EPL Stock Brokerage)
Stawb Peter Halder – Executive Member (Total Remuneration Advisor, Chevron Bangladesh)
SaiduzzamanShikder– Executive Member (Department Coordination Officer, BRAC University)
Asif Azad Jisan– Executive Member (Senior Officer, Sales & Marketing, Avery Dennison)
Sumaiya Noor – Executive Member (Business Development Manager, Enroute International Ltd.)
Minhaz Ali Khan – Executive Member (Territory Officer, Berger Paints)
Abir Hasan – Executive Member (Business Development Executive, Square InformatiX Ltd.)

Procurement Department

Nowadays many organizations employ different management techniques to carry out the efficient functioning of their departments. Procurement is a process of acquisition of goods and services and helps an organization to save a significant amount of money when purchasing quality goods and services from outside. The BRAC University Procurement Department maintain a system that is operated in a timely manner with a minimum number of steps/layers while being responsive to the needs of the end user, leading to fulfillment of the organization's goals. This department is the entity placed directly under the control of the Treasurer for financial affairs and the Registrar for administrative affairs. The department is currently operating with four officials.

BRAC University is required to procure of a huge number of goods, equipment, and related services. For that, BRAC University has a separate unit for procurement which has been operating independently since April 2006. As procurement has been increasing in value and volume day by day, the requirement of compliance with global and domestic procurement norms and standards has become important for BRAC University. Moreover, most of the procurement activity is facilitated through electronic means, i.e. email and phone. The department is also distributing products or commodities in collaboration with a warehouse where these items are stored. In addition to these, the department is adapting new strategies on a daily basis and provides information and various types of facts to the management. The department will be more efficient and dynamic in providing service to the university and in providing proper reporting system to the higher authority if a procurement software is developed.

The Procurement Department has also started activities for the construction of New Campus of BRACU which is to be built in Merul Badda, Dhaka. Two officers have been assigned with this major procurement activity from this department. In spite of being a small department, the Procurement Department of BRAC University is successfully handling the usual procurement activities of the university and also the procurement activities of New Campus in collaboration with BRAC Head Office Procurement Department. In addition to these activities, the Procurement Department also provides procurement support to BRAC Institute of Governance and Development (BIGD) and James P. Grant School of Public Health (JPGSPH).

The Procurements Department is committed to provide maximum services to the university. The policy is also being reviewed to better fit to the changing needs of BRAC University.

Relationship Management Office

The Relationship Management Office (RMO) is the pivot around which the students' academic pursuit revolves. It plays a central and supportive role in the administration and management of the University's affairs. The team always strives to maintain a campus climate that is conducive to the educational mission of the University. RMO closely interacts with university management, administration, the Student Affairs Office, BRAC – Head Office and is responsible for the tailored communication and presentation of BRAC University for certain audiences. Its responsibilities include the brand positioning of BRACU in the national and international ranking of universities.

The core responsibilities of RMO are:

- Managing the central information desk
- Managing the BRACU Scholarships/Financial Aids Program. RMO team supports the BRACU Scholarship Committee by providing data and information for raising funds for the scholarships, the application process, selection, supervision of the scholarship recipients and donors.
- Arranging engagement of scholarship awardees in productive jobs of BRACU
- Arranging the Freshman Orientation Programs in every semesters
- Managing BRACU Female Students' Accommodation
- Assisting international students, scholars in immigration matters and adjusting to life in Bangladesh. All new international students and scholars are required to report to this office upon arrival on campus. Immigration and personal safety information session for all international students are organized by RMO with the concerned offices.
- Students who are reported to have engaged in behavior that violates University Student Conduct Procedures are addressed through the student conduct process and encouraged to refrain from again engaging in such behavior by means of a combination of educational, administrative and student conduct interventions.
- RMO manages and works closely with student volunteers. Volunteer Services provides a variety of programs to help students as they face real world challenges.

The RMO continuously improve upon the comments/suggestions made by students and maintains an open-door policy.

