12th CONVOCATION

13 December 2017

BRAC UNIVERSITY

Inspiring Excellence

Life itself is a celebration, and we briefly pause today to highlight yet another landmark in the lives of our 12th Convocation graduates. Heartiest Congratulations! This ceremony marks – not an end– but a beginning of a new journey. BRAC University wishes all of its graduates a beautiful and meaningful journey and hopes that each graduate will uphold the very characteristics we have instilled in them – to be creative thinkers, problem solvers, to be able to reason quantitatively, communicate effectively; to be digitally knowledgeable, to be champions of social justice.

BRAC University inspires excellence, a tag line coined by the Honorable Vice Chancellor, Professor Syed Saad Andaleeb, Ph.D., and rooted in the vision of our very own Sir Fazle Hasan Abed, KCMG. Recently, several independent surveys have shown that BRAC University is the highest ranked private university in Bangladesh.

We will reach higher and strive to achieve the very best. BRAC University will continue to be the changemaker of changemakers, of future leaders who will serve their own communities, their nation, and their world in a way that creates meaningful and substantial difference.

We have seen the light, and it is indeed possible for us to continuously reach newer heights.

Godspeed to all! And congratulations once again!

13 December 2017

Message

I am indeed very happy to know that BRAC University is organising its 12th Convocation in a befitting manner on 13 December 2017. On the eve of the solemn occasion, I heartily congratulate all the graduating students, members of the trustee board, faculty, staff, parents and guardians for their collective endeavour to materialise the cherished dream of the students.

Education, the universal process of learning, is the method of facilitating learning, acquisition of knowledge, skills, values, beliefs, and habits. Educational methods include discussion, teaching, training, and directed research. It creates good citizens to lead the nation to a prosperous future. It molds the personality of students and makes them capable of facing all obstacles and challenges of the modern World.

I would like to emphasise on ensuring quality education. The universities must be the centres of excellence bringing in a blend of academic, research, theoretical and practical exposures supported by co-curricular activities. The Government of Bangladesh has taken necessary steps to ensure quality education, research and innovation at tertiary level. I hope all concerned will explore these opportunities and utilise these measures to ensure quality education for our students.

I am glad to learn that BRAC University has made a promising mark in the field of higher education. I anticipate the use of the talents of the graduating students to meet our national and global demands. I hope that the newly graduates of BRAC university will serve the nation imbued with the sense of patriotism and war of liberation. I wish the graduates a prosperous future.

I wish the 12th Convocation of BRAC University a grand success.

Khoda Hafez. May Bangladesh live Forever.

Md. Abdul Hamid

بسم الله الرحمن الرحيم

PRIME MINISTER
GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BANGLADESH

13 December 2017

Message

I am happy to learn that BRAC University is going to hold its 12th Convocation on 13 December 2017 in Dhaka. On this occasion, I would like to congratulate the graduating students, their parents, faculty members and the university authority.

Our government has been working relentlessly to turn Bangladesh into a middle income country by 2021 and a developed one by 2041. In this regard, we have attached top priority to education sector. A time-befitting and scientific 'National Education Policy' has been enacted to ensure quality education. We adopted 'Private University Act 2010' to boost up higher education facilities. The government established new schools, colleges and universities across the country during last eight and a half years. Besides, we have given permission to set up and operate 42 private universities. The opportunities for higher education and research have been increased in the country. Bangabandhu Fellowship on Science and ICT Project is being implemented to conduct research activities and create scientists, technicians and researchers.

I hope that the graduating students of BRAC University will play an important role in building a Sonar Bangladesh as dreamt by the greatest Bangalee of all time, Father of the Nation Bangabandhu Sheikh Mujibur Rahman.

I wish the 12th Convocation of BRAC University a complete success.

Joi Bangla, Joi Bangabandhu
May Bangladesh Live Forever.

Message

I would like to extend my warmest congratulations to the new graduates on this prestigious occasion of BRAC University celebrating its 12th convocation on 13 December 2017.

I would also like to convey my heartfelt wishes to all faculty members, officials and staff of the university and also parents of the graduating students who played a tremendous role behind the success attained.

I am happy that BRAC University has produced such a large number of graduates who will eventually turn into our future leaders. Our new generation must continue to enlighten themselves with quality education in order to become good citizens. They must also be capable of facing the challenges of globalisation.

I am happy to see private universities giving our students the scope to obtain education of a global standard. It gives me great pleasure to learn that BRAC University has stood out in the field of higher education in the country by creating a unique environment for disseminating quality education.

In line with BRAC's vision, BRAC University is providing scholarships to assist meritorious students who are financially insolvent, which is a truly commendable initiative. I hope that the new graduates will dedicate themselves in working for the welfare of the country.

I wish the graduates all the success in life.

(Nurul Islam Nahid M.P.)

Professor Abdul Mannan
Chairman

Date: 29 October 2017

Message

It is a pleasure to know that such a large number of graduates are receiving degrees at the 12th convocation of BRAC University on 13 December 2017. Your years in work and dedication to your academic success have paid off. On behalf of the University Grants Commission of Bangladesh, please accept my sincere congratulations on your successful graduation.

Well-educated and competent manpower is required to gain national development and overcome the global challenges of the 21st century. Education enlightens students morally, socially and spiritually. Students need to discover that the secret of success and contentment lies in utilising one's own strengths. In this regard, I would like to quote Confucius who said, "He who learns but does not think, is lost! He who thinks but does not learn is in great danger." There is, therefore, every reason to place importance on the humanistic dimensions of education, enabling each person to identify and appreciate the individuality of others and to discover one's own self through an inner journey towards achieving excellence.

BRAC University has been producing skilled and qualified graduates by providing quality education since its inception in Bangladesh. I believe that it has already made a unique position for itself in the field of higher education and research. I hope that the university will encourage students to use practical knowledge which will help them attain success in the professional world.

I do expect that the graduating students of the university will prove themselves to be successful in implementing their academic knowledge and moral values to fulfill social responsibilities towards building a better Bangladesh for all. I would like to express my heartfelt wishes to the proud parents and guardians who went through hardship and difficulties, yet continue to inspire the students to reach their desired goals. I am sure our concerted effort will build a better future for a nation which we can be proud of.

A. Mannan 29/10/17
Professor Abdul Mannan

BRAC UNIVERSITY

Message

Warmest congratulations to the 12th graduating class of BRAC University. The degree you are being awarded today is the culmination of all your hard work over the last four years. Your families' support and the tireless efforts of our excellent team of faculty and staff have also played an important part in your success. This is a moment of great pride for you, your family and friends.

I should like to thank the distinguished members of our Board of Trustees, Syndicate and Academic Council for the time, enthusiasm and wise counsel they have given over the past year.

Human history offers examples in both east and west of educational institutions enduring through centuries. It is my dream that BRAC University, inaugurated on 16 June 2001 as a centre of excellence in education, will continue to thrive and add vigour and vibrancy to Bangladeshi society for aeons to come just like the universities of Heidelberg, the Sorbonne, Oxford and Harvard.

One of the distinctive features of the education provided at BRAC University is the determination to give students opportunities to access knowledge and expand their interests by exposing them to a diverse range of disciplines beyond their chosen field of specialisation.

In pursuit of this goal, BRAC University has pioneered nanosatellite technology leading to the launch of the country's first nanosatellite, BRAC Onnesha, in July 2017. The quality of the education provided at BRAC University has been recognised at a regional level by the university achieving 228th position (out of 400) in the QS Asia University Rankings 2018, making BRAC University the top-ranked private university in Bangladesh.

But this is no time to rest on our laurels. Efforts must continue across the university to mould our students into well-rounded individuals by encouraging them to acquire a sense of history, an appreciation of the arts and sciences, a love of language, and an understanding of the different streams of human activity that form one's culture.

As you, our students, move forward in your lives, I urge you to reflect on and take pride in the knowledge and experiences you have gathered in this institution. The conferral of a degree places upon each of you the responsibility to use your learning to contribute to the betterment of your society, especially for those who do not enjoy the privileges you do.

I wish you all success for the future.

Sir Fazle Hasan Abed, KCMG
Chairperson Board of Trustees

BRAC UNIVERSITY

BRAC UNIVERSITY
Inspiring Excellence

Syed Saad Andaleeb, Ph.D.
Distinguished Professor Emeritus, The Pennsylvania State University
Vice Chancellor

3 December 2017

Message

Warm congratulations to the 12th batch of graduates of BRAC University. Your year of graduation augurs well as it is studded with many glorious accomplishments of the University. Here are a few highlights:

- Attained QS Asian University Rankings that place us as the #1 private university in Bangladesh.
- Ranked #1 private university independently by Dhaka Tribune/Bangla Tribune, placing us significantly ahead of the next ranked private university.
- Commissioned the construction of the new campus building at Aftabnagar– 1.7 million square feet of glistening academic space.
- Launched Onnesha, Bangladesh's first nano satellite, into deep space.
- Started the Fabrication Lab, introducing 3-D printing.
- Hosted the first International Conference on Business and Management graced by international participants from abroad.

In the next phase of your life – which begins now– events will come at you relentlessly, bringing with them a disruptive Schumpeterian world in the era of the Fourth Industrial Revolution.

Technology will be reshaping the world as we know it today. The consequent changes that are anticipated – in range, speed and complexity – will be dramatic. Demographic changes within the country and globally will also pose many new opportunities and threats. At the same time, the natural environment will attempt to intrude into your lives in different avatars (e.g., global warming, climate change, and tectonic shifts). Economic and social changes will certainly follow. Predictions are that roughly 70% of the jobs of today will disappear in several decades.

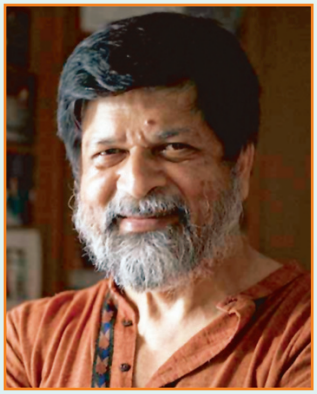

You must face this new and emerging world armed with analytical abilities and multidisciplinary thinking. You must also be multidimensional, adaptive and responsive to change. I believe you have worked very hard and are well-prepared to stride into the future, into interesting times.

Importantly, I urge you to imbue the spirit of lifelong learning; when you stop learning you start becoming obsolete. In a world driven by fierce competition and rapid pace of change, obsolescence is not an option for you. As our ambassadors, we are confident that you will be the torch bearers of BRAC University's heritage, play exemplary leadership roles in all your endeavors, serve as beacons of hope for humanity, and fill your journey through life with many glittering accomplishments.

May success follow you wherever you go!

