

**Identification of Stress Proteins in *Vibrio parahaemolyticus*  
and Detection of their Antigenic Properties**

**A Dissertation Submitted to the Department of Mathematics and Natural  
Sciences, BRAC University in the Partial Fulfilment of the Requirement for  
the Degree of Masters in Biotechnology**

**Department of Mathematics and Natural Sciences  
BRAC University**

# Declaration

I declare that, this thesis entitled, “**Identification of stress proteins in *Vibrio parahaemolyticus* and detection of their antigenic properties**” is the result of my own research under supervision and guidance of Professor Dr. Naiyyum Choudhury, Coordinator, Microbiology and Biotechnology, BRAC University and Dr. Choudhury Rafiqul Ahsan, Professor, Department of Microbiology, University of Dhaka. It is further declared that the research work presented here is original and has not been submitted to any other institution for any degree or diploma.

## ACKNOWLEDGMENT

First and foremost, I wish to express my heartiest gratitude to Almighty who enabled me to carry out this work with enthusiasm and full vigour.

My sincere respect and gratitude goes to my respected supervisor Choudhury Rafiqul Ahsan, Professor, Department of Microbiology, University of Dhaka and Dr. Naiyyum Choudhury, Coordinator, Biotechnology and Microbiology, Department of Mathematics and Natural Sciences, BRAC University for their constant supervision, constructive criticism, expert guidance, enthusiastic encouragement to pursue new ideas and never ending inspiration throughout the entire period of my research work.

I extend my special acknowledgment to Dr. A. A. Ziauddin Ahmad, Chairperson, Department of Mathematics and Natural Sciences, BRAC University.

I would like to extend my sincere appreciations to the respected teachers of Department of Mathematics and Natural Sciences, BRAC University for their valuable advises and inspiration.

I would also like to thank my seniors in the laboratory, Shahina Akhter, Tahsina Zainab and Shashwata Biswas for their assistance and guidance all through my work. I thankfully remember the names of my fellow lab-mates, especially Somen Mistri, Sabikunnahar and Hamida Khatun for their enormous moral support.

I extend my gratitude to all the staffs of the department of Microbiology, University of Dhaka for their support during my research.

Finally, I would like to thank my parents and in-laws, especially my husband and the mothers for their faith, patience and endless support throughout the study.