Centre for Climate Change and Environmental Research

Goals and Objectives

Centre for Climate Change and Environmental Research (C3ER) is playing an incredible role as the hub of climate change research at BRAC University. In the year of 2011, the Syndicate and Board of Trustees of BRAC University have accorded the establishment of this centre in order to administer and harmonize numerous climate change and environment related research activities. Since then, C3ER is operational to trim down the exposure and susceptibility to climate change of the affected people of Bangladesh at the local level, by swelling their sensitivity and amplifying their adaptive capacity through research and practices. The centre has by now completed more than twenty nine research projects on climate change induced migration, loss and damage, mainstreaming climate change adaptation in national policies, climate change action plan for development sector initiatives, climate change risk assessment, environmental assessment, climate resilient livelihood proposition, water supply and sanitation, legal and institutional framework for climate change adaptation, climate friendly housing, etc. In addition to this, C3ER has successfully arranged a number of trainings and public lectures on climate change and disaster management in association with other departments of BRAC University and is establishing an inclusive synergy between BRACU and BRAC in the field of climate change and other environmental issues. Hence, in broader sense, the vision of this centre is to endow with sustainable and adaptive solutions for society. And its mission is to evolve as a foremost research and academic institution on environmental and climate change issues, propagate knowledge on climate change adaptation, mitigation, disaster risk reduction and to build a climate resilient society.

The Team Overview

With the help of a vibrant team, C3ER keeps trying to arrive at new heights and explores various issues and possibilities interrelated with climate change and the environment with a holistic and integrated approach. The centre has a multi-disciplinary pool of professionals from various disciplines like environmental science, urban and regional planning, water resources engineering, civil engineering, geography, disaster management, economics and business. They carry out a great deal of research projects under close supervision of climate change specialist and water resource expert Professor Ainun Nishat. Apart from that, C3ER brings the multi-disciplinary expertise in disaster management, law, architecture, computation and physical science from different schools of BRAC University, which is one of the comparative advantages for conducting multidisciplinary research. Professor Ainun Nishat is the advisor of C3ER and there are also thirteen other research faculties under his supervision.

Centre for Entrepreneurship Development

Overview

To make significant contribution in creating an inclusive entrepreneurial ecosystem in Bangladesh, Centre for Entrepreneurship Development (CED) started its journey in April 2011 under BRAC Business School (BBS). CED was established with the view of encouraging Bangladeshi entrepreneurs to immerse themselves in entrepreneurial knowledge and skills so that the entrepreneurs can systematically develop and grow their own businesses. Web: http://ced.bracu.ac.bd/

Vision and Mission

With the vision to make significant contribution in creating an inclusive entrepreneurial ecosystem in Bangladesh, CED's mission is to inspire, devise, nurture, develop, and elevate entrepreneurship through innovation, institutional capacity, and leadership, to unlock the potential of young entrepreneurs in Bangladesh, and to make visible impact on Bangladeshi entrepreneurs and set them on the path to sustainability

Achievements

Centre for Entrepreneurship Development (CED) is the first of its kind amongst the universities of Bangladesh. Within this short period with various activities, CED has already increased its visibility within the dynamic entrepreneurial community of Bangladesh. CED has been managing and implementing professional exchange programs for entrepreneurs involving Bangladeshi and US/Australian nationals.

The exchange programs are run with the US Department of State grants. Another exchange program Australia Awards Fellowships (AAF) is being organized as with the fund from AusAID, Department of Foreign Affairs and Trade, Australian Government, partnering with the University of Southern Queensland (USQ), Australia.

CED is currently working on a sub-project under the Higher Education Quality Enhancement Project (HEQEP) under which CED has established an academia–based Business Incubation Centre (BIC) of BRAC University.

Presently, CED is involved with projects comprising capacity development of micro-entrepreneurs, as well as for the students/alumni of BRACU. CED completed a variety of projects like Enhancing Organizational Capacity of AWAJ Foundation through Developing Effective Managerial Skills", "Management Soft-skills Training for Beauticians: Beauty Parlor Management for Young and Adolescent Girls", "Entrepreneurship Development Training Programme for Midwives", etc.

CED has been organizing various entrepreneurship development programs like innovation workshop, business plan/idea competition, boot camp, etc. Among others, CED has been actively involved in organizing related regular programs like "Entrepreneur Speaks", and "CED Entrepreneurs' Den".