Syed Saad Andaleeb

Professor Syed Saad Andaleeb, Ph.D.
Vice Chancellor

Brief Biography of the Convocation Speaker

Shahidul Alam

Photographer and Writer

Shahidul Alam is a Bangladeshi photographer and writer with a special interest in education and new media. He set up the award winning Drik Picture Library, the Bangladesh Photographic Institute, Pathshala, the South Asian Institute of Photography, the DrikNews photo agency, and Banglarights, the Bangladesh Human Rights portal. His works have been shown in leading museums including The Museum of Modern Art in New York, the Tehran Museum of Contemporary Arts, the Royal Albert Hall in London, Le Centre Georges Pompidou in Paris.

He is the only person of colour to have ever chaired the prestigious International Jury of World Press Photo, considered the United Nations of photography. He is a recipient of numerous international awards and was the first Asian to receive the prestigious Mother Jones International Award for Documentary Photography. His works have been published in numerous publications all over the world, including National Geographic, Time Magazine, Newsweek, The Guardian, Le Monde etc. He is the only Bangladeshi to have been commissioned to photograph the cover of Time Magazine. In 2009, he was given the rare privilege by the Nelson Mandela Foundation to make an exclusive portrait of Nelson Mandela.

Profile of BRAC University

BRAC University (BRACU) was established in 2001. It follows a liberal arts approach to education which nurtures fresh ideas and gives new impetus to the field of tertiary education. It ensures a high quality of education and aims to meet the demands of contemporary times. Building on BRAC's experience of seeking solutions to challenges posed by extreme poverty, BRACU hopes to instill in its students a commitment to working towards national development and progress. BRACU is accredited by the University Grants Commission (UGC) and approved by the Ministry of Education, Government of Bangladesh.

Mission

The mission of BRAC University is to foster the national development process through the creation of a centre of excellence in higher education that is responsive to society's needs, and able to develop creative leaders. It actively contributes to learning and the creation of knowledge.

Goal

The goal of the university is to provide an excellent broad-based education with a focus on professional development for students, in order to equip them with the knowledge and skills necessary for leading the country in its quest for development. Along with this, the university provides an environment for faculty development to ensure a dynamic teaching environment. The faculty is provided an environment in which they can further their teaching-learning abilities and contribute to the creation of new knowledge by developing and using their research skills.

- Master of Public Health
- Master of Science in Applied Economics
- Master of Science in Biotechnology
- Master of Science in Early Childhood Development
- Masters in Development Management & Practice
- Masters in Procurement and Supply Management

Snippets of Social Impact by BRACU Students

Art Society BRAC University

Hashimukh School and Poriborton School. These names might not mean much but these schools are doing an amazing job and mean the world to some underprivileged children.

Art Society BRAC University (ASBU) visited these schools and taught the basics of art and drawing.

The children were all given crayons and oil pastels and an art competition was organised in each class, judged by ASBU members and the school's teachers. The first prize was a school bag, the second a lunchbox and water flask and the third a colour pencil box.

ASBU members recently participated in a wall art competition organised by Alokito Hridoy Foundation and won the first prize expressing the current situation of females and their vision of a safe Bangladesh.

ASBU always strives to address social issues. Its goal is to promote artists and artworks and spread the joy of creativity and self-exploration while addressing social issues through artwork.

BRAC University Community Service Club

BRACU Community Service Club (BUCSC) conducted an interactive session for students of BRAC Primary School on October 5, 2017 on the school premises in Korail.

Named "Bioscope", the event's main attraction was an animated film on Bangladesh shown through a bioscope, the early form of motion-picture projector. Bioscope reflected the cultural heritage and BUCSU wanted to portray its essence.

The animated film showcased the glory of Bangladesh, starting from the historic Language Movement till the achievement of the country's independence on 16 December 1971. The film also emphasised on environmental cleanliness and how to conserve the environment.

The children were fascinated with some even trying to memorise the charismatic speech of Bangabandhu Sheikh Mujibur Rahman. The club members held a quick quiz session and in the end, the club members sang folk songs, the children recited poems and the event ended with the singing of the National Anthem.

BRAC University Electrical and Electronic Club

The village of Mukundapur in Kaharole upazila of Dinajpur, once a vibrant community with around 200 homes, then stood utterly deserted. A 50-year-old Hatem Ali waded along with what seemed to be his most important belongings. The Punarbhaba had taken a turn for the worse in the last few days and his house was under water.

On 15 August 2017 the waters reached nearly upto the chest. For days, the family subsisted on a diet of puffed rice. Finding no other alternative, Hatem and his family were moving to his in-laws' house. He was not the only one.

This prompted BRAC University Electrical and Electronic Club (BUEEC) to spring into action, aiming to address primary healthcare needs. Its members collected cash and visited remote areas, distributing dry food, clothes, medicines etc in the villages of Uthrail and Polashbari for two days.

Showing them love and whatever they could was the greatest way of telling them that the club would stand by their side in these moments of grief.

BRAC University Entrepreneurship Development Forum

A 69-year-old Rahim Mia was sitting in an easy chair and thinking about his grandchildren, wishing to talk to them. But his son had strictly instructed not to disturb his family by calling every day. And those caring for Rahim are strictly maintaining it.

Rahim Mia is living in an old age home for the last six years. There are 299 others like him, left by their own children, waiting for someone to talk and share their feelings.

A few students of BRAC University Entrepreneurship Development Forum visited this "Old Rehabilitation Centre" in Gazipur, Hotapara on 2 February 2017. The club's motive was to share happiness and spend some time with them. They handed out some gifts such as books and spent the whole day with them, chatting and sharing untold stories.

It was really a joyous experience. The most inspiring thing there was that in spite of all the hardships, these aged people never stop trying to live happy lives.

BRAC University Pharma Society

The summer sky was bright and blue and the sun was scorching hot. Several curious eyes peeked out through windows as members of BRAC University Pharma Society stepped out of a bus in Narayanganj. The school was a collection of a few three storied buildings. The day-shift students were preparing for the day's assembly.

Adarsha School, Narayanganj had welcomed a few volunteers of BRAC University Pharma Society to conduct a campaign on World Health Day in April this year to impart the importance of both mental and physical health.

The theme of the campaign was "Depression" and the society aimed to disseminate why it is crucial to talk about mental health and to express oneself and share one's thoughts with a person who is deemed to be close. The young intelligent minds tended to be very cooperative and interactive and insisted the society keep in touch after the event. The volunteers went to the classrooms and showed them health charts on diets, healthy habits and gave them gifts through a question-answer session.

Cricket BRAC University

Anwar lives in a slum near Tejagaon with his parents and reads in a tiny school nearby. Children in the school do not have the opportunity to purchase sporting equipment, so members of Cricket BRAC University (CBU) went there to pass some time, show cricketing techniques and distribute cricketing equipment.

A friendly cricket match was held in a tiny school field and educational goods such as pen, pencil, geometry box and colour pencil were distributed. CBU runs these programs every semester in different slums. Its target is to stand beside the slum children and ensure that they get the benefits of sports.

Robotics Club of BRAC University

Annanya had always been mesmerised by science. She had always watched satellite launches on the National Geographic channel in awe, hoping perhaps one day Bangladesh would also have one. Her dream came true with the launch of BRAC Onnesha this year.

This was made possible for the Robotics Club of BRAC University (ROBU), which does not just have vision, but work day and night to turn such dreams into reality.

They inspire others, even schoolchildren, to keep making innovations in technology and take Bangladesh to the next level by creating a fun learning environment with workshops where robots such as WALL-E are presented.

Unique Features of BRAC University
Residential Semester

Goals and Objectives

The Residential Semester (RS) at BRACU's Savar campus is unique amongst higher educational experiences in Bangladesh. Every student is required to attend the RS, which offers a holistic curriculum based on the principle of "experiential learning" which cultivates a broad range of soft skills and qualities to complement theoretical developments.

Courses and Activities Offered

A Bangladesh Studies course endeavours to equip students with factual knowledge and analytical skills that eventually enable them to learn and critically appreciate the history, politics and economy of Bangladesh. Simultaneously, an Ethics and Culture course aims to evaluate and bring about the goodness or flaws of voluntary human behaviour in the context of Bangladesh's cultural milieu. Modern language courses, including that on English, are also offered in RS.

Experiential Learning Activities (ELA) include on and off campus participation in Social Learning Lab, excursions to Lalbagh Fort, Liberation War Museum, visit to BRAC Programs and extra-curricular activities.

Besides, different activities are offered to extract students' inner potentials and improve their communication skills. These activities include spelling bee, quiz, script writing and film making, debate, chess, yoga and meditation. Mandatory seminars and workshops are also conducted by experts.

Faculty Overview

Faculty members possess expertise and research interest in areas of history, public administration, good governance, ethical theories and dilemmas, evolution of societal values etc.

Governance

Chancellor

Mr. Md. Abdul Hamid

Hon'ble President, People's Republic of Bangladesh

Board of Trustees

The Board of Trustees (BoT) is the highest policy making body of BRAC University (BRACU). It is responsible for ensuring that the best educational and administrative standards are set and maintained at BRACU. The current BoT consists of the following eminent personalities of Bangladesh:

Chairperson

Sir Fazle Hasan Abed, KCMG
Chairperson, BRAC &
Board of Trustees, BRAC University

Members

Emeritus Professor Anisuzzaman
Professor Emeritus, Department of Bangla
Dhaka University

Abdul-Muyeed Chowdhury
Former Advisor, Caretaker Government of Bangladesh
Former Secretary, Government of Bangladesh
Former Executive Director, BRAC

Dr. Ahmed Mushtaque Raza Chowdhury
Vice Chairperson
BRAC

Ms. Rasheda K. Choudhury
Former Advisor, Caretaker Government of Bangladesh and
Executive Director, Campaign for Popular Education (CAMPE)

Professor Salma Khan
Chairperson
NGO Coalition on Beijing PFA

Advocate Sultana Kamal
Member, Board of Trustees, Centre for Policy Dialogue
Former Executive Director, Ain o Salish Kendra
Former Advisor to a Caretaker Government of Bangladesh

Ms. Tamara Hasan Abed
Senior Director
BRAC Enterprise

Ms. Sadaf Saaz Siddiqi
Director & Producer, Dhaka Lit Fest Poet & Writer
Culture & Curator, Activist and Entrepreneur

Professor Mustafizur Rahman
Distinguished Fellow
Centre for Policy Dialogue (CPD) and
Former Professor, University of Dhaka

Member (ex-officio)

Professor Syed Saad Andaleeb, Ph.D.
Vice Chancellor, BRAC University
Distinguished Professor Emeritus
Pennsylvania State University, USA
Editor, Journal of Bangladesh Studies

Secretary

Mr. Shib Narayan Kairy
Treasurer and Acting Registrar
BRAC University

Syndicate

The Syndicate is the highest executive body that exercises administrative and supervisory control over the academic, administrative and management activities of the university.

