### BRACU opens advanced research lab

Pharmacy department of BRAC University opened an advanced pharmacy research lab recently. Professor Ainun Nishat, Vice- chancellor of BRACU, inaugurated the laboratory.

Professor Ashik Mosaddik, Chairperson of the pharmacy department, said at the inauguration programme that the research lab will not only give practical facilities to the students but also will provide the faculties with a great opportunity to start advanced researches in chemistry, pharmacology, microbiology and cancer biology.

Prof. Ainun Nishat stressed the need for collaborative researches by the faculties utilising the sophisticated equipment of this advanced lab and other facilities of BRACU.

He also mentioned that the authorities are planning to establish separate premises for pharmacy department so that it can open a new window for higher research.

Prof. A.A.Zia Uddin, Chairperson of Mathematics and Natural Science department, and all faculty members of pharmacy department were present on the occasion.