Control and Applications Research Centre

Goal and Objectives

The Control & Applications Research Centre (CARC), under the department of Electrical & Electronic Engineering (EEE) at BRAC University has expertise and activities in an area of systems and control engineering. CARC has a strong practical focus to the work, and many of the projects involve close collaboration with industrial organizations. We emphasis upon the application requirements and exercise established theoretical techniques to provide solutions through technological demonstration. CARC aims to serve Bangladesh as a valuable resource for Industry & Society through excellence in technical and scientific research activities. As a research centre, the goal is to generate, apply, and disseminate research findings and to create collaboration and synergy programs with different institutes to bring positive impact in the society through technological innovations.

Achievement

The CARC has successfully conducted and implemented the one-year long Infrastructure Development Company Limited (IDCOL) funded project on "Solar Assisted Electric Tri-Wheeler Vehicles by incorporating Torque Sensor Technology". The research centre has designed, developed 15 units of solar assisted vehicles and evaluated its feasibility in our country's perspective. The pilot project has been field tested at Savar in collaboration with BRAC HNPP. Upon the successful completion of this project, both IDCOL and CARC are now assessing scalability of this unique and innovative transport for commercialization in the near future. Most of the CARC projects involve close collaboration with IEEE SIGHT USA. The CARC has also successfully conducted the IEEE SIGHT funded prototype project on "Torque Sensor Based Electric Wheelchair with Dedicated Solar Charger Kit" in collaboration with the Centre for the Rehabilitation of the Paralysed (CRP). The first IEEE SIGHT CoP (Community of Practices) meeting is already approved by IEEE USA to be held on 19th-20th December, 2016 at BRAC University. Some selected CARC prototype projects are Real-Time monitoring of Solar Battery Charging Station (SBCS), Development of a double burner solar electric stove, Development of the Solar powered freezer, Development of smart energy meter for smart grid and so on. The recent research and development activities conducted by CARC achieved remarkable appreciations and praiseworthy recognitions, especially the prestigious IEEE MGA Award given to CARC Director in December, 2015.

Besides undertaking research projects, CARC is also focused towards providing the students of EEE Department, a knowledge of the scopes and opportunities of further studies and research through organizing lectures and seminars where renowned academics, both local and international, are invited to share their perspective.

Faculty overview

The Control & Applications Research Centre is a mix of young, energetic researchers head by the experienced professors of the Dept. of EEE, BRACU and advised by the renowned and senior professors of several fields. Members with high industrial experience act as the external consultant for CARC where they often provide guidance and their highly regarded cooperation that helps the undertaken projects at CARC more practically feasible.

Writing Centre

The BRAC University Writing Centre is a complementary academic service unit that supports students, staff, and faculty to hone their writing skills. The Centre fosters excellence in written communication throughout the University; it is a place where focused individualized teaching is delivered at all stages of the composition process. Here, writing consultants work closely and dedicatedly with the clients at every stage of the writing process. We believe that sharing a work in progress with knowledgeable, attentive readers benefit all writers; more so if the said reader is able to guide and scaffold the writing. Given that writing is a powerful tool, not only for communicating existing ideas but also for discovering new ones, and that learning to write is a life-long process, our goal is to support, promote and foster skills and strategies that last a lifetime. Our sessions are multi-faceted, flexible, and collaborative - a reflection of our respect for the talent, voice and goals of the individual writer. A significant part of the Centre's services consists of assisting undergraduate and graduate students across all disciplines become more articulate and confident writers. The writing specialists at the centre assist clients overcome writing anxiety, understand and use writing tools, learn and implement revision/editing tools.

The Centre offers appointments and drop-ins, workshops, learning resources, and provides space for one-to-one and group support for all disciplines. This year, the Centre has expanded its services to include classroom-integrated and customized support to develop students' course and discipline-specific writing competencies. Another major function of the Writing Center is to conduct and host workshops on academic writing skills. As an additional service, the Centre provides convenient access to resources and reference materials about academic writing, for use by students and faculty, online at their website [wc.bracu.ac.bd].

BRACU Listening Lab

The Listening Lab provides a platform for the students of BRACU to develop their language proficiency. The Lab is rich in resources that offer extensive opportunity for developing reading and listening skills outside the classroom. In recent times, the Lab has adopted an integrated approach to foster language skills in the form of individual and guided listening practice sessions. The Listening Lab also hosts weekly sessions on different speaking and listening activities for the students. In addition to books and listening tracks in English, the Lab also houses materials in Bangla, Chinese and French.