Chairperson

Professor Syed Saad Andaleeb, Ph.D.
Vice Chancellor, BRAC University,
Distinguished Professor Emeritus, Pennsylvania State University, USA
Editor, Journal of Bangladesh Studies

Members

Professor Anisuzzaman
Professor Emeritus
University of Dhaka

Professor Mijanur Rahman
Vice Chancellor
Jagannath University

Ms. Tamara Hasan Abed
Senior Director
BRAC Enterprises

Professor Mustafizur Rahman
Distinguished Fellow, Centre for Policy Dialogue
Former Professor, University of Dhaka

Mr. Md. Mahiuddin Khan
Additional Secretary
Secondary and Higher Education Division
Ministry of Education
Bangladesh Secretariat

Professor Ansar Ahmed, Ph.D.
Pro Vice Chancellor
BRAC University

Professor Firdous Azim
Chairperson
Department of English and Humanities
BRAC University

Professor Eva Rahman Kabir
Chairperson (Current Charge)
Department of Pharmacy
BRAC University

Professor K. Shamsuddin Mahmood
Dean
School of Law
BRAC University

Member Secretary

Mr. Shib Narayan Kairy
Treasurer and Acting Registrar
BRAC University

Academic Council

The Academic Council recommends the educational policies of the university and also determines the curricula and courses that can help achieve high educational standards. The council is currently composed of the following academics and professionals:

Chairperson

Professor Syed Saad Andaleeb, Ph.D.
Vice Chancellor, BRAC University,
Distinguished Professor Emeritus, Pennsylvania State University, USA
Editor, Journal of Bangladesh Studies

Members

Dr. John David Clemens
Executive Director
ICDDR, B

Ms. Rasheda K. Choudhury
Former Advisor, Caretaker Government of Bangladesh
Executive Director, Campaign for Popular Education

Professor Salma Khan
Chairperson
NGO Coalition on Beijing PFA

Professor Iqbal Mahmud
Professor Emeritus &
Former Vice Chancellor, BUET

Professor Ansar Ahmed, Ph.D.
Pro-Vice Chancellor
BRAC University

Dr. Sultan Hafeez Rahman
Executive Director
BRAC Institute of Governance and Development
BRAC University

Professor Sabina F. Rashid
Dean, James P Grant School of Public Health
BRAC University

Professor Iftekhar Ghani Chowdhury
Dean, BRAC Business School
BRAC University

Professor K. Shamsuddin Mahmood
Dean, School of Law
BRAC University

Professor Firdous Azim
Chairperson, Department of English and Humanities
BRAC University

Professor A F M Yusuf Haider
Chairperson
Department of Mathematics and Natural Sciences
BRAC University

Professor Shahidul Islam Khan
Chairperson, Department of Electrical and Electronic Engineering
BRAC University

Professor ATM Nurul Amin
Chairperson
Department of Economics and Social Sciences
BRAC University

Professor Eva Rahman Kabir
Chairperson (Current Charge)
Department of Pharmacy
BRAC University

Professor Md. Abdul Mottalib
Chairperson
Department of Computer Science and Engineering
BRAC University

Professor Adnan Morshed
Chairperson
Department of Architecture
BRAC University

Lady Syeda Sarwat Abed
Director, BRAC Institute of Languages
BRAC University

Dr. Erum Marium
Director, BRAC Institute of Educational Development
BRAC University

Professor Md. Tafazzal Hussain
Director
Institutional Quality Assurance Cell
BRAC University

Member Secretary

Mr. Shib Narayan Kairy
Treasurer and Acting Registrar
BRAC University

Office of the Vice Chancellor

Vice Chancellor
Professor Syed Saad Andaleeb, Ph.D.

Pro-Vice Chancellor
Professor Ansar Ahmed, Ph.D.

Treasurer and Acting Registrar
Mr. Shib Narayan Kairy

The Office of the Vice Chancellor is the executive wing of BRAC University, and functions as the management oversight body for all administrative, academic and support services throughout the university. The Office is responsible for the strategic management of institutional operations and to provide guidelines for tactical solutions. The Office of the Vice Chancellor coordinates with academic heads and office managers to ensure efficiency of operations and also provides leadership for future directions. The Office is responsible for carrying out the institutional mission and for fulfilling the institutional vision. The Office of the Vice Chancellor formulates policies, provides guidelines and resources for implementation, and ensures evaluative measures. The executives in this office are the Vice Chancellor, Pro-Vice Chancellor and the Treasurer.

Department of Architecture

Mission Statement:

The Department of Architecture seeks to prepare tomorrow's professional and critical thinkers driven by the development ethos of responsive, resilient, and inclusive built environment. With this mission, the Department pursues multidisciplinary knowledge and skills aimed at cultivating comprehensive aesthetic, technological, socioeconomic, and global understanding to meet environmental and developmental challenges. Its pedagogy aspires to empower students to realize their full potential for serving local and global communities in need of improved conditions.

Activities / Endeavors / Accomplishments:

The Department of Architecture, headed by Professor Adnan Morshed since May 2017, is comprised of faculty members with a wide range of research interests and practicing backgrounds. The Department's recent strategic planning and achievements include:

- Founding of the Centre for Inclusive Architecture and Urbanism. The Centre undertakes collaborative and action-based research consultancy on critical architecture and urban issues – the multi-disciplinary exploration of conditions, processes and policies that affect the livability, resilience and sustainability of spatial and urban domains.The Centre's current consultancy work includes the design of six BRAC Regional Offices and the interior design work for BRAC Institute of Education Development (BIED) head office. Recently faculty members participated in the 'Open Architectural Design Competition for Historic Preservation and Landscape Design of the Old Dhaka Central Jail and Redevelopment of its Surrounding Area.'
- Global Initiatives. The Department of Architecture seeks to inculcate a global consciousness in its pedagogy and research activities. As part of this mission, the Department has partnered with the Embassy of Spain in Fall 2017 to organize a Spanish Architectural Lecture Series, bringing renowned Spanish architects and design practitioners to Bangladesh. The first of its kind,this series is not only an excellent way of bringing knowledge about international architectural and urban innovations to Bangladesh, but also paves a path for greater exchange between Bangladesh and Spain.

  The Department of Architecture at BRAC University hosted a symposium, titled “Unpacking Dhaka: 1st International Congress on Ultradense Urbanism” in collaboration with Open Studio, based at the University of Arkansas, USA, on May 2017. The congress was planned in two phases, with a 2 - day symposium from 4 - 5 June, 2017, that sought to explore various cultural, social, political and economic ramifications of high urban density.

  Student internship programmes, previously limited to India, have now expanded to Europe, America and South East Asia transforming our students into global citizens.

- The Department has revised the existing academic curriculum based on its new mission statement: inclusiveness, resilience and responsiveness.

The Department's continual involvement in Design and Research Consultancy is reflected through its engagement in some of the following projects among others.

- Redesigning Play Centers for Pre Primary School Children. This project is a collaboration between the Department of Architecture and Ghorami.Jon with the LEGO Foundation, BRAC International in Uganda and Tanzania, BRAC USA and the Centre for Play at BRAC Institute of Educational Development (BIED) in Bangladesh. The project focuses on creating a critical discourse on the idea of play and its potential for childhood development.
- The Last 100 Meters (L100M): Safeguarding Portable Water Provisioning to Urban Informal Settlements. Potential benefits of improved water supply at informal settlements are severely compromised by faecal contamination at a 100 metre critical zone around the point of use. Assistant professor Dr. Mohammad Faruk, from the Department is working in collaboration with Lancaster University, Manchester University, British Water and Water Aid Bangladesh among others.
- Monographs on two eminent architects of Bangladesh, Bashirul Haque and Shamsul Wares, are underway. The books will be the first compilation on these two pioneering architects of Bangladesh. The list of ongoing publications include, among others, *Urbanizing Bangladesh: Promises and Perils of Development* by Professor Adnan Morshed, *Architecture of Mymensingh* by Professor Morshed and assistant professor Dr. Nandini Awal and *Reimagining Bengal: Architecture, Built Environment and Cultural Heritage* by assistant professors Dr. Iftekhar Ahmed and Dr. Mohammad Habib Reza.

The faculty actively participate in conferences around the world.

- Assistant professor Sheikh Rubaiya Sultana and Lecturer Sadia Subrina participated in rebuilding Korail and Shattola slums after the fire in December 2016. The work was presented in UIA 2017 SEOUL World Architects Congress, South Korea and will be exhibited at the Bengal Stream exhibition at the Swiss Architecture Museum over a period from 2 December 2017 to 6 May 2018.
- Lecturer Farasha Zaman, was invited by the Plymouth College of Art and British Council to present her ongoing research *Unlearning to Learn: Contextualizing Architectural Thinking into Practice _ Paraa's Approach to Critical Design Thinking & Making* at the Making Futures Conference 2017 in Plymouth, England. Zaman won the British Council Grants which allowed her to travel to the United Kingdom.
- Assistant professor Dr. Sajid Bin Doza presented his research paper titled *Rhythm of Light on Brick in Delta - Understanding light, shade and shadow in heritage indoors of ancient Bengal* at the 19th ARCASIA Forum.

The Department has recently restructured its committee organization, with each faculty heading one committee, leading to greater community feeling and collegiality.

- ARCH.KIDs organizes workshops for children, aged between 8 and 12, aims to generate awareness of the natural and built environment among the youth.
- Exhibitions organized throughout the year showcase student and faculty achievements on and around the campus. The Department recently exhibited the works of its third year students, titled 'The River Rhapsody' at the Alliance Francaise. A folio of the projects is soon underway.
- The alumni liaison committee is working to create a platform for its graduates and inviting them back to help lead the Department forward.
- Awards such as Noman Award of Excellence in Design and Rafiq Azam Travel Bursary are given to outstanding students. These initiatives create the environment for positive competition among students.
- The Department has planned for environmental awareness campaigns at various schools and colleges across Bangladesh. These initiatives are likely to increase enrollment and attract a talented pool of prospective students.

BRAC Business School

Goals and Objectives

With a mission to create and disseminate knowledge in the field of business and management, BBS strives to improve effectiveness and efficiency of managing business and non-business organisations through excellence in business education, training, research and advisory services.

Achievements

The research works of the BBS faculty members have been commended in the business profession and published in various national and international journals. The focus of BBS is not limited to education and research. It encourages students to participate in various co-curricular activities through various student clubs and forums. The aim is to instill leadership qualities in students by engaging them in these student platforms. Owing to the very high quality of the programs and school's commitment to business education in Bangladesh, a rising number of applicants have been consistently attracted to our BBS programs.

Ongoing Academic Programs

- Bachelor of Business Administration (BBA)
- Master of Business Administration (MBA)
- Executive Masters of Business Administration (EMBA)

Faculty Overview

Some of the finest teachers specialising in business education are working at the school and their endeavours are supplemented by high class practitioners. The distinguished faculty members include Professor Iftekhar Ghani Chowhury, PhD (former Director, IBA), Professor Dr Mirza Azizul Islam (former Adviser, Caretaker Government of Bangladesh), Professor Dr Akbar Ali Khan (former Adviser, Caretaker Government of Bangladesh) and Professor Dr Salehuddin Ahmed (former Governor, Bangladesh Bank).