Professional Development Centre

Excellence in teaching is central to BRAC University's core mission of imparting a high quality liberal arts education. The Professional Development Centre (PDC) provides opportunities for faculty to reflect on current knowledge about and practice of effective teaching and learning through dialogue, assessment and research. The PDC hosts group workshops and individual consultations for the faculty members on topics such as critical reflection, lesson planning, classroom dynamics, cognitive processes, learning outcomes, teaching methodologies, etc. It is expected that the faculty members will develop and share their experiences and explore creative pedagogic methods and resources for different settings and outcomes of student learning in light of the various types of the mentioned initiatives by PDC. The faculty development programmes promotes campus-wide excellence in teaching which supports the professional development of new faculty members and enhances student learning. The PDC offers Certificate in Higher Education Teaching (CHET) programme with the aim to set the gold standard for teacher training through innovative, exciting and ethical pedagogy, which has at its heart the principle that learning should be the focus of exploration, not delivery of information. In each semester, the PDC hosts the faculty orientation programme to introduce new faculty members to the teaching and learning goals at BRACU and to provide an early start to successful teaching careers. The technology-enhanced education unit of this centre is committed to mould BRAC University into a centre of excellence in terms of technological innovation that will make pedagogies engaging, interactive and useful through the use of existing resources at the university. Moreover, PDC is involved with the departments in modification of course outline, lesson planning and maintaining supportive social environment in workplace.

Global Development Learning Network Centre

BRAC University is the one and only affiliate of the Global Development Learning Network (GDLN) (http://www.gdln.org) in Bangladesh and has been so since 2006. The Centre is equipped with air conditioned, soundproofed Video Conferencing and multimedia rooms to facilitate a comfortable learning environment. Around 40 people are able to participate at a time.

The Global Development Learning Network (GDLN) is a partnership of over 120 recognized global institutions (affiliates) in over 80 countries that collaborate in the design of customized learning solutions for individuals and organizations working in education and development. Affiliates are as diverse as the Asian Institute of Management, the Ethiopian Civil Service College, the Islamic Development bank, and Pontificia Universidad Catolica of Peru. The mission is to bring the world together to facilitate learning to contribute in local and global development. Our services include eLearning courses, online training, workshops, meetings, interviews, consultation and teleconferences.

Core Values

BRAC University GDLN in a nonprofit organization, whose operations will, in future, be met from the income it generates. The Center is driven by both, social benefit analysis and cost benefit analysis, and therefore, committed to the following values: Customer Focus, Pursuit of Excellence, Integrity, Diligence to duty and Innovation.

Services

1. Video Conferencing courses, dialog, meeting
2. Video Conferencing facilities for hire computer based online training, workshops, meetings, interviews and consultations
3. Teleconferences

Unique Features of BRAC University
Residential Semester

The Residential Semester (RS) of BRAC University is a distinctive feature in university education in Bangladesh. It is mandatory for all the students of BRAC University. During their stay at Savar, the students must live in a community consisting of the fellow students, faculty members, Dorm Supervisors and other members of staff of the university. In this way they learn to take responsibility, and they help each other. Since the launching of residential semester in 2003, altogether 10,610 students have been graduated so far. The subjects that are taught in this semester include Bangladesh Studies, Ethics and Culture, English, French and Chinese language.

Courses and Activities Offered

Amongst the mandatory courses offered, the Bangladesh Studies course intends to equip students with factual knowledge and analytical skills that will enable them to learn and critically appreciate the history, politics, and economy of Bangladesh. Simultaneously, the focus of Ethics and Culture course is to evaluate and thus bring out the goodness or flaws of voluntary human behavior in the context of our cultural milieu. In addition to these, English language and other modern language courses are offered in RS; thus contributing to develop the language competency of the students. Among the modern language courses, French and Chinese are offered as credit courses at the elementary level of proficiency.

Residential Semester offers and organizes different experiential learning activities, such as: Spelling Bee, Poetry Recitation, Social Learning Lab, Lalbagh Fort and Liberation War Museum visit, BRAC Programs visit, Debate, Know the Country & Culture, Presentation Skills, Yoga & Meditation, Basic of Robotics, Script Writing & Film Making, Animated Film Making, Ikebana, Baking, Quiz, Drawing & Sketching, Gardening, Chess, sessions on Stress Management, Anger Management, Managing Depression, Exam Fear etc. In addition, there are a number of mandatory seminars and workshops conducted by experts in their respective fields.