Department of Computer Science & Engineering

Goals and Objectives

The Department of Computer Science and Engineering strives to inspire excellence in the creation, application and dissemination of knowledge in computer science and engineering through comprehensive educational programs; research in collaboration with industry, NGOs, and government; diffusion through scholarly publications, and service to the national and international community.

Mission

- To educate students in the fundamental principles of computer science and the cutting-edge skills needed to solve the complex problems of society.
- To contribute to the development and progress of computer science, and software and information technology, to provide innovative, creative solutions for societal needs.
- To disseminate research through publications, public service and professional activities to impact society in a transformative way.

Majors Offered

- Bachelor of Science in Computer Science
- Bachelor of Science in Computer Science and Engineering

Master's Program

- Master of Science in Computer Science and Engineering
- Master of Engineering in Computer Science and Engineering
- Master in Computer Applications

Total number of faculty: 62
Number of current majors enrolled: 2,208
Number of students on scholarship: 274

Achievements:

- Developed the nation's first nanosatellite which led Bangladesh into space-age.
- Student teams became champions in the "Sustainable Tourism" and "Violence against Women" categories of the 2016 National Hackathon.
- Won best paper award in the 19th International Conference on Computer and Information Technology, ICCIT 2016.

Department of Electrical and Electronic Engineering

Goals and Objectives

The Department of Electrical and Electronic Engineering (EEE) possesses well-trained faculty members and researchers along with modern lab facilities. There are a total of 1,008 students in this department and 55 of them are availing scholarships at different categories. The department actively encourages its undergraduate and graduate students to engage themselves in research. It strives to achieve the following objectives:

- To produce graduates who can use state-of-the-art electronic/ telecommunication/ power system engineering tools to identify and solve real world problems.
- To train students in research methodologies so that they can contribute towards creation of new knowledge and development.
- To prepare the students with a solid foundation of a wide range of EEE courses designed in accordance with the curricula of renowned electrical and computer engineering schools in North America and Europe.

Achievements

Since its establishment, the EEE department has continued to make significant contributions to social and humanitarian development through technology and research.

There are a number of research groups and centres operating under the umbrella of this department. The Control and Applications Research Centre (CARC) focuses on areas of systems and control engineering. Most of the CARC projects involve close collaboration with national industry leaders such as EnergyPac Bangladesh, BRAC Solar and IDCOL and international institutes like IEEE SIGHT.

The students from this department have developed the first nanosatellite titled “BRAC Onnesha” for Bangladesh in collaboration with the Kyushu Institute of Technology, Japan. Faculty members along with students of this department have developed an up-to-the-minute ground station to communicate with the already deployed “BRAC Onnesha” from International Space Station. It was taken there on SpaceX's Falcon 9 rocket.

Furthermore, the Robotics Lab had participated in an annual “Lunabotics Mining Competition” for two years in a row. “Chondrobot-2”, a BRACU product, did exceptionally well during the second phase of the competition and was ranked as the best performing robot among all others from Asian universities.

Currently, the lab is working on other robotic designs and developments focusing on various engineering challenges. A memorandum of understanding was signed between the EEE department and the Bangladesh Council of Scientific and Industrial Research to fabricate and characterise efficient and cost effective solar energy systems. This giant leap is taking our students’ electronics designing skills to the fabrication and testing level in our country’s context.

Ongoing Academic Programs

- Bachelor of Science in Electrical and Electronic Engineering
- Bachelor of Science in Electronic and Communication Engineering
- Master of Science/Master of Engineering in Electrical and Electronic Engineering

Faculty Overview

The EEE department has 23 full-time faculty members. A good portion of the faculty members hold PhDs and have conducted a substantial amount of research and gathered experience on teaching and working at related industries at home and abroad.

Most of the department's faculty members hold master's degrees from globally reputed universities and they are actively working in pushing the boundaries in their own fields of research, working as a team with students and research assistants towards BRACU's common goal of inspiring excellence.

The faculty members are continuously publishing their works in reputed journals and conferences in this field. Recent publications of the faculty members include ACS Nano, IEEE Transactions on Electron Devices, IEEE GHTC, IEEE GLOBECOM, IEEE TENCON, etc.

Department of Economics and Social Sciences

Founded in 2003, the Department of Economics and Social Sciences (ESS) of BRAC University has now expanded to 19 full time faculty members, 500 students and an alumni body of 300 graduates. More than half of the faculty members obtained their respective PhD degrees from internationally reputed universities of advanced countries of the world, and have strong teaching, research and publication records. The department's young bright teachers are dedicated to developing their academic careers and contributing to development of students' all round development. All faculty members are committed to close engagements with students to develop their intellectual curiosity and motivation for learning. The department encourages students to ask questions and challenge conventional ideas. ESS seeks to make students understand the broad economic and social realities they live in, both in Bangladesh and this globalised world, and to develop critical insights and analysis to help them determine solutions. Along with emphasis on growth as all-rounded individuals with strong ethical values, ESS prepares students both for the job market and for graduate studies and research. The department offers one master's and two majors. These are:

- Bachelor of Social Science in Economics (BSS in Economics)
- Bachelor of Social Science in Anthropology (BSS in Anthropology)
- Master of Science in Applied Economics (MS in Applied Economics)

The department also offers three minors. These are:

- Minor in Economics
- Minor in Anthropology
- Minor in Sociology

An increasing number of students from other disciplines also opt for economics as part of doing their double majors. Doing such double majors and doing a minor in economics or anthropology or sociology will help students of other disciplines to integrate the theoretical knowledge gained in their respective undergraduate major for a deeper understanding of the greater social and economic development.

Department of English and Humanities

Goals and Objectives

The Department of English and Humanities aims to promote studies in English and Humanities. It fosters critical thinking and encourages students to think independently. The emphasis at the department is to inculcate reading and writing habits and to prepare students with adequate critical and analytical skills so that they can contribute to society and become an integral part of the contemporary world.

Achievements

The academic year 2016-2017 has seen talks by visiting scholars and those within the department on topics ranging from medieval Bangla writings to the latest teaching techniques or the phonological aspects of language learning.

In keeping with its commitment to foster links between social and literary studies, the department hosted an international conference on "Redrawing Gender Boundaries in Literary Terrains" in May 2017. The conference was indeed well attended by scholars from home and abroad, including India and the US. The two-day conference comprised of over 50 papers, special plenary discussion sessions and readings by writers from their novels and short stories. This was a landmark conference not only for our department, but in the field of literary studies of the nation.

The ENH department is part of the Scholars' Program, which is an initiative to draw together high-performing students from across disciplines. The program has generated a lot of interest and we are hoping to graduate the first cohort of students by the end of the Fall Semester 2017.

Situated in and fostered by the ENH department, BRACU Media Lab is perhaps one of the major pioneering attempts at co-curricular activities taken up by BRACU. Its aim is to give students complete access to a world of digital audio and video editing and mastering, helping to acquaint them with the digital world.

Ongoing Academic Programs

- BA in English (concentration areas: literature, applied linguistics & English language teaching, media & cultural studies)
- MA in English (concentration areas: literature, applied linguistics & English language teaching)
- Minor in History

Faculty Overview

Faculty members represent a wide range of academic interests, imparting valuable knowledge in teaching and mentoring students in the very diverse fields across which this department spans. Specialisations range from translation studies and developing online teaching materials to research on historical and literary material. This is reflected in a wide variety of publications and seminars that have been hosted over the years.

Department of Mathematics and Natural Sciences

Goals and Objectives

The last century belonged to physical sciences while the 21st century belongs to life sciences. However, with the discovery of Higgs boson in a Large Hadron Collider experiment at CERN, the interest in physics has been revitalised. Both fields belong to the vast arena of natural sciences. Understanding this importance, the Department of Mathematics and Natural Sciences was established as one of the key departments. It is actively involved in teaching and research in these disciplines. It offers courses in physics, applied physics, chemistry, biology, biotechnology, microbiology, mathematics, statistics, economic geography and environmental sciences, etc.

Academic Programs

- Bachelor of Science in Applied Physics and Electronics (APE)
- Bachelor of Science in Biotechnology
- Master of Science in Biotechnology
- Bachelor of Science in Microbiology
- Bachelor of Science in Mathematics
- Bachelor of Science in Physics

The department also offers double majors and minors in physics, APE, biotechnology, microbiology and mathematics. Most of the students pursuing the aforementioned programs are under merit scholarship.

Research and Achievements

A plasma astrophysics laboratory with major facilities has been set up for the first time in Bangladesh under the keen supervision of expert faculty. Research facilities for polymer physics under physics and applied physics disciplines are also being developed. The research programs in life sciences in the department incorporate vital areas of medical, environmental and plant biotechnology with well-equipped laboratories.

The department also has collaborative projects at various reputed research institutes like IdeSHi, BIRDEM, the University of Dhaka, BCSIR, the Bangladesh University of Health Sciences and the Centre National de la Recerche Scientifique in Grenoble, France.

The department has also signed memorandums of understanding on taking up R/D initiatives jointly with BAEC, BRAC ARDC, ICDDR,B and ACI Ltd. Many of the postgraduate students have achieved awards in international and national scientific conferences for their research.

Faculty Overview

Faculty-wise, the department is the second largest in BRACU having a total of 42 full-time teachers along with 12 teaching assistants. The faculty is a blend of young and brilliant teachers with PhDs or Master's degrees attained from abroad. Choosing teaching and research as their vocation, they bring along years of teaching and research experience at prestigious academic, research and development institutions both at home and abroad.

Department of Pharmacy

Pharmacy as an esteemed profession entails huge responsibilities that involve the well-being of humanity in a holistic approach. The B.Pharm. Program provides graduates with competent skills to meet the challenges of a rapidly evolving pharmaceutical industry.

Faculty members are graduates from globally renowned institutions both at home and abroad. They are publishing research articles in distinguished journals on a regular basis along with teaching, departmental and other co-curricular activities. Currently, four of our faculty members are pursuing their Doctoral degrees at the University of Cambridge, University of Sydney, Miami University and University of Nebraska.

The department focuses on developing young minds. To achieve this objective, it organized the First Ever ChemBio HACKATHON in Bangladesh on April 30, 2017, aiming to bridge theoretical knowledge with related scientific solutions in addressing the critical problems of our environment and health care system.

A monthly newsletter, “Pharma Highlight”, provides the latest update in the pharmaceutical arena nationally as well as internationally. The department has recently introduced a Journal Club for the benefit of the students. Furthermore, seminars are arranged frequently where both prominent speakers and students participate for knowledge sharing.

In Summer 2017, the Department of Pharmacy successfully initiated the "Pharma Poster Challenge" - a poster presentation session that consolidates our goal of organizing a continued series of student poster presentations. This initiative is aimed to provide a holistic reflection on student learning and engagement throughout the semester and thus, is pivotal to the inception of novel ideas. Our students would be presenting their own ideas amalgamated in a project that would pertain a poster and presentation. Industry professionals and all other department staff have been invited and their feedback would be collected on our students that would matriculate recognition awards for the brightest student projects.

Industrial research collaboration, regular industrial visits and attendance in international conferences are strongly encouraged and practiced. Different health awareness campaigns have been arranged by students throughout 2017, which brought them international recognition. Above all, three students are undertaking higher studies in Europe, Australia and America on scholarships, endorsing the department’s efforts in promoting excellence.

School of Law

Mission and Vision

Founded in 2004, the School of Law is a gateway through which students are prepared for careers in law, administrative services, the judiciary and the development sector. Although the primary emphasis of the programme is on law and the legal profession, given that law is also intertwined with economics, development, business and sociology, it also prepares students who are inclined to seek professions in other disciplines.

Recognising BRAC's background and the goals and commitments of BRACU, the School of Law endeavours to impart legal education to seek legal solutions that respect social, cultural and aesthetic needs of the people. To meet this goal, it strives to impart among students not only the tenets of the law, but also legal philosophies, rights-based issues and a broader awareness of the society they live in. Graduates are now pursuing careers as lawyers, judges, corporate legal officers, development workers and academics.

Majors Offered

In order to graduate with an LL.B Honours degree, a law student must complete 135 credits. Of them, 63 are contained in 21 major law courses, which are predominantly the laws of Bangladesh, although courses such as international law are also taught. Recognising the global aspects of law, the School of Law also offers a list of law elective courses from which a student may take four to five courses of his/her choice. These electives form the bridge between undergraduate and graduate law courses and include topics such as legal systems and institutions, human rights, administrative law, banking and securities law, etc.

Total Number of Faculty (Including Those on Study Leave)

There are nine faculty members, among whom three are on study leave. The faculty members have postgraduate degrees from notable universities in Europe and Australia. It also engages course-contract faculty members who are practicing lawyers.

Some Notable Innovations

The School of Law has completed a citation guide for legal institutions, entitled "Bangladesh Style of Citation of Legal Authorities", Editor in Chief (ex-Officio) Professor K Shamsuddin Mahmood, edited by Associate Professor Md Rizwanul Islam and Ms Nauriin Ahmed, an alumni. The citation guide will be published in due course of time.

The School of Law has a Law Society that publishes an awareness-raising newsletter, participates in moot court competitions and organises lecture programmes and seminars. All this enables law students to enhance their writing and research capabilities. However, its pioneering achievement is its court observation visits. Court visits are organised for senior students twice a year — to a district and sessions court and the Supreme Court of Bangladesh. This enables them to see how the law is brought into practice. No other university does this on a regular basis.

BRAC Institute of Educational Development

Since its inception, the BRAC Institute of Educational Development (BIED) has been an active advocate and proponent of contributing to the development of education from a holistic perspective through professional development, capacity building, skills development, training and research.

The institute aims to tap into emerging areas of development by exploring areas including early years' learning & early childhood development, play-based learning methodology, psychosocial wellbeing of stakeholders from diverse socio-economic backgrounds, adolescent mental health, primary and secondary education and curriculum & textbook design.

BIED conducts evaluative researches of its own projects and also undertakes large-scale researches which are quantitative, qualitative, experimental, non-experimental and quasi-experimental in nature and disseminate those among relevant stakeholders working on these areas nationally and internationally.

Academic Programs

BIED currently offers two postgraduate programs: the Master of Education/Post-Graduate Diploma (MEd/PGD) in Educational Leadership & School Improvement and the Master of Science/Postgraduate Diploma (MSc/PGD) in Early Childhood Development, the latter a pioneer program in Bangladesh.

Furthermore, BIED offers a diverse range of short courses, tailored accordingly to national and international trends in education and learning. The institute thus aims to facilitate and showcase evidence-based solutions to a wider audience for implementing agencies to incorporate into sustainable models and implementations.

BRAC Institute of Governance and Development

BRAC Institute of Governance and Development

BRAC Institute of Governance and Development (BIGD), BRAC University is a centre of policy research and academic excellence. It was established in June 2013 through the merger of the Institute of Governance Studies (IGS) and the BRAC Development Institute (BDI).

BIGD's research mandate is spread over four broad clusters, 1. Economic Growth, 2. Governance and Politics, 3. Urban, Climate Change and Environment, and 4. Gender Studies.

BIGD's research is aimed at supporting its academic and training programmes. It does not limit knowledge creation to being an end in itself but rather to advance the pursuit of a just and prosperous society. Hence, it also plays an advocacy role to give voice to contemporary governance, political and economic issues.

Flagship Programmes

The State of Governance (SoG) in Bangladesh

BIGD annually conducts research on governance in Bangladesh to provide a critical and analytical investigation of the governance situation of Bangladesh. The work allows BIGD to compare, assess and document changes over time. The results of the research are presented mainly in the form of annual reports titled 'The State of Governance in Bangladesh' which is one of the flagship publications of the BIGD. Since 2006, eight reports have been published.

The State of Cities (SoC)

BIGD's other flagship research report is the 'State of Cities' aims to provide a diagnostic of the country's urban governance. As the world's cities expand, especially the Asian megacities, including Dhaka, urbanisation and associated concerns have emerged as major development challenge in developing countries. Public policy needs to address these based on revisiting the economic importance of the cities and local government institutions. It is in this backdrop that the first SoC report was prepared in 2012. Since then, BIGD has continued to publish the flagship report every year focusing on the country's growing urban challenges.

Apart from its flagship programmes, BIGD also conducts research on various governance and development related topics. Some of these areas are: municipal finance, poverty and inequality, gender labour market, public service delivery, local governance, democratic governance, citizens' engagement in public procurement, urban governance, efficiency of the judiciary, women empowerment, women participation in politics, cultural norms, regional and trans-regional migration, regional economic integration, nutrition governance etc.

Research, Communication and Advocacy

In line with its communications strategy, BIGD disseminates research outputs and activities through diverse range of communication channels and tools such as target-specific advocacy events, stakeholder's consultations, publications, op-eds and articles, social media posts, e-alerts, newsletters and website. It also organises different events to enable effective and updated exchange of views and draws expert recommendations from diverse range of stakeholders.

On the academic side, BIGD offers four Master's Degree programmes: i. Master of Arts in Governance and Development (MAGD): exclusively for Government officials of Bangladesh aimed at enhancing their capacity; ii. Master of Development Studies (MDS)--an innovative and cross-disciplinary postgraduate degree that provides an in-depth understanding of development concepts and issues in the context of globalisation, economic transformation and social, cultural and political changes; iii. Masters in Procurement and Supply Management (MPSM), in collaboration with the Chartered Institute of Procurement and Supply (CIPS), UK. It serves the procurement and supply profession; and iv. Masters in Development Management and Practice (MDMP): a professional Masters degree in development management and practice which is linked to the Earth Institute at Columbia University in the USA. A global network comprising of 22 universities around the world offer the MDMP course of which BIGD is one.

Apart from research and advocacy, BIGD programme division also provides technical, research and advisory services to several government entities. Some of the major projects undertaken in this regard are: Promoting Equitable Economic Growth in Cities supported by the Cities Alliance, a global partnership for urban poverty reduction, sponsored by the UN Office for Project Services (UNOPS); Community of the Practice in Performance Management System in South Asia, in cooperation with the World Bank and the government of Bangladesh; Sharique-III, an SDC funded consortium project on local government and development, comprised of HELVETAS Swiss Intercooperation; Advancing Women's Right of Access to Information (AWRAI) in Bangladesh, funded by the USAID; The Anti-Corruption Evidence (ACE) Research Programme, supported by SOAS, University of London; Public Hearing of government officials in partnership with Anti Corruption Commission to ensure accountability; and Public Procurement Reform Project II, with Bangladesh Government (CPTU, IME Division, Ministry of Planning) to help design and implement the social accountability mechanism that aims to institutionalise and develop a third party citizen's monitoring system in the public procurement process in the country.

Moreover, BIGD provides scholars, policy specialists, researchers, academics and practitioners a common platform to discuss and debate critical questions on governance and development. It has a strong record of working with government agencies, national and international research institutes, development organisations, think-tanks and non government organisations.

IGC in Bangladesh: The Institute also hosts the International Growth Centre (IGC) of London School of Economics and Political Science (LSE) and University of Oxford. This affiliation provides the opportunity for the institute to collaborate on research projects and open itself to a wider research community regionally and internationally.

The Centre for Gender and Social Transformation (CGST): BIGD houses a specialised centre-The Centre for Gender and Social Transformation (CGST) that undertakes research and advocacy work on women's empowerment and how positive changes in everyday lives and larger social transformation in gender roles take place.

BIGD's staff are drawn from the social science disciplines with excellent credentials. As an institute of BRAC University, BIGD works closely with the university and has the unique advantage of being associated with BRAC, the world's largest NGO through its work and carrying its 'brand'. It is inspired by BRAC's values in shaping its own institutional work, professional standards and product.

BRAC Institute of Languages

Goals and Objectives

BIL's aim is to assist students in developing the language skills they require to become successful in their academic and professional lives. The institute focuses on implementing student- centred language teaching techniques by developing modules based on students' proficiency level. This not only eliminates the possibility of having mixed ability classes, but also ensures small classes with excellent interaction between teachers and learners. Additionally, BIL is committed to the field of academic language teaching and research, with a clear focus on creative and forward-thinking teaching concepts for diverse learner groups.

Academic Programs and Courses

- Master of Arts in Teaching English to Speakers of Other Languages (MA in TESOL)
- Pre-University Course
- Undergraduate English Courses
- Modern Languages (Bangla, Chinese, French, German)
- English for Academic Purposes (EAP)
- English Proficiency Development Course (EPDC)

Achievements

The last decade has seen the evolution of this institute from an English Language Program (EL-Pro) to the Centre for Languages (CfL) to BIL.

Some of its notable achievements include providing training for RAI Foundation Scholarship Recipients and a venture with BRAC's STAR project in collaboration with UNICEF and ILO. Together with BRAC, ILO and

BMET, BIL established language labs with training manuals and audio-visual materials in English-Bangla-Arabic on four trades at two Technical Training Centres (TTCs).

Furthermore, BIL has developed six ESP modules for the "Diploma in Midwifery" course in collaboration with the James P Grant School of Public Health. Other significant achievements include BIL's collaboration with the English in Acton project aided by Open University, UK in their MYTEC program.