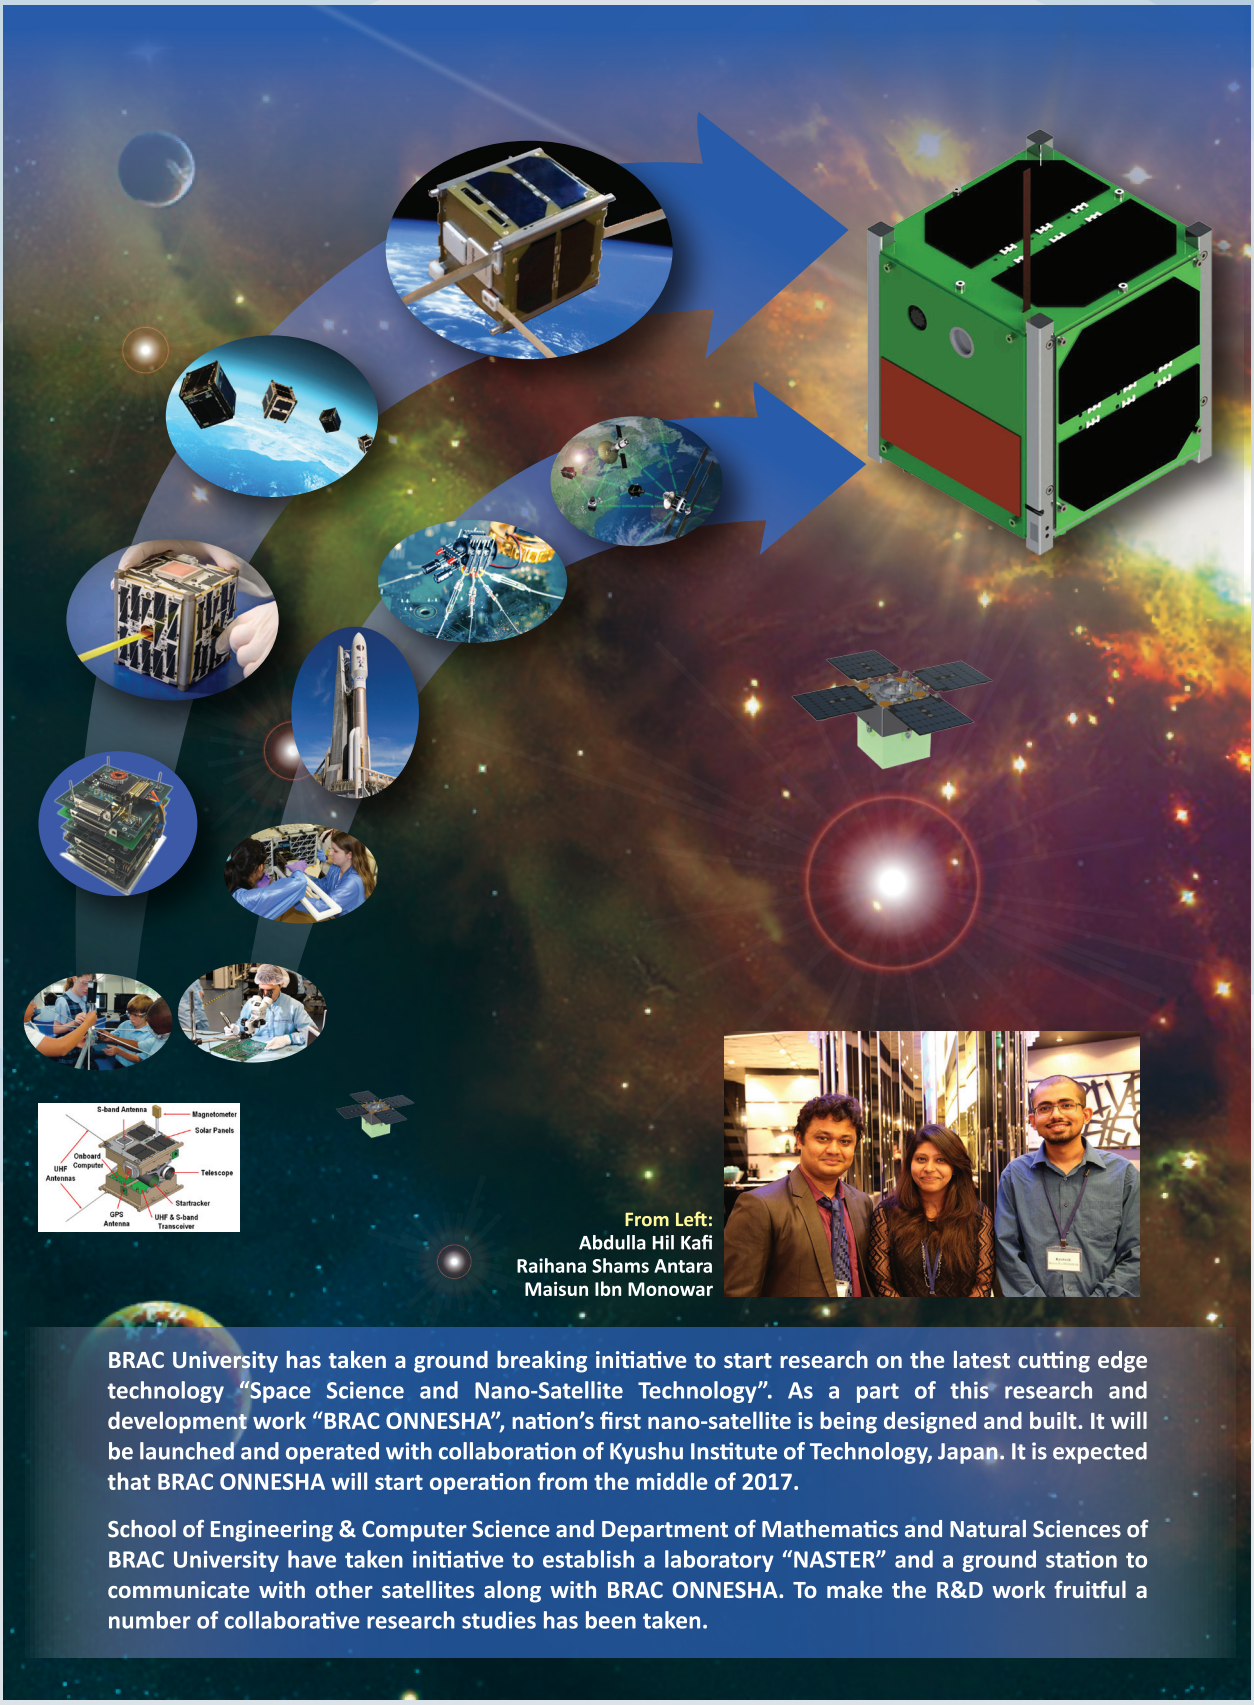

Faculty Overview

Faculty members in RS are selected based on their academic excellence and individual expertise. Additionally, the faculty members possess expertise and research interest in the areas of history, public administration, good governance, development perspectives, ethical theories and dilemmas, morality and moral virtue, evolution of societal values, etc.

On- Campus Facilities

The major infrastructure of the RS campus includes dormitory facilities, dining, class room, hall room, computer lab, common room, library, medical services, psychosocial support and sports facilities. The campus has a resident doctor and staff nurses. The university has also made institutional arrangement with Enam Medical College and Hospital, located in Savar, for medical emergencies. Moreover, there is a team of psychosocial counselors assigned to support students on RS Campus undergoing any kind of personal or social difficulties. Savar Campus has the infrastructure for students who wish to play football, cricket, basketball, table tennis, carom, handball, volleyball, or badminton. All these ensure a better and an exciting stay in RS.

BRAC Onnesha

From Left:
Abdulla Hil Kafi
Raihana Shams Antara
Maisun Ibn Monowar

BRAC University has taken a ground breaking initiative to start research on the latest cutting edge technology "Space Science and Nano-Satellite Technology". As a part of this research and development work "BRAC ONNESHA", nation's first nano-satellite is being designed and built. It will be launched and operated with collaboration of Kyushu Institute of Technology, Japan. It is expected that BRAC ONNESHA will start operation from the middle of 2017.

School of Engineering & Computer Science and Department of Mathematics and Natural Sciences of BRAC University have taken initiative to establish a laboratory "NASTER" and a ground station to communicate with other satellites along with BRAC ONNESHA. To make the R&D work fruitful a number of collaborative research studies has been taken.