Finally, BIL is actively involved with a new venture "BRAC-KUMON" which was initiated in 2017 with the vision of creating opportunities to make the KUMON method available in Bangladesh.

Faculty Overview

The strengths that the faculty members of BIL reflect are their interests and work experiences in diverse spheres of academia such as assessment, reflective teaching, peer review, critical and creative thinking, adult teaching, teacher training, experiential learning, English for specific purposes, English for academic purposes, curriculum and syllabus design, material development, education and society, use of literature in language teaching, computer assisted language learning, etc.

James P Grant School of Public Health

BRAC James P Grant School of Public Health (BRAC JPGSPH) was founded in 2004 to address the unmet public health challenges particular to Asia, Africa and South America. The school was co-founded by BRAC, icddr,b and BRACU realising that public health needs in developing countries require immersive, community-based teaching and learning to provide locally innovated research and sustainable health solutions.

Our Vision: To be the leading global public health institute for the world's critical health challenges affecting disadvantaged communities.

Our Mission: To create innovative public health leaders and solutions through cutting-edge, experiential education, training, research and advocacy.

The school draws from Bangladesh's remarkable public health achievements as well as BRAC's nationwide services and BRAC international's programmes in South Asia and Africa, offering unparalleled real-life, community-centric teaching, learning and research experiences on critical and emerging national and global public health challenges through an interdisciplinary integration of education, training, research and advocacy.

Since its inception, BRAC JPGSPH has achieved remarkable milestones including:

- **424** students from **29** countries have graduated from the flagship Master of Public Health Programme.
- **Approximately 5,300** academics and practitioners, with **more than 100** short courses, dialogues, workshops and seminars.
- **Over 90** research projects have been undertaken since 2004, in collaboration with national and international institutions and partners
- **More than 200** advocacy-based activities with multi-stakeholder engagement.

BRAC JPGSPH also houses the Developing Midwives Project which has been implementing the Diploma in Midwifery Education since 2013 (DMP). DMP aims to draw young women from disadvantaged rural and urban communities in the country and educate them to become competent midwives.

Office of the Registrar

The Office of the Registrar supports the academic mission of the University by providing management and administrative support and assistance to the academic community. This is achieved in accordance with academic policies and procedures established by the Private University Act 2010, rules and regulations formulated by the Ministry of Education, University Grants Commission, the Board of Trustees, Syndicate and Academic Council. The Office of the Registrar participates and plays a key role in the review, development and enforcement of the goals and objectives of the University.

The Office serves as the repository of faculty information and schedules; course enrollment; course offering; students' records; grades; and degrees conferred. Such records are maintained using Information Technology as Web-services designed to enable students, academic advisers, staff, departments and programs to conduct their professional duties in a decentralized environment.

The Office offers a wide range of academic and administrative services associated with admissions, records, registration, advising, graduation services, academic space management and class and examinations scheduling for students and faculty members. The Office is also responsible for the compliance with rules and regulations, policies and the student Code of Conduct.

Administration

Overview

The BRACU Administration plays a crucial role by providing administrative and logistical support to facilitate academic and other related activities.

Core Functions

The Administration has a wide-ranging number of core functions which are integral to the smooth running of the university. Below are some of its core functions and responsibilities:

- Provide logistical support to ensure smooth running of all academic and non-academic activities
- Provide support to the admission process
- Look after all fixed and variable assets
- Ensure maintenance of all assets
- Provide logistical support across the university

- Ensure high-level safety and security
- Ensure successful completion of any event of the university
- Ensure healthy and hygienic environment of the university
- Provide and maintain transport facilities
- Provide and support renovation work for the university

Infrastructure and Facilities

Facilities	Staff under Administration
• Total Buildings : 06 • Total Space: 228,554 sft • Classrooms: 67 • Computer Labs: 28 • Architecture Studios: 08 • EEE & ECE Labs: 11 • Listening & Writing Lab: 01	• Office Assistants: 99 • Maintenance Staff: 36 • Telephone Operators: 02 • Drivers: 29 • Security Guards: 93 • Gardeners: 02 • Cleaners (outsourced): 42

Medical Centre

BRAC University medical centre provides medical services to students, faculty members and staff. The centre is well equipped to provide necessary emergency medical service, advice and referral service to the university community. Both Medical Centres in the main campus at Mohakhali and residential campus at Saver have medical teams consisting of qualified and professional doctors and nurses.

- The Medical Teams also organise awareness programs on issues such as unhygienic street food, ills of smoking, preventing winter and summer diseases, Bronchial asthma etc and prints posters on seasonal and common diseases.
- The Medical Centres ensure acceptable standards of public health and sanitation at the university campuses and hostels.

Ayesha Abed Library

The Ayesha Abed Library aims to become a world-class knowledge resource centre to provide innovative new services and a wider collection of books and resources to the teaching, learning and research communities using the latest technological developments of the 21st century.

Resources and Services

The library houses approximately 41,000 books in its collection. The website, http://library.bracu.ac.bd, provides online access to a wide variety of information resources including **72,000** e-books and **56,000** journals and research databases. The library employs the latest technologies to improve services and to provide fast and easy access to information. It meets its goals by integrating appropriate technologies with skilled and experienced staff committed to customer service. The library provides both on-campus and off-campus access facilities to online journals and databases.

Digital Institutional Repository **(http://dspace.bracu.ac.bd):** The library has set up a Digital Institutional Repository to manage, preserve and disseminate research outputs generated by faculty members, students and researchers. The total number of theses, dissertations, annual reports, articles, internship reports, BRAC publications etc uploaded into Dspace is **7559**.

The Integrated Library System **(http://library.bracu.ac.bd/OPAC) :** There is a complete Integrated Library System (ILS) using KOHA. Library patrons now can perform online renewals, reservations and look at enriched contents from Amazon.com such as book jacket images, reader reviews and selected full chapters. This ILS supports RFID and Mobile SMS Technology.

Next generation Open Source Discovery Tool VuFind **(http://library.bracu.ac.bd/vufind) :** The Open Source Discovery Tool VuFind has enabled the library to offer access and discover all relevant resources (catalogue records, digital library items, institutional repository, databases, and e-journals) in one single search-and-browse system in a robust, and distributed digital environment.

BRACU Library's Mobile Interface (http://library.bracu.ac.bd/m): The library mobile interface includes links to important features of the library website.

Library Learning Resource Center (LRC): The Library Learning Resource Center conducts trainings and workshops for helping faculty members, students, researchers and library professionals develop information and digital literacy and research skills. The library conducted at least 450 information literacy sessions for 11,235 library users on introduction to library resources, services, research skills, plagiarism and reference management tools.

Capacity building and support for digital library initiatives: A total of 520 librarians have been trained in recent years for increasing capacity building for professionals working in at public and private university libraries in Bangladesh. The library team assisted a good number of private and public universities directly implement digital library initiatives in Bangladesh as part of the team's capacity building goals.

Counseling Unit

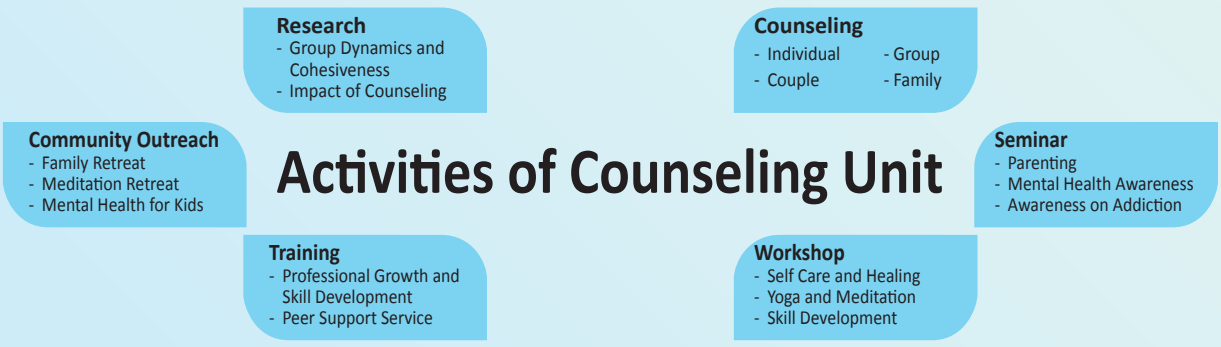

The Counseling Unit aims to offer professional mental health services to assist in overcoming life's challenges and moving towards positive changes. It has been running since 2002 in response to a growing need for promoting the wellbeing of mental health. The unit currently comprises 10 professional counselors under a supervisor.

Activities of the Counseling Unit

The counseling service is a unique opportunity to explore concerns and problems with a professional psychological counselor in a confidential setting, through appropriate therapeutic procedures. It incorporates the mind, emotions and physical and spiritual aspects to accelerate growth, deal with significant challenges and considerable stress. The unit offers counseling sessions to individuals, groups, couples and parents along with students, parents, faculty members and staff of BRAC University in Mohakhali and the residential campus in Savar. Besides, the unit organises seminars on a regular basis on World Mental Health day, positive parenting and awareness on drug dependency. In addition, workshops on different psychosocial aspects are also organised for promoting the wellbeing of mental health.

The unit also designs and implements a variety of training, educational programs, collaborative efforts, and outreach campaigns on psychological topics both inside and outside the university. As BRAC University is an internationally recognised academic and research institution, the members of this unit also conduct research and have publications on several psychosocial issues. As a part of personal and professional development, the counselors are regularly supervised on different aspects and trained in national and international levels. The Counseling Unit is committed to continue working as an integral part of BRAC University's mission to create well-rounded professionals and citizens dedicated to the betterment of the society and the nation.

Finance and Accounts Department

The Finance and Accounts Department operates under the supervision of Treasurer Mr Shib Narayan Kairy, appointed by the Chancellor (President, the People's Republic of Bangladesh) and under the direction of Director Mr Monojit Kumar Ojha, FCA.

The department receives fees, such as tuition and that for admission, from students as well as research grants from donors, makes all types of payments and assists in the policy and decision-making process of BRACU.

It also provides information and various types of analysis and reports to the management, namely that concerning weekly fund position, monthly central budget variance, scholarships, new campus construction, donors and taxation of BRACU and its faculty and staff, along with financial statements for the year and provident funds.

The department runs accounts and finance related activities of over 25 donor-funded projects, student enrolment and registration, faculty and staff payroll, fixed assets, cash and cheque management; budget preparation and budgetary control.

Human Resources Department

The Human Resources Department (HRD) plays an important role towards achieving the ultimate goal of the University. This department has its own goals and we are achieving one by one to comply with the mission of the university. The department is highly dedicated to create a platform for human resources development with its good practices and innovative approaches. The policies and procedures are being updated regularly to ensure the benefits of the university as well as all the employees working at BRAC University.

HRD follows the University Grants Commission guidelines to shape its recruitment policy with the objective to recruit talented faculty members and administrative staff. We are creating a talent pool of applicants in different fields. The Performance Appraisal System is aimed at developing the faculty and staff by providing necessary feedback and acknowledging their contribution through a proper reward system.

The compensation package is also determined with an integrated system aimed to attract and retain highly talented employees. HRD makes an arrangement to disburse monthly salary on time with a sophisticated payroll management system. The HR team manages biometric attendance system for the non-academic employees. All the employees can see their attendance and profile information anytime from anywhere through the web access to their profile.

Information Technology Department

Objective : To provide Information Technology (I.T.) services to all members of BRAC University and automation for different department of BRAC University

Goals: Provide network security and service per excellence to all members of BRAC University to the best of its ability.

Responsibilities: To provide smooth automated I.T. related services including email service, provide on-site 24 hours service for I.T. related equipment for all members of BRAC University, entitled to IT service.

In order to implement the above, there is a Data Centre which has an automated data processing software application in the system with several redundancies in the form of University Students Information System (USIS), utilizing a number of servers in clusters, using powerful open source platform like RHEL/Ubuntu as the operating system and powerful open source database utilizing Postgre SQL. The USIS cluster operates in a configuration called the "no single point of failure." Need to separate the Admissions, Exam and Transcript and Enrollment activities have already been discussed. Study on the full automation of the Admission process is underway.

A hardware maintenance department is functional providing primary level maintenance of I.T. related equipment.

Several reputed ISP vendors provide a total bandwidth of over 310 Mbps bandwidth, considered to be enough for all University bandwidth needs for the time being.

There are 67 well equipped classrooms with modern teaching aids like overhead projectors multimedia projectors, network connectivity and other audio aids.

Present Facilities Provided by BRAC University I.T. Department:

1. Support for over 2030 Personal Computers used by Faculty and Labs of various departments.
2. Internet Bandwidth of over 310 Mbps from BRACNet, Novocom (Intercloud) and BTCL
3. Customized Student Information system software and enrolment software
4. Data Back-up service provided by redundant data base servers.
5. All operations of the Data centre are carried out using state of the art brand servers from IBM, HP and DELL.
6. 3-tier power backup system for the server room operation
7. Providing IT related support for over 67 well equipped classrooms
8. SMS service for notification is being used to notify students with any relevant information.
9. An in-house software development and operations team has been set up to repair and enhance the functionalities of the USIS software.
10. An in-house mobile app has been developed for students.

Work on connecting to BdREN information highway is underway. This connectivity to BdREN will help BRAC University to use the information highway connecting the Trans Eurasian Information Network (TEIN).

Office of Communications

The Office of Communications (OoC) is undoubtedly a key player in the niche BRACU comfortably carved out for itself in the world of higher education. Be it media coverage, event management and documentation, promotional material development and evolution of synergy and rapport, OoC never falters to shine the spotlight on the BRACU brand, ensuring that the message gets home.

OoC delves into the depths of BRACU's melting pot of students, teachers and staff every day creating comprehensive corporate marketing, communications and PR strategies, keeping BRACU one step ahead in its league.

Among the myriad of platforms OoC makes use of to keep stakeholders up to date and maintain a top-notch network are the BRACU website, Facebook page and other evolving and upcoming mediums.

BRACU launched mobile app for students

BRAC University (BRACU) launched a mobile application for students based on the Android mobile operating system on June 15, 2017, said a press release.

BRACU Vice Chancellor Professor Syed Saad Andaleeb, with the click of a button, made 'BRACU Mobile' available in Google Play Store from Global Development Learning Network (GDLN) Centre of BRACU in the capital's Mohakhali.

Installing the app in their Android phones, students will be able to view their university-based profiles, which include grades, class and exam schedules, announcements, advices, the academic calendar, upcoming events, latest news, importants contacts, photos and videos of important events and even the daily menu of the university cafeteria.

The app will include a QR code scanner, a "DISPACE" icon giving access to institutional data from BRAC University Institutional Repository and a unique "Push Notification" feature giving free-of-cost updates, especially that regarding nano satellite "BRAC Onnesha" and its corresponding ground station.

Office of Student Affairs

The Office of Student Affairs (OSA) offers a wide complement of academic and co-curricular programs to promote the core mission of liberal arts education and student development.

Student Advising and Learning Support

The student advising and learning support services are designed to help students become independent and successful learners by improving their study skills and self-confidence, encouraging a positive attitude toward education and preparing them for lifelong learning.

First Year Advising Teams (FYAT)

A first year advising program provides integrated services of academic advising that seeks to inform and support new students, monitor academic performance and needs, and guide academic planning during the first year. The FYAT advisers and mentors focus exclusively on those areas of university education and student life that concern all students at the university.

Probation Advising and Student Support (PASS)

OSA launched a dedicated program of probation removal and retention efforts in May 2014. The Probation Advising and Student Support (PASS) program offers a range of departmental and general academic support to assist students in removing their probation status and embarking on the path to academic success. The PASS Program includes regular individual advising and small group workshops throughout the semester.

Tutorial

The Office of Student Affairs (OSA) has introduced supplementary tutorials especially for the freshmen and probation students from summer 2016. OSA is offering tutorials for MAT 101, MAT 110, LAW 101, BUS 101, PHY 111, CSE 101 and CSE 110. These are conducted by faculty members of OSA along with senior students from the respective departments.

Office of Co-curricular Activities

The Office of the Co-curricular Activities (OCA) emphasises the wholeness of the university experience through synchronised development of the body, mind and spirit. Its main objective is to create an environment for student's spontaneous participation in co-curricular activities, create leaders for the future and provide opportunities for community service activities. The OCA provides full support in this respect by supervising, assisting, facilitating and encouraging activities of student clubs and forums in order to instill leadership qualities among the students.

Clubs and Forums

The co-curricular arena is vibrant and student-oriented. The composition of each club or forum includes teacher/staff advisers and student representatives. New members are inducted into the clubs at the beginning of every semester through a club fair held in the third week of every semester. An auditorium, cafeteria and semi-outdoor space with technical support are used for seminar, workshops, exhibitions, indoor games, competitions, fairs and cultural activities. An OCA policy guides students into participating in activities without hindering their academic performance.

Democratic elections are organised by OCA to elect the executive body which runs club activities and manages members. There are 26 student clubs and forums in different categories. These are for chess, culture/films, drama/theatre, debate/mooting, business/economics, heritage/arts, international/ entrepreneurial, science/robotics and adventure/environment. All clubs and forums are highly encouraged to conduct activities that create social impact.

Office of Career Services and Alumni Relations

The Office of Career Services and Alumni Relations (OCSAR) is poised to consolidate and expand its range of services for students to ensure their optimal preparedness for professional life after graduation.

The core programs consist of career counseling, CV writing, interview skills, professional skills development program, mock interview sessions, career clinics, individual advising, internship, workshops and seminars, on-campus recruitment events, job placements/work experience opportunities, community service internship program, English proficiency campaign, leadership program and strengthening and enhancing the alumni association.

All of OCSAR's essential services are continuously reviewed with a view to creating a sharp and updated focus on developing the precise skill sets that are important for students to excel in the job market. Furthermore, through workshops and seminars which are organised as an integral part of OCSAR, students are given a strategic understanding of the employment market and key issues related to the corporate sector in Bangladesh.

OCSAR prioritises its links with employers who take on our students as interns every semester and also recruit them. OCSAR formalises their relationship with employers and employer-employee networks to ensure a standardised approach to internships and job placements so that the rights of students as interns/employees are formally agreed alongside their duties and responsibilities.

OCSAR constantly works towards building a strong corporate network to foster greater relation in order to bridge the gap between industry and academia, catering to both BRACU students and alumni.

Procurement Department

The Procurement Department is playing a significant role by collaborating with users, suppliers and other stakeholders to meet day to day demands for goods and services.

Some of its major roles are ensuring that acquisitions are completed in a fair, equitable and transparent manner and procurement practices and processes are in compliance with the BRACU procurement policy.

It also keeps a record of the goods and services that are received in a timely and accurate manner. There is also a store which supports collection and distribution of supplies to all departments, institutes and programs.

Operating since BRACU's inception, the Procurement Department has stepped into its 10th year of successful operations. As BRACU grows, its demand for a robust procurement team also becomes critical to meet current challenges.

With increased complexities and ever-changing market dynamics, the Procurement Department always stays focused on cost effectiveness and meeting demand on time.

An initiative has been taken to deploy a procurement system providing competitive advantage for meeting major challenges and adding more value to BRACU.

The first phase of the construction of BRACU's new campus in Dhaka's Merul Badda has been completed recently. The Procurement Department is proud to have the opportunity to contribute and support the construction and development. Two officers are working with BRAC Head Office Procurement and Construction Department.

The Procurement Department also provides support to the BRAC Institute of Governance and Development and James P Grant School of Public Health. It is also proud to serve the most cited and visionary BRACU projects such as the nanosatellite project, BRAC KUMON Project and CED DRFM-B Project.

The Procurement Department is committed to providing the maximum service. Its policy has also been reviewed to better suit changing needs. A Procurement Software System is also being developed. This achievement has been made possible for the willingness, motivation and leadership of the treasurer. The IT Department is leading the development and execution of the project with the help of BITS. The procurement system is estimated to be functional by the end of 2017.

Relationship Management Office

The Relationship Management Office (RMO) is responsible for delivering a range of communications between BRACU and its stakeholders. It closely interacts with the management, administration, faculty members and BRAC Head Office and is responsible for the tailored communication and presentation of BRACU for certain audiences. It aims to offer support to students throughout their journey and offer relevant information at each stage.

RMO facilitates student development with innovative programs in which students and emerging scholars are mentored to realise their potential and assume roles of leadership, responsibility and service to society.

It continues to be committed to maintaining a campus climate conducive to BRACU's educational mission.

RMO's core responsibilities are:

- Managing the BRACU Information Desk, the central point of contact for all departments. It assists with both local and international prospective student enquiries.
- Managing the BRACU Scholarships/Financial Aids Program. The RMO team supports the BRACU Scholarship Committee by providing data and information for raising funds for scholarships, the application process, selection, supervision of scholarship recipients and donors.
- Arranging engagement of scholarship awardees in productive jobs of BRACU. These on campus employments demonstrate leadership and commitment of students that directly influences the success of the students.
- Arranging Freshman Orientation Programs each semester for new students and parents to ease the transition into new surroundings, as well as in-person advice and support about all issues new students may face.
- Managing BRACU Female Students' Accommodation. RMO prioritises security and the wellbeing of female students while providing them a friendly environment where they can relax and feel at home.
- BRACU has a strong commitment to internationalising its community. RMO assists international students, scholars in immigration matters and adjusting to life in Bangladesh. All new international students and scholars are required to report to this office upon arrival on campus. Immigration and personal safety information sessions for all international students are organised by RMO with the offices concerned.
- Students who are reported to have engaged in behaviour that violates BRACU Student Conduct Procedures are addressed through the student conduct process and encouraged to refrain from again engaging in such behavior by means of a combination of educational, administrative and student conduct interventions.
- RMO manages and works closely with student volunteers who assist in organising a variety of university events and programs.

It commits itself to BRACU's development process and continuously improves upon comments/suggestions made by students maintaining an open-door policy.

Centre for Climate Change and Environmental Research

Goals and Objectives

Since its initiation, BRACU has conducted research on climate change-induced migration, loss and damage, mainstreaming climate change adaptation in national policies, climate change action plan for development sector initiatives, climate change risk assessment, environmental assessment, climate resilient livelihood proposition, water supply and sanitation, legal and institutional framework for climate change adaptation, etc.

This has been in direct collaboration with BRAC; Oxfam, the Center for Environmental and Geographic Information Services (CEGIS), the Institute of Water Modelling (IWM), Nature Conservation Management (NACOM), the University of Dundee, UK; the Institute of Social and Environmental Transition (ISET), India; the Christian Commission for Development in Bangladesh (CCDB), Christian Aid, ActionAid, the Bangladesh Centre for Advanced Studies (BCAS), the International Center for Climate Change and Development (ICCCAD), IUB; the Institute of Water and Flood Management (IWFM), BUET; International Water Association (IWA) and the James P Grant School of Public Health, BRACU (JPGSPH).

C3ER assiduously garnered comprehensive coordination from the BRACU Syndicate and the Board of Trustees for its numerous accomplishments. It helps to create a synergy between BRACU and BRAC in the field of climate change and other environmental issues. Its vision is crafting sustainable and adaptive solutions for society. The mission is to become a leading research and academic institution on environmental and climate change issues, develop and disseminate knowledge on climate change adaptation, mitigation, disaster risk reduction and to build a climate resilient society.

The Team Overview

C3ER acknowledges the multi-disciplinary nature of research on climate change and environment. Therefore, the multi-disciplinary pool of professionals from various disciplines including environmental science, geography, water resource engineering, anthropology, sociology, soil science, civil engineering, disaster management, natural resources management, urban and regional planning, economics and business are the key resources of C3ER.

Apart from that, C3ER brings the multi-disciplinary expertise in disaster management, law, architecture, computation and physical science from different schools of BRACU, which is one of the comparative advantages for conducting multi-disciplinary research. Professor Ainun Nishat is the adviser of C3ER while Roufa Khanum the coordinator.

Centre for Entrepreneurship Development

Overview

The Centre for Entrepreneurship Development (CED) started its journey in April 2011 under BRAC Business School to make a significant contribution in creating an inclusive entrepreneurial ecosystem in Bangladesh. It was established with a view of encouraging Bangladeshi entrepreneurs to immerse themselves in entrepreneurial knowledge and skills so that the entrepreneurs can systematically develop and grow their own businesses. CED works for engaging potential Bangladeshi entrepreneurs in innovative thinking and provides a platform for new and existing enterprises, be it micro, small, or medium, through skills acquisition activities for the development and management of enterprise. Web: http://ced.bracu.ac.bd/

Vision and Mission

CED's mission is to inspire, devise, nurture, develop, and elevate entrepreneurship through innovation, institutional capacity and leadership to unlock the potential of young entrepreneurs in Bangladesh, and to make a visible impact on Bangladeshi entrepreneurs and set them on the path to sustainability.

Achievements

CED is the first of its kind amongst universities in Bangladesh. Within a short period, it has already increased its visibility with various activities within the dynamic entrepreneurial community of Bangladesh. CED has been managing and implementing professional exchange programs for entrepreneurs involving Bangladeshi and US/Australian nationals.

CED hosted a high profile summit jointly with New York University's Stern Business School on the business practices of the Bangladeshi RMG sector. As a part of this, CED successfully completed a pilot project on mapping the ready-made garment factories in Bangladesh titled "Participatory Factor Mapping Research (PFMR): Planning Phase" funded by C&A Foundation.

CED is now working on a four-year-long RMG project titled "Digital RMG Factory Mapping in Bangladesh (DRFM-B)". DRFM-B is aimed at mapping ready-made garment (RMG) factories in Bangladesh. It is the first initiative of its kind, as it will provide a detailed industry-wide database of factories on an interactive, digital map. This new platform will be publicly accessible in order to catalyse transparency and bring about meaningful industry improvements.

CED has completed a sub-project titled "Establishing a Business Incubation Centre for Graduate Students" (CP-3063) under the Higher Education Quality Enhancement Project (HEQEP) undertaken by the Ministry of Education of the Government of Bangladesh, and implementing by the University Grants Commission of Bangladesh (UGC), with the assistance of the World Bank. Under this, CED has established an academia–based Business Incubation Centre (BIC) of BRACU.

Presently, CED is involved with projects comprising capacity development of micro-entrepreneurs, as well as for the students/alumni of BRACU through organising various entrepreneurship development programs like innovation workshops, business plan/idea competitions, boot camps, etc.

CED and International Labour Organization (ILO) also jointly organised a three-day training titled "Generate Your Business Idea" (GYB).

Besides, CED has been actively involved in organising related regular programs like "Entrepreneur Speaks", and "CED Entrepreneurs' Den". In addition, CED is continually involved in bidding for projects that are marked for entrepreneurship development.

Center for Peace and Justice

The Centre for Peace and Justice (CPJ) was established as multi-disciplinary post-graduate institute. Its mission is "to promote global peace and social justice through the means of education and training, research and advocacy" with the vision of "a just, peaceful and inclusive society".

CPJ, through quality education, research, training and advocacy, is committed to identifying and promoting sustainable and inclusive solutions to a wide range of global concerns and issues, including fragility, conflict and violence.

CPJ has a vast experience in the formal legal sector and as well as in the non-formal legal sector. It has a good network with legal empowerment organisations in some South Asian countries, including Bangladesh.

CPJ's focus areas are:

- to promote and support quality multi-disciplinary education at different levels in order to create human capital that promotes and sustains peace & social justice;
- to undertake research on topics related to peace, fragility, violence & social justice in order to generate knowledge and empirical evidence;
- to offer multi-level training & conduct workshops in order to build capacities of practitioners, academicians, researchers and trainers; and
- to advocate reform with relevant stakeholders in key peace & social justice arenas.

Control and Applications Research Centre

Goal and Objectives

The Control & Applications Research Centre (CARC) under the Department of Electrical and Electronic Engineering (EEE) at BRAC University has expertise and activities in an area of systems and control engineering.We emphasis upon the application requirements and exercise established theoretical techniques to provide solutions through technological demonstration. CARC aspiration is to serve Bangladesh as a valuable resource for industry and society through excellence in scientific and technical research.

Achievement

Most of the CARC project involves close collaboration with IEEE Sight USA. Considering the prevailing energy crisis and limitations to provide a complete solution to the energy crisis in Bangladesh, CARC with young and energetic students and members have come up with some effective projects like Torque Sensor based Solar Electric Vehicle, Real Life Monitoring of Solar Battery Charging Station (SBCS), Development of Double Burner Solar Electric Stove, Development of Solar Powered Freezer, Development of Smart Energy Meter for Smart Grid, solar home system evaluation, solar home system component testing lab (approved by IDCOL), solar thermal energy systems and so on. The CARC has successfully conducted and implemented one year long Infrastructure Development Company Limited (IDCOL) funded project on "Solar Assisted Electric Tri-wheeler Vehicles by Incorporating Torque Sensor Technology. The field tests were carried out in Savar in collaboration with BRAC HNPP. Moreover, both IDCOL and CARC are now assessing the scalability of this innovative transport for commercialization in the near future.Furthermore, the CARC has also successfully conducted the IEEE Sight USA funded project on "Torque Sensor Based Electric Wheelchair with Dedicated Solar Charger Kit" in collaboration with the Centre for the Rehabilitation for the Paralysed (CRP). In response to a special invitation by the IEEE Sight USA, CARC director attended IEEE SIGHT Steering Committee meeting held at Newark, New Jersey, USA on 23rd April, 2016. Steering Committee Chair KartikKulkarni, Staff Leader Holly Schneider Brown, Program Co-ordinator Jackie Halliday appreciated the CARG SIGHT (Bangladesh) project on power-rickshaw vans and discussed about its implementation in various parts of the world. According to the meeting, the IEEE SIGHT team will take necessary steps to replicate the R&D product for Uganda SIGHT and hence East Africa. The recent research and development activities achieved enormous appreciations and praiseworthy recognitions, specially the MGA Achievement Award plaque from IEEE Member and Geographic Activities in 2015.

Under the Synergy program between BRAC and BRACU, several departments, centers and institutes are working to serve BRAC. Several projects have been successfully done with BRAC Solar like the solar home system standard qualification testing, performance evaluation of the BRAC Solar PV modules etc.

Ongoing Academic Program

- Supervision of M.Sc. thesis students on CARC research projects
- Serving EGD 101 courses to young engineers: EGD 101 (Introduction to Engineering for Global Development: E4C's new online course prepares newcomers to the practice)
- Supervision of B.Sc. thesis students on CARC research projects.

Faculty overview

The Control & Applications Research Centre is a mix of young, energetic researchers head by the experienced professors of the Dept. of EEE, BRACU and advised by the renowned and senior professors of several fields. Members with high industrial experience act as the external consultant for CARC where they often provide guidance and their highly regarded cooperation that helps the undertaken projects at CARC more practically feasible.

Professional Development Centre

Excellence in teaching is central to BRACU's core mission of imparting high quality liberal arts education. Professional Development Centre (PDC) provides opportunities for faculty to reflect on current knowledge about and practice of effective teaching and learning through dialogue, assessment and research.

PDC's primary responsibility is to help the faculty create a course outline, lesson planning, support ethical workplace initiatives and create a classroom environment conducive to the 21st century.

The PDC offers Certificate in Teaching Strategies for Higher Education programme with the aim to set a global standard for teacher training through innovative, exciting and ethical pedagogy, which has at its heart the principle that learning should be the focus of exploration, not delivery of information.

The PDC also conducts workshops and individual consultations for the faculty members on various topics on, but not limited to, critical reflection, lesson planning, classroom dynamics, cognitive processes, learning outcomes and teaching methodologies.

The faculty members are encouraged to develop and share their experiences and explore creative pedagogic methods and resources to enhance student learning and self-development. The faculty development programmes are aimed at not only campus-wide excellence in teaching of new faculty members but to enhance the leadership opportunities for non-teaching and administrative staff.

Every semester, the PDC hosts a faculty orientation program to introduce new faculty members to the teaching and learning goals at BRACU to provide an early start to successful teaching careers. The technology-enhanced education unit of this centre is committed to transforming BRACU into a centre of excellence in technological innovation, community engagement and teaching practice.
